PREFACE

This Code constitutes a complete recodification of the Ordinances of the City of Laurel, Mississippi of a general and permanent nature. As expressed in the Adopting Ordinance, The Code supersedes all such ordinances not included herein or recognized as continuing in force by reference thereto.

The chapters of the Code are arranged in alphabetical order and the sections within each chapter are catch lined to facilitate usage. Source materials used in the preparation of the Code were the 1969 City Code as supplemented through October 1, 1971, and Ordinances subsequently adopted by the governing body. The source of each section is included in the history note appearing in parentheses at the end thereof. By use of the Master List appearing in the back of the volume, the reader can locate any section of the 1969 Code and any subsequent Ordinance included herein.

Footnotes which tie related Sections of the Code together and which refer to relevant provisions of the State law have been included.

Numbering System

The numbering system used in this Code is the same system used in many State and local government Codes. Each Section number consists of two (2) component parts separated by a dash, the figure before the dash representing the Chapter number and the figure after the dash indicating the position of the Section within the Chapter. Thus, the first Section of Chapter 1 is numbered 1-1 and the second Section of Chapter 8 is 8-2. Under this system, each Section is identified with its Chapter, and, at the same time, new Sections or even whole Chapters can be inserted in their proper places, simply by using the decimal system for amendments. By way of illustration: If new material consisting of three (3) sections that would logically come between sections 3-16 and 3-17 is desired to be added, such new Sections would be numbered 3-16.1, 3-16.2 and 3-16.3 respectively. New Chapters may be included in the same manner. If the new material is to be included between Chapters 4 and 5, it will be designated as Chapter 4.1. Care should be taken that the alphabetical arrangement of Chapters is maintained when including new Chapters. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the Chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject, the next successive number being assigned to the article or division.

PREFACE

Indices

The indices have been prepared with the greatest of care. Each particular item has been placed under several headings, some of the headings being couched in lay phraseology, others in legal terminology and still others in language generally used by government officials and employees. There are numerous cross-references within the indices themselves which stand as guideposts to direct the user to the particular item in which he is interested.

Loose-leaf Supplements

A special feature of this Code is the loose-leaf system of binding and supplemental service, by which the Code may be kept up-to-date periodically. Upon the final passage of amendatory Ordinances, they will be properly edited and the page or pages affected will be reprinted. These new pages will be distributed to holders of the copies of the Code, with instructions for the manner of inserting the new pages and deleting the obsolete pages. Each such amendment, when incorporated into the Code, may be cited as a part thereof, as provided in Section 6 of the Adopting Ordinance.

The successful maintenance of this Code up-to-date at all times will depend largely upon the holder of the volume. As revised sheets are received it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publishers that all such amendments are inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

CHARTER*

Under the commission form of government, issued by the Secretary of State.

BE IT REMEMBERED-----

That whereas, a proper petition of qualified electors of the City of Laurel, in the County of Jones and State of Mississippi, was duly filed with the Mayor and Board of Alderman of said City, praying that an election be ordered to determine whether or not the City of Laurel aforesaid should adopt a commission form of municipal government as provided in Chapter 108 of the Laws of Mississippi of 1908, which petition was in form as follows, to-wit:

To the Honorable Mayor and Board of Alderman of the City of Laurel, Jones County, Mississippi -----

The undersigned qualified voters of the City of Laurel, Jones County, Mississippi, respectfully petition your honorable body to order an election to be held to determine if the City of Laurel shall be governed by three (3) Commissioners, one (1) of whom shall be Mayor, and each of whom shall be required to devote eight (8) hours per day in the service of the municipality, at a salary of Two Thousand Dollars (\$2,000.00) per year, or One Hundred Sixty-six Dollars and Sixty-six Cents (\$166.66) per month for the Mayor, and a salary of Eighteen Hundred Dollars (\$1,800.00) per year or One Hundred Fifty Dollars (\$150.00) per month for each of the remaining Commissioners. It is proposed to require each of said Commissioners to give bond in the sum of Five Thousand Dollars (\$5,000.00), as required by Section 7 of Chapter 108, Laws of Mississippi, 1908. It is proposed to give the Commissioners authority to appoint such subordinate officers as they may deem necessary.

And whereas, said petition was signed by more than ten (10) percent of the qualified electors of said City of Laurel, and the Mayor and Board of Alderman of the City of Laurel did order an election to determine whether said commission

form of government should be adopted, which said election was duly and legally held in accordance with said order, on Tuesday, December 19th, 1911, and resulted in the adoption by

***Editor's Note** --- The charter of the City was approved on January 6, 1912, following an election to form a commission form of municipal government, and was most recently amended by an ordinance adopted on April 28, 1981. Where a section of the charter has been amended, the amended act or ordinance is cited in the history note immediately following the section. If a section has been superseded, the superseded provision has been omitted; on the other hand, if an amendment did not repeal a similar provision in the charter but added to it, the original provision appears herein, as amended. The catch line above each section has been added by the editor.

the qualified electors of said City of Laurel of the commission form of government for the said City, and the said Mayor and Board of Aldermen of said City did declare the result of said election and the adoption of said Commission form of government, and

WHEREAS, the Clerk of the said City of Laurel has duly and properly certified to me the result of said election as set forth and declared by Resolution of the said Mayor and Board of Alderman as the law directs;

NOW, THEREFORE, I, Joseph W. Power, Secretary of State of the State of Mississippi, by virtue of the authority and requirements of the said Chapter 108 of the Laws of 1908, do hereby issue this charter of the City of Laurel, signed by the governor, to put into effect the commission form of government under the terms and provisions of the said Chapter 108 of the Laws of 1908 and as set forth in the said petition, election and resolution aforesaid, to-wit:

Section 1. Form of Government.

The City of Laurel, County of Jones and State of Mississippi, having elected to adopt the commission form of government as provided for by Chapter 108, Laws of Mississippi 1908, is hereby authorized and empowered to establish the said commission form of government under the terms and provisions of this Charter and the conditions and requirements of the said Chapter 108, Laws of 1908.

State law reference --- Commission form of government, Miss. Code 1972, §21-5-1 et seq.; commission form laws of 1908 are not repealed, §21-5-23.

Editor's Note --- It should be noted that the City, by Ordinance No. 1037-1985, adopted February 26, 1985, has changed from the "commission" to the "mayor-council" form of government. Section 1 of said Ordinance provided: "Section 1. That pursuant to Order dated January 7, 1985 of the United States District Court for the Southern District of Mississippi, in a suit styled 'Marzell Clayton, et al, in the United States of America versus the City of Laurel; Civil Action No. H82-0202(R) in said Court, and approval having been obtained from the United States Department of Justice by letter dated February 8, 1985, the City of Laurel will operate under and be governed by the mayor-council form of government as authorized by Sections 21-8-1 through 21-8-47 and other applicable sections of the Mississippi Code of 1972, as amended."

CHARTER

Section 2. Commissioners---Election; Service; Salary; Bond.

That the governing body of the City of Laurel, Mississippi, as now provided by law shall consist of three (3) Commissioners elected from the Municipality at large without regard to ward lines and in accordance with the provision of Chapter 22 of the Laws of Mississippi of 1932, as amended by Chapter 286 of the Laws of Mississippi of 1940, one (1) of whom shall as now provided by law be voted for and elected as Mayor. The Mayor Commissioner and the said Commissioners shall each be required to devote during each day, not less than eight (8) hours to the discharge of his duty as such in the service of the City of Laurel, Mississippi, and the salary of the said Mayor and each of the said Commissioners shall be follows, to-wit: The salary of the Mayor Commissioner shall be Twenty-five Thousand Dollars (\$25,000.00) per annum payable in semi-monthly installments of One Thousand Forty-one Dollars and Sixty-six Cents (\$1,041.66) each; the salary of each of the Commissioners shall be Twenty-three Thousand Dollars (\$23,000.00) per annum, payable in semi-monthly installments of Nine Hundred Fifty-eight Dollars and Thirty-three Cents (\$958.33) each; that the said Commissioners and each of them shall be required to enter into bond as required by law before entering upon the discharge of their respective duties. The said bonds may be executed by legal surety companies and shall be in the sum of Five Thousand Dollars (\$5,000.00) each conditioned according to the law. All premiums on such bonds shall be paid by the municipality and said bonds shall be conditioned for the faithful discharge of all duties as Commissioners and against malfeasance of office. The bonds shall be filed with an accepted by the Governor; show shall immediately after acceptance issue a commission to each of the Commissioners.

Section 3. Same---Powers Generally.

All the powers and duties, rights and privileges heretofore conferred upon and vested in the Mayor and Board of Aldermen of the City of Laurel, and of all municipal officers elected by the City of Laurel, or elected or appointed by the Mayor and Board of Aldermen of the said City, shall be and are hereby declared to be, vested in and conferred upon the said Commissioners provided for in Section 1 of this Charter, subject to such provisions and restrictions as may be herein contained, or as may be otherwise provided for by law, and in such officers, clerks, or subordinates as may be elected or appointed by the said Commissioners. And full power and authority is hereby conferred upon said Commissioners to appoint or elect all such subordinate officers and employees as may be deemed necessary by said Commissioners to properly conduct the municipal affairs of the City of Laurel. The said Commissioners are also hereby empowered to prescribe the duties and fix the salaries of all such subordinate officers and employees of

CHARTER

said City, provided that the same shall be just and in proportion to the time required and the service rendered, and the Commissioners shall have the right to discharge any such subordinate officer or employee for good cause, and to fill the vacancy by appointment, and to abolish all appointive offices or appointments, except that of School Trustee; or they may consolidate any two (2) of such offices or employment's when in their judgment the same may be necessary.

State Law References --- Officers and records, Miss. Code 1972, §21-15-1 et seq.; municipal powers generally, Miss. Code 1972, Title 21, Ch. 7 et seq.

Section 4. Bonds of Officers and Employees.

All subordinate officers and employees shall give bond to the municipality in such sums as may be required by the Commissioners, which bonds shall be in accordance with the duties and responsibilities of the office or employment. If said bonds are given in surety bond companies, the premium shall be paid by the municipality.

State Law Reference --- Bond of municipal officers, Miss. Code 1972, §21-15-3.

Section 5. Administration; Meetings of Commissioners.

Immediately after entering upon the discharge of their duties, the said Commissioners shall meet and formulate a plan of government for the said City of Laurel, and shall divide the duties of the municipal government into departments with one (1) of the Commissioners at the head of each, and the Commissioners shall hold regular meetings at least once in each week to confer and decide upon matters pertaining to their respective departments; to adopt and put into effect all necessary Ordinances and to transact such other business as may come before them. The Commissioners shall hold a regular meeting on the first Tuesday in each month at which the Minutes of the previous month's meeting shall be read, adopted and approved and at which the reports of all officers and employees shall be read and acted upon. All accounts and bills for work and labor and supplies shall be audited, and if found correct, shall be audited and allowed. The Commissioner designated as Mayor shall preside at all meetings of the Commissioners, and in case of a tie on any question the Mayor shall cast the deciding vote. At all regular monthly meetings of the Commissioners, the public shall be allowed to attend and to be heard on any petition or matter they may desire to bring before the Commissioners; and the public or any citizen who may be interested, shall be allowed to be present at any regular weekly meeting of the Commissioners at which Ordinances may be adopted, or any public matter finally determined and acted upon. The Commissioners shall have the power to require the attendance of any officer or employee of the municipality at any monthly meeting if they so desire, and every officer elected by the municipality shall be and is hereby required to attend all regular monthly meetings of the Commissioners, unless excused by the Mayor for good cause.

State Law Reference --- Open meetings, Miss. Code 1972, §25-41-1, et seq.

Section 6. General Law Functions of Commissioners.

The three (3) Commissioners provided for by this Charter shall in their collective capacity be vested with all the powers and duties conferred by Chapter 99 of the Code of Mississippi of 1908, and all amendments thereto, heretofore or hereafter enacted, upon and in the Mayor and Board of Aldermen, and shall jointly exercise and perform such powers and duties equally and coordinately, but each Commissioners shall supervise and control such of the departments of the municipality provided for in Section 5 of this Charter, as may be assigned to him, subject to the ratification or revocation of the joint body. And the Mayor shall exercise the authority and discharge the duties defined in said Chapter 99 of the Code of 1908, and amendments thereto as aforesaid, except as the same may be inconsistent with or in conflict with the provisions of this Charter, and except as the same may conflict with the rights, powers and duties conferred upon and assigned to the other Commissioners, or vested in the said three (3) Commissioners as a body.

State Law reference --- Duties of Mayor, Miss. Code of 1972, §21-15-7 et seq.

Section 7. Malfeasance in Office.

If any subordinate officer or School Trustee, or any Commissioner, other than the Mayor, shall fail or refuse or neglect to discharge any of the duties of his office, or be guilty of malfeasance in office, and the same is reported to the Mayor, by petition of ten (10) or more qualified electors, it shall be the duty of the Mayor at once to order an investigation and trial of said officer, Trustee or Commissioner, and to remove for good cause, such official or officials from office.

Section 8. Location of Offices and Records.

All offices and all records of the municipality shall be kept in the City Hall or such place or places as shall be provided for by law.

State Law References --- City commission has an office in City Hall, Miss Code 1972, §21-5-17; records kept by Municipal Clerk, §§21-15-17, 21-15-19.

Section 9. Franchise.

No grant of a municipal franchise shall be made by the said Commissioners until the same shall be ratified and approved by a majority of the qualified electors of the said City of Laurel, voting in an election called for that purpose; and if such franchise be not approved or voted for by a majority of the qualified electors voting in said election, the said franchise shall not again be submitted to an election in less than six (6) months from the date of the election.

CHARTER

Section 10. Amendments.

This Charter may be amended as to the number of Commissioners, the time required of each, the amount of salary paid to each, and the bond required of each, and also to the subordinate officers by an election to be held of the purpose at least three (3) months before the regular election for municipal officers. In any such election held for the purpose of amending this Charter, if such proposed amendment shall receive a majority of the votes cast, the City Clerk of the City shall certify a copy of the amendment with the result of the election of the Governor, who shall thereupon issue his proclamation authorizing the said amendment.

Section 11. Change of Government.

In the event the City of Laurel shall at any time desire to abolish this Charter and re-establish the municipal form of government as provided by Chapter 99, Code of 1908, it may do so with consent of a majority of the qualified electors voting at an election to be held for that purpose, and to be called on petition of ten percent (10%) of the qualified electors and conducted in the same manner as provided for the adoption of the Commission Form of Government. If such election shall result in favor of the proposed change of government, the City Clerk shall forward to the Governor a certified copy of the order for the election, and a certified copy of the election returns, and if found to be correct, the Governor shall issue his proclamation authorizing the proposed change of Government.

State Law Reference --- Codification of Ordinances, Miss. Code 1972, §21-13-15.

Section 1-2. Rules of Construction.

In the construction of this Code the following rules shall be observed unless such construction would be inconsistent with the manifest intent of the provisions:

Generally. All words and phrases shall be construed and understood according to the common and approved usage of the language, but technical and phrases and such others as may have acquired a peculiar and appropriate meaning in the law shall be construed and understood according to such peculiar and appropriate meaning.

Acts by agents. When any provision of this Code requires an act to be done which may be law as well be done by an agent as by the principal such requirement shall be construed to include all such acts when done by an authorized agent.

City. The words “*the City*” or “*this City*” shall be construed as if the words “*of Laurel*” followed the word “*City*,” and shall extend to and include its several officers, agents and employees.

City Commission. Wherever the term “*City Commission*” appears in this Code, said term “*City Commission*” shall be construed to mean the Mayor-Council of the City of Laurel, as provided by Ordinance No. 1037-1985, adopted February 26, 1985.

County. The words “*the County*” or “*this County*” shall mean Jones County, Mississippi.

Owner. The word “*owner*,” applied to a building or land, shall include any part owner,

CODE

joint owner, tenant in common, tenant in partnership, joint tenant or tenant by the entirety of the whole or of part of such building or land.

Person. The word “*person*” shall extend and be applied to firms, corporations, institutions, co-partnerships and associations, as well as to individuals, unless plainly inapplicable.

Personal property. The term “*personal property*” shall include goods, chattels, effects, evidences of rights of action and all written instruments by which any pecuniary obligation, or any right, title, or interest in any real or personal estate, shall be created, acknowledged, transferred, incurred, defeated, discharged or diminished.

Reasonable time. In all cases where any provisions shall require any act to be done in a reasonable time or reasonable notice to be given, such reasonable time or notice shall be deemed to mean such time as only as may be necessary for the prompt performance of such duty, or compliance with such notice.

Shall. “*Shall*” is always mandatory and not directory.

Shall have been. The words “*shall have been*” include past and future cases.

State. The words “*the State*” or “*this State*” shall mean the State of Mississippi.

Tenses. The use of any word in the present tense shall include the future when applicable.

Time, how computed. When process shall be required to be served or notice given any number of days, the day of serving the process or of giving the notice shall be excluded and the day of appearance included; and in all other cases when any number of days shall be prescribed, one day shall be excluded and the other included. When the last day falls on Sunday, it shall be excluded; but in other cases Sunday shall be reckoned in the computation of time.

Week. The word “*week*” shall be construed to mean seven (7) days.

CODE

Section 1-9. Certain Ordinances Not Affected by Code.

Nothing in this Code or the Ordinance adopting this Code shall be construed to repeal or otherwise affect the validity of any of the following:

- (1) Any offense or act committed or done or any penalty or forfeiture incurred or any contract or right established or accruing before the effective date of this Code.
- (2) Any Ordinance promising or guaranteeing the payment of money for the City or authorizing the issuance of any bonds for the City or any evidence of the City's indebtedness, or any contract or obligation assumed by the City.
- (3) Any Ordinance consistent with this Code prescribing traffic regulations for specific locations, prescribing through streets, parking limitations, parking prohibitions, one-way traffic or limitations on loads of vehicles or loading zones.
- (4) Any Ordinance consistent with this Code fixing salaries of officers or employees of the City.
- (5) Any appropriation Ordinance.
- (6) Any right or franchise granted by any Ordinance or Resolution to any person.
- (7) Any Ordinance dedicating, naming, establishing, locating, relocating, opening, closing, paving, widening or vacating any street or public way in the City.
- (8) Any Ordinance establishing and prescribing the street grades of any street in the City.
- (9) Any Ordinance providing for local improvements or assessing taxes thereof
- (10) Any Ordinance dedicating or accepting any plat or subdivision in the City or providing regulations for the same.
- (11) Any Ordinance establishing or changing the boundary of the City.
- (12) Any Ordinance regulating zoning or subdivisions in the City.
- (13) Any rates, fees or charges consistent with this Code.

All such Ordinances are hereby recognized as continuing in full force and effect to the same extent as if set out at length in this Code.

Section 1-10. Altering Code.

No person in the City shall change or amend, by additions or deletions, any part or portion of this Code, insert or delete pages or portions thereof, or alter or tamper with such Code in any manner whatsoever which will cause the law of the City to be misrepresented thereby.

Section 1-11. Amendments.

- (a) All Ordinances passed subsequent to this Code which amend, repeal or in any way affect any Section or subsection of this Code shall be numbered consecutively, but shall refer specifically to the Section or subsection affected, and shall be printed for inclusion therein. When subsequent Ordinances repeal any Chapter, Section or subsection or any portion thereof, such repealed portions shall be excluded from the Code by omission from reprinted pages. The subsequent Ordinances, as numbered and printed, or omitted in the cause of repeal, shall be prima facie evidence of such subsequent Ordinances until such time as this Code and subsequent Ordinances numbered or omitted are readopted as a new Code by the City Council
- (b) Amendments to any of the provisions of this Code shall be made by amending such provisions by specific references to Section number of this Code in the following language: “That Section _____ of the Laurel Code is hereby amended to read as follows: . . .” The new provisions shall then be set out in full.
- (c) In the event a new Section not heretofore existing in the Code is to be added, the following language shall be used: “that the Laurel Code is hereby amended by adding a new section to be numbered Section _____, which said section shall read as follows: . . .” The new Section shall then be set out in full.
- (d) All Sections, Articles, Chapters or provisions desired to be repealed shall be specifically repealed by Section, Article or Chapter number in the following language: “That Section (Chapter or Article) _____ of the Laurel Code is hereby repealed.”

Section 1-12. Supplementation of Code.

- (a) By contract or by City personnel, supplements to this Code shall be prepared and printed whenever authorized or directed by the City Council. A supplement to the Code shall include all substantive permanent and general parts of Ordinances passed by the City Council or adopted by initiative and referendum during the period covered by the supplement and all changes made thereby in the Code. The pages of a supplement shall be so numbered that they will fit properly into the Code and will, where necessary, replace pages which have become obsolete or partially obsolete, and the new pages shall be so prepared that, when they have been inserted, the Code will be current through the date of the adoption of the latest Ordinance included in the supplement.
- (b) In preparing a supplement to this Code, all portions of the Code which have been repealed shall be excluded from the Code by the omission thereof from reprinted

pages.

Section 1-13. Effect of Repeal of Ordinances.

- (a) When any Ordinance repealing a former Ordinance, clause or provision of this Code shall be itself repealed, such repeal shall not be construed to revive such former Ordinance, clause or provision of this Code, unless it shall be expressly so provided.
- (b) The repeal of an Ordinance, clause or Section of this Code shall not affect any punishment or penalty incurred before the repeal took effect, nor any suit, prosecution or proceeding pending at the time of the repeal, for an offense committed under the Ordinance, clause or Section of this Code repealed.

DIVISION 2. COUNCIL PROCEDURES

Section 2-18. Placement of Matters to be Considered on Agenda.

No matter may be considered by the Council for Council action at regular or recessed regular meeting unless it has been placed on the official agenda as prescribed herein.

Source: Ordinance No. 1049-1985, Art. I, § 1, 7-9-85

Section 2-19. Adoption of Rules of Order.

The proceedings of the Council shall be governed by *Robert's Rules of Order*, latest edition.

Source: Ordinance No. 1049-1985, Art. I, § 2, 7-9-85

Section 2-20. Arrangement.

The agenda as presented by the President of the Council shall be arranged as follows:

- (1) *The agenda order.* The confirmation of the agenda order is the first matter on the agenda and shall constitute the only period during which the agenda order may be adjusted. Any member of Council may move to adjust the agenda order. To change the order, this motion must receive a unanimous vote of the Council present and voting. The Mayor or Council President may request the Council to add an item to the agenda that is essential for the administration of City government provided that the need for action on the matter arises after the 12:00 noon Friday deadline or that conditions beyond their control made it impossible to meet the deadline requirements.
- (2) *Presentation agenda.* The presentation agenda shall be considered second and shall consist of all routine and non-routine presentations and reports, proclamations, certificates, awards and other like items to be presented to or by the Council or the Mayor but not requiring Council action. Whenever possible, all presentation agenda items will be scheduled for the Council's regular monthly meeting.
- (3) *Public agenda.*
 - a. Citizens hearing. Any citizen of the City of Laurel may be placed on the agenda for the purpose of bringing a matter before the Council, provided that the citizen submit a written and signed request to the Council Clerk or Council President, including name, physical city address and phone number, and describe the nature of his or her request. Presentation of citizens' requests shall be limited to fifteen (15) minutes each. The Council President shall have the discretion of determining of such request shall be considered at the City Council meeting. The President's decision on consideration of the request, whether negative or affirmative, may be

CODE

overridden by a majority vote of the Council. On certain occasions it may be necessary to allow comments from individuals who are not residents of the City of Laurel. The President shall have the discretion of allowing or disallowing these comments and the President's decision may be overridden by a majority of the Council. The citizen shall be informed no later than 5:00 p.m. on the Friday preceding the Council meeting, if the request has been approved or denied and the for denial. Any action desired as a result of such citizen hearing must subsequently be introduced by a Council member or the Mayor as otherwise provided herein. Whenever possible, all public agenda items will be scheduled for the Council's regular monthly meeting.

- b. Citizens forum. Thirty (30) minutes shall be allotted at each Council meeting for input from citizens of the City of Laurel. Comments from citizens shall be limited to five (5) minutes individually. Each citizen must identify himself or herself by name and place of residence. On certain occasions it may be necessary to allow comments from individuals who are not residents of the City of Laurel. The President shall have the discretion of allowing or disallowing these comments and the President's decision may be overridden by a majority of the Council. The Council shall not take official actions on any new item presented during the citizen input portion of the agenda but may recommend that a matter discussed during the session be placed on a future agenda for future official deliberation and action.
- c. Demeanor. During both the Citizens Hearing and Citizens Forum, there shall be no verbal exchange between Council and citizens. All remarks shall be addressed to the Council as a body and not to any member thereof, or any other individual. No person shall make personal, impertinent, profane, or slanderous remarks; make threats of physical violence; engage in violent or disruptive behavior; speak on issues other than those pertaining to City business or concerns; refuse to obey the order of the Council's president officer; nor otherwise disturb the order and decorum of any Council meeting. The Council President may summon the proper authorities to have removed any person violating the provisions of this section.

Source: Ordinance No. 1364-2000, Ch. 2, Div. 2, §2-20(3), 3-7-00

- (4) *The policy issues agenda*. The agenda of policy issues shall be considered fourth and shall consist of all Ordinances, Resolutions and other matters of business determined by the Council President or the Mayor upon submission to constitute a major policy item. The initial order of policy issues within this part of the agenda shall be set by the President of the Council.
- (5) *The routine agenda*. The agenda of routine items shall be considered fifth and shall

CODE

consist of all routine and administrative matters for which the policy already exists, and all other matters determined by the Council President or the Mayor upon submission to be non-policy related matters. All matters to be considered on the routine agenda shall nevertheless be listed separately on the routine agenda by title. Any Council member may move to have any item on the routine agenda considered by separate and independently debated action as prescribed in subsection (1) of this Section. Passage of the motion for such separate action shall require a majority vote of the Council present and voting. All matters on the routine agenda shall be adopted in one action of the Council except those removed for separate action. Any Council member may register a dissenting or abstaining vote on one (1) or more of the items on the approved routine agenda by announcing to the Clerk of the Council at the time the vote is taken on the routine agenda that he or she wishes his or her vote to be recorded on a specific item or items on the routine agenda.

- (6) *The study agenda.* The study agenda shall consist of all motions and study of drafts of legislation submitted to the President of the Council or for any information requested from the Administration to formulate proposed legislation. The study agenda will be presented at the first available council meeting be it an agenda meeting, a regularly scheduled council meeting or an emergency meeting. Information motions will show: (1) the information requested (2) it's degree of availability (3) any legal confidentiality requirements (4) the purpose of the information (5) how the information will be used and (6) the councilman requesting such information.

Section 2-21. Responsibility and Authority of Council President and Mayor; Finalizing of Agenda.

The Council President shall be responsible for determining the initial order of each part of the agenda (each sub-agenda) for each meeting. All matters to be placed on the agenda by any member of the City Council shall be authorized by the President of the Council as provided herein. The Council President shall be required to place all matters presented by a Council member as prescribed herein on the agenda at the earliest possible opportunity for Council action; but not later than two (2) regular scheduled meetings of the Council or one (1) regular scheduled meeting and one (1) recessed meeting of the Council, whichever is earlier. All matters to be placed on the agenda by any member of the executive branch of government shall be authorized by the Mayor as prescribed herein. The Council President and Mayor shall finalize the agenda for submission to the Clerk of Council no later than 2:00 p.m. on the Friday immediately prior to the next regular or recessed Council meeting.

Section 2-27. Ordinance Adoption Procedure.

Except as hereinafter provided, a first and second vote shall be required for the adoption of all ordinances. A minimum of six (6) calendar days shall separate the first and second vote. A second vote shall not be required for the adoption of any ordinance if such ordinance was the subject of a previously held and properly noticed public hearing. All amendments to proposed ordinances must be introduced prior to the meeting for the second vote. After the amendments to the ordinance, the ordinance shall be placed for action for final disposition at that meeting.

In addition to complying with the requirements of Chapter 13 of Title 21, Mississippi Code of 1972, all Ordinances introduced for final adoption by the City Council shall not require the complete reading of an Ordinance by the Council Clerk or Deputy Clerk at a regular meeting, prior to a vote being taken on the passage of the Ordinance, unless requested by one or more members of the governing authority pursuant to Section 21-13-3, MS Code of 1972.

As used in this Section, the term *Ordinance* shall include only those matters required to be entered on the City of Laurel Ordinance Book pursuant to §21-13-13, Mississippi Code of 1972.

Section 2-28. Emergency Matters.

Upon recommendation by the Mayor or upon motion duly adopted by the City Council by a two-thirds (2/3's) majority of members present and voting, emergency matters not appearing on the regular agenda in the manner provided herein may be considered by the Council at any regular or recessed meeting.

Emergency matters shall constitute those matters which threaten the immediate safety and well-being of citizens of the community and/or employees of the City, would potentially disrupt the delivery of essential services, would result in substantial, increased cost of operations of City government or increased cost in the purchase of necessary items for the administration of

CODE

City government or would, if delayed, result in the loss of an opportunity for significant economic development in the City.

Section 2-29. Special Meetings Exempt from Article Requirements.

Special called meetings shall not be subject to this article in any way, and Ordinances or amendments to Ordinances considered at such special meetings shall not be subject to the requirements of Section 2-38 of this article.

Special meetings of the Council may be called at any time by the Mayor or a majority of the members of the Council. A notice of such meetings shall be reduced to writing and posted in a public place in City Hall. Such notice shall include the time, place and general subject matter of such meetings.

Members of the Council shall be notified in the most expedient manner available, whether in writing or not, provided however, that where possible the Clerk shall give Council members forty-eight (48) hours' notice of such meeting. The forty-eight (48) hour notice may be waived by the Council when the Council deems that an adequate notice has been given and when a quorum is present at the special meeting.

Article VI. MAINTAINING FIXED ASSETS RECORDS

Sec. 2-101. Conformity to State Law.

The City of Laurel shall maintain a record of Fixed Assets in accordance with the applicable law of the State from time to time made and promulgated and specified in the Property Accounting System of the *Mississippi Municipal Audit and Accounting Guide*

Sec. 2-102. Fixed Assets Defined

Fixed Assets are those assets of a long-term nature intended to be held or used by the municipality. Real and personal property belonging to the municipality must be accounted for in the Fixed Assets records.

Sec. 2-103. Fixed Assets to Be Recorded

- A. All municipalities are required to have and maintain a complete and current inventory list of each property item with a cost to the municipality of \$500 or more.
- B. Some equipment should be included on the inventory list, regardless of price paid by the municipality including but not limited to weapons, audio visual equipment, power tools, refrigerators, televisions, lawn maintenance machinery, chain saws, air compressors, welders, generators, and similar type items.
- C. All items purchased having a useful life expectancy of more than one year shall be tagged and included on the Fixed Asset report regardless of acquisition price
- D. All items purchased from City of Laurel Disbursements for Capital Outlay (.900 - .949) accounts shall be included on the Fixed Asset report. These items are considered Capital Assets which are major assets that benefit more than a single fiscal period.

Sec. 2-104. Fixed Assets Record Maintenance

- A. Each Fixed Asset will be assigned a unique inventory control number by the City Clerk/Finance Office.
 - 1. It shall be the responsibility of the department to submit proper paperwork to the City Clerk/Finance office when any fixed asset as listed in §2-103 is acquired
 - 2. The department head shall be responsible for making sure that all required items are tagged upon receiving control number.
- B. Discarded Items must be removed from inventory
 - 1. All deleted/disposed items, regardless of method, shall be entered on the minutes of the governing council.
 - 2. It shall be the responsibility of the department head to report to the City Clerk/Finance Department any item that is discarded or deleted from his/her department's inventory.
- C. At the end of each fiscal year, a thorough inventory of all fixed assets owned by the City of Laurel shall be made. The City Clerk will also check each department inventory periodically throughout the fiscal year.

Art. IV. Alcoholic Beverages in Public Places, §§ 3-67 --- 3-69

ARTICLE I. IN GENERAL

Section 3-1. Definitions.

When used in this Chapter, the following terms shall have the following respective meanings:

- (a) ***Alcohol*** and ***Alcoholic Beverages*** shall have the definition given such terms by §67-1-5 (a) and (b), Mississippi Code of 1972 as now in effect or as may hereafter be amended.
- (b) ***Licensed premises*** shall mean the land, grounds and buildings used by any person, firm, corporation, or other entity in the operation of any business for which they hold a privilege license issued by the City of Laurel, Mississippi, for the purpose of retail sales of beer and/or light wine.
- (c) ***Licensee*** shall mean any person, firm or corporation or other entity who has been issued a license or permit by the State of Mississippi and/or the City of Laurel, Mississippi, which authorizes or permits the sale of alcoholic beverages or beer for retail sales or on premises consumption, or the agents, servants, and employees of such firm, corporation or other entity.
- (d) ***Open container*** shall mean the container of an alcoholic beverage, beer or light wine which has been opened so as to allow its contents to be consumed and shall include any container on which the seal has been broken, and to which a person has immediate access to and control over, even though the container may be

- (e) **Public area** is any property situated within the City of Laurel, Mississippi, open to the public, which is maintained for use for vehicular traffic, parking motor vehicles, public parks, playgrounds, public buildings, schools, or for pedestrian travel, including but not limited to streets, sidewalks, parking lots, bays and parking areas on public streets.
- (f) **Restaurants** shall mean places which are regularly and in a bonafide manner used and kept open for the serving of meals to guests for compensation, which have suitable seating facilities for guests, and which have suitable kitchen facilities connected therewith for cooking an assortment of foods and meals commonly ordered at various hours of the day; the service of such food as sandwiches and salads only shall not be deemed in compliance with this requirement. No place shall qualify as a restaurant under this Section unless fifty percent (50%) or more of the revenue derived from such place shall be from the preparation, cooking, and serving of meals and not from the sale of beverages.
- (h)* The word **club** shall mean an association or corporation that is:
 - (1) Organized not primarily for pecuniary profit but for the promotion of some objective other than the sale or consumption of alcoholic beverages;
 - (2) Maintained by its members through the payment of annual dues;
 - (3) Owning, hiring or leasing a building or space in a suitable and adequate for the reasonable and comfortable use and accommodation of its members and their guests;
 - (4) Managed by a board of directors, board of governors, executive committee, or similar governing body chosen by the members at a regular meeting held at some periodic interval, provided however no member, officer, agent or employee may be paid, or directly or indirectly receive, in the form of a salary or other compensation, any profit from the distribution or sale of alcoholic beverages to the club or to members or guests of the club beyond such salary or compensation as may be fixed and approved by the board of directors or other governing body out of the general revenues of the club.

*Ordinance No. 1203-1993, Section 3-1, ended with (f). Ordinance No. 1282-1996, Section 3-1, commenced with (h); therefore, deleting (g) from the Code.

CODE

In order to qualify under this paragraph, a club must complete and file with the City Clerk its application for a license under this chapter and make available upon a request by the City Clerk a copy of a list of the names and addresses of its current members, a copy of its articles of association, charter of incorporation, by-laws or other instruments governing the business and affairs thereof.

- (i) The word *hotel* shall mean an establishment within the municipality where, in consideration of payment, food and lodging are habitually furnished to travelers and wherein are located at least fifty (50) adequately furnished and completely separate sleeping rooms with adequate facilities that persons usually apply for and receive as overnight accommodations.
- (j) The words *bed and breakfast inn* shall mean an establishment within the municipality where, in consideration of payment, breakfast and lodging are habitually furnished to travelers and wherein are located not less than four (4) and no more than nineteen (19) adequately furnished and completely separate sleeping rooms with adequate facilities, that persons usually apply for and received as overnight accommodations; however, such restriction on the minimum number of sleeping rooms shall not apply to establishments on the National Register of Historic Places. No place shall qualify as a bed and breakfast inn under this chapter unless on the date of the initial application for a license under this chapter more than fifty percent (50%) of the sleeping rooms are located in a structure formerly used as a residence.

Section 3-38. Suspension or Revocation of License.

- (a) The City Court shall suspend or revoke in the event any license issued pursuant to this Chapter in the event that the licensee as defined herein shall be convicted of a violation of any provision of this Chapter after due notice and hearing as follows:
 - (1) A suspension of ninety (90) days upon the first conviction.
 - (2) A suspension of one hundred eight (180) days upon a second conviction within three (3) years.
 - (3) Permanent revocation upon a third conviction within three (3) years.
- (b) The City Court shall be authorized to revoke or suspend any license issued pursuant to this Chapter in the event it is determined that the holder of the license no longer meets the qualifications set forth in Section 3-33, after giving such person at least ten (10) days' notice of a hearing by the Court to consider the revocation or suspension of such permit and reasons therefore.
- (c) The City Court shall automatically suspend any license issued pursuant to this Chapter in the event the licensed premises shall be found to be in violation of any zoning code, building code, fire code, gas code, electrical code or mechanical code of the City of Laurel. If the violations are not corrected within thirty (30) days, the Court shall be authorized to revoke the permit theretofore issued to such person. The Building Inspector or other official of the City of Laurel must give to such person fifteen (15) days' notice of the intention to revoke such permit and notify the license holder of the date, time, and place of a hearing to be held before the City Court. The Court may, however, suspend such permit instead of revoking same if:
 - (1) The licensee shows sufficient cause for his/her failure to repair the violations within thirty (30) days;
 - (2) The licensee presents evidence that he/she has taken significant steps towards correcting the violation; and,
 - (3) The licensee presents an estimate of when the repairs to the premises will be completed.

CODE

- (d) The City Council shall have the right to suspend or revoke any license issued pursuant to this Chapter upon a finding by the Council that the licensed premises are operated or maintained in such a manner as to constitute a public nuisance. Prior to such revocation or suspension, the holder of the license shall be given written notice by the Chief of Police of the conditions alleged to constitute a public nuisance, and the date, time and place of a hearing to be held before the City Council to show cause why the license should not be revoked or suspended. Such notice shall be mailed or delivered to the license holder at least fifteen (15) days prior to the date of the hearing.

ARTICLE V. LEISURE AND RECREATION DISTRICT

Section 3-70. Creation and designation of Leisure and Recreation District.

- (a) In response to a request by the Laurel Main Street Association, the City requested inclusion in the legislation enacted by the State that allowed certain cities to have a Leisure and Recreation District. The State subsequently added the City of Laurel to that legislation, whereupon the Laurel Main Street Association requested that the City adopt a Leisure and Recreation District for the Downtown area.
- (b) Pursuant to the authority granted in Section 1 of Senate Bill 2612, 2017 Regular Session Of the Mississippi Legislature, there is hereby created a “Leisure and Recreation District (District)”, within the corporate limits of the City of Laurel.
- (c) The previously mentioned District shall be known as the “Downtown Social District” and shall be further defined by a line running as follows:

Beginning at the intersection of 5th Street and 6th Avenue and running Easterly along 5th Street/Sawmill Road to the Intersection of Spec Wilson Boulevard, thence running Southwesterly along Spec Wilson Boulevard to the intersection of Carroll Gartin Boulevard, thence running Northwesterly along Carroll Gartin Boulevard to the 400 Block of Short 7th Avenue, then running Northerly along the 400 Block of Short 7th Avenue to the intersection of Sawmill Road, then running Easterly along Sawmill Road to the intersection of 6th Avenue, thence running Northerly along 6th Avenue to the Point of Beginning.

- (d) The newly created District is geographically represented by the map, a copy of which is attached hereto as Exhibit A.
- (e) Any on premises retail alcoholic beverage permittee (hereinafter “permittee”) located within the above-described District shall comply with all laws, rules and regulations, which govern its license type, except that a patron, guest or member of the licensee may remove an open container of alcoholic beverage and wine from the licensed premises and may possess and consume the alcoholic beverage and wine outside of a licensed premises anywhere within the boundaries of the District subject to the following regulations”
 - (1) A person may not enter a licensed premises with an alcoholic beverage, whether acquired at that licensed premises, or elsewhere.

CODE

- (2) A permittee located in the District shall allow alcoholic beverages to be removed from the licensed premises only in a paper or plastic cup, not larger than 16 fluid ounces in size, and no such alcoholic shall be removed from the licensed premises in a can, bottle, glass container or other container, except as otherwise allowed by law.
- (3) No permittee shall allow a patron, guest or member to exit its licensed premises with more than one open container of alcoholic beverages, and it shall be unlawful for any person to exit such licensed premises with more than one open container of alcoholic beverages.
- (4) Permittees located in the District shall post, at all points of egress from the licensed Premises, a map of the boundaries of the District in which it is located. This map shall be provided, either in electronic or paper form, to the permittees by the City upon request of the permittees. The map is available upon request.
- (5) Nothing in this ordinance shall be construed to require a permittee located in the District to allow its patrons to remove alcoholic beverages or wine, in open containers, from the licensed premises.
- (6) Enforcement of the boundaries of the District shall be the responsibility of the Laurel Police Department. In addition, the Police and Fire Departments shall provide public safety services within the District in the same manner as provided in the remainder of the City.
- (7) For purposes of this ordinance, the term “alcoholic beverages” shall mean any alcoholic liquid, including wines of more than five percent (5%) of alcohol by weight, capable of being consumed as a beverage by a human being, but shall not include light wine and beer, as defined in Section 67-3-3, of the Mississippi Code of 1972 and shall also include native wines.

than food when sold in connection with a festival, street fair or other similar event. Plate lunches sold for fund-raisers are considered as food only if sold in a festival type situation. Cakes, pies, breads, roasts, casseroles or other dishes of multiple-serving size traditionally designed for consumption by more than one (1) average person may be sold in connection with bake sales but items requiring refrigeration must be kept at proper temperature until the point of sale. Fresh vegetables, met and other farm produce from the garden or land of the person offering the same for sale will not be sold at such events but may be sold in a “farmer’s market type” setting as allowed by law.

Float shall refer to a vehicle with two or more wheels without brakes and/or an engine for its own propulsion, which is towed or pulled by a pull vehicle, animal or person(s), and which contains an artistic design but may or may not include riders.

Float Walker shall refer to one or more individuals who walk and/or escort a float and its pull vehicle in or through a designated area during a parade or other public function. The float walker shall have the responsibility for preventing entry into any hazard area around the float while it is moving or stopped and for preventing entrance to or exit from the float at any time during the parade, whether in motion or not. The walker is also responsible for notifying the designated spotter and/or driver of the pull vehicle of any problem which would require the float to be stopped.

Game shall refer to any amusement or competitive activity, which may or may not include the winning of a prize.

Other special event shall refer to those activities not specifically referenced above which include, but are not limited to, street fairs and carnivals, church carnivals, art and craft shows, musical concerts, art exhibitions, barbeques, picnics, dances, rallies, promotional or fund raising activities, community and religious celebrations and observances, and/or any other similar event, which may occur on any city street, sidewalk, alley or other public right-of-way, or other property owned and/or controlled by the city and which may impede, obstruct, impair, delay, or interfere with the usual and normal pedestrian and/or vehicular traffic, and/or which requires, in the judgment of the Chief of Police, the deployment of peace officers for crowd control.

Parade shall refer to a procession consisting of, but not limited to floats, bands, marching organizations, and motor vehicles. This definition shall include marches, processions, pageants, reviews, or other ceremonies or exhibitions consisting of persons, animals, vehicles, or a combination thereof, which is conducted in, upon, or along any portion of any street, sidewalk, alley, or other right-of-way, and/or other property that is owned and controlled by the City, said event having the potential to obstruct, delay, impede, impair or interfere with the usual and normal pedestrian or vehicular traffic, and/or does not comply with the traffic laws or controls.

Pre-established route shall refer to a route or course of travel along designated streets, sidewalks or other public rights-of-way that has been established by the Chief of Police or his designee as suitable for use in connection with special events.

CODE

Public way shall refer to any public street, avenue, alley, highway, stream, creek and the creek bank, park, public parking lot and/or other public lands within the corporate limits of the City.

Pull vehicle shall refer to any vehicle, truck, car, or trailer that is suitable in size and weight to pull a float of the size that is attached to its rear trailer hitch.

Pushcart shall refer to a mobile non-motorized cart, wagon or other similarly constructed object, upon which is attached and located equipment and facilities for storage, refrigeration and/or heating of any food (as defined under this article) which is to be hand-delivered to customers for off-premises consumption. Pushcarts are allowed at special events but are not allowed for permanent use [See *City of Laurel Comprehensive Zoning Ordinance* Section 408.02.08 for regulations on placement and use of mobile/manufactured units].

Special events committee shall refer to the committee designated to review applications for special events permits.

Special events coordinator shall refer to that representative appointed by the Mayor to receive all permit applications pursuant to this article, to classify special events for purposes of imposing any permit fee and/or deposit, and to issue final permits upon approval by the Special Events Committee.

Street Food Vendor shall refer to any person, firm or corporation that sells food from a booth or pushcart at an approved public location within the City.

Section 4-36. Permit required; exemption.

Any person desiring to conduct or sponsor within the City a special event such as a parade, athletic event, block party, festival or other special event as defined under this article shall first register with the City Clerk's Office and obtain any required permits and/or pay any required fees. All utility consumption and/or expenses to be incurred toward the City's budget are to be reimbursed to the City.

A special event permit will not be required for the following:

1. Any parade, athletic event, block party, festival, exhibition or other special event sponsored by the City.
2. Funeral possession.

Section 4-37. Application procedure.

1. Any person desiring to sponsor a parade, athletic event, block party, festival or other special event which is not exempted by Section 4-36 of this article shall apply for a special event permit by filing an application with the City Clerk's Office on a form supplied by that office.
2. Applications must be received not less than thirty (30) days nor more than one hundred eighty (180) days before the event date. Upon a showing of good cause, the special events coordinator may consider an application that is received after the filing deadline, provided there is sufficient time to process and investigate the application and to schedule police services, if required. Good cause is demonstrated when the specific circumstances of the application were such that the participants did not have reasonable time to meet the application deadline. In the case of an application that does not meet the deadline, the applicant must select a pre-established route.

l. Location of water, toilets and first aid facilities to be provided for the participants;

m. Any other information which the Committee may deem necessary.

2. *Parades, races and other events occurring along a route.*

a. Assembly point for the event and the time at which participants will begin to assemble;

b. Route to be traveled;

c. Minimum space to be maintained between the participants in a parade or other event;

d. The number, types and size of floats, if applicable;

e. All routes must be approved by Chief of Police or his designee and such approval becomes a part of the event permit.

3. *Supplemental information.* Applicants will be required to provide any supplemental information which the Committee shall find reasonably necessary, under the particular circumstances of the special event application, for use in determining whether to approve, or conditionally approve a special event permit.

4. *Certification of understanding.* All applicants must certify that they understand and accept that the granting of any permit under this article shall not be deemed a waiver on the part of the City of the terms of any other ordinance or policies which may apply.

Section 4-39. Action on application.

The special events committee may approve, conditionally approve, or deny any application. Action shall be taken no later than ten (10) days after receiving a completed application for any event which will follow a pre-established route. Action on all other special event applications shall be taken not later than fifteen (15) days after receiving a completed application, except in the case that the applicant is requested to provide additional or supplemental information, in which case the action may be delayed until such time as that information is received by the special events committee. If the application is denied, the applicant shall be informed in writing of all reasons behind such denial, including any information that was received through sources

other than the applicant. At the time of issuance, the applicant will also be notified of any conditions or stipulations placed on the permit. If the coordinator refuses to consider a late application under the terms outlined in 4-37(2), the coordinator shall inform the applicant of the reason for the refusal. The applicant will be notified of his right of appeal any of the above decisions.

Section 4-40. Grounds for denial of application or revocation of a special event permit.

1. The special events coordinator or his designee shall approve an application for a special permit unless it is determined from consideration of the application or other pertinent information, that any of the following conditions exist.
 - a. Information contained in the application, or supplemental information requested from the applicant, is found to be false in any detail; or
 - b. The applicant fails to complete the application form within five (5) calendar days after having been notified of additional information or documents required; or
 - c. Another special event permit application has been received prior or has already been approved which schedules another event at the same time and place requested by the applicant; or so close in time and place as to cause undue difficulty in the scheduling of the event; or
 - d. Another special event permit application has been received prior or has already been approved which renders the police department unable to meet the needs for police services for both events; or
 - e. The time, route, or size of the event will substantially interrupt or impair the safe and orderly movement of vehicular traffic contiguous to the event site or route, or disrupt the use of a street during a time when such safe and orderly movement is a matter of public safety; or
 - f. The concentration of persons, animals and vehicles at the site of the event, or the assembly and disbanding areas around an event, has the potential to impair or prevent proper police, fire, or ambulance services to areas contiguous to the event; or
 - g. The size of the event will require such a concentration of police officers to ensure the public safety, to ensure all participants stay within the boundaries or route of the event, or to protect participants in the event, that it will be a burden on the resources of the department so as to prevent normal protection to the remainder of the city; or
 - h. The parade, or other event moving along a route, will not progress from its point of origin to its point of termination within three hours or less; or

CODE

- i. The location of the event will substantially interfere with any construction or maintenance work, either previously scheduled or scheduled as an emergency, which will commence upon or along the city streets, or along any public right-of-way, included in the route or impede construction work which has been scheduled in connection with a previously granted encroachment permit; or
- j. The event shall occur at such time as to cause conflict with school sessions or daily activities connected with hospitals or emergency agencies in such a way as to cause either severe traffic congestion and/or create a noise level which would substantially disrupt the said activities, or would cause a disturbance which would be detrimental to the well-being of any patients at the hospital; or
- k. The event is a parade that is a parade that is scheduled to begin after the hour of 7:00 P.M.

The above information shall also be justified for the special events coordinator to revoke a previously issued permit.

2. Nothing herein authorizes denial of a permit because of public safety concerns if reasonable conditions can be imposed which will allow for adequate protection of event participants by use of private security or City police officers.
3. When grounds for denial of an application for permit specified in subsection 4-40(1a) through 4-40(1j) above can be corrected through changing the date, time, duration, route, or location of the event, the special events coordinator may, instead of denying the application, conditionally approve the application contingent upon the applicant's acceptance of certain conditions for permit issuance. The conditions imposed shall only provide such modifications as are necessary to achieve compliance with subsections 4-40(1a) through 4-40(1j) above.

Section 4-41. Permit conditions.

1. The special events coordinator may issue a special events permit contingent upon conditions or stipulations to the time, place and manner of event, and/or may impose any such requirements as necessary to protect the safety of persons and property, and provide control of traffic, provided such conditions shall not unreasonably restrict the right of free expression. Such conditions may include, but are not limited to the following:
 - a. Change or alteration of the date, time, route or location of the event as proposed on the event application;
 - b. Conditions in relation to the area of assembly;

CODE

- c. Contingency measures to allow disbanding of a parade or other events occurring along a route;
 - d. Conditions related to traffic flow as to accommodating pedestrian or vehicular traffic, to include but not be limited to restricting the event to only a portion of a street;
 - e. Requirements for the use of traffic cones, barricades and other safety measures;
 - f. Requirements toward the providing of sustenance, first aid, or sanitary facilities;
 - g. Requirements in regard to the use of event administrators or supervisors and the policy of providing notice of any conditions or stipulations to participants;
 - h. Restrictions on the number and type of banners, floats, vehicles, animals, or structures taking part in the event, and inspection and approval by the Fire Department of all floats, structures and decorated vehicles under the regulations governing fire safety;
 - i. Compliance with laws and ordinances in regard to treatment and protection of animals;
 - j. Requirements in regard to sanitation, including but not limited to the use of garbage containers, and the cleanup and restoration of City property;
 - k. Restrictions on the use of amplified sound in accordance with the noise ordinance; and
 - l. Proof of prior notification of the event to businesses and residents which are located along the route or street(s) where the event will be held.
2. All events must comply with any and all relevant ordinances or laws, including but not limited to, ordinances governing the construction and safety of temporary structures, booths or tents; ordinances and laws on the obtaining of any legally required permits, licenses or certificates, including, but not limited to, any necessary business permits, fire safety inspection permits; and state health department permits.

Section 4-45. Insurance.

1. The applicant/sponsor organization of an event must possess or obtain public liability insurance to protect against loss from liability imposed by law for damages resulting from bodily injury and/or property damage arising from the event. Such insurance shall name on the policy or be endorsement as an additional insured party the City, its officers, employees and agents. Insurance coverage must be maintained for the duration of the event. Coverage shall be a comprehensive general liability insurance policy with the following minimum limits:

\$1,000,000.00 each occurrence combined single

CODE

Limit bodily injury and property damage.

2. A copy of the policy or certificate of insurance, along with any and all necessary endorsements, must be filed with the City Clerk's Office no less than five (5) days before the date of the event. The special event permit shall not be issued by the special events coordinator until after the insurance policy and/or certificate of insurance, along with any and all necessary endorsements, has been filed by the applicant/sponsor and approved by the special events committee/City Clerk's Office.
3. The insurance requirements above shall not apply to any special event Classified as a Class D special event. Nothing herein shall waive the requirement to complete the indemnification agreement as required by Section 4-44.
4. The insurance requirements above may be waived by the special events committee for non-athletic events, if the applicant or sponsor and/or agent signs a verified statement that the event's purpose is First Amendment expression, and it has been determined that the cost of obtaining insurance would be so financially onerous that it would constitute an unreasonable burden on the right of First Amendment expression. The statement shall include the name and address of at least one insurance agent or other source for insurance coverage who was contacted to determine insurance premium rates for insurance coverage as an attestation that the cost of insurance would effectively outsource the benefit of the event. The committee shall review such statement before any determination regarding waiver of insurance. Nothing herein shall be constituted as a waiver of the requirement to complete the indemnification agreement.

Busking/Street Performance Program Requirements:

Permit Required: Performers must obtain a permit from the City Clerk's office prior to performing. The permit is free of charge and valid for one year.

Performances may take place at the following locations:

1. Pocket Park (next to Lee's Coffee and Tea, Oak Street)
2. Front Street at Lott Furniture, in front of Blind Roosevelt Graves plaque
3. Corner of Magnolia and Central, at Southern Antique Mall
4. Leontyne Price Music Park on Central Avenue

Performers are allowed to collect tips in a small container or open instrument case but are prohibited from soliciting for tips or asking people for payment.

Buskers and the crowd they may attract shall not block roadways, sidewalks, crosswalks, driveways, stairways, curb cuts, or handicapped access ramps nor block access to buildings, parks, businesses, traffic control poles containing pedestrian crosswalk button(s), or fire hydrants. Buskers shall provide the minimum pedestrian passageway on the sidewalk as required by the Americans with Disabilities Act which is currently 5 feet.

Buskers shall remove all props and other items used for a performance from the public area during breaks and immediately after the performance ends. Buskers shall remove trash and other debris from the area of the performance immediately after the performance ends. Buskers may perform in designated areas during an event that has been authorized by the City with the permission of the sponsor of such event. The conduct and behavior of buskers shall comply at all times and in all respects with the City's existing noise ordinance. During periods of construction on the streets, sidewalks and other infrastructure, the City Administration may temporarily prohibit performances and issue notices of exclusion from areas where there are issues of public safety.

Buskers/street performers found to be in noncompliance with said program requirements will be instructed by the Laurel Police Department to cease performance and leave the area.

ANIMAL CONTROL

Art. I. Generally, §§ 5-1 --- 5-9

Art. II. Animals and Rabies Control, §§ 5-10 --- 5-13

Art. III. Care and Keeping of Animals, §§ 5-14 --- 5-17

ARTICLE I. GENERALLY

Section 5-1. Definitions.

As used in this Ordinance, the following words shall have the meanings herein ascribed to them:

ANIMAL. Any living, vertebrate creature, domestic or wild, other than Homo sapiens,

ANIMAL CONTROL OFFICER. The Animal Control Supervisor or his authorized agents or employees of the Animal Control Department.

AT-LARGE OR RUNNING AT-LARGE. Any animal off the premises of the owner and not under control of the owner or other persons authorized by the owner to care for the animal by leash, cord, chain or rope.

CAT. A domesticated member of the Felidae (feline) family, other than a lion, tiger, bobcat, jaguar, panther, leopard, cougar or other prohibited animal.

CITY ANIMAL SHELTER. A place operated by the City for the detention of dogs and other animals as prescribed by law.

DOG. A domesticated member of the Canidae (canine) family, other than a wolf, jackal, fox, dingo, coyote or other prohibited animal. For the purpose of this definition, a puppy shall be considered a dog.

IMPOUND. To apprehend, catch, trap or net a dog or cat or any other animal and thereafter confine it.

INHUMANE TREATMENT. ARTICLE II. ANIMAL AND RABIES CONTROL

Section 5-10. Restraint.

It shall be unlawful for an owner to fail to keep such owner's animals under restraint as follows:

- A. Except for cats not in season, all animals shall be kept under restraint as defined in this Ordinance;
- B. Every female dog or cat in season shall be kept confined in a building or secure enclosure, or in a veterinary clinic or boarding kennel, in such manner that such female dog or cat cannot come in contact with another dog or cat except for, intentional breeding purposes;
- C. Owners shall exercise care and control of their animals to prevent them from becoming public nuisances;
- D. No person shall keep more than three (3) domesticated animals over the age of three (3) months other than in a licensed kennel or boarding kennel as permitted in the zoning district outlined in the City's land use regulations; and,
- E. No person shall keep livestock closer than One Hundred Fifty feet (150') to any property line adjoining that on which the livestock is kept; provided that each animal herein defined as livestock shall be allowed only in A-1, General Agricultural District and that keeping a stable shall provide for not more than one (1) horse for each Twenty Thousand (20,000) square feet of lot area in R-1, Low Density Residential District.

Section 5-11. Impoundment.

- A. Animals may be impounded by the Animal Control Department or Police Department in any of the following circumstances:
 - 1. Any animal not kept under restraint as required by this Ordinance;
 - 2. Any dog not having affixed to its collar a valid rabies tag;
 - 3. Any animal which constitutes a public nuisance;
 - 4. Any animal that a person could responsibly suspect as having any infectious or contagious disease other than rabies and being in the custody of a keeper who fails or refuses to make arrangements satisfactory to the Animal Control Supervisor looking to the proper treatment of such dog or

CODE

other animal;

- 5. Every animal that has rabies or symptoms thereof, or that a person could reasonably suspect as having rabies, or every animal that has been bitten or scratched by another animal, or that bites, scratches or otherwise attacks another animal or person within the City;
- 6. Any animal not kept by the owner in conformity with this Ordinance or State law.

B. Impounded animals, other than those impounded for observation for rabies, shall be subject to immediate redemption. Such animals may be redeemed by anyone entitled to possession thereof while the same are in the City Shelter, after paying the appropriate fees and making the required deposit, as follows:

- 1. Impoundment Fee:
 - (a) First Impoundment \$50.00
 - (b) Second or subsequent impoundment within twelve (12) months \$100.00
- 2. Boarding charge: A daily boarding fee is set by the City Administration not to exceed, the reasonable cost of boarding, feeding, and caring for such animal for the period of impoundment. \$15.00
- 3. Rabies vaccination charge: All charges for rabies vaccination, if required.

In case any impounded animal sought to be redeemed is suffering from any disease or ailment, it shall not be released until the Animal Shelter Supervisor shall be satisfied that arrangements looking to its proper treatment are assured. Animals put under observation as described in Sec 11A(5) shall become subject to redemption when found to be free from rabies.

- C. Impounded animals not redeemed by their owner within five (5) working days following impoundment shall become the property of the City and shall be placed for adoption in a suitable home or humanely euthanized.
- D. A person may adopt an animal after the expiration of the redemption period provided in subsection C. and after paying the fees and making the required deposits equal to those which would be required for redemption set forth in subsection B., if said person is the previous owner. Others may adopt animals at regular adoption rates.

CODE

- E. No impounded dog or cat shall be released unless the person to whom the dog or cat is released holds a valid rabies certificate for such dog or cat. In the event an impounded dog or cat is released upon the owner's promise that the animal will be immediately vaccinated against rabies, the owner must display to the Animal Control Officer a valid rabies certificate within three (3) days of the release or the owner will be charged with a misdemeanor under the provisions of Section 5-17 of this Ordinance.
- F. Dogs and other impounded animals not redeemed or adopted as provided for in this Section shall be humanely euthanized at the City Shelter, under the direction of the Animal Shelter Supervisor.
- G. In addition to, or in lieu of, impounding an animal, an Animal Control Officer or any police officer may issue to the owner of such animal a notice of violation. This notice shall provide a space thereon for the party charged to waive trial on the merits and enter a plea of guilty or nolo contendere. In the event the party charged desires to enter a plea of not guilty, such person may obtain a trial setting from the Clerk of the Municipal Court. Notwithstanding any other provision of this subsection, persons charged with a violation may, after entering a plea of guilty or nolo contendere in the space provided, pay a fine in the amount designated by the City Judge for such violation, to the Clerk of the Municipal Court within ten (10) days.

attacks another animal or any person within the City, shall be impounded at once and held for observation and quarantine at the City Shelter or other place designated by the City Animal Warden, for such period of time as the County Health Officer may deem necessary; provided, however, such period of time shall not be fewer than ten (10) days nor more than fourteen (14) days.

- B. No animal that has rabies shall be allowed at any time on the street or public ways of the City. No animal that has been suspected of having rabies shall be allowed at any time in public places, except as expressly provided herein, until said animal has been released from observation by the County Health Officer or his/her representative.
- C. The owner of any animal that is reported to have rabies or symptoms thereof, or to have been exposed to rabies, or to have bitten, scratched or otherwise attacked any person within the City, or that the owner knows or suspects to be rabid or to have attacked an individual, shall submit such animal, for quarantine, to the Animal Control Supervisor or any police officer.
- D. Any person having knowledge of any animal exhibiting any symptoms of, or exposed to, rabies, or that has bitten or otherwise attacked any human being, shall immediately report the incident or animal to the Animal Control Department. The report shall include the name and address of any victim and of the owner of the animal, if known, and any other information relating to the incident or animal. The Animal Control Supervisor shall inform the County Health Officer at once, in person or by phone, and follow up with a written report.
- E. In case of epidemic, every veterinarian or other person who is called to examine or professionally attend any dog or other animal within the City having glanders or farcy, rabies, tuberculosis or any other communicable disease, shall, within twenty-four (24) hours thereafter, report in writing to the County Health Officer and the Animal Control Supervisor the following:
 - 1. The location of such animal;
 - 2. The name and address of the owner thereof;
 - 3. The type and character of the disease.
- F. Every veterinarian practicing within the City Limits shall keep detailed records of animal rabies vaccination and, upon request of the Animal Control Supervisor, acknowledge to such officer whether an animal of a particular location, or owned by a named person, has been vaccinated within the last twelve (12) months.
- G. The County Health Officer shall investigate and record all cases of rabies and suspected rabies.
- H. The body of any animal that has died of rabies or that dies or is destroyed while in quarantine shall not be disposed of except as directed by the County Health Officer.

Section 5-15. Keeping of Certain Animals Prohibited.

- A. No person shall keep, own, maintain, use or have in such person's possession or on premises, within the City, any vicious animal, unless such animal is within a securely fenced area, secured building, or under immediate control of the owner.
- B. Specific breeds of dogs are hereby determined to be vicious animals along with feral dogs and animals running at large; and may be placed with certain conditions, restrictions or limitations on the keeping of such animals as deemed appropriate within the city limits of the City of Laurel, Mississippi and defined as any one of the following:
 - 1. American Pit Bull Terrier;
 - 2. Staffordshire Pit Bull Terrier;
 - 3. American Staffordshire Terrier;
 - 4. Rottweiler Breed Standard;
 - 5. Doberman Pinscher Breed Standard;
 - 6. Chow Chow Breed Standard;

7. German Shepherd Dog Breed Standard;
 8. Any dog whose sire or dam is a dog of a breed which is defined as an animal running at large and/or is a breed of dog listed under this Section 5-15(B); Subsections 1, 2, 3, 4, 5, 6, 7, 9, 10, or 11 of this Ordinance;
 9. Any dog whose owner registers, defines, admits, or otherwise identifies said dog as being an animal running at large;
 10. Any dog conforming, or substantially conforming, to the breed of American Pit Bull Terrier, American Staffordshire Terrier, Staffordshire Pit Bull Terrier, Rottweiler Breed Standard, Doberman Pinscher Breed Standard, Chow Chow Breed Standard, or German Shepherd Dog Breed Standard as defined by the United Kennel Club or American Kennel Club. Technical deficiencies in the dog's conformance to these standards shall not be construed to indicate that the subject dog is not an animal running at large breed of dog under this ordinance;
 11. Any dog which is of the breed commonly referred to as "pit bull" and commonly recognizable and identifiable as such; or
 12. Any vicious dog which is found at large in violation of this Ordinance.
- C. In the event that the Animal Control Officer finds any of the "animals running at large" within the City, he/she shall attempt to capture the dog and hold the dog until such time the Animal Control Office shall notify the owner of any animal impounded hereunder by telephone, personal service or certified mail not later than the day following such impoundment excluding weekends and legal holidays, provided that the animal is wearing a reasonable means by which the owner may be identified.
- D. Any currently vaccinated animal may be reclaimed by its owner upon the payment of a boarding fee of \$15.00 per day for each animal and all veterinary fees and expenses incurred by the City in caring for and treating the animal together with a cash payment of any impoundment fee.

In reference to the above mentioned breeds defined in this ordinance, the following impoundment fees shall be enforced:

First impoundment fee charge.....\$250.00

Second impoundment fee charge.....\$500.00

- E. In the event that the Animal Control Officer finds any of the "animals at large" as mentioned above within the City, he/she shall attempt to capture the dog and hold the dog until such time as a judge determines that the dog is an "animal at large". If the Animal Control Officer captures the dog, the dog will be held until the case is disposed of by the court or the dog is turned over for

CODE

disposition by the Animal Control Officer. If the Animal Control Officer cannot capture the dog or if it is determined to be extremely vicious, that animal may be destroyed by the Animal Control Officer or a law enforcement officer providing each of the following requirements is met:

1. The animal is running at large;
2. Attempts to peacefully capture the animal have been made and proved unsuccessful or an attempt to peacefully capture could reasonably result in injury to any person; or,
3. The owner cannot immediately control the animal or the owner cannot be immediately found.

ARTICLE I. IN GENERAL

Section 7-1. Permit Required.

A permit fee shall be required for any construction related project, with the exception of those exempted by the 2018 International Building and/or the International Residential Codes which are not made mandatory by ordinance, valued at not less than One Thousand Dollars (\$1000) based on the permit issued by the City of Laurel to include but not be limited to new construction, repair, alteration, renovation, demolition, relocation, accessory uses, and any and all applicable sub permits. Required fee will be assessed in accordance with the schedule of permit fees as established by the City of Laurel under Ordinance No. 1537-2009.

Section 7-3. Penalties.

Failure to obtain any permit required under this chapter prior to the commencement of any work will result in stoppage of the job and doubling the permit cost or an Environmental Court Ticket can be issued by the Inspection Department at their discretion. The minimum fee for this Environmental Court Ticket will be One Hundred Dollars (\$100.00) plus court cost.

Section 7-4. Privilege License Required.

No person shall operate a business within the corporate limits of the City of Laurel in any building trades to include but not be limited to carpentry, roofing, painting, antenna installation, dry wall contracting, fire alarm systems, burglar alarm systems, and fire protection, or in any capacity which may be considered under the term “general contractor” without first obtaining a license to do business (i.e., privilege license) from the City of Laurel. [For regulations concerning electricians, plumbers, and mechanical/HVAC contractors, see separate chapters specifically addressing those trades.]

Homeowners are exempted from this section when performing work on his/her homestead but this does not allow property owners to work on rental properties or properties other than his/her homestead unless they have a contractor’s license in the specific trade under which the work falls. The obtaining of such trade licensing is subject to such regulations as adopted by the City of Laurel under previous ordinances.

Homeowners must still obtain a permit when performing work on his/her homestead but will not be required to obtain a privilege and/or trade license. All work performed by a homeowner on his/her homestead must meet current code standards.

Section 7-18. Exceptions.

- (1) The Notice and all attachments thereto shall be served upon the owner of record by personal service or by regular mail or other method as required by State law. A copy of the notice and all attachments thereto shall also be served on any person determined from official records to have a legal interest in the property. Failure of the Building Inspector and/or his/her designee to service any person herein required to be served other than the owner of record shall not invalidate any proceedings hereunder nor shall it relieve any other persons served from any obligations imposed on him.

- (2) Posting of Notice to Vacate. In the event the Building Inspector and/or his/her designee shall determine that the building or structure should be vacated and no appeal is taken to the Board of Adjustments and Appeals within the time allowed

by Chapter 4, or, if such an appeal is taken and the final decision of the Board of Adjustments and Appeals is that the building or structure should be vacated, the Building Inspector and/or his/her designee shall thereupon post a notice at each exit and entrance to the building or structure which shall state:

**THIS BUILDING IS UNSAFE AND ITS USE OR
OCCUPANCY HAS BEEN PROHIBITED
BY THE BUILDING INSPECTION DEPARTMENT**

Such notice shall remain posted until the required repairs are made or demolition is completed. It shall be unlawful for any person, firm or corporation or their agents to remove such notice without written permission of the Building Inspector and/or his/her designee or for any person to enter the building except for the purpose of making the required repairs or of demolishing same. If any person or persons shall remove any notice posted by the Building Inspector and/or his/her designee or be found in or upon the building without the authority of the City of Laurel, they shall, upon conviction, be punishable by a fine not exceeding Five Hundred Dollars (\$500.00) or a term of imprisonment of not more than six (6) months or other such fine and imprisonment.

- (3) Staying of Notice Under Appeal. Enforcement of any notice issued by the Building Inspector and/or his/her designee under the provisions of this Code shall be held in abeyance until the time for taking an appeal shall expire with no appeal having been taken or, if an appeal is taken, during the course of such appeal.

Section 7-19. Securing of Unsafe Buildings.

The following regulations shall be added to Chapter 3 of the Standard Unsafe Building Abatement Code, *Inspection and Notice of Noncompliance*:

- (1) A vacant structure that is not secured against entry will be deemed unsafe. All openings into a vacant structure must be so secured so as to prevent entry. Openings shall be defined as windows, doors, crawl spaces or any other means of ingress or egress. The Inspection and Maintenance Department is authorized to take necessary action to ensure compliance. Once a building has been deemed unsafe, the owner(s) will be required to secure the structure within 10 days. The building may remain secured for up to 90 days. After that time, if repairs or demolition have not ensued, the City will be authorized to take appropriate action to ensure the safety of the public.

- (2) An unsafe structure may only remain temporarily secured for up to ninety (90) days. It is preferable that it be secured with transparent materials so as not to appear to be boarded up with plywood and old discoloring boards. During that time, the owner(s) must file with the Department a satisfactory plan either to repair and permanently secure said structure or to demolish said structure. After ninety (90) days, the structure must be permanently secured.

Source: Ordinance No. 1446-2004, § I, 9-7-04; Ordinance No. 1458-2009, § I, 5-3-05

- (3) A permit will be required to either repair or demolish the building. Said permit must be obtained within 60 days of any notice of an unsafe building. Demolition permits expire within one month (30 days) of the date of issuance. If the owner fails to complete the demolition within this 30 day period, the Council will be authorized to schedule a public hearing for the purpose of having the demolition completed and the owner will be assessed any fees incurred including but not limited to fees for removal of debris and/or asbestos abatement. Should the owner proceed with the demolition, any debris from repair or demolition must be collected on site by the owner for removal. If the owner elects to have the City remove the debris, he or she will be responsible for arranging such removal and will be subject to any and all applicable charges. If the owner elects to remove the debris on his or her own motion, the City will require the debris to be removed on a weekly basis. The owner will be responsible for removal of the debris and for payment of any and all charges by such removal. Failure to do so can result in penalties and fines as defined by the City, which may include, but are not limited to, issuance of a Municipal Offense Ticket (MOT) and any and all subsequent charges.

The Inspection Department (herein “the Department”) is authorized to take all necessary action to ensure compliance with the above sections. During the ninety (90) day time frame, if sufficient repairs have not been made to said structure or if an adequate plan to repair and/or demolish the structure has not been filed with the Department, the City will be authorized to take appropriate action to ensure the safety of the public and the neighborhood in which the structure is located. The Department may assist the owner(s) in finding sources to secure the structure by determining if the structure only needs repairing or if it is beyond the point of repair and meets the Unsafe Building Abatement Code.

- (4) For failure to comply with the above sections, the owner(s) may be fined by the Municipal Court after the Department has issued a ticket for failure to comply. Said fine may be up to five hundred dollars (\$500.00). An additional and/or alternative remedy available to the City is to proceed under that section of the Code to have the

structure condemned and demolished at the expense of the owner(s).

The Inspection Department shall refuse to issue a permit if he finds:

- (1) That any application requirement or any fee or deposit requirement has not been complied with;
- (2) That the building is too large to move without endangering persons or property in the City;
- (3) That the building is in such a state of deterioration or disrepair or is otherwise so structurally unsafe that it could not be moved without endangering persons and property in the City;
- (4) That the building is structurally unsafe or unfit for the purpose for which moved, if the removal location is in the City;
- (5) That the applicant's equipment is unsafe and that persons and property would be endangered by its use;
- (6) That Zoning or other Ordinances would be violated by the building in its new location; or
- (7) That for any other reason persons or property in the City would be endangered by the moving of the building.

Section 7-41. Same---Allowance for Expense.

After a building has been removed, the Inspection Department shall furnish the City Council with a written statement of all expenses incurred in removing and replacing all property belonging to the City, and of all material used in making the removal and replacement, together with a statement of all damage caused to or inflicted upon property belonging to the City. Provided, however, that if any wires, poles, lamps or other property are not located in conformity with governing Ordinances, the permittee shall not be liable for the cost of removing the same. The City Council shall authorize the Inspection Department to return to the applicant all deposits after the Finance Director deducts the sum sufficient to pay for all of the costs and expenses and for all damage done to property of the City by reason of the removal of the building. Permit fees deposited with the application shall not be returned.

Section 7-42. Duties of Permittee.

Every permittee under this division shall:

- (1) *Use designated streets.* Move a building only over streets designated for such use in the written permit.
- (2) *Notify of revised moving time.* Notify the Inspection Department in writing of a desired change in moving date and hours as proposed in the application.
- (3) *Notify of damage.* Notify the Inspection Department in writing of any and all damage done to property belonging to the City within twenty-four (24) hours after the damage or injury has occurred.
- (4) *Display lights.* Cause red lights to be displayed during the nighttime on every side of the building, while standing on a street, in such manner as to warn the public of the obstruction, and shall at all times erect and maintain barricades across the streets in such manner as to protect the public from damage or injury by reason of the removal of the building.
- (5) *Street occupancy.* Remove the building from the City streets after fourteen (14) hours of such occupancy, unless an extension is granted by the Chief of Police.
- (6) *Complying with governing law.* Comply with the Building Code, the Zoning Ordinance and all other applicable Ordinances and laws upon relocating the building in the City.
- (7) *Pay expense of officers.* Pay the reasonable expenses of a traffic officer ordered by the Inspection Department to accompany the movement of the building to protect the public from injury.
- (8) *Clear old premises.* Remove all rubbish and materials and fill all excavations to existing grade at the original building site so that the premises are left in a safe and sanitary condition.
- (9) *Remove service connection.* See that the sewer line is plugged with a concrete

stopper, the water shut off and the meter returned to the City Water Office. The permittee shall notify the gas and electric service companies to remove their services.

Diagonal streets and avenues shall have the set of numbers used corresponding to the direction most nearly assumed by the street or avenue, and streets or avenues shall have the set of numbers determined by their average direction.
- (3) In numbering, the first number is one hundred and one (101) which shall be assigned to the twenty-fourth (24th) space fronting on First Avenue and First Street and at the intersection of the eastern boundary of First Avenue and the northern boundary of First Street, and the corresponding space on the west side of First Avenue shall be and is hereby numbered one hundred and two (102). The unusual numbers between the number of the last lot on twenty (20) foot space in any block and the next number ending in an even hundred (100) shall be dropped, and the first lot on twenty (20) foot space of the next block shall be the number of the street or avenue traveling it multiplied by one hundred (100) and with one added; thus the first twenty (20) foot space fronting Sixth Street and on the north at the intersection of Seventh Avenue shall be and is numbered seven hundred and one (701), numbering from initial point north and south from First Street and in like manner east and west from First Avenue.

ARTICLE VIII. ADDRESS DISPLAY REQUIRED.

Section 7-184. Address Display Required.

The owner or tenant of any dwelling, former dwelling, commercial building, or other structure or activity, whether in use or not, shall display its municipally - assigned unique address, indicating a number at or near tile point where the location has access for ingress to and egress from any public street, avenue, highway or alley. This address display and/or numbers shall contrast with their background. Address numbers shall be Arabic numbers or alphabet letters. Numbers shall be a minimum of four (4) inches (102 mm) high with a minimum stroke width of 0.5 inch (12.7 mm) and to be readily visible from both directions on the said public way. This address display shall not be required on any dwelling, former dwelling, commercial building, or other structure or activity that is now in non-compliance with the passing of this Ordinance and to all new structures being permitted for construction in the city limits of Laurel, Mississippi.

Section 7-185. Curbside Address Permitted; Substitutes.

In a location where curbs are present the public way abutting a location and vehicular parking for the public or occupants shall not obstruct a view of the curb, the said unique address may be placed on the curb at a position thereon so as to be separately identifiable with the location to which it is assigned. The number shall be white upon a black background and measuring not less than thirty-six (36) inches in length by eight (8) inches in width. Where the building or structure is built up to the public way, and curb views and usually obstructed, then a similar display shall be placed upon the building or structure so as to be readily visible from the public way.

In lieu of such curbside or building address displays, a free-standing address display observable from both directions, if feasible, of comparable size and contrasting color scheme may be used.

Section 7-190. Inspection Department to Assign Address.

Upon an application for a building, structure or other activity or construction permit, the Inspection Department of the City of Laurel shall issue either a permanent or a temporary address to the owner, contractor, developer or other occupant thereof which shall be prominently displayed thereon at or near the place where the activity or proposed construction abuts the public way so as to reasonably comply with the requirements and purposes of this Ordinance. Said Inspection Department shall have the authority to order the correction of any dwelling, former dwelling, commercial building, or other structure or activity whether in use or not, that

has been numbered and/or addressed in error or said official way order appropriate corrections in compliance with House Bill No. 104, H07. H87. R573. CS.

ARTICLE X. LANDCLEARING, EXCAVATION, AND GRADING REGULATIONS.

Section 7-195. Purpose and Scope.

The purpose of these regulations are to safeguard life, limb, property, and the public welfare by regulating land clearing and grading on private property. This article also sets forth rules and regulations to control land clearing, excavation, grading and earthwork construction, including fills and embankments; establishes the administrative procedures for issuance of permits; and provides for approval of plans and inspection of grading construction.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-196. Permits Required.

No person shall do any land clearing, grading, or excavation without first having obtained a permit from the Inspection Department except for the following: *(NOTE: However, all the above-described activities must comply with local and state laws regarding utility locates prior to work.)

1. Grading in an isolated, self-contained area if there is no danger apparent to private or public property and not over a City utility line.
2. An excavation below finished grade for basements and footings of a building, retaining wall or other structure authorized by a valid building permit. This shall not exempt any fill made with the material from such excavation nor exempt any excavation with the fill having an unsupported height greater than five (5) feet after the completion of such structure.
3. Cemetery graves.
4. Refuse disposal sites controlled by other regulations
5. Excavations for wells or tunnels or utilities.
6. Mining, quarrying, excavating, processing, stockpiling of rock, sand, gravel, aggregate or clay where established and provided for by law provided such operations do not affect the lateral support or increase the stresses in or pressure upon any adjacent or contiguous property.
7. Exploratory excavations under the direction of soil engineers or engineering geologists.
8. An excavation which is not on a City right-of-way or easement and which (a) is less than two (2) feet in depth, or (b) which does not create a cut slope greater than five (5) feet in height and steeper than one and one-half (1½) horizontal to one (1) vertical, which does not exceed fifty (50) cubic yards on any one (1) lot.
9. A fill less than one (1) foot in depth, and placed on natural terrain with a slope flatter than five (5) horizontal to one (1) vertical, or less than three (3) feet in depth, not intended to support structures, which does not exceed fifty (50) cubic yards on any one (1) lot and does not obstruct a drainage course.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-197. Hazards.

Whenever the Inspection Department determines that any existing excavation or embankment or fill on private property has become a hazard to life and limb, or endangers property, or adversely affects the safety, use or stability of a public way or drainage channel, the owner of the property upon which the excavation or fill is located, or other person or agent in control of said property, upon receipt of notice in writing from the Inspection Department shall within the period specified therein repair or eliminate such excavation or embankment so as to eliminate the hazard and be in conformance with the requirements of this Article.

Section 7-198. Definitions.

For the purposes of this Article the definitions listed hereunder shall be construed as specified in this Section:

AS-GRADED is the surface conditions existing upon completion of grading.

BEDROCK is in-place solid rock.

BENCH is a relatively level step excavated into earth material on which fill is to be placed.

BORROW is earth material acquired from an off-site location for use in grading on a site.

CERTIFICATION shall mean a written civil engineering or geological opinion concerning the progress and completion of the work.

CIVIL ENGINEER shall mean a professional engineer registered in the State of Mississippi to practice in the field of civil engineering.

CIVIL ENGINEERING shall mean the application of the knowledge of the forces of nature, principles of mechanics and the properties of materials to the evaluation, design and construction of civil works for the beneficial uses of mankind

COMPACTION is the densification of a fill by mechanical means.

EARTH MATERIAL is any rock, natural soil or fill and/or any combination thereof.

EROSION is the wearing away of the ground surface as a result of the movement of wind, water and/or ice.

EXCAVATION is the mechanical removal of earth material.

FILL is a deposit of earth material placed by artificial means.

GEOLOGIST shall mean a geologist experienced and knowledgeable in geology.

GEOLOGY shall mean the application of geologic knowledge and principles in the investigation and evaluation of naturally occurring rock and soil for use in the design of civil works.

GRADE shall mean the vertical location of the ground surface.

GRADE-EXISTING is the grade prior to grading.

GRADE-ROUGH is the stage at which the grade approximately conforms to the approved plan.

GRADE-FINISH is the final grade of the site which conforms to the approved plan.

GRADING is any excavating or filling or combination thereof.

KEY is a designed compacted fill placed in a trench excavated in earth material beneath the toe of a proposed fill slope.

LANDCLEARING means the removal of trees, bushes, and other vegetation; the removal of structures, improvements or other man-made items; pulp-wooding, logging, thinning, earthwork, or other forest activity, etc.; and/or similar activities.

PUBLIC PROPERTY, RIGHTS-OF-WAYS OR EASEMENTS, ETC. means any land occupied by or used for city-owned water lines, sanitary sewer lines, storm sewer lines, roads, streets, etc., that shall be protected from damage by any work described in this Article.

SITE is any lot or parcel of land or contiguous combination thereof, under the same ownership, where grading is performed or permitted.

SLOPE is an inclined ground surface the inclination of which is expressed as a ratio of horizontal distance to vertical distance.

SOIL is naturally occurring surficial deposits overlying bed rock.

SOIL ENGINEER shall mean a professional engineer registered in the State of Mississippi experienced and knowledgeable in the practice of soil engineering.

SOIL ENGINEERING shall mean the application of the principles of soil mechanics in the investigation, evaluation and design of civil works involving the use of earth materials and

the inspection and testing of the construction thereof.

TERRACE is a relatively level step constructed in the face of a graded slope surface for drainage and maintenance purposes.

Section 7-200. Application.

To obtain a permit, the applicant shall first file an application therefor in writing on a form furnished for that purpose. Every such application shall:

1. Identify and describe the work to be covered by the permit for which application is made;
2. Describe the land on which the proposed work is to be done, by lot, block, tract, and house and street address, or similar description that will readily identify and definitely locate the proposed building or work;
3. Describe any public property, rights-of-way, and/or easements within the work area;
4. Be accompanied by plans and specifications as required in Section 7-201 of this Article;
5. State the estimated quantities of work involved;
6. Be signed by the permittee, or his authorized agent, who may be required to submit evidence to indicate such authority; and,
7. Give such other information as reasonably may be required by the Inspection Department.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-201. Plans and Specifications.

When required by the Inspection Department, each application for a permit shall be accompanied by two (2) sets of plans and specifications, and supporting data consisting of a soil

engineering report and civil engineering and geology report. Plans shall be drawn to scale upon substantial paper or cloth and shall be of sufficient clarity to indicate the nature and extent of the work proposed and show in detail that they will conform to the provisions of this Article and all relevant laws, ordinances, rules and regulations. Also, these plans should be on reproducible paper, cloth, or electronic media if distribution to other administrative departments is required.

The first sheet of each set of plans shall give the location of the work and the name and address of the owner and the person by whom they were prepared.

The plans shall include the following information:

1. General vicinity of the proposed site.
2. Property limits and accurate contours of existing ground and details of terrain and area drainage.
3. Limiting dimensions, elevations or finish contours to be achieved by the grading, and proposed drainage channels and related construction.
4. Detailed plans of all surface and subsurface drainage devices, walls, cribbing, dams and other protective devices to be constructed with, or as a part of, the proposed work together with a map showing the drainage areas and the estimated runoff of the area served by any drains by means of drainage calculations.
5. Details of the erosion prevention plan.
6. Location of any City utilities including sewer lines, water lines, storm drains, culverts. and/or any other public property.
7. Location of any buildings or structures on the property where the work is to be performed and the location of any buildings or structures on land of adjacent owners which are within fifteen (15) feet of property or which may be affected by the proposed grading operations.
8. Specifications shall contain information covering construction and material requirements.
9. All elevations must be stated in Mean Sea Level Datum and this fact should be indicated in a note on the plan sheet. especially in flood hazard areas.

Section 7-202. Soil Engineering Report.

The soil engineering report required by Section 7-201 shall include data regarding the nature, distribution and strength of existing soils, conclusions and recommendations for grading procedures and design criteria for corrective measures when necessary, and opinions and recommendations covering the adequacy of sites to be developed by the proposed grading. Recommendations included in the report and reviewed by the Inspection Department shall be incorporated in the grading plans or specifications. Included as part of this report shall be an erosion control plan in accordance to Section 7-211 of this Article.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-203. Geology Report.

The geology report required by Section 7-201 shall include an adequate description of the geology of the site, conclusions and recommendations regarding the effect of geologic conditions on the proposed development, and opinions and recommendations covering the adequacy of sites to be developed by the proposed grading.

Recommendations included in the report and approved by the Inspection Department shall be incorporated in the grading plans or specifications.

Section 7-204. Issuance of Permit.

1. The application, plans, and specifications filed by an application for a permit shall be checked by the Inspection Department. Such plans may be reviewed by other departments of the political subdivision to check compliance with laws and ordinances under their jurisdiction. If the Inspection Department is satisfied that the work described in an application for permit and the plans filed therewith conform to the requirements of this Article and other pertinent laws, ordinances, and guidelines (which include the technical manuals for (1) Mississippi Standard Specifications for Road & Bridge Construction, 1990 Edition and thereafter any latest edition, and (2) Department of Natural Resources guidelines) and that the fees specified in Section 7-205 have been paid, a permit shall be issued therefor to the applicant.

When the Inspection Department issues the permit, it shall endorse in writing or stamp on both sets of plans and specifications REVIEWED. Such approval plans and specifications shall not be changed, modified, or altered without authorization from the Inspection Department, and all work shall be done in accordance with the approved plans.

2. One (1) set of approved plans, specifications, computations and reports shall be retained by the Inspection Department for a period of not less than ninety (90) days from date of completion of the work covered therein, and one (1) set of approved plans and specifications shall be returned to the applicant, which set shall be kept on such site at all times during which the work authorized thereby is in progress.
3. The issuance or granting of a permit or approval of plans and specifications shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this Article. No permit presuming to give authority to violate or cancel the provisions of this Article shall be valid, except insofar as the work or use which it authorizes is lawful.

The issuance of a permit based upon plans, specifications, and reports shall not prevent the Inspection Department from thereafter requiring the correction of errors in said plans and specifications. The Inspection Department may require that grading operations and project design be modified if delays occur which incur weather-generated problems not considered at the time the permit was issued.

4. Every permit issued by the Inspection Department under the provisions of this Article shall expire by limitation and become null and void, if the work authorized by such permit is not commenced within one hundred twenty (120) days from the date of such permit. The work authorized by such permit shall not be suspended or abandoned at any time after the work is commenced but shall be carried through to completion.
5. The Inspection Department may, in writing, suspend or revoke a permit issued under provisions of this Article whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any ordinance or regulation or any of

the provisions of this Article.

Section 7-205. Fees.

Before accepting a set of plans and specifications for review, the Inspection Department shall collect a permit fee in the amount of One Hundred Dollars (\$100.00) for any land clearing, grading, or excavation activity. Separate permits and fees shall be required for all other building activities as required by the Building Codes.

Section 7-206. Bonds.

The Inspection Department may require bonds in such form and amounts as may be deemed necessary to assure that the work, if not completed in accordance with the approved plans and specifications, will be corrected to eliminate hazardous conditions.

In lieu of a surety bond, the applicant may file a cash bond or instrument of credit with the Inspection Department in an amount equal to that which would be required in the surety bond.

Source: Ordinance No. 1359-2000, 12-21-99

Section 7-207. Cuts.

Unless otherwise recommended in the approved soil engineering and/or civil engineering report and/or geology report, cuts shall conform to the provisions of this section.

1. *Slope:* The slope of cut surfaces shall be no steeper than is safe for the intended use. Cut slopes shall be no steeper than two (2) horizontal to one (1) vertical.
2. *Drainage and Terracing:* Drainage and terracing shall be provided as required in Section 7-210.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-208. Fills.

Unless otherwise recommended in the approved soil engineering report fills shall conform to the provisions of this section. In the absence of an approved soil engineering report these provisions may be waived for minor fills not intended to support structures.

1. *Fill Location:* Fill slopes shall not be constructed on natural slopes steeper than two (2) to one (1) or where the fill slope toes out within twelve (12) feet horizontally of the top of existing or planned cut slopes.
2. *Preparation of Ground.* The ground surface shall be prepared to receive fill by removing vegetation, non-complying fill, topsoil and other unsuitable materials as determined by the soil engineer, and, where the slopes are five (5) to one (1) or steeper, by benching into sound bedrock or other competent material.
3. *Fill Material:* Earth materials which have no more than minor amounts of organic substances and have no rock or similar irreducible material with a maximum dimension greater than eight (8) inches shall be used.

4. *Compaction:* All fills shall be compacted to a minimum of ninety percent (90%) of maximum density as determined by the proctor method of ASTM Standard (American Standard for Testing Materials) for the moisture-density relations of soils, D1557-58T. Field density shall be determined in accordance with ASTM Standard for the in-place density of soils, D1556-58T, or equivalent as approved by the Inspection Department.
5. *Slope:* The slope of fill surfaces shall be no steeper than is safe for the intended use. Fill slopes shall be no steeper than two (2) horizontal to one (1) vertical.
6. *Drainage and Terracing:* Drainage and terracing shall be provided and the area above fill slopes and the surfaces of terraces shall be graded and paved as required in Section 7-210.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-209. Setbacks.

The tops and the toes of cut and fill slopes shall be set back from property boundaries as far as necessary for safety of the adjacent properties and to prevent damage resulting from water run-off or erosion of the slopes.

The tops and the toes of cut and fill shall be set back from structures as far as is necessary for adequacy of foundation support and to prevent damage as a result of water runoff or erosion of the slopes.

Unless otherwise recommended in the approved soil engineering and/or civil engineering report and/or geology report and shown on the approved grading plan, setbacks shall be no less than the recommended guidelines for the Mississippi Standard Specifications for Road & Bridge Construction, 1990 Edition and thereafter any latest edition.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-210. Drainage and Terracing.

Unless otherwise indicated on the approved grading plan, drainage facilities and terracing shall conform to the provision of this Article.

1. *Terrace:* Terraces at least six (6) feet in width shall be established at not more than thirty (30) foot vertical intervals to control surface drainage and debris. Suitable access shall be provided to permit proper cleaning and maintenance. Swales or ditches on terraces shall have a minimum gradient of five percent (5%) and must be paved with reinforced concrete not less than three (3) inches in thickness or an approved equal paving or adequate planting, including grass, may be placed on these terraces for reinforcement. They shall have a minimum depth at the deepest point of one (1) foot and a minimum paved width of five (5) feet. A single run of swale or ditch shall not collect runoff from a tributary area exceeding thirteen thousand five hundred (13,500) square feet (projected) without discharging into a down drain.
2. *Subsurface Drainage:* Cut and fill slopes shall be provided with subsurface drainage as necessary for stability.
3. *Disposal:* All drainage facilities shall be designed to carry waters to the nearest practicable drainage-way approved by the Inspection Department and/or other appropriate jurisdiction as a safe place to deposit such waters. If drainage facilities

discharge onto natural ground, riprap may be required.

At least two percent (2%) gradient toward approved drainage facilities from building pads will be required unless waived by the Inspection Department for non-hilly terrain.

EXCEPTION: The gradient from the building pad may be one percent (1%) where building construction and erosion control will be completed before hazardous conditions can occur.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-211. Erosion Control.

The faces of cut and fill slopes shall be prepared and maintained to control against erosion. This control may consist of installing filter-fabric barriers or any other method before completing an effective planting area. The protection for the slope shall be installed as soon as practicable and prior to calling for final approval.

Where necessary, check dams, cribbing, riprap or other devices or methods shall be employed to control erosion and provide safety in reference to the technical manuals for (1) Mississippi Standard Specifications for Road & Bridge Construction, 1990 Edition and thereafter any latest edition, and (2) Department of Natural Resources.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-212. Grading Inspection.

All grading operations for which a permit is required shall be subject to inspection by the Inspection Department. When required, special inspection of grading, operations and special testing shall be performed in accordance with provisions of Section 7-212.2.

1. *Grading Designation:* All grading in excess of five thousand (5000) cubic yards shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as “engineered grading”. Grading involving less than five thousand (5000) cubic yards shall be designated “regular grading” unless the permittee, with the approval of the Inspection Department chooses to have the grading performed as “engineered grading”.
2. *Engineered Grading Requirements:* For engineered grading it shall be the responsibility of the civil engineer who prepares the approved grading plan to incorporate all recommendations from the soil engineering and engineering geology reports into the grading plan. He/she shall also be responsible for the professional inspection and certification of the grading within his/her area of technical specialty. This responsibility shall include, but need not be limited to, inspection and certification as to the establishment of line, grade and drainage of the development area. The civil engineer shall act as the coordinating agent in the event the need arises for liaison between the other professionals, the contractor and the Inspection Department. The civil engineer shall also be responsible for the preparation of revised plans and the submission of as-graded grading plans upon completion of the work.

Soil engineering and civil engineering and geology reports shall be required as specified in Sections 7-202 and 7-203. During grading all necessary reports, compaction data and soil engineering and civil engineering and geology recommendations shall be submitted to the civil engineer and the Inspection Department by the soil engineer and the civil engineer and geologist.

The soil engineer's area of responsibility shall include, but need not be limited to, the professional inspection and certification concerning the preparation of ground to receive fills, testing for required compaction, stability of all finish slopes and the design of buttress fills, where required, incorporating data supplied by the engineering geologist.

The civil engineer's area of responsibility shall include, but need not be limited to, the site grading, design, and drainage.

The geologist's area of responsibility shall include, but need not be limited to, professional inspection and certification of the adequacy of natural ground for receiving fills and the stability of cut slopes with respect to geological matters, and the need for subdrainage or other ground water drainage devices. He shall report his findings to the soil engineer and the civil engineer for engineering analysis.

The Inspection Department shall inspect the project at various stages of the work requiring certification and at any more frequent intervals necessary to determine that adequate control is being exercised by the professional consultants.

3. *Regular Grading Requirements:* The Inspection Department may require inspection and testing by an approved testing agency.

The testing agency responsibility shall include, but need not be limited to, certification concerning the inspection of cleared areas and benches to receive fill, and the compaction of fills.

When the Inspection Department has cause to believe that geologic factors may be involved, the grading operation will be required to conform to engineered grading' requirements.

4. *Notification of Noncompliance:* If, in the course of fulfilling their responsibility under this Article, the civil engineer, the soil engineer, the geologist or the testing agency finds that the work is not being done in conformance with this Article or the approved grading plans, the discrepancies shall be reported immediately in writing to the person in charge of the grading work and to the Inspection Department. Recommendations for corrective measures, if necessary, shall be submitted.
5. *Transfer of Responsibility for Certification:* If the civil engineer, the soil engineer, the geologist or the testing agency of record are changed during the course of the work, the work shall be stopped until the replacement has agreed to accept the responsibility within the area of their technical competence for certification upon completion of the work.

Source: Ordinance No. 1359-1999, 12-21-99

Section 7-213. Completion of Work.

Upon completion of the rough grading work and at the final completion of the work, the Inspection Department may require the following reports and drawings and supplements thereto.

1. *Final reports:*
 - a. An As-Graded grading plan prepared by the civil engineer including original ground surface elevations, as graded ground surface elevations, lot drainage patterns and locations and elevations of all surface and subsurface drainage

facilities. He/she shall provide certification that the work was done in accordance with the final approved grading plan.

- b. A Soil Grading Report prepared by the soil engineer including locations and elevations of field density tests, summaries of field and laboratory tests and other substantiating data and comments on any changes made during grading and their effect on the recommendations made in the soil engineering investigation report. He/she shall provide certifications as to the adequacy of the site for the intended use.
- c. A Geologic Grading Report prepared by the geologist including a final description of the geology of the site including any new information disclosed during the grading and the effect of same on recommendations incorporated in the approved grading plan. ARTICLE III. DISCRIMINATION

Section 7.1-11. Filing of Complaints.

That it being the public policy of the City of Laurel that no otherwise qualified disabled individual be excluded from the participation in, or be denied the benefits of, or be subjected to

discrimination under any program or activity receiving Federal financial assistance, the City of Laurel does, in furtherance of said policy, hereby designate the Manager of Human Resources and/or his/her designee of the City to be Coordinator of the Commission and to receive any Complaint alleging violation of the aforesaid policy. Complaint should be filed in writing and shall contain the name, address, and telephone number of the person and/or persons filing the Complaint, and a brief description of the alleged violation, and should be submitted to the Manager of Human Resources and/or his designee, Laurel City Hall, Laurel MS 39440. Complaints shall be filed within sixty (60) days after the Complainant becomes aware of the alleged violation. Upon receipt of said Complaint, it is the duty of the Human Resources Manager and/or his/her designee to submit the Complaint to the Commission. The Commission shall conduct a thorough investigation, affording all interested persons and their representatives, if any, an opportunity to submit evidence relevant to the Complaint. It shall be the duty of the Commission to provide a written determination as to the validity of the Complaint, and a description of the solution, if any, shall be issued by the Commission and a copy forwarded to the Complainant no later than forty five (45) days after its filing.

Section 7.1-12. Appeal.

In the event that the Complainant is dissatisfied with the determination and/or solution, the Complainant may request the Commission to reconsider this case within thirty (30) days, and/or request a direct appeal to the Laurel City Council. It is thereupon the duty of the Personnel Director to forward a copy of the Complaint, the determination and/or description of the solution, and any other applicable documents to the City Council for review. The City Council shall then make a determination of said Complaint based on the facts in the case, and the appropriate local, State, and Federal laws, rules and regulations.

Source: Ordinance No. 1208-1993, §3-2, 6-22-93

Section 7.1-13. Other Remedies.

The right of Complainant to a prompt and equitable solution to any complaint filed hereunder shall not be impaired by that person's pursuit of other remedies, rights and/or legal redress, such as the filing of a legal complaint with any other local, State and/or Federal Agency. Likewise, utilization of this grievance procedure is not a prerequisite to the pursuit of any other remedies.

All other ordinances and/or resolutions in conflict therewith, shall be and the same are hereby repealed. Whenever any portion of this Ordinance shall be held to be invalid or unconstitutional by a court of competent jurisdiction, such holding shall not affect any portion of this Ordinance which is not in and of itself invalid or unconstitutional.

Section 8.1-3. Intent and Purpose.

- (a) It is the intent and purpose of this Agreement to establish an office that will insure the complete and efficient utilization of all of the County and City facilities to prepare for and combat disaster resulting from enemy actions and other disasters defined herein.
- (b) The Emergency Management Council (Civil Defense) will be the coordinating agency for all activity in connection with disaster planning and operations; it will be the instrument through which the County and City and other political subdivisions may exercise the authority and discharge the responsibilities vested in them by the Mississippi Emergency Management Act, Chapter 15 of Title 33, Mississippi Code of 1972, Annotated, and this Agreement.
- (c) This Chapter will not relieve any County or City Department of the moral responsibilities or authority given to it by the State Statutes, City Resolutions,

***Editor’s Note** --- Ordinance No. 986-1983, §§ 1--12, adopted July 26, 1983, did not specifically amend the Code, but was included herein as Ch. 8.1, §§ 8.1-1---8.1-12, at the discretion of the editor.

Section 8.1-4. Definitions.

The following definitions shall apply in the interpretation of this Agreement:

- A. **Emergency Management ("Civil Defense")** in its broad meaning is to carry out governmental functions of maintaining the public peace, health and safety during an emergency. This shall include plans and preparations for mitigation, preparedness, response, and recovery from, the effects of an attack on the County or City by the forces of any enemy nation or the agents thereof, and it shall also include such activity in connection with other disaster as defined herein. It shall not, however, include any activity that is the primary responsibility of the Military Forces of the United States.
- B. **Attack** shall mean a direct or indirect assault against the County or City, Mississippi, its government, its environs or the nation by the forces of a hostile nation or the agents thereof, including assault by bombing, radiological, chemical or biological warfare, or sabotage.
- C. **Disaster** includes, but is not limited to, actual or threatened enemy attack, sabotage, extraordinary fire, flood, storm, civil disorders, epidemic or other impending or actual calamity endangering health, life or property of constituted government.
- D. **Emergency Forces** shall mean the employees equipment and facilities of all City departments, boards, institutions and personnel, equipment and facilities distributed by, or obtained from, volunteer persons and agencies.
- E. **Volunteer** shall mean contributing a service, equipment or facilities to the emergency preparedness organization without remuneration.
- F. **Disaster Volunteer** shall mean any person duly registered, identified and appointed by the Director of the Civil Defense and assigned to participate in the disaster preparedness or operational activity.
- G. **Chief Administrative Officer** shall mean the Sheriff of Jones County.
- H. **Director** shall be the Head of the Civil Defense Office under the direction and control of the Emergency Management Council.
- I. **Regulations** shall include plans, programs, and other emergency procedures deemed essential to disaster preparedness and operations.
- J. **City** shall mean the incorporated areas of the City of Laurel that lie inside the City limits geographically located within Jones County. "City" may include other political jurisdiction where there exists an agreement that they be included under this Agreement.

Section 8.1-5. Organization and Appointment.

- A. The Emergency Management Council (Civil Defense) shall utilize, to the fullest extent, the existing agencies within the County and City. The Emergency Management Council shall be responsible for the organization, administration, and operations of the Emergency Preparedness and Operational Forces of the County and City. The Emergency Management Council will designate a line of succession for those bodies to insure that the necessary responsibility for direction and control can be exercised in the event of absence or inability of a quorum to act.
- B. The Organization shall consist of the following:
 - 1. An Office of Emergency Management (Civil Defense) under the direction of the Emergency Management Council. There shall be a Chief Administrative Officer and Director, and such assistants and other employees as are deemed necessary for the proper functioning of the organization.
 - 2. The employees, equipment and facilities of the County and City Departments, Boards and Commissions, who will participate in the emergency preparedness activities. Duties assigned to a department shall be the same or similar to the normal duties of the department.
 - 3. Volunteer persons and agencies offering service to, and accepted by the County and City.
- C. The City Council, in accordance with agreements with participating political subdivisions, will appoint two (2) members of Emergency Management Council, consisting of the Mayor and President of the City Council. Two members of the Emergency Management Council will be from the Board of Supervisors, who shall be the President and Vice-President of the Board.
- D. The Fifth (5th) member of the Emergency Management Council will be the Sheriff of Jones County.

Section 8.1-6. Emergency Powers and Duties.

- A. The Emergency Management Council shall have the following powers and duties:
 - (1) exercise the emergency power and authority necessary to fulfill its general powers and duties under this Agreement and its judgment shall be the sole criteria necessary to invoke emergency powers provided in this Agreement and those invested by State Statutes listed in §33-15-17, Mississippi Code 1972, as

amended. The Emergency Management Council may convene to perform its powers as the situation demands, and receive reports relative to disaster preparedness activities.

- (2) to promulgate such regulations, during any period when disaster threatens or when a disaster has struck, as is deemed necessary to protect life and property and preserve critical resources. Examples of those regulations, but they need not be limited to those that follow, are:
 - a. Regulations prohibiting or restricting the movement of vehicles in order to facilitate the work of disaster forces, or to facilitate the mass movement of persons from critical areas within the political subdivision's jurisdiction.
 - b. Regulations pertaining to the movement of persons from areas deemed to be hazardous or vulnerable to disaster.
 - c. Such other regulations necessary to preserve public peace, health and safety. Regulations promulgated in accordance with law will be given widespread circulation by proclamation published and uttered by newspaper and radio. Any person violating the provisions Orders issued by the Emergency Management Council pursuant to law during a proclaimed civil emergency shall be guilty of a misdemeanor and punished by fine not exceeding Three Hundred Dollars (\$300.00) or six (6) months imprisonment, or both such fine and imprisonment.
- (3) The Emergency Management Council shall order disaster forces to the aid of other communities when required in accordance with the Statutes of the State of Mississippi, and it may request the State, or a political subdivision of the State, to send aid to the County and City in case of disaster where conditions in the County and City are beyond the control of the local disaster forces.
- (4) The Emergency Management Council may obtain vital supplies, equipment and other properties found lacking and needed for the protection of health, life and property of the people, and bind the County and City for the fair value thereof.
- (5) The Emergency Management Council may require emergency services of any County or City officer or employee. If regular forces are determined to be inadequate, the Emergency Management Council may require the services of such other personnel as can be obtained that are available, including volunteer citizens. All duly authorized persons rendering disaster emergency services shall be entitled to the privileges and immunities as are provided by the State of Mississippi Law, Local Regulations and Agreements for regular County and City employees and other registered and identified disaster workers. Claims for appropriate compensation for this assistance will be processed when conditions so warrant consideration.
- (6) Some of the duties ascribed to the Emergency Management Council may, at its discretion, be handled by the Chief Administrative Officer, but the responsibility

and authority stems from and remains with the Emergency Management Council.

- (7) Emergency Management Council will appoint a Director of Emergency Management Council (Civil Defense) who shall be a person well versed and trained in planning and operations involving the many different agencies which will operate to protect the public health, safety and welfare in the event of danger from enemy attack or disaster as defined in this Agreement.

- B. The Director shall be responsible for, but not necessarily limited to, the following duties:
 - a. The Director shall be responsible for the planning, coordination and operation of the emergency preparedness and operations activity of the political subdivision. Under the direction of the Emergency Management Council, he shall maintain liaison with the State and Federal authorities and the authorities of other nearby political subdivisions to insure the most effective implementation of the local disaster plan.
 - b. The recruitment of volunteer personnel and agencies to augment those of the political subdivision.
 - c. Negotiating and concluding agreements with owners or persons in control of buildings or other property for the use of such buildings for sheltering the public during disaster conditions and to designate these buildings as public shelters.
 - d. Establish a public information program which will inform the people of the actions required for the protection of their persons and property in case of disaster.
 - e. Conducting public practice alerts and tests to insure the efficient operations of the disaster forces and to familiarize residents with disaster regulations, procedures and operations.
 - f. Coordinating the activity of all other public and private agencies engaged in any disaster preparedness or operation activity.
 - g. Assuming such authority and conducting such activity as the Emergency Management Council may direct to promote and execute the local disaster plan.
 - h. Establish a reporting system to keep the Emergency Management Council informed on the emergency preparedness level in the political subdivision at all times.

Section 8.1-7. Emergency Operations Plan.

Management Council shall maintain:

- (a) A Comprehensive Emergency Management Plan shall be adopted and maintained by the Emergency Management Council. In the preparation of this Plan as it pertains to the Emergency Management Council (Civil Defense) Organization, it is the intent that the services, equipment, facilities and personnel of all existing departments, agencies, Councils or Commissions shall be used to the fullest extent possible. When approved, it shall be the duty of all concerned departments and agencies to perform the functions assigned by the plan and to maintain their portion of the plan in a current state of readiness at all times. The basic plan shall be considered supplementary to this Agreement, and have the effect of law whenever a disaster, as defined by this Agreement, has been proclaimed. All plans developed must be in accord with existing Federal, State and local Statutes and understandings of the various departments, involved.
- (b) There shall be prescribed in the Local Disaster Plan those positions for which lines of succession are necessary. In each department and agency, the responsible person will designate and keep on file with the Director a current list of three (3) persons as successors to this position. The list will be in order of succession and will, as nearly as possible, designate persons best capable of carrying out all assigned duties and functions.
- (c) Each department and any agency head assigned responsibility in the basic plan shall be responsible for carrying out all duties and functions assigned therein. Duties will include the organization and training of assigned employees and volunteers. Each department and agency head shall formulate the operational plan for his service which, when approved, shall be an annex to and part of the basic plan.
- (d) Amendments to the basic Local Disaster Plan will be submitted to the Emergency Management Council for its approval. The Chief Administrative Officer will make recommendations to the Emergency Management Council relative to proposed amendments. Such amendments shall take effect on the date of approval unless action is taken by the Emergency Management Council to invoke prior approval. In the event an amendment is pending at the time that a disaster is proclaimed under provisions of this Agreement, the amendment will be considered approved and will remain effective unless specifically revoked by the Emergency Management Council.
- (e) When a required competency or skill for a disaster function is not available, the Emergency Management Council is authorized to direct the Chief Administrative Officer to seek assistance from persons outside of government. The assignment of duties, when of a supervisory nature, shall also grant authority for the persons so assigned to carry out such duties prior to, during and after the occurrence of a disaster. Such services from persons outside the government may be accepted by the Council on a volunteer basis. Such citizens shall be enrolled as disaster assistance volunteers in cooperation with the heads of the department affected.

CHAPTER 8.3

CEMETERIES

Section 8.3-1. Cemeteries---Definitions.

For the purposes of Sections 8.3-2 and 8.3-3:

Cemetery plot is any subsection or portion of a publicly designated and approved cemetery within the City of Laurel, whether described by lot number or metes and bounds.

Monument includes but is not limited to any commemorative burial marker or structure composed of any substance, including but not limited to wood, plastic, metal, stone, granite or marble.

Source: Ordinance No. 836-1979, § 1, 1-16-79; Ordinance No. 1664-2017, 8-22-2017

Section 8.3-2. Burial Procedure Policy.

Upon recommendation by the Cemetery Committee of the Laurel City Council finds and determines the need for the adoption of a burial procedure policy for Oak Hill No. 2 Memorial Cemetery of Laurel, Mississippi, and the following procedure is hereby adopted:

- (1) Inform funeral homes that they will be held responsible for digging and they will be fined and or lose the privilege to bury if they bury without prior approval which consist of payment of \$200.00 for the maintenance fee and adherence to all other regulations as outlined in this policy. First offense will be a \$1500.00 fine and the second offense will be the loss of the privilege to bury in the cemetery.
- (2) All requests to dig graves would come through the city clerk, and be requested by a funeral home that appears on an established list of homes kept by the city clerk.
- (3) The City will establish a list of grave digging services from funeral homes and also the funeral homes will provide the City Clerk's office with the name, address and phone number of the grave opener for each funeral, no others will be allowed. No private/personal digging will be allowed. **NO EXCEPTIONS.**
- (4) All graves will require a permanent head marker with name, etc.
- (5) All graves shall be opened and closed according to state law. Funeral homes shall be responsible for removing excess dirt from grave site and cemetery to prohibit maintenance problems.

Editor's Note – CHAPTER 8.3 was created by Ordinance No. 1664, 8-22-17 through removal from Chapter 15. Offenses, of Sections 15-8 and 15-9 and inserting them as Sections 8.3-1 8.3-2, and 8.3-3.

- (6) The cemetery will be open from 7:30 A.M. to 4:30 P.M. each day. The walk thru gates will be open 24 hours a day.
- (7) Burials are only allowed for immediate family (husband, wife, mother, father, sister, brother and grandparents) with loved ones at Oak Hill Memorial.

Section 8.3-3. Prohibited Acts.

- (a) It shall be unlawful for any person to place any burial monument or marker on the burial plot of another located within cemetery grounds owned by the City without prior securing of a permit issued by the City Cemetery Manager authorizing and approving the placement of such a monument or marker. A permit approving the placement of a burial marker or monument may be obtained upon the payment of Five Dollars (\$5.00), proper demonstration of authorization to place such a monument and an accurate description of the cemetery plot upon which the applicant desires to rest a monument.
- (b) It shall be an offense for any person to place a burial monument or marker upon any portion of the burial plot of another, or in such a position as to encroach upon the designated walkways, thoroughfares or vehicle paths located within the cemetery grounds owned by the City. The penalty for such violation shall be in the amount of Fifty Dollars (\$50.00).
- (c) It shall be unlawful for any person, whether by unintentional, willful, wanton, reckless or malicious means, to desecrate the burial marker or cemetery plot of another or to damage or destroy any foliage, tree, shrub, grass, walkway or vehicle path within the cemetery grounds owned by the City. The penalty for such violation shall be in the amount of Fifty Dollars (\$50.00).

DIVISION 2. INSPECTION AND ENFORCEMENT

Section 9-3. Supplemental.

The sections of this division are in addition to and in supplement of the provisions of the current versions of the Standard Fire Prevention Code* used by the City. Any inspection and enforcement provisions hereunder may also be used where violations of these sections and said Codes are found, which will be in addition to the provisions of said Codes.

Section 9-4. Definitions.

- (a) *Fire Department* – Fire Chief or his agent, or a fire official, etc.
- (b) *Inspection Department* – Superintendent of Inspection or his agent, or an inspection official, etc.
- (c) *Board of Adjustments* – local appointed appeal board for decisions and interpretation of building and technical codes.
- (d) *Occupancy Classification* – purpose for which a building or part thereof is used or intended to be used (i.e., residential, commercial, educational, assembly, family).
- (e) *Maximum Capacity* – maximum number of persons that may be located within a business establishment at any one time.
- (f) *Establishment* – owner of structure and/or licensee (holder of privilege license).

Source: Ordinance No. 1385-2001, Ch. 9, Art. II, Div. 2, §9-4, 3-20-01

Section 9-5. Capacity.

The Fire Department will determine the maximum capacity of people allowed at any one time in an establishment, and the number of required fire escapes and/or exits for each establishment applying for a privilege license with the City. It will give priority to those establishments that attract large numbers of people, such as clubs, eating establishments, lounges, entertainment establishments, auditoriums, sport arenas, etc.

- (a) Each floor used for business operations will be assigned a maximum capacity of people in it at any one time.

* Copies of the Standard Fire Prevention Code and Standard Building Code are available for review in the Inspection Department.

- (b) Signs stating said maximum capacity shall be posted by the establishment in a conspicuous location within the establishment.
- (c) The number of fire escapes and/or exits will be based on the maximum capacity for each floor of an establishment.

Section 9-7. Random Inspections.

The Inspection Department and/or the Laurel Fire Department, and/or the Laurel Police Department have the authority to inspect any and all business establishments under a random system or upon receipt of a complaint to insure compliance with the establishment's maximum capacity limit(s) and to impose penalties as set forth herein. The primary responsibility for inspections and determining violations will rest with the Fire Department, but either of the other departments may also act upon information of a violation.

Source: Ordinance No. 1385-2001, Ch. 9, Art. II, Div. 2, §9-7, 3-20-01

Section 9-8. Violations/Penalties.

Upon finding a violation by the Inspection Department, and/or the Fire Department, and/or the Police Department, said Department or official shall have the authority to enforce the above provisions and impose penalties as follows:

- (a) Under the first violation, the establishment will receive a written warning stating the deficiencies following which the establishment must immediately correct the violation if it is related to maximum capacity amounts, or will be granted up to thirty (30) days to correct the violation if it is related to the number of necessary fire escapes and/or exit doors.
- (b) A second violation will result in a municipal ticket and a fine as herein set. The same time periods, as described in subsection (a) above, will be granted to correct the violation. A hearing for said violation and fine will be held by the Municipal Court.
- (c) A third violation will result in a municipal ticket, and a revocation of the

establishment's privilege license with the City, which may not be renewed for a period of six (6) months. A hearing for said violation, fine and relocation will be held by the Municipal Court.

- (d) Upon any violation, the establishment shall be closed from the date of notification to the establishment until the violation(s) is (are) corrected.

Section 9-13. Open Burn Permits and Penalties

It shall be illegal to conduct open burns within the confines of the City limits unless said burns

and burn sites have first been approved by the City Fire Department and a permit has been issued for said burn at said site under those terms and regulations to be furnished to the applicant by the City Fire Department. This section applies to, but is not limited to, the burning of trash, debris and other flammable materials by private citizens, contractors, organizations, businesses, institutions or the like. Anyone who fails to comply with this section or any portion thereof shall be subject to a fine not to exceed one thousand dollars (\$1,000.00) and/or imprisonment not to exceed six months.

FLOOD DAMAGE PREVENTION ORDINANCE

ARTICLE 1. STATUTORY AUTHORIZATION, FINDINGS OF FACT, PURPOSE, AND OBJECTIVES.

SECTION A. STATUTORY AUTHORIZATION.

The Legislature of the state of Mississippi has in Title 17, Chapter 1, Mississippi Code of 1972 Annotated delegated the responsibility to local government units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the City Council of the City of Laurel does hereby adopt the following floodplain management regulations.

SECTION B. FINDINGS OF FACT.

- (1) The City of Laurel is subject to periodic inundation, which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
- (2) These flood losses are caused by the cumulative effect of obstructions, both inside and outside the identified Special Flood Hazard Areas, causing increases in flood heights and velocities and by the occupancy in flood hazard areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, floodproofed, or otherwise unprotected from flood damages.

SECTION C. STATEMENT OF PURPOSE.

It is the purpose of this ordinance to promote the public health, safety, and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- (1) Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, which result in damaging increases in erosion or in flood heights or velocities;
- (2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
- (4) Control filling, grading, dredging, and other development which may increase erosion or flood damage, and;
- (5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

SECTION D. OBJECTIVES.

The objectives of this ordinance are:

- (1) To protect human life and health;
- (2) To minimize expenditure of public money for costly flood control projects;
- (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- (4) To minimize prolonged business interruptions;
- (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
- (6) To help maintain a stable tax base by providing for the sound use and development of flood prone areas in such a manner as to minimize flood blight areas, and;
- (7) To ensure that potential homebuyers are notified that property is in a flood prone area.

SECTION E. METHODS OF REDUCING FLOOD LOSSES.

In order to accomplish its purposes, this ordinance includes methods and provisions for:

- (1) Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
- (2) Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- (4) Controlling filling, grading, dredging, and other development which may increase flood damage, and;
- (5) Preventing or regulating the construction of flood barriers that will unnaturally divert floodwaters or may increase flood hazards in other areas.

ARTICLE 2. DEFINITIONS.

Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this ordinance it's most reasonable application.

A Zone is the Area of Special Flood Hazard without base flood elevations determined.

AE Zone is the Area of Special Flood Hazard with base flood elevations determined.

Accessory structure (Appurtenant structure) means a structure, which is located on the same parcel of property as the principal structure and the use of which is incidental to the use of the principal structure. Accessory structures should constitute a minimal initial investment, may not be used for human habitation, and be designed to have minimal flood damage potential. Examples of accessory structures are detached garages, carports, storage sheds, pole barns, and hay sheds.

Addition (to an existing building) means any walled and roofed expansion to the perimeter or height of a building. Any addition shall be considered new construction. If the addition is more than 50% of the market value of the structure, then the addition and the existing structure are now new construction.

Appeal means a request for a review of the Floodplain Administrator's interpretation of any provision of this ordinance or a request for a variance.

AR/AE, AR/AH, AR/AO, and AR/A Zones are SFHAs that result from the decertification of a previously accredited flood protection system or levee that is in the process of being restored to provide a one percent chance or greater level of flood protection. After restoration is complete, these areas will still experience residual flooding from other flooding sources.

A99 Zone is that part of the SFHA inundated by the one percent chance flood to be protected from the one percent chance flood by a Federal flood protection system or levee under construction, no base flood elevations are determined.

Area of shallow flooding means a designated AO or AH Zone on the community's Flood Insurance Rate Map (FIRM) with flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of special flood hazard is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. This area is also referred to as the Special Flood Hazard Area (SFHA).

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year (also called the "one percent chance flood").

Base Flood Elevation (BFE) is the elevation shown in the Flood Insurance Study (FIS) for Zones AE, AH, AR, AR/A, AR/AE, AR/AH, AR/AO, and VE that indicates the water surface elevation resulting from a flood that has a one percent or greater chance of being equaled or exceeded in any given year.

Basement means any portion of a building having its floor sub-grade (below ground level) on all sides.

Building see **Structure**.

Community is a political entity and/or its authorized agents or representatives that have the authority to adopt and enforce floodplain ordinances for the area under its jurisdiction.

Community Floodplain Management Map means any map produced by the community utilizing best available base flood elevation and floodway data that is from a federal, state, or other accepted technical source.

Community Rating System (CRS) is a program developed by the Federal Insurance Administration to provide incentives for those communities in the Regular Program that have gone beyond the minimum floodplain management requirements to develop extra measures to provide protection from flooding.

Community Flood Hazard Area (CFHA) is an area that has been determined by the Floodplain Administrator (or other delegated, designated, or qualified community official) from available technical studies, historical information, and other available and reliable sources, which may be subject to periodic inundation by floodwaters that can adversely affect the public health, safety and general welfare. This includes areas downstream from dams.

Critical facility (also called critical action) means facilities for which the effects of even a slight chance of flooding would be too great. The minimum floodplain of concern for critical facilities is the 0.2 percent chance flood level. Critical facilities include, but are not limited to facilities critical to the health and safety of the public such as: emergency operations centers, designated public shelters, schools, nursing homes, hospitals, police, fire and emergency response installations, vital data storage centers, power generation and water and other utilities (including related infrastructure such as principal points of utility systems) and installations which produce, use or store hazardous materials or hazardous waste (as defined under the Clean Water Act and other Federal statutes and regulations).

D Zone is an area in which the flood hazard is undetermined.

Dam is any artificial barrier, including appurtenant works, constructed to impound or divert water, waste water, liquid borne materials, or solids that may flow if saturated. All structures necessary to maintain the water level in an impoundment or to divert a stream from its course will be considered a dam.

Development means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, or storage of materials or equipment.

Dry Floodproofing means any combination of structural and nonstructural additions, changes, or adjustments to structures, which reduce or eliminate flood damages to real estate or improved real estate property, water, and sanitary facilities, structures, and their contents. Structures shall be floodproofed with a minimum of 12 inches of freeboard (more is recommended) in relation to the base flood elevation. Dry floodproofing of a pre-FIRM residential structure that has not been substantially damaged or improved is allowed. Dry floodproofing of a post-FIRM residential building is not allowed. Non-residential structures may be dry floodproofed in all flood zones with the exception of the Coastal High Hazard Area or the Coastal AE Zone.

Elevated building means for insurance purposes, a non-basement building which has its lowest elevated floor raised above ground level by foundation walls, shear walls, posts, pilings, columns, or piers.

Elevation Certificate is a FEMA form used as a certified statement that verifies a building's elevation information.

Emergency Program means the first phase under which a community participates in the NFIP. It is intended to provide a first layer amount of insurance coverage for all insurable buildings in that community before the effective date of the initial FIRM.

Enclosures below the Lowest Floor see "Lowest Floor."

Encroachment means the advance or infringement of uses, plant growth, fill, excavation, buildings, structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Executive Order 11988 (Floodplain Management) this order requires that no federally assisted activities be conducted in or have the potential to affect identified Special Flood Hazard Areas, unless there is no practicable alternative.

Executive Order 11990 (Wetlands Protection) this order requires the avoidance of adverse impacts associated with the destruction or modification of wetlands.

Existing Construction means structures for which the "start of construction" commenced before date of 09/15/1977. Existing construction may also be referred to as existing structures.

Existing manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

Expansion to an existing manufactured home park or subdivision includes the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Fill means a deposit of earthen materials placed by artificial means.

Five-Hundred Year Flood means the flood that has a 0.2 percent chance of being equaled or exceeded in any year.

Areas subject to the 0.2 percent chance flood have a moderate risk of flooding.

Flood or flooding means:

- a.) A general and temporary condition of partial or complete inundation of normally dry land areas from:
 - 1.) The overflow of inland or tidal waters.
 - 2.) The unusual and rapid accumulation or runoff of surface waters from any source.
 - 3.) Mudslides (i.e. mudflows) which are proximately caused by flooding as defined in paragraph (A)(2) of this definition and are akin to a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.
- b.) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph (A)(1) of this definition

Flood (insurance definition) means a general and temporary condition of partial or complete inundation of two or more acres of normally dry land areas or of two or more properties (e.g. a building and a public street) from (1) overflow of inland or tidal waters (2) unusual and rapid accumulation or runoff of surface waters (3) mudflows caused by flooding.

Flood Insurance Rate Map (FIRM) means an official map of a community, on which FEMA has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Insurance Study (FIS) is the document which provides an examination, evaluation, and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation, and determination of mudslide and/or flood-related erosion hazards.

Floodplain means any land area susceptible to being inundated by flood waters from any source.

Floodplain Administrator is the individual appointed to administer and enforce the floodplain management regulations.

Floodplain management means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the floodplain, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space plans.

Floodplain management regulations means this ordinance and other zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas. This term describes federal, state, or local regulations in any combination thereof, which provide standards for preventing and reducing flood loss and damage.

Floodproofing Certificate is an official FEMA form used to certify compliance for non-residential structures in non-Coastal High Hazard Areas as an alternative to elevating buildings to or above the base flood elevation.

Floodway *See Regulatory Floodway.*

Floodway fringe means that area of the special flood hazard area on either side of the regulatory floodway.

Flood Protection Elevation is the base flood elevation plus the community freeboard. In areas where no base flood

elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations or base flood elevations determined and/or approved by the floodplain administrator plus freeboard.

Freeboard means a factor of safety, usually expressed in feet above the BFE, which is applied for the purposes of floodplain management.

Functionally dependent use means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, ship building and ship repair facilities. The term does not include long-term storage, manufacture, processing functions, sales, administrative functions, or service facilities.

Hardship (as related to variances of this ordinance) means the exceptional difficulty that would result from a failure to grant the requested variance. The City Council requires that the variance is exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is NOT exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

Hazard potential means the possible adverse incremental consequences that result from the release of water or stored contents due to failure of a dam or mis-operation of a dam or appurtenances. The hazard potential classification of a dam does not reflect in any way on the current condition of a dam and its appurtenant structures (e.g. safety, structural integrity, and flood routing capacity).

High hazard dam means a class of dam in which failure may cause loss of life, serious damage to residential, industrial, or commercial buildings; or damage to, or disruption of, important public utilities or transportation facilities such as major highways or railroads. Dams which meet the statutory thresholds for regulation that are proposed for construction in established or proposed residential, commercial, or industrial areas will be assigned this classification, unless the applicant provides convincing evidence to the contrary.

Highest adjacent grade means the highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a building.

Historic Structure means any structure that is:

- a.) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- b.) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- c.) Individually listed on the State of Mississippi inventory of historic structures, or;
- d.) Individually listed on a local inventory historic places in communities with historic preservation programs that have been certified by an approved state program as determined by the Secretary of the Interior.

Hydrologic and hydraulic engineering analyses means the analyses performed by a professional engineer, registered in the state of Mississippi, in accordance with standard engineering practices as accepted by FEMA, used to determine flood elevations and /or floodway boundaries.

Increased Cost of Compliance (ICC) coverage means under the standard flood insurance policy the cost to repair a substantially flood damaged building that exceeds the minimal repair cost and that is required to bring a substantially damaged building into compliance with the local flood damage prevention ordinance. Acceptable

mitigation measures are floodproofing (nonresidential), relocation, elevation, demolition, or any combination thereof. All renewal and new policies with effective dates on or after June 1, 1997, include ICC coverage.

Letter of Map Change (LOMC) is an official FEMA determination, by letter, to amend or revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, and Flood Insurance Studies.

Letter of Map Amendment (LOMA)

An amendment based on technical data showing that a property was incorrectly included in a designated SFHA, was not elevated by fill (only by a natural grade elevation), and will not be inundated by the one percent chance flood. A LOMA amends the current effective FIRM and establishes that a specific property is not located in a SFHA.

Letter of Map Revision (LOMR)

A revision based on technical data that, usually due to manmade changes, shows changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features. One common type of LOMR, a LOMR-F, is a determination concerning whether a structure or parcel has been elevated by fill above the BFE and is, therefore, excluded from the SFHA.

Conditional Letter of Map Revision (CLOMR)

A formal review and comment by FEMA as to whether a proposed project complies with the minimum NFIP floodplain management criteria. A CLOMR does not revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, or Flood Insurance Studies.

Levee means a man-made structure; usually earthen embankments designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.

Levee system means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices. For a levee system to be recognized, the following criteria must be met. All closure devices or mechanical systems for internal drainage, whether manual or automatic, must be operated in accordance with an officially adopted operation manual (a copy of which must be provided to FEMA by the operator when levee or drainage system recognition is being sought or revised). All operations must be under the jurisdiction of a Federal or State agency, an agency created by Federal or State law, or an agency of a community participating in the NFIP.

Low hazard dam means a class of dam in which failure would at the most result in damage to agricultural land, farm buildings (excluding residences), or minor roads.

Lowest adjacent grade means the elevation of the sidewalk, patio, deck support, or basement entryway immediately next to the structure and after the completion of construction. It does not include earth that is placed for aesthetic or landscape reasons around a foundation wall. It does include natural ground or properly compacted fill that comprises a component of a building's foundation system.

Lowest floor means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, used solely for parking of vehicles, building access, or storage, in an area other than a basement, is not considered a building's lowest floor, *provided* that such enclosure is not built so as to render the structure in violation of the non-elevation provisions of this code.

Manufactured home (44 CFR 59.1 definition / FEMA) means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when attached to the required utilities. The term manufactured home does not include a "recreational vehicle."

Manufactured housing (24 CFR 3280.3 and 3285.5 definitions / HUD) means "...a structure, transportable in one or more sections, which in the traveling mode is 8 body feet or more in width or 40 body feet in length or which when erected on-site is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities."

Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Map Amendment means a change to an effective NFIP map that results in the exclusion from the SFHA or an individual structure or a legally described parcel of land that has been inadvertently included in the SFHA (i.e., no alterations of topography have occurred since the date of the first NFIP map that showed the structure or parcel to be within the SFHA).

Map Panel Number means the four-digit number followed by a letter suffix assigned by FEMA on a FIRM. The first four digits represent the map panel, and the letter suffix represents the number of times the map panel has been revised.

Market value means the property value (as agreed between a willing buyer and seller); excluding the value of land as established by what the local real estate market will bear. Market value can be established by independent certified appraisal; replacement cost depreciated by age of building (Actual Cash Value); or adjusted assessed values.

Mean Sea Level means, for the purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map (FIRM) are referenced.

National Flood Insurance Program (NFIP) is the federal program that makes flood insurance available to owners of property in participating communities nationwide through the cooperative efforts of the Federal Government and the private insurance industry.

National Geodetic Vertical Datum (NGVD) means a vertical control, corrected in 1929, used as a reference for establishing varying elevations within the floodplain.

New Construction means a structure or an addition to an existing structure for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and any subsequent improvements to such structure or the addition.

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain regulations adopted by a community.

Non-Residential means, but is not limited to; small business concerns, churches, schools, farm buildings (including grain bins and silos), pool houses, clubhouses, recreational buildings, mercantile structures, agricultural and industrial structures, warehouses, and hotels and motels with normal room rentals for less than 6 months duration.

North American Vertical Datum (NAVD) of 1988 means a vertical control, corrected in 1988, used as a reference for establishing varying elevations within the floodplain.

Obstruction means, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, channel construction, bridge, culvert, building, wire, fence, rock, gravel, refuse, fill, structure, vegetation or other material in, along, across or projecting into any watercourse which may alter, impede, retard or change the direction and/or velocity of the flow of water, or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

One Percent Flood (aka 100-Year Flood) is the flood that has a one percent chance of being equaled or exceeded in any given year. Any flood zone that begins with the letter A or V is subject to inundation by the one percent chance flood. Over the life of a 30-year loan, there is a 26-percent chance of experiencing such a flood within the SFHA.

Participating Community is any community that voluntarily elects to participate in the NFIP by adopting and

enforcing floodplain management regulations that are consistent with the standards of the NFIP.

Post-FIRM Construction means new construction and substantial improvements for which start of construction occurred after December 31, 1974, or on or after the effective date of the initial FIRM of the community, whichever is later.

Pre-FIRM Construction means new construction and substantial improvements for which start of construction occurred on or before December 31, 1974, or before the effective date of the initial FIRM of the community, whichever is later.

Probation is a means of FEMA formally notifying participating communities of the first of the two NFIP sanctions due to their failure to correct violations and deficiencies in the administration and enforcement of the local floodplain management regulations.

Public safety and nuisance means anything which is injurious to the safety or health of an entire community or neighborhood, or any considerable number of persons, or unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, or river, bay, stream, canal, or basin.

Recreational vehicle means a vehicle that is:

- a.) Licensed and titled as an RV or park model (not a permanent residence);
- b.) Built on a single chassis;
- c.) 400 square feet or less when measured at the largest horizontal projection;
- d.) Has no attached deck, porch, or shed;
- e.) Has quick-disconnect sewage, water, and electrical connectors;
- f.) Designed to be self-propelled or permanently towable by a light duty truck, and;
- g.) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Regular Program means the second phase of the community's participation in the NFIP in which second layer coverage is available based upon risk premium rates only after FEMA has completed a risk study for the community.

Regulatory floodway means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Repair means the reconstruction or renewal of any part of an existing building for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and all such regulations effective at the time of permitting must be met.

Repetitive Loss means flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

Repetitive Loss Property is any insurable building for which two or more claims of more than \$1,000 were paid by the National Flood Insurance Program (NFIP) within any rolling 10-year period, since 1978. At least two of the claims must be more than ten days apart but, within ten years of each other. A RL property may or may not be currently insured by the NFIP.

Section 1316 means that section of the National Flood Insurance Act of 1968, as amended, which states that no new

flood insurance coverage shall be provided for any property that FEMA finds has been declared by a duly constituted state or local zoning authority or other authorized public body to be in violation of state or local laws, regulations, or ordinances that are intended to discourage or otherwise restrict land development or occupancy in flood-prone areas.

Severe Repetitive Loss Structure means any insured property that has met at least one of the following paid flood loss criteria since 1978, regardless of ownership:

1. Four or more separate claim payments of more than \$5,000 each (including building and contents payments); or
2. Two or more separate claim payments (building payments only) where the total of the payments exceeds the current market value of the property.

In either case, two of the claim payments must have occurred within ten years of each other. Multiple losses at the same location within ten days of each other are counted as one loss, with the payment amounts added together.

Significant hazard dam means a dam assigned the significant hazard potential classification where failure may cause damage to main roads, minor railroads, or cause interruption of use, or service of relatively important public utilities.

Special flood hazard area (SFHA) means that portion of the floodplain subject to inundation by the base flood and/or flood-related erosion hazards as shown on a FHBM or FIRM as Zones A, AE, AH, AO, AR, AR/AE, AR/AO, AR/AH, AR/A, A99, or VE.

Start of construction (for other than new construction or substantial improvements under the Coastal Barrier Resources Act P. L. 97-348), includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a building (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main building. For substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure (for floodplain management purposes), means a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

Structure (for insurance purposes), means a building with two or more outside rigid walls and a fully secured roof, that is affixed to a permanent site; a manufactured home built on a permanent chassis, transported to it site in one or more sections, and affixed to a permanent foundation; or a travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the community's floodplain management and building ordinances or laws. The term does not include a recreational vehicle or a park trailer or other similar vehicle, except as described in the last part of this definition, or a gas, or a liquid storage tank.

Subrogation means an action brought by FEMA when flood damages have occurred, a flood insurance claim has been paid, and all or part of the damage can be attributed to acts or omissions by a community or other third party.

Substantial Damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to it's before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial Improvement means any combination of reconstruction, rehabilitation, or other improvement of a structure taking place during a 10 year period in which the cumulative percentage of improvement equals or exceeds 50 percent of the current market value of the structure before the “start of construction” of the improvement. The costs for determining substantial improvement include the costs of additions. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual repair work performed.

The term does not apply to:

- a.) Any project for improvement of a building required to correct existing violations of state or local existing health, sanitary, or safety code specifications which have been identified by the Code Enforcement Official and which are minimum necessary to assure safe living conditions, provided that said code deficiencies were not caused by neglect or lack of maintenance on the part of the current or previous owners or;
- b.) Any alteration of a “historic structure” provided that the alteration will not preclude the structure’s continued designation as a “historic structure.”

Substantially improved existing manufactured home parks or subdivisions means manufactured home parks or subdivisions where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds 50 percent of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

Suspension means the removal, with or without probation, of a participating community from the NFIP because the community failed to adopt and enforce the compliant floodplain management regulations required for participation in the NFIP.

Variance is a grant of relief from the requirements of this ordinance.

Violation means the failure of a structure or other development to be fully compliant with this ordinance. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

Watercourse means any flowing body of water including a river, creek, stream, or a branch.

Water surface elevation means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

Wet floodproofing means a method of construction which allows water to enter a structure in such a way that will minimize damage to the structure and its contents. Wet floodproofing is appropriate for functionally dependent use and uses that facilitate open space use by variance only, structures utilized for parking or limited storage, or when all other techniques are not technically feasible. Wet floodproofing shall not be utilized as a method to satisfy the requirements of this ordinance for bringing substantially damaged or improved structures into compliance. Wet floodproofing is not allowed in lieu of complying with the lowest floor elevation requirements for new residential buildings.

X Zones (shaded) are areas of 0.2 percent chance flood that are outside of the SFHA subject to the one percent chance flood with average depths of less than one foot, or with contributing drainage area less than one square mile and areas protected by certified levees from the base flood.

X Zones (unshaded) are areas determined to be outside the 0.2 percent chance floodplain.

Zone means a geographical area shown on a Flood Hazard Boundary Map or a Flood Insurance Rate Map that reflects the severity or type of flooding in the area.

ARTICLE 3. GENERAL PROVISIONS.

SECTION A. LANDS TO WHICH THIS ORDINANCE APPLIES.

This ordinance shall apply to all areas of special flood hazard (SFHA) areas within the jurisdiction of the City Council of the City of Laurel.

SECTION B. BASIS FOR ESTABLISHING THE AREAS OF SPECIAL FLOOD HAZARD.

The areas of special flood hazard identified by the Federal Emergency Management Agency in the current scientific and engineering report entitled “The Flood Insurance Study (FIS) for Jones County, Mississippi and Incorporated Areas”, dated 11/19/2021 with the accompanying Flood Insurance Rate Map(s) (FIRM) (multiple panel) Index No. 28067CIND0B and other supporting data, along with Digital Flood Insurance Rate Maps (DFIRM) are adopted by reference and declared to be part of this ordinance. The Flood Insurance Study and maps are on file at the Inspection Department, Laurel City Hall, 401 N 5th Ave, Laurel, MS 39440.

SECTION C. ESTABLISHMENT OF FLOODPLAIN DEVELOPMENT PERMIT.

A development permit shall be required in conformance with the provision of this ordinance prior to the commencement of any development activities in identified areas of special flood hazard and community flood hazard areas within the community.

SECTION D. COMPLIANCE.

No structure or land shall hereafter be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

SECTION E. ABROGATION AND GREATER RESTRICTIONS.

This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

SECTION F. INTERPRETATION.

In the interpretation and application of this ordinance all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the governing body, and;
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

SECTION G. WARNING AND DISCLAIMER OF LIABILITY.

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering consideration. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This ordinance does not imply that land outside the areas of special flood hazard and community flood hazard areas or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of City Council of the City of Laurel or by any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made hereunder.

SECTION H. ENFORCEMENT, PENALTIES, AND VIOLATIONS.

Civil penalties. Violation of the provisions of this ordinance or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance or special exceptions, shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than one hundred dollars (\$100) or imprisoned for not more than thirty (30) days, or both, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the Floodplain Administrator from taking such other lawful actions as are necessary to prevent or remedy any violation.

ARTICLE 4. ADMINISTRATION.

SECTION A. DESIGNATION OF FLOOD DAMAGE PREVENTION ORDINANCE ADMINISTRATOR.

The City Council of the City of Laurel hereby appoints the Building Inspector to administer and implement the provisions of this ordinance and is herein referred to as the Floodplain Administrator and/or the administrator.

SECTION B. PERMIT PROCEDURES.

Application for a Development Permit shall be made to the Floodplain Administrator on forms furnished by him or her prior to any development activities, and may include, but not be limited to, the following plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, earthen fill, storage of materials or equipment, drainage facilities, and the location of the foregoing. Specifically, the following information is required:

- (1) Application Stage.
 - a.) Elevation in relation to mean sea level of the proposed lowest floor (including basement) of all buildings, which will be submitted on a FEMA Elevation Certificate Form by a State of Mississippi registered engineer or surveyor;
 - b.) Elevation in relation to mean sea level to which any non-residential building in an A Zone will be floodproofed;
 - c.) Certificate from a State of Mississippi registered professional engineer or architect that the non-residential flood-proofed building will meet the floodproofing criteria in Article 4, Section B (2), Article 5, Section B (2) and Section D (2);
 - d.) Description of the extent to which any watercourse will be altered or relocated as result of proposed development.
- (2) Finished Construction:

Upon completion of construction, a FEMA Elevation Certificate Form which depicts all finished construction elevations is required to be submitted to the Floodplain Administrator. If the project includes a floodproofing measure, a FEMA floodproofing certificate is required to be submitted by the permit holder to the Floodplain Administrator.

SECTION C. POWERS, DUTIES, AND RESPONSIBILITIES OF THE FLOODPLAIN ADMINISTRATOR.

The Floodplain Administrator and his or her designated staff is hereby authorized and directed to enforce the provisions of this ordinance. The Administrator is further authorized to render interpretations of this ordinance,

which are consistent with its spirit and purpose.

(1) Right of Entry

- a.) Whenever necessary to make an inspection to enforce any of the provisions of this ordinance, or whenever the Administrator has reasonable cause to believe that there exists in any building or upon any premises any condition or ordinance violation which makes such building, structure or premises unsafe, dangerous or hazardous, the Administrator may enter such building, structure or premises at all reasonable times to inspect the same or perform any duty imposed upon the Administrator by this ordinance.
- b.) If such building or premises are occupied, the Administrator shall first present proper credentials and request entry. If such building, structure, or premises are unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of such building or premises.
- c.) If entry is refused, the Administrator shall have recourse to every remedy provided by law to secure entry.
- d.) When the Administrator shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner or occupant or any other persons having charge, care or control of any building, structure, or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the Administrator for the purpose of inspection and examination pursuant to this ordinance.

(2) Stop Work Orders

- a.) Upon notice from the Administrator, work on any building, structure or premises that is being performed contrary to the provisions of this ordinance shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property, or to his or her agent, or to the person doing the work, and shall state the conditions under which work may be resumed.

(3) Revocation of Permits

- a.) The Administrator may revoke a permit or approval, issued under the provisions of this ordinance, in case there has been any false statement or misrepresentation as to the material fact in the application or plans on which the permit or approval was based.
- b.) The Administrator may revoke a permit upon determination that the construction, erection, alteration, repair, moving, demolition, installation, or replacement of the structure for which the permit was issued is in violation of, or not in conformity with, the provisions of this ordinance.

(4) Duties of the Administrator

Duties of the administrator shall include, but not be limited to:

- a.) Review all development permits to assure that the permit requirements of this ordinance have been satisfied.
- b.) Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. Additionally, require the permittee to obtain and submit copies of any required federal or state permits and maintain them on file with the development permit.

- c.) Perform a minimum of three inspections to ensure that all applicable ordinance and floodplain development requirements have been satisfied. The first inspection upon the establishment of the Base Flood Elevation reference mark at the development site; the second upon the establishment of the structure's footprint prior to pouring the slab or the establishment of the lowest floor in an elevated foundation system; and the final inspection upon completion and submission of the required finished construction elevation certificate.
- d.) Verify any required setback distances.
- e.) Verify that all placement of fill or grading is according to certified plans. Assure that any fill being used as part of the structure's foundation system (not allowed in a CHHA) is both clean material and properly compacted and placed. A professional certification that any structure built on fill is reasonably safe from flooding can be requested of the builder/developer.
- f.) Verify adequate placement and size of any required flood vents in regard to the number of openings, their location, size, and height above ground level.
- g.) Ensure that a crawlspace has adequate vents or openings and that the interior grade is at or above the exterior grade.
- h.) Verify that the structure's utilities, duct work, and HVAC systems are at or above the base flood elevation.
- i.) Notify adjacent communities, the NFIP State Coordinator, and other federal and/or state agencies with statutory or regulatory authority prior to any alteration or relocation of a watercourse.
- j.) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is maintained.
- k.) Verify and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new construction and substantially improved buildings, in accordance with Article 4, Section B (2). Information must be recorded on the FEMA Elevation Certificate Form.
- l.) Verify and record the actual elevation (in relation to mean sea level) to which the new construction and substantially improved buildings have been floodproofed, in accordance with Article 4, Section B (2). Information must be recorded on the FEMA Elevation Certificate Form.
- m.) Review certified plans and specifications for compliance.
- n.) Make the necessary interpretation where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Article.
- o.) Obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source when base flood elevation data or floodway data have not been provided in accordance with Article 3, Section B, in order to administer the provisions of Article 5.
- p.) Provide information, testimony, or other evidence, as needed during variance request hearings.
- q.) Conduct the following actions when damage occurs to a building or buildings:
 - (i) Determine whether damaged structures are located within the Special Flood Hazard Area;

- (ii) Conduct damage assessments for those damaged structures located in the SFHA, and;
 - (iii) Make a reasonable attempt to notify owner(s) of damaged structure(s) of the requirement to obtain a building permit / floodplain development permit prior to repair, rehabilitation, or reconstruction.
- r.) Perform such other inspections as may be required to ensure compliance with the other provisions of this ordinance.

ARTICLE 5. PROVISIONS FOR FLOOD HAZARD REDUCTION.

SECTION A. GENERAL STANDARDS FOR ALL ZONES.

In all areas of special flood hazard the following provisions are required:

- (1) New construction and substantial improvements shall be anchored to prevent flotation, collapse and lateral movement of the structure.
- (2) Manufactured homes shall be anchored to prevent flotation, collapse, and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not to be used as an anchor/elevation method. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.
- (3) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
- (4) New construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
- (5) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding, such facilities shall be located a minimum one (1) foot above the Base Flood Elevation.
- (6) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.
- (7) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.
- (8) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.
- (9) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance shall meet the requirements of “new construction” as contained in this ordinance.
- (10) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provisions of this ordinance, shall be undertaken only if said non-conformity shall meet the requirements of “new construction” as contained in this ordinance.
- (11) All gas and liquid storage tanks (both above and below ground) shall be adequately anchored to prevent floatation, lateral movement resulting from hydrodynamic forces, and the effects of

buoyancy.

- (12) When new construction and substantial improvements are located in multiple flood zones or in a flood zone with multiple base flood elevations, they shall meet the requirement for the more stringent flood zone and the highest base flood elevation.
- (13) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.
- (14) New construction and substantial improvement of any building shall have the lowest floor (including basement) at least one foot above the centerline of the designated street, unless the topography of the property does not allow for strict adherence as determined by the Floodplain Administrator.
- (15) Storage or processing of materials that are hazardous, flammable, explosive, or in time of flooding could become buoyant and pose an obstruction to flow, are prohibited within the community special flood hazard areas, to include identified floodways. Storage of material or equipment not otherwise prohibited shall be firmly anchored to prevent flotation.
- (16) New construction and substantial improvements of structures built on fill shall be constructed on properly designed and compacted fill that extends 10 feet to 15 feet beyond the building walls before dropping below the base flood elevation, and shall have appropriate protection from erosion and scour as follows:
 - a.) Fill sites, upon which structures will be constructed or placed, must be compacted to 95 percent of the maximum density obtainable with the Standard Proctor Test method or an acceptable equivalent method.
 - b.) Fill slopes shall be no steeper than one foot vertical to two feet horizontal.
 - c.) Adequate protection against erosion is must be provided for fill slopes. When expected velocities during the occurrence of the base flood are greater than five feet per second, armoring with stone or rock protection or material that will provide equivalent resistance will be provided. When expected velocities during the base flood are five feet per second or appropriate protection shall be provided by covering them with vegetative cover at a minimum.
 - d.) Fill shall be composed of clean granular or earthen material.

SECTION B. SPECIFIC STANDARDS FOR RIVERINE ZONES.

In all areas of special flood hazard designated on the community's FIRM, where base flood elevation data have been provided, as set forth in Article 3, Section B, the following provisions, in addition to the standards of Article 5, Section A, are required:

- (1) Residential Construction. New construction and substantial improvement of any residential building (including manufactured home) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, flood openings sufficient to automatically equalize hydrostatic flood forces on exterior walls of enclosures that are subject to flooding, shall be provided in accordance with standards of Article 5, Section B (4).

- (2) Non-Residential Construction. New construction and substantial improvement of any commercial, industrial, or non-residential building (including manufactured building) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Buildings located in all A Zones may, together with attendant utility and sanitary facilities, be floodproofed in lieu of being elevated provided that all areas of the building below the base flood elevation plus a minimum of one (1) foot of freeboard are water tight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. Dry floodproofing is allowed only where flood velocities are less than or equal to five feet per second. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. A Flood Emergency Operation Plan and an Inspection and Maintenance Plan must be provided by the design professional for the building. Such certification shall be provided to the Floodplain Administrator.
- (3) In special flood hazard areas with base flood elevations (AE Zones) but without floodways, no encroachments, including fill material or structures, shall be permitted unless certification by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community. The engineering certification must be supported by technical data that conforms to standard hydraulic engineering principles.
- (4) Enclosures. New construction and substantial improvements that include fully enclosed areas formed by foundation and other exterior walls below the lowest floor shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls. Enclosed areas, including crawl spaces, shall be used solely for parking of vehicles, building access, and storage.
- a.) Designs for complying with this requirement must either be certified by a professional engineer or architect or meet or exceed the following criteria:
- (i) Provide a minimum of two openings, on different sides of each enclosed area; if a structure has more than one enclosed area below the base flood elevation, each shall have openings on exterior walls;
- (ii) The total net area of all openings shall be at least one square inch for each square foot of enclosed area, or the openings shall be designed and the construction documents shall include a statement that the design and installation will provide for equalization of hydrostatic flood forces on exterior walls by allowing for the automatic entry and exit of floodwaters;
- (iii) The bottom of all openings shall be no higher than one foot above interior grade (which must be equal to in elevation or higher than the exterior grade);
- (iv) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions and automatically equalize hydrostatic flood loads on exterior walls, and;
- b.) Access to the enclosed area shall be minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator); and,
- c.) The interior portion of such enclosed area shall not be finished or partitioned into separate rooms.

- (5) Detached storage buildings, sheds, or other like accessory improvements, excluding detached garages, carports, and boat houses, shall solely be used for parking of vehicles and storage. Such storage space shall not be used for human habitation and shall be limited to storage of items that can withstand exposure to the elements and have low flood damage potential. The storage space shall be constructed of flood resistant or breakaway materials, and equipment and service utilities, such as electrical outlets, shall be limited to essential lighting and other incidental uses, and must be elevated or floodproofed. Flood openings in accordance with the standards of Article 5 Section B (4) shall also be required. These accessory structures shall be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters. Accessory improvements and other appurtenant structures shall be firmly anchored to prevent flotation that may result in damage to other structures.
- (6) Standards for Manufactured Homes and Recreational Vehicles.
- a.) All manufactured homes placed, or substantially improved, on individual lots or parcels, in existing manufactured home parks or subdivisions, in expansions to existing manufactured home parks or subdivisions, in new manufactured home parks or subdivisions or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring and the flood openings requirements of Article 5, Section B (4). Manufactured homes must be:
- (i) Elevated on a permanent foundation to have its lowest floor elevated to no lower than one (1) foot above the base flood elevation, and;
 - (ii) Securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement, and;
 - (iii) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.
- b.) All recreational vehicles placed on sites must either:
- (i) Be on site for fewer than 180 consecutive days and shall leave the site and obtain a new permit before returning to the same site, and;
 - (ii) Be fully licensed and ready for highway use, or;
 - (iii) Must meet all the requirements for new construction, including anchoring and elevation requirements of this Article 5, Section B (7) (a) above.

A recreational vehicle is ready for highway use if it is licensed and insured in accordance with the state of Mississippi motor vehicle regulations, is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

- (7) Floodways. Located within areas of special flood hazard adopted by reference in Article 3, Section B, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles and has erosion potential, the following provisions shall apply:
- a.) Prohibit encroachments, including fill, new construction, substantial improvements, and other developments unless certification (with supporting technical data) by a registered professional

engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge;

- b.) If Article 5, Section B (8) (a) above is satisfied, all new construction and substantial improvements shall comply with all applicable flood damage prevention standards of Article 5.
- c.) Prohibit the placement of manufactured homes (mobile homes), except in an existing manufactured home (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the anchoring standards of Article 5, Section A (2), and the standards of Article 5, Section B (1) through (3) and the encroachment standards of this Article 5, Section B (8) (a), are met.

SECTION C. STANDARDS FOR STREAMS WITHOUT BASE FLOOD ELEVATIONS AND FLOODWAYS.

When base flood elevation data and floodway data are not available in accordance with Article 3, Section A, in Special Flood Hazard Areas and Community Flood Hazard Areas without base flood elevation data, new construction and substantial improvements shall be elevated or floodproofed to elevations established by the community. The following provisions in addition to the standards of Article 5 Section A and the enclosure standards of Article 5 Section B (4) shall apply:

- (1) Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) that are five lots or five acres, whichever is lesser, include within such proposals base flood elevation data;
- (2) The Floodplain Administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal, state, or other source, in order to administer the provisions of Article 5. When such data are available, standards of Article 5, Section B, shall apply. If data is not available from Article 5 Section C (1) or outside sources, then the following provisions shall apply.
- (3) No encroachments, including fill material or other development, shall be located within a distance of the stream bank equal to five times the width of the stream at the top of the bank or twenty feet each side from the top of the bank, whichever is greater, unless certification by a registered professional engineer is provided demonstrating that such encroachment shall not result in any increase in flood levels during the occurrence of the base flood discharge. The enclosure standards of Article 5, Section B (4) shall apply.
- (4) Notify, in riverine situations, adjacent communities and the State Coordinating Office prior to any alteration or relocation of a watercourse, and submit copies of such notifications to FEMA. Assure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.
- (5) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.

SECTION D. STANDARDS FOR SUBDIVISION PROPOSALS AND OTHER PROPOSED DEVELOPMENT.

- (1) All subdivision proposals shall be consistent with the need to minimize flood damage;
- (2) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and

water systems located and constructed to minimize flood damage;

- (3) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards, and;
- (4) Base flood elevation data shall be provided for all new subdivision proposals and other proposed development (including manufactured home parks and subdivisions), that are a single lot or five acres, whichever is the lesser.
- (5) All preliminary plans for platted subdivisions shall identify the flood hazard areas and elevations of the base flood.
- (6) All final subdivisions plats shall provide the boundary of the special flood hazard area, the floodway boundary, and the base flood elevation.

SECTION E. CRITICAL FACILITIES.

Construction of new and substantially improved critical facilities shall be located outside the limits of the special flood hazard area (one percent chance floodplain). Construction of new critical facilities shall be permissible within the SFHA only if no feasible alternative site is available and access to the facilities remains available during a 0.2 percent chance flood. Critical facilities constructed within the SFHA shall have the lowest floor elevated three feet six inches (3'6") above the base flood elevation at the site (or to the 0.2 percent chance flood elevation whichever is greater). Floodproofing and sealing measures must be implemented to ensure that toxic substances will not be displaced by or released into floodwaters. Multiple access routes, elevated to or above the 0.2 percent flood elevation, shall be provided to all critical facilities to the maximum extent possible. Critical facilities must not only be protected to or above the 0.2 percent chance flood, but must remain operable during such an event. The community's flood response plan must list facilities considered critical in a flood, since loss of access can cause a critical situation. Other facilities in low risk flood zones that may also be needed to support flood response efforts must be included on the critical facility list. The use of any structure shall not be changed to a critical facility, where such a change in use will render the new critical facility out of conformance with this section. The list of the operators of the critical facilities affected by flooding must be updated at least annually, as part of the community critical facility planning procedures.

ARTICLE 6. VARIANCE PROCEDURES.

SECTION A. DESIGNATION OF VARIANCE AND APPEALS BOARD.

The City Council of the City of Laurel shall hear and decide appeals and requests for variances from requirements of this ordinance.

SECTION B. DUTIES OF VARIANCE AND APPEALS BOARD.

The board shall hear and decide appeals when it is alleged an error in any requirement, decision, or determination is made by the Floodplain Administrator in the enforcement or administration of this ordinance. Any person aggrieved by the decision of the board may appeal such decision to the Circuit Court, as provided in Mississippi Code Annotated, § 11-51-75 (1972).

SECTION C. VARIANCE PROCEDURES.

In passing upon such applications, the City Council shall consider all technical evaluations, relevant factors, and standards specified in other sections of this ordinance, and:

- (1) The evaluation must be based on the characteristics unique to that property and not be shared by adjacent parcels. The characteristics must pertain to the land itself, not to the structure, its inhabitants,

or its owners;

- (2) Variances should never be granted for multiple lots, phases of subdivisions, or entire subdivisions;
- (3) The danger that materials may be swept onto other lands to the injury of others;
- (4) The danger of life and property due to flooding or erosion damage;
- (5) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner and the community;
- (6) The importance of the services provided by the proposed facility to the community;
- (7) The necessity of the facility to be at a waterfront location, where applicable;
- (8) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
- (9) The compatibility of the proposed use with existing and anticipated development;
- (10) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
- (11) The safety of access to the property in times of flood for ordinary and emergency vehicles;
- (12) The expected heights, velocity, duration, rate of rise, and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site, and;
- (13) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges and culverts.
- (14) Upon consideration of factors listed above, and the purpose of this ordinance, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (15) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

SECTION D. CONDITIONS FOR VARIANCES.

- (1) Variances shall only be issued when there is:
 - a.) A showing of good and sufficient cause;
 - b.) A determination that failure to grant the variance would result in exceptional hardship, and;
 - c.) A determination that the granting of a variance will not result in increased flood heights, additional threats to public expense, create nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
- (2) The provisions of this ordinance are minimum standards for flood loss reduction; therefore, any deviation from the standards must be weighed carefully. Variances shall only be issued upon a determination that the variance is the minimum necessary deviation from the requirements of this ordinance, considering the flood hazard, to afford relief. In the instance of a Historic Structure, a determination that the variance is the minimum necessary so as not to destroy the historic character and design of the building. (See Article 6, Section F.)

- (3) Any applicant to whom a variance is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the lowest floor is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.
- (4) The Floodplain Administrator shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency and Mississippi Emergency Management Agency upon request. (See Article 6 Section E.)
- (5) Upon consideration of the factors listed above and the purposes of this ordinance, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (6) Variances shall not be issued “after the fact.”

SECTION E. VARIANCE NOTIFICATION.

Any applicant to whom a variance is granted shall be given written notice over the signature of a community official that:

- (1) The issuance of a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and;
- (2) Such construction below the base flood level increases risks to life and property. A copy of the notice shall be recorded by the Floodplain Administrator in the Office of the Chancery Clerk and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

The Floodplain Administrator will maintain a record of all variance actions, including justification for their issuance, and report such variances to the Federal Emergency Management Agency and the Mississippi Emergency Management Agency upon request.

SECTION F. HISTORIC STRUCTURES.

Variances may be issued for the repair or rehabilitation of “historic structures” only upon a determination that the proposed repair or rehabilitation will not preclude the structure’s continued designation as a “historic structure” and the variance is the minimum to preserve the historic character and design of the structure.

SECTION G. SPECIAL CONDITIONS.

Upon consideration of the factors listed in Article 6, and the purposes of this ordinance, the City Council may attach such conditions to the granting of variances, as it deems necessary to further the purposes of this ordinance.

SECTION H. FLOODWAY.

Variances shall not be issued within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.

ARTICLE 7. SEVERABILITY.

If any section, clause, sentence, or phrase of the Ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way effect the validity of the remaining portions of this Ordinance.

This ordinance having first been reduced to writing was adopted at a public meeting of the City Council, of the City of Laurel, on August 17th, 2021, wherein the vote was as follows and shall take effect 11/18/2021.

CHAPTER 9.2

REGULATION OF STORMWATER DETENTION*

Section 9.2-1. Purpose.

Realizing that development is crucial to the promotion of industry and jobs, business and commerce, housing, and private and public revenue, it is hereby important to prevent future drainage problems which waste private and public resources when the situation can be controlled through measures which will not make the cost of development prohibitive.

Therefore, the purpose of this Ordinance is to diminish threats to public health and safety caused by the runoff of excessive stormwater; reduce economic losses to individuals and the community at large; and protect, conserve and promote the orderly development of land and water resources. Its purpose is also to establish administrative and enforcement procedures to evaluate and regulate on a case-by-case basis the impact that proposed developments of all types have to stormwater run-off on that development and on surrounding areas and to require, if needed, that all proposed developments provide for adequate stormwater retention and detention. The provisions of this Ordinance further regulate, guide and control:

- a. The subdivision layout, redevelopment, and improvement of lands located within the City of Laurel;
- b. The construction of buildings and drainage of the sites on which structures are located, including parking and other paved areas; and,
- c. The design, construction and maintenance of stormwater drainage facilities and systems.

Section 9.2-2. Administrative Responsibility and Review.

1. The City Engineer and/or his (her) appointed consulting representative is here designated as the administrator of this Ordinance and shall have the primary responsibility for its implementation and enforcement.

2. The City Engineer and/or his (her) appointed consulting representative shall review and assist the Inspection Department on request for submittal and shall evaluate the proposed development on a case-by-case basis to determine whether that development will significantly increase stormwater runoff. This determination will be based on the following factors:

- (a) Location and size of the development;
- (b) Slope and soil condition;
- (c) Existing drainage systems; and,
- (d) Other considerations which may pertain to the discharge of stormwater from the

Section 9.2-3. General Criteria and Standards.

1. *Applicability:* This Ordinance shall apply to any residential development of five (5) acres or more or any non-residential development of three (3) acres or more. This Ordinance shall also apply to any residential development of less than five (5) acres or any non-residential development of less than three (3) acres but have fifty percent (50%) or greater impervious surface.

Source: Ordinance No. 1399-2002, §3, 300.1, 2-19-02

2. *Limitation on Stormwater Runoff:* No development shall be undertaken that increases the rate of surface runoff to downstream property owners or drainage systems.

3. *Detention of Excess Stormwater Runoff:* The increased stormwater run-off resulting from the proposed development shall be detained by the provision of retention or detention facilities.

4. *Storage Capacity:* Retention or detention facilities shall be designed with sufficient capacity to accommodate all run-off caused by the development in excess of that run-off which would occur from the site if left in its natural, undeveloped condition. This storage shall be sufficient to store all excess flows for the twenty-five (25) year storm of twenty-four (24) hour duration.

Source: Ordinance No. 1399-2002, §3, 300.4, 2-19-02

5. *Channel Stability:* The stormwater run-off from the proposed development shall not increase channel instability downstream.

6. *Retention/Detention Facilities in Floodplains:* If detention storage is provided within a floodplain of a major stream, storage volume for the facility may be provided above/below the high water elevations established for that floodplain with banks 24" higher than floodplain. No retention/detention facility should be located in a regulatory floodway.

Section 9.2-4. Improvement Regulation.

1. *Required Information:* The following information and data prepared and certified by a registered professional engineer in the State of Mississippi shall be furnished with the plans of

each proposed residential, commercial and industrial development.

a. *Contour Map*: A topographic map with two (2) foot minimum interval contours of the land to be developed and such adjoining land whose topography may affect the layout or drainage of the subdivision. On such a map, the following shall be shown:

- (1) The banks and centerline of streams and channels.
- (2) The normal shoreline of lakes, ponds, and retention/detention basins, and lines of inflow and outflow.
- (3) The location, size and slope of stormwater conduits and drainage swales.
- (4) Storm, sanitary and combined sewers and outfalls of record.
- (5) Delineation of upstream and downstream drainage features and watersheds which might be affected by the development.
- (6) Base flood (25-year) elevations and regulatory floodways which have been identified for the property.

Source: Ordinance No. 1399-2002, §4, 400.1a(6), 2-19-02

(7) Environmental features including the limits of wetlands areas and any designated natural areas.

b. *Drainage Plan*: A comprehensive drainage plan designed to safely and completely handle the stormwater runoff and to detain increased stormwater runoff. This plan shall provide and be accompanied by maps and/or other descriptive material showing the following;

- (1) The extent and area of each watershed tributary to the drainage channels in the development.
- (2) The storm sewers and other storm drains to be built, the basis of their design, the outfall and outlet locations and elevations, receiving stream or channel and its high water elevation and the functioning of the drains during high water conditions.
- (3) Existing streams and floodplains to be maintained and new channels to be constructed including their locations, cross-sections and profiles.
- (4) Proposed culverts and bridges to be built including their materials, elevations, waterway openings and basis of design.
- (5) Existing retention/detention facilities to be maintained, enlarged or altered and new facilities to be built including their design.
- (6) The estimated location and percentage of impervious surfaces existing and expected to be constructed when the development is completed.

- (7) The slope, type, and size of all sewers and other waterways.
- (8) Any proposed environmental enhancement or mitigation features.
- (9) Retention/detention basins to be built including a plot or tabulation of storage volumes with corresponding water surface elevations and of the basis outflow rates for those water surface elevations.
- (10) For all retention/detention basins, design hydrographs of inflow and outflow for the twenty-five (25) peak flows from the site under natural and developed conditions.

Source: Ordinance No. 1399-2002, §4, 400.1b(10), 2-19-02

- (11) The formula for determining the storage for a retention/detention basin is:

 Volume (acre-feet) equals (=) Runoff of 100-Year Storm on developed drainage area less (-) Runoff of 100-Year Storm on undeveloped drainage area less (-) Runoff from offsite that naturally flows through the drainage area.
- (12) The live detention storage to be provided shall be calculated on the basis of the twenty-five (25) year frequency rainfall as published by the U. S. Weather Bureau for this area.

Source: Ordinance No. 1399-2002, §4, 400.1b(12), 2-19-02

- (13) Landscaping plan for retention/detention facility.
- (14) One (1) or more typical cross-sections of all existing and proposed channels or other open drainage facilities, showing the elevation of the existing land and the proposed changes thereto, together with the high water elevations expected from stormwater runoffs under the controlled conditions called for by this Ordinance, and the relationship of structures, street and other utilities.

2. *Detention Basins:* Detention basins shall be constructed to temporarily detain the stormwater runoff in excess of the volumes of runoff occurring on the site before development and will conform to the following standards:

a. Storage Volumes: The volume of storage provided in these basins, together with such storage as may be authorized in other detention facilities, shall be sufficient to control the excess runoff from the twenty-five (25) year storm of any duration.

Source: Ordinance No. 1399-2002, §4, 400.2(a), 2-19-02

- b. Maximum Depth: The maximum planned depth of storm-water stored shall not exceed five (5) feet unless natural ground conditions lend themselves to greater depths.
- c. Approach Slopes: The approach slopes of the basin shall conform as closely as possible to natural land contours. Regrading is preferable is necessary to keep the slopes under ten percent (10%). Erosion control measures shall be provided as well as devices or measures to insure public safety.

- d. Outlet Control Structures: Outlet control structures shall be designed as simply as possible and shall operate automatically. They will be designed to limit discharges into existing or planned downstream channels or conduits so as not to exceed predetermined safe capacities and not in excess of flows which would have occurred with the land in its natural, undeveloped condition. If necessary, velocity dissipation measures shall be employed to ensure that the discharge does not increase downstream erosion.
- e. Spillway: Emergency overflow facilities shall be provided unless positive measures are installed to control the inflow so as not to exceed the safe capacity of the basin.
- f. Appearance: Detention facilities shall where possible, use natural topography and natural vegetation. In lieu thereof, these facilities shall have planted trees and vegetation such as shrubs and permanent ground cover on their borders.
- g. Fencing. Detention facilities shall be enclosed by a six (6) foot fence where the depth of the water would reach two (2) feet. Each fenced facility shall be effectively and attractively screened with trees and plant material.
3. *Retention Basins*: Basins designed with permanent pools shall conform to the standards for detention basins as specified in Section 9.2-4.2. unless modified or amended as follows:
 - a. Minimum Depths: The minimum normal depth of water before the introduction of excess stormwater shall be four (4) feet.
 - b. Facilities for Emptying: For emergency purposes, cleaning or shoreline maintenance facilities shall be provided or plans prepared for the use of auxiliary equipment to permit emptying and drainage.
 - c. Pollution Abatement: Aeration facilities may be required, dependent on the quality of the influent and detention time.
 - d. Side Slopes: The side slopes shall be of non-erosive material with a slope of 3:1 or flatter. The ledge shall be four (4) to six (6) feet wide, three (3) feet below normal water depth and sloping gently toward the shore to prevent people or objects from sliding into deep water. There shall be a free-board of eighteen (18) inches above the high-water elevation on all retention basins. Alternate designs for side slopes may be considered under special circumstances where good engineering practice is demonstrated.
 - e. Sediment Storage: Adequate area for sediment storage shall be provided in all retention basins.
4. *Maintenance of Facilities*: The developer shall be responsible for the maintenance of all improvements until such time as eighty percent (80%) of the lots have been improved with buildings and occupancy permits issued or until such time as eighty percent (80%) of the lots in the development have been sold with vegetation to be established to prevent sediment overload. However, the developer shall not transfer these improvements for the purpose of maintenance until he/she has complied with the above and until he/she has received final approval, final inspection, and a Certificate of Compliance from the City Engineer and/or his (her) appointed consulting representative.

Source: Ordinance No. 1399-2002, §4, 400.4, 2-19-02

All improvements, including landscaping, trash removal, and established vegetation, shall be maintained in perpetuity and cannot be developed for any other use which would limit or cause to limit the use of the improvements

When the property has been subdivided, each property owner shall, within the contents of the deed, be liable for the combined maintenance of the improvements. A special note to this effect shall appear on any final plat of subdivision or any plat of condominium and their declarations.

For a residential subdivision, a Property Owners Association shall be formed in perpetuity for the maintenance of the improvements. Membership shall be mandatory by all property owners. Articles of Agreement of the Property Owners Association must be recommended by the Laurel Planning Commission to the City Council for acceptance and approval. For all other developments, the owner shall be responsible for the maintenance of the improvements.

When problems arise due to inadequate maintenance, the Public Works Director may inspect the improvements and compel the correction of the problem by written notice.

5. *Inspection of Facilities:* The City Engineer and/or his (her) appointed consulting representative shall inspect all drainage facilities while under construction. When facilities are not constructed according to approved plans, the City of Laurel has the explicit authority to compel compliance and have any situations corrected which are not on private property, shall be accessible at all times for inspection by the City Engineer or other responsible public official.

Sections 10-21. Outdoor Seating Arrangements

In order to increase occupant capacity and business volume, outside seating will be permitted by local restaurant businesses with the following guidelines:

Businesses are reminded that Citizen safety (business owner, patron, pedestrian and/or motorist) is paramount.

Businesses shall ensure their establishment is accessible and in compliance with the American with Disabilities Act.

Businesses shall maintain a minimum of 4' of unobstructed walkway for pedestrian traffic

Businesses shall be restricted to the sidewalk immediately adjacent to the abutting private property.

Businesses shall not exceed 1/3 use of available parking spaces if using an existing parking lot.

Businesses are reminded in the event of a fire or other emergency temporary seating must not block any fire apparatus or first responder's movement to the scene.

Businesses shall not be located on a major thoroughfare.

Businesses shall not block traffic altogether but may cause vehicular traffic to be reduced to one lane.

Businesses shall provide signage not less than 100' from seating arrangement to notify motorists.

Businesses shall ensure that the use of any large umbrella does not obscure oncoming traffic from a distance of more than 100' to ensure that no blind spots are created to on-coming traffic.

Businesses shall ensure any and all seating arrangements are temporary and movable in design

Businesses shall remove all temporary seating equipment at the close of business day.

Businesses shall maintain waste baskets and ensure any trash or food products are removed throughout the time that seating is expanded and removed.

Sections 10-22 --- 10-30. Reserved.

DIVISION 2. EMPLOYEE HEALTH CERTIFICATE

Section 10-31 --- 10-33. Reserved.

Section 10-34. Yearly Physical Examination.

All workers in restaurants, sandwich shops, cafes, bakery shops, boarding houses serving six (6) or more boarders and all other places where food is sold or served without further preparation for human consumption shall be examined once yearly by the staff of the County Health Department in order to determine if such person is suffering from a communicable disease. This examination shall include such laboratory tests as the health officer may deem advisable and practical for the protection of the public health. If, in the opinion of the health officer, any such worker presents such signs or symptoms as to require further tests and examinations, such as X-ray films of the lungs and other tests not routinely done by the Health Department, the health officer shall require such worker to undergo such tests and examinations at the worker's own expense in order to establish the absence of any suspected communicable disease.

ARTICLE III. CONTROL PLAN FOR FATS, OILS, AND GREASE (FOG) AND FOOD WASTE

Section 10-40. Purpose

The purpose of this ordinance is to control discharges into the public sewerage collection system and wastewater treatment plant that interfere with the operations of the system, cause blockage and plugging of pipelines, interfere with normal operation of pumps and their controls, and contribute waste of a strength or form that either causes treatment difficulties or is beyond the treatment capability of the wastewater treatment plant from industrial or commercial establishments, particularly food preparation and serving facilities

SOURCE: Ordinance No. 1667-2017, §1, 9-19-2017

Section 10-41. Applicability and Prohibitions

- A. This Ordinance shall apply to all non-domestic users within the city limits of Laurel, Mississippi.
- B. Grease traps or grease interceptors shall not be required for residential users
- C. Facilities generating fats, oils or greases as a result of food manufacturing, processing, preparation, or food service shall install, use, and maintain appropriate grease traps or interceptors. These facilities include but are not limited to restaurants, food manufacturers, food processors, hospitals, hotels and motels, prisons, nursing homes, and any other facility preparing, serving, or otherwise making any food stuff available for consumption.
- D. No user may intentionally or unintentionally allow the direct or indirect discharge of any petroleum oil, non-biodegradable cutting oil, mineral oil, or any fats, oils, or greases of animal or vegetable origin into the sewer system in such amounts as to cause interference with the collection and treatment system, or as to cause pollutants to pass through the treatment works into the environment.
- E. The following establishments shall be exempt:
 - 1. One that operates for a maximum duration of four (4) days in connection with an annual event, such as a fair, carnival, circus, public exhibition or other public gathering;
 - 2. One that sells or serves prepackaged or precooked foods that would require warming only or are served without additional processing or cooking in a manner in which washing is not required, so as not to introduce grease into the wastewater;
 - 3. One that serves only snow cones, drinks or ice cream products;
 - 4. Produce markets without food grinders;
 - 5. Grocery or convenience stores without food preparation, meat cutting or packaging, delicatessens, or bakeries; or
 - 6. Daycare centers which primarily serve microwave dishes, using single service items, served in a manner in which washing is not required, so as not to introduce grease into the wastewater.

Section 10-42. Definitions

“*Act*” shall mean the Federal Water Pollution Control Act, also known as the Clean Water Act, as

amended, 33 U.S.C 1251, et seq.

“**BOD**” (denoting Biochemical Oxygen Demand) shall mean the value of the 5-day test for Biochemical Oxygen Demand, as described in the latest edition of “Standard Methods for the Examination of Water & Wastewater”.

“**COD**” shall mean the value of the test for Chemical Oxygen Demand, as described in the latest edition of “Standard Methods for the Examination of Water & Wastewater”.

“**City Plumbing Inspector**” shall mean the person and/or persons authorized by the City Administration to conduct plumbing inspections on behalf of this ordinance

“**EPA**” shall mean the United States Environmental Protection Agency.

“**Fats, oils and greases (FOG)**” shall mean organic polar compounds derived from animal and/or plant sources that contain multiple carbon chain triglyceride molecules. These substances are detectable and measurable using analytical test procedures established in 40 CFR 136, as may be amended from time to time. All are sometimes referred to herein as “grease” or “greases”.

“**Food**” shall mean any substance, whether solid or liquid, and whether animal, vegetable, or fruit origin, intended to be used or commonly used as a food for human consumption.

“**Food Establishment**” shall mean any place where food is manufactured, packaged, produced, processed, prepared or served for commercial, public or facility resident consumption. These establishments primarily use one or more of the following preparation activities: cooking by frying (all methods), baking (all methods), grilling, sauteing, rotisserie cooking, broiling (all methods), boiling, blanching, roasting, toasting, or poaching. Also included are infrared heating, searing, barbecuing, and any other food preparation activity that produces a hot, non-drinkable food product in or on a receptacle that requires washing. The term shall also include any such place regardless of whether there is a charge for the food. The term shall not include a private home where food is prepared for individual family consumption.

“**Grease Trap**” or grease interceptor shall mean a device designed to use differences in specific gravities to separate and retain light density liquids, waterborne fats, oils, and grease prior to the wastewater entering the sanitary sewer collection system. These devices also serve to collect settle able solids generated by and from food preparation activities, prior to the water exiting the trap and entering the sanitary sewer collection system. The terms grease trap and grease interceptor are used interchangeably for purposes of this Article.

“**Indirect Discharge**” or “**Discharge**” shall mean the introduction of pollutants into the city sewer system from any non-domestic source.

“**Interference**” shall mean a discharge which alone or in conjunction with a discharge or discharges from other sources inhibits or disrupts the city sewer system, its treatment processes or operations or its sludge processes, use or disposal, or is a cause of a violation of the city’s laws and/or regulations.

“Oil/Water separator” shall mean approved and industry standard system that is specifically designed and manufactured to separate oil from water. The system shall allow the oil to be collected and removed on a regular basis so as to prevent it from being discharged into the wastewater collection system. Only oil/water separators manufactured for that specific operation will be approved.

“Person” shall mean an individual, or any association, company, corporation, firm, organization or partnership, singular or plural, of any kind.

“Sanitary Sewer” shall mean a system of pipes, conduit, and treatment facilities owned or operated by the City which collect, transport and treat sanitary sewage, and to which storm, surface, and ground waters are not intentionally or normally admitted.

“User” shall mean any person or establishment including those located outside the jurisdictional limits of the City who contributes causes, or permits the contribution or discharge of wastewater into the City’s wastewater collection or treatment system, including persons who contribute such wastewater from mobile sources, such as those who discharge hauled wastewater.

Section 10-43. Control Plan for FOG (Fats, Oil, and Grease) and Food Waste

- A. Any new construction, renovation, or expansion of Food Service Facilities shall be required to submit to the City a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system.
- B. Any existing Food Service facilities shall also be required to submit a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system.

SOURCE: Ordinance No. 1667-2017, §4, 9-19-2017

Section 10-44. General Criteria

- A. Installation requirements: All existing, proposed, or newly remodeled Food Service Facilities inside the City of Laurel, Mississippi, wastewater service area shall be required to install, at the user’s expense, an approved, properly operated and maintained grease trap.
- B. Sanitary sewer flows: Sanitary sewer flows from toilets, urinals lavatories, etc. shall not be discharged into the grease trap. These flows shall be conveyed separately to the sanitary sewer service lateral.
- C. Floor drains: Only floor drains which discharge or have the potential to discharge grease shall be connected to a grease trap.
- D. Garbage grinders/disposals: It is recommended that solid food waste products be disposed of through normal solid waste/garbage disposal means. If a grinder/disposal

issued it must be connected to the grease trap. The use of grinders is discouraged since it decreases the operational capacity of the grease trap and will require an increased pumping frequency to ensure continuous and effective operation.

- E. Dishwasher: Commercial dishwashers must be connected to the grease trap. Dishwashers discharge soap and hot water which can melt grease and allow it to pass through an undersized grease trap. Traps must be sized accordingly to allow enough detention time to allow water to cool grease to solidify and float to the top of the trap.
- F. Location: Grease trap shall be installed outside the building upstream from the sanitary sewer service lateral connection. This will allow easy access for inspection, cleaning, and removal of the intercepted grease at any time. A grease trap may not be installed inside any part of a building without written approval by the City Plumbing Inspector.
- G. Pass Through Limits: No user shall allow wastewater discharge concentration from grease trap to exceed 100MGPL (milligrams per liter) as identified by EPA method 413.
- H. A minimum 12' X 12" dumpster pad with 6" (six inches) curb sloped to 3" (three inches) drain, slick finished, for garbage and grease receptacle is required. Both hot and cold water is required at the dumpster pad. The drain for the dumpster pad shall be routed through the required grease trap. These dumpsters must be maintained as to prevent obnoxious odors and the infestations of flies and larvae.
- I. A 3-compartment sink with drain board on each side is required. Individual compartments must be protected from the possibility of cross contamination.
- J. A hand washing sink and floor mounted mop sink are required for FOG establishments.
- K. Food service operations that involve frying, grilling, baking, or barbequing or any other operation that produces considerable amounts of grease require suppression hoods per the International Mechanical Code, 2018 Edition as adopted and amended accordingly by the city administration.
- L. Positive air pressure flow must be provided in the seating areas of the FOG establishments per the International Mechanical Code, 2018 Edition as adopted and amended accordingly by the city administration.
- M. All food service operations shall conform to the applications for special and indirect wastes per the International Plumbing Code, 2018 Edition as adopted and amended accordingly by the city administration.
- N. All facilities shall comply with the bathroom facilities per the International Building Code, 2018 Edition as adopted and amended. These facilities will also be required to meet A.D.A. accessibility for restrooms, parking, and other accessibility.
- O. The number of parking spaces are determined per zoning requirements.

Section 10-45. Design Criteria

- A. Construction: Grease traps shall be constructed in accordance with the City of Laurel, Mississippi standards and shall have a minimum of two compartments with fittings designed for grease retention.
- B. Access: Access to grease traps shall be available at all times for their maintenance and inspection. Access manholes, with a minimum diameter of 24 inches, shall be provided over each grease interceptor chamber and sanitary tee. The access manholes

shall extend at least to finished grade and be designed and maintained to prevent water inflow or infiltration. The manholes shall also have readily removable covers to facilitate inspection, grease removal, and wastewater sampling activities.

- C. **Load-Bearing Capacity:** In areas where additional weight loads may exist, the grease trap shall be designed to have adequate load-bearing capacity. (Example: vehicular traffic in driving and parking areas)
- D. **Inlet and Outlet Piping:** Wastewater discharging to a grease trap shall enter only through the inlet pipe of the trap. Each grease trap shall have only one inlet and one outlet pipe.
- E. **Grease Trap Sizing:** The required size of the grease trap shall be calculated using EPA-2 model. All grease traps shall have a capacity of not less than 1,000 gallons nor exceed a capacity of 3,000 gallons. If the calculated capacity exceeds 3,000 gallons, multiple units plumbed in series shall be installed. Concrete preferred

Section 10-46. Grease Trap Maintenance

- A. **Cleaning/Pumping:** The user at the use's expense shall maintain all grease traps to assure proper operation and efficiency and maintain compliance with the city's Pass Through Limits. Maintenance of grease trap shall include the complete removal of all contents, including floating materials, wastewater, and bottom sludge and solids. This work shall be performed by a qualified and licensed hauler. Decanting or discharging of removed waste back into the trap from which it was removed or any other grease trap, of the purpose of reducing the volume to be disposed, is prohibited. This service shall also include a thorough inspection of the trap and its components. Any needed repairs shall be noted. Repairs shall be made at the user's expense.
- B. **Cleaning/Pumping Frequency:** The grease trap must be pumped out completely a minimum of once every four (45) months, or more frequently, to prevent carry over of grease into the city's sanitary sewer system.
- C. **Disposal:** All waste removed from each grease trap must be disposed of at a facility approved to receive such waste in accordance with the provisions of this program. In no way shall the pumpage be returned to any private or public portion of the city's sanitary sewer collection system. All pumpage from grease traps must be tracked by a manifest, which confirms pumping, hauling, and disposal of waste. The customer must obtain and retain a copy of the original manifest from the hauler.
- D. **A grease trap cleaning/maintenance log** indicating each pumping for the previous 24 months shall be maintained by each Food Service Facility. This log shall include the date, time, amount pumped, hauler, and disposal site and shall be kept in a conspicuous location for inspection. Said log shall be made available to the City Plumbing Inspector and/or his/her representative upon request.
- E. **Submittal of Records:** Each user shall submit all cleaning maintenance records to the City of Laurel Water Department. The maintenance records shall include the following information:
 - 1. Facility name, address, contact person, and phone number;

2. Company name, address, phone number and contact name of person responsible for performing the maintenance, cleaning, pumping, or repair of grease trap.
3. Types of maintenance performed
4. Dates maintenance was performed
5. Date of next scheduled maintenance
6. Copies of manifests

The City of Laurel Water Department and/or City Plumbing Inspector will perform periodic inspections of these facilities and shall notify the user of any additional required maintenance or repairs. Upon written notification the user shall be required to perform the maintenance and provide records of said maintenance within 14 calendar days. Upon inspection the user may be required to install, at his expense, additional controls to provide a complete system which prevents discharges of undesirable materials into the wastewater collection system.

Section 10-47. Enforcement

- A. Representatives of the City of Laurel, Mississippi may sample a user's facility at any time. It shall be unlawful for a user to refuse to allow the City Plumbing Inspector and/or his/her designee to enter the user's premises during business hours to determine whether the user is complying with all the use requirements of this Article. A user shall allow the City Plumbing Inspector and/or his/her designee to all parts of the premises for the performance of all other duties. If the results of the sampling indicate that the grease trap is not in compliance with this Ordinance, or if the user has not timely submitted a manifest or other report as required by this Ordinance, the user shall be required to pay for the sampling done under this section.
- B. Except as provided herein, for a period of one year following adoption of this Ordinance, although grease traps shall be required to be installed, no enforcement actions will be taken under this Ordinance for failure to achieve limits on grease discharges from the facility. If, during this one year period, an obstruction of a sewer main(s) occurs that causes a sewer overflow to the extent that an impact on the environment is realized and that said overflow or failure of the sanitary sewer collection system to convey sewage can be attributed in part or in whole to an accumulation of grease in the sewer main(s) the City of Laurel, Mississippi shall take appropriate enforcement action.

Section 10-48 Penalties

- A. Any person who fails to comply with any provision of this article shall be fined in an amount not to exceed the maximum allowed by city regulation for each offense.

A violation of any provision under the authority of this article shall constitute a violation of this article. Each violation shall constitute a separate offense.

- B. Any person found by the Court to be in violation of said Ordinance and who has received a Municipal Offense Ticket for a violation of said Ordinance, or if any person receiving said Ticket fails to appear in said Court, or otherwise settle the matter prior to the date stated on the Municipal Offense Ticket, pursuant to the provisions of this Ordinance, shall be guilty of a misdemeanor. Any person found guilty of a violation shall be punished, in the discretion of the Court, either under the terms of said Ordinance or by a fine of not more than \$1,000.00 or by imprisonment in the City or County jail for a period not to exceed one (1) year, or by some community service as may be ordered by the Court or by a combination of either a fine, imprisonment and/or community service, at the sole discretion of the Court, unless otherwise prohibited by State law. The Court may escalate the punishment of those found guilty of repeat of subsequent violation of the same law.

CHAPTER 10.1

HISTORIC PRESERVATION*

Section 10.1-1. Statement of Purpose.

It is hereby declared as a matter of public policy that the protection, enhancement and perpetuation of properties of cultural, architectural, archaeological or historical merit is a public necessity and is required in the interest of the health, prosperity and welfare of the people. Therefore, pursuant to the Mississippi Local Government Historic Preservation Act of 1978 (Chapter 472, Laws of Mississippi, 1978), this Ordinance intends to:

- (a) Effect and accomplish the protection, enhancement and perpetuation of landmarks, landmark sites and historic districts which represent distinctive elements of the City's cultural, social, economic, political and architectural history;
- (b) Safeguard the City's historic, aesthetic and cultural heritage as embodied and reflected in such landmarks, landmark sites and historic districts;
- (c) Foster civic pride in the accomplishments of the past;
- (d) Ensure the harmonious, orderly and efficient growth and development of the City;
- (e) Stabilize the economy of the City through the continued use and revitalization of its landmarks, landmark sites and historic districts;
- (f) Protect and enhance the City's attractions to tourists and visitors and the support and stimulus to business and industry thereby provided;
- (g) Promote the use of landmarks, landmark sites and historic districts for the education, pleasure and welfare of the people of the City of Laurel.

Section 10.1-2. Definitions.

Unless specifically noted otherwise, the following definitions are standard throughout this Chapter:

Alteration: Any change because of construction, repair, maintenance or other means to a landmark site

***Editor's Note** --- Ordinance No. 1021-1984, § 1---18, adopted June 19, 1984, did not specify the manner of codification, but was included herein as Ch. 10.1, §§ 10.1---10.1-18, at the editor's discretion.

Cross Reference --- Administration, Ch. 2; buildings and building regulations, Ch. 7; housing and property maintenance, Ch. 11; planning and development, Ch. 19; zoning, App. I.

or to a building located within a historic district or designated as a landmark.

Applicant: The record owner of a landmark, landmark site or building or buildings within a historic district or the lessee thereof with the approval notarized of the owner of record, or a person holding a “bona fide” contract to purchase same, who makes application for a Certificate of Appropriateness under this Chapter.

Building: Any building or other structure built for shelter or enclosure of persons, animals or chattels, including fences, signs, paving and boundary walls, and any part of any such building or structure when subdivided by division walls or party walls extending to or above the roof and without openings in such separate walls. The term “*building*” shall be construed as if followed by the words “or any part thereof.”

Certificate of Appropriateness: A document evidencing the approval of the Commission for work proposed by an applicant.

City: The City of Laurel as represented by its local governing board. For all intents and purposes of this Chapter, the terms “*City*” and “*Board*” shall be interchangeable.

Commission: The Historic Preservation Commission created under this Chapter, pursuant to §39-13-5 Mississippi Code (1978).

Construction: The erection of any on-site improvement to a landmark or to a building or any parcel of ground located within a historic district or on a landmark site, whether the site is presently improved or unimproved, or hereafter becomes unimproved by “demolition”, “demolition by neglect” or as a result of destruction of an improvement located thereon by fire, windstorm or other casualty, or otherwise.

Demolition: The complete or constructive removal of a building on any site.

Demolition by neglect: Neglect in the maintenance of any building or structure which is a historic landmark or which is within a historic district which results in deterioration.

Earthworks: Any subsurface remains of historical, archaeological or architectural importance or any unusual ground formations of archaeological significance.

Exterior features: The architectural style, general design and general arrangement of the exterior of a building or other structure, including the color, the kind and texture of the building material and the type and style of all windows, doors, light fixtures, signs and other appurtenant fixtures and natural features such as live trees.

- (a) In the case of outdoor advertising signs, “*exterior features*” shall be construed to mean the style, material, size, color, and location of all such signs.
- (b) Live trees larger than six (6) inches in diameter at a point five (5) feet above the ground should be considered as exterior features.

Historic district: An area, designated by the Commission and approved by the City through an

Ordinance, which contains a geographically definable area, urban or rural, possessing a significant concentration, linkage or continuity of sites, buildings, structures, or objects united by past events or aesthetically by plan or physical development.

Historic resources: As recognized by the National Register of Historic Places, historic resources consist of separate and aggregate buildings, districts, structures, sites and objects, and are defined below:

- (a) **Building:** A structure created to shelter any form of human activity, such as a house, barn, church, hotel or similar structure. *Buildings* may refer to a historically related complex such as a courthouse and jail or a house and barn.
- (b) **District:** A geographically definable area, urban or rural, possessing a significant concentration, linkage or continuity of sites, buildings, structures, or objects united by past events or aesthetically by plan or physical development.
- (c) **Structure:** A work made up of interdependent and interrelated parts in a definite pattern of organization. Constructed by man, it is often an engineering project large in scale. Examples: bridges, lighthouse, water towers.
- (d) **Object:** A material thing of functional, aesthetic, cultural, historical or scientific value that may be, by nature or design, movable yet related to a specific setting or environment. Examples: steamboats, dredges.
- (e) **Site:** The location of a significant event, a prehistoric or historic occupation or activity, or a building or structure, whether standing, ruined or vanished, where the location itself maintains historical or archaeological value regardless of the value of an existing structure. Example: battlefields, Indian mounds.

For the intents and purposes of this Chapter, the definition of a *National Register District* corresponds as a “*historic district*”; building, structure or object corresponds as a “*landmark site*.”

Landmark: An improved parcel of ground with a building, structure or object, designated by the Commission and approved by the City through an Ordinance, which possesses particular historic, architectural or cultural significance by meeting at least one (1) of the following criteria:

- (a) Exemplifies or reflects the broad cultural, political, economic or social history of the nation, State, County or City; or
- (b) Is identified with historic personages or with important events in national, State or local history; or
- (c) Embodies distinguishing characteristics of an architectural type or is a specimen inherently valuable for the study of a period style, method of construction or use of indigenous materials or craftsmanship; or

- (d) Is representative of the notable work of a master builder, designer or architect whose individual ability has been recognized or who influenced his age.

Landmark site: An unimproved or improved parcel of ground, designated by the Commission and approved by the City through an Ordinance, which possesses particular historic, architectural or archaeological significance by meeting at least one (1) of the following criteria:

- (a) Exemplifies or reflects the broad cultural, political, economic or social history of the nation, region, State, County or City; or
- (b) Is identified with historic personages or with important events in national, regional, State or local history; or
- (c) Embodies distinguishing characteristics of an architectural type or is a specimen inherently valuable for the study of a period, style, method of construction or use of indigenous materials or craftsmanship; or
- (d) Has yielded, or may be likely to yield, information important in prehistory or history.

“*Landmark sites*” differ from “*landmarks*” in that the physical location, not the building or structure, possesses primary significance. Although some of the criteria for “*landmark sites*” parallel the criteria for “*landmarks*”, “*landmark sites*” which are accompanied by buildings or structures which do or do not possess significance related to the site, may appear eligible as “*landmarks*” but must be classified as “*landmark sites*”. For the purpose of this Chapter, therefore, “*landmark sites*” encompasses prehistoric or historic sites on unimproved or improved parcels of land.

Local Governing Board (abbreviated as “**Board**”): The duly elected or appointed foremost authority of the City, including but not limited to the Mayor, City Council. For all intents and purposes of this Chapter, the terms “**Board**” and “**City**” shall be interchangeable.

Ordinary repairs or maintenance: Work done to prevent deterioration of a building or any part thereof by restoring the building as nearly as practicable to its condition prior to such deterioration, decay or damage.

Owner of record: The owner of a historic resource reflected on the current County Tax Roll.

Secretary of the Interior's Standards for Rehabilitation and Guidelines, for Rehabilitating Historic Buildings (abbreviated as “**secretary's standards**”):

A Federal document delineating ten (10) standards and numerous guidelines for the sensitive rehabilitation and preservation of historic buildings. The *secretary's standards* shall be used as the guideline for judging all applications for a Certificate of Appropriateness.

Section 10.1-3. Historic Preservation Commission, Composition, and Terms.

By virtue of §39-13-5 Mississippi Code (1978), the local Governing Board of the City of Laurel has been authorized to establish a Historic Preservation Commission to preserve, promote and develop the historical resources of the City of Laurel, to advise the Board as to the designation of historic districts, landmarks and landmark sites, and to perform such other functions as may be provided by law.

The Commission shall consist of up to nine (9) residents of Laurel who shall be appointed by the Board with due regard to proper representation in such fields and interest as history, architecture, architectural history, archaeology, urban planning, law and real estate. All members of the Commission shall serve for terms, not to exceed six (6) years and shall be eligible for reappointment.

All members of the Commission shall serve at the will and pleasure of the Board.

Section 10.1-4. Rules of Procedure.

To fulfill the purposes of this Chapter and carry out the provisions contained therein:

- (a) The Commission annually shall elect from its membership a Chairman, Vice-Chairman and Secretary. If neither the Chairman nor the Vice-Chairman attends a particular meeting, the remaining members shall select an acting Chairman from the members in attendance at such meeting. A quorum shall consist of one (1) more than half ($\frac{1}{2}$) the number of the Commission.
- (b) The Commission shall develop and adopt rules of procedure which shall govern the conduct of its business, subject to the approval of the Board. Such rules of procedure shall be a matter of public record.
- (c) The Commission, prior to exercising its powers of review, further shall develop, adopt and publish criteria for determining appropriateness as set forth in Section 10.1-12. Such criteria shall be consistent with local, State and Federal guidelines and regulations, including, but not limited to, Building, Safety and Fire Codes and the Secretary of the Interior's Standards for Rehabilitation. Portfolios of illustrations, color charts, descriptions and other materials interpreting its criteria shall be made available to the general public.
- (d) The Commission shall keep Minutes and records of all meetings and proceedings including voting records, attendance, resolutions, findings, determinations and decisions. All such material shall be a matter of public record.
- (e) The Commission shall establish its own regular meeting time; however, the first meeting shall be held within thirty (30) days of the appointment of a full Commission and regular meetings shall be scheduled at least once every three (3) months. The meeting place of said Commission shall be the Council Chamber of the City Hall, or such other place as a meeting may be adjourned to if a need to do so arises. The Chairman or any two (2) members may call a special meeting by giving written notice to every other member of the Commission stating the date and time of such meeting either by hand delivery thereof at least five (5) days before the meeting date or by mailing such notice to each member, posted at least eight (8) days before the meeting date.

Section 10.1-5. Appropriations.

The City is authorized to make appropriations to the Commission necessary for the expenses of the operation of the Commission, and may make additional amounts necessary for the acquisition, restoration, preservation, operation and management of historic properties.

Section 10.1-6. Title to Property Acquired.

All lands, buildings, structures, sites, areas or objects acquired by funds appropriated by the City shall be acquired in the name of the City unless otherwise provided by the City. So long as owned by the City, historic properties may be maintained by or under the supervision and control of the City. However, all lands, buildings or structures acquired by the Commission from funds other than those appropriated by the City may be acquired and held in the name of the Commission, the City or both.

Section 10.1-7. Non-Restrictive Clause.

Nothing in this Chapter shall be construed to prevent the regulation or acquisition of historic buildings, structures, sites, areas or objects owned by the State of Mississippi or any of its political subdivisions, agencies or instrumentalities.

Furthermore, the Mississippi State Antiquities Act provides for the sensitive treatment of publicly owned buildings shown to possess certain architectural, historical or archaeological significance, and so designated by the Board of Trustees of the Mississippi Department of Archives and History as Mississippi Landmarks. Whenever a Mississippi Landmark is proposed for rehabilitation, alteration, enlargement, etc., the Governing Board (City Council, Board of Supervisors, etc.) submit their plans to the Mississippi Department of Archives and History (the "Department") for review and compliance. If the Department perceives the plans to be detrimental to the Mississippi Landmark, the Department will work with the governing body to bring the project into agreement with the secretary's standards. In this manner, local Governing Boards that have designated publicly owned properties as landmarks, or within a historic district, may be assured that these Mississippi Landmarks will be maintained in a manner compatible with the secretary's standards, which is used as a rehabilitative guideline for all designated historic districts and landmarks.

Section 10.1-8. Powers of the Commission.

In order to preserve, promote, and develop the historic resources of Laurel and to accomplish the purpose set forth in the Mississippi Local Government Historic Preservation Act of 1978 and in this Chapter:

- (a) The Commission shall conduct or cause to be conducted a study and survey of architectural, archaeological, cultural and historic resources within the City of Laurel, if such study has not already been conducted.
- (b) The Commission shall recommend to the Board the adoption of Ordinances designating landmarks, landmark sites and historic districts.
- (c) The Commission shall review applications proposing erection, alteration, restoration, demolition or moving of any landmark or building located on a landmark site or within an historic district so designated by the Board, and shall issue or deny Certificates of Appropriateness accordingly.
- (d) The Commission shall not consider interior arrangement or use.
- (e) The Commission shall promulgate and publish such standards and rules of procedure as are necessary to carry out the provisions of this Chapter.
- (f) The Commission is authorized to apply for, receive, hold and spend funds from private and public sources, in addition to appropriations made by the City, for the purpose of carrying out provisions of this Chapter.
- (g) The Commission is authorized to employ such staff or contract with technical experts or other persons as may be required for the performance of its duties, and to obtain the equipment, supplies and other materials necessary for its effective operation.
- (h) Solely in performance of its official duties and only at reasonable times, the Commission is authorized to enter upon private land for examination or survey thereof. No member, employee or agent of the Commission shall enter any private building or structure without the express consent of the owner of record or occupant thereof.

Section 10.1-9. Designation of Landmarks, Landmark Sites and Historic Districts.

The City may establish by Ordinance landmarks, landmark sites and historic districts within the area of its jurisdiction. No landmarks, landmark sites or historic districts shall be designated until the following requirements have been met:

- (a) The Commission will initiate a thorough investigation of the historic, architectural, archaeological and cultural significance of the buildings, structures, features, sites and surroundings of such districts, landmarks and landmark sites, the findings collected in a cohesive printed format, made a matter of public record, and made available for public inspection.
- (b) After investigation, if the Commission shall decide to recommend the designation of a historic district or landmark or landmark site, it shall prepare or cause to be prepared a proposed Ordinance to make such designation.
- (c) The Commission's recommendations to the City for designation of a historic district shall be accompanied by complete documentation, including, but not limited to:
 - (1) A concise description of the extant historic resources in the district, offering a description of building types and architectural styles represented;
 - (2) A concise statement of the district's historical significance;
 - (3) Boundary description and justification;
 - (4) An inventory of all the buildings, with each building evaluated for its significance to the district;
 - (5) A map showing all historic resources in the district; and
 - (6) Photographs of typical streets capes in the districts as well as of major types, of contributing and noncontributing buildings.
- (d) No historical district or districts shall be designated until the Mississippi Department of Archives and History, acting through such agent or employee as may be designated by its Director, shall have made an analysis of and recommendations, concerning the proposed district boundaries. Failure of the Department to submit its analysis and recommendations to the City within sixty (60) days after a written request for such analysis has been mailed to it shall relieve the City of any responsibility of awaiting such analysis; and the City may at, any time thereafter take any necessary action to adopt or amend its Ordinance.
- (e) If a proposed Ordinance is to designate a landmark site, it may be presented to the City with a recommendation that it be adopted without submission to the Mississippi Department of Archives and History.

- (f) A public hearing will be had after notice, specifying the boundaries of any proposed historic district and the location of proposed landmarks and landmark sites. Said notice shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper published in the City. If a newspaper is not published in the City, then the notice shall be published in a paper published in the County. The first publication of such resolution shall be made not less than twenty-one (21) days prior to the date fixed in such resolution for the public hearing and the last publication shall be made not more than seven (7) days prior to such date. Furthermore, a copy of said notice shall be mailed by first class, postage prepaid, to every property owner, as shown on the City Tax Assessment Rolls, whose property is proposed to be included within an historic district or to be designated a landmark or landmark site. This notice shall be mailed to the addresses shown for said property owners on said City Tax Assessment Rolls and shall be mailed at least fifteen (15) days before said hearing. A failure to receive a mailed notice shall not invalidate the actions of the City taken as a result of said hearing.
- (g) Within sixty (60) calendar days after the public hearing held in connection herewith, the City shall adopt the Ordinance as proposed, reject it entirely or adopt the Ordinance with modifications wherein any modifications shall only be to reduce the scope of the Ordinance as published.
- (h) Furthermore, the Commission shall notify, as soon as is reasonably possible, appropriate State, County, and municipal agencies of the official designation of all landmarks, landmark sites and historic districts. An updated list and map shall be maintained by such agencies and made available to the public.

Section 10.1-10. Certificates of Appropriateness.

In order to promote the general welfare through the preservation and protection of historic resources, no exterior feature of any landmark, landmark site or building or structure within a historic district (including, but not limited to, walls, fences, or structure within a historic district) (including, but not limited to, walls, fences, light fixtures, steps, pavement, trees or other appurtenant features) or any aboveground utility structure, or any type of outdoor advertising sign, shall be erected, altered, reconstructed, restored or rehabilitated, moved, cut or demolished within any such historic district or on any such landmark site or as to any landmark until after an application for a Certificate of Appropriateness of such work has been submitted to and reviewed by the Commission and approved by the City. Therefore:

- (a) The Commission shall serve as a review body with the power to review and recommend to the City whether applications for Certificates of Appropriateness should be granted or denied and, if granted, what conditions, if any, should be provided in such Certificate. The City may impose conditions not recommended by the Commission.
- (b) In making determinations, evaluations and decisions under this Section, the Commission and City shall seek to accomplish the purposes of this Section; in particular, to preserve and protect the architectural and historic integrity and character of any landmark site, landmark or historic

district.

- (c) A Certificate of Appropriateness shall not be required for ordinary maintenance or repair of any landmark, or building or structure upon a landmark site or within a historic district which does not involve a change in design, material, color or other appearance thereof.
- (d) All decisions of the Commission shall be in writing and shall state the findings of the Commission, its recommendations and the reasons thereof.
- (e) The Commission shall not recommend disapproval of any plans without giving its recommendations for changes to be made before such plans can be reconsidered. These recommendations may be in general terms, and compliance therewith shall not *ipso facto* qualify such plans for approval only for reconsideration by the Commission.

Section 10.1-11. Disqualification of Members by Conflict of Interests.

Because the City may possess few residents with experience in the individual fields of history, architecture, architectural history, archaeology, urban planning, law or real estate, and in order not to impair such residents from practicing their trade for hire, members of the Commission are allowed to contract their services to an applicant for a Certificate of Appropriateness, and when doing so, must disqualify themselves from the Commission for that application. In such cases, the City shall, upon the request of the Chairman of the Commission or the Vice-Chairman in his stead, appoint a substitute member who is qualified in the same field as the disqualified member, and who will serve for that particular case only.

If no qualified resident of the City is able to substitute for the disqualified member, the City may appoint, in this case only, a qualified substitute who is a resident of Mississippi but not a resident of Laurel.

If any member of the Commission must be disqualified due to a conflict of interest more than twice in one (1) year, the Chairman, or the Vice-Chairman in his stead, shall encourage the member to resign his Commission seat. Failing this resignation, and if the Commission member continues to enter into conflicts of interest with the Commission, the Chairman or the Vice-Chairman of the Commission shall encourage the City to replace the member.

Likewise, any member of the Commission who has an interest in the property in question or in property within three hundred (300) feet of the site in question, or who is employed with a firm that has been hired to aid the applicant in any matter whatsoever, or who has any proprietary, tenancy or personal interest in any case to be considered by the Commission, shall be disqualified from participating in the consideration of any request for a permit. In such cases, a qualified substitute shall be appointed as provided above.

Section 10.1-12. Criteria for Issuance of Certificates of Appropriateness.

Pursuant to the Secretary of the Interior's "*Standards for Rehabilitation*," the Commission and the City

shall use the following criteria in granting or denying Certificates of Appropriateness:

(a) General factors:

- (1) General appearance of the land, building or improvement under consideration;
- (2) Structural condition of existing building or structure;
- (3) Structural composition of existing building or structure or improvement and proposed alteration;
- (4) Architectural design of existing building or structure or improvement and proposed alteration;
- (5) Size of existing land parcel, building or structure or improvement and proposed alteration;
- (6) Historical significance of existing land, building, structure or improvement;
- (7) Economic use of existing land, building, structure or improvement;
- (8) Relative cost of proposed project and alternatives;
- (9) The owner's legitimate right to earn a reasonable return from his investment in the site, building or structure; and
- (10) The relationship of the above factors to, and their effect upon, the immediate surroundings and, if within a historic district, upon the district as a whole and its architectural and historical character and integrity.

(b) New construction (additions to existing resources and infill construction on vacant properties):

- (1) The following aspects of new construction shall be visually compatible with the buildings and environment with which the new construction is visually related, vis-a-vis, the height, the gross volume, the proportion between width and height of the facade(s), the proportions and relationship between doors and windows, the rhythm of solids to voids created by openings in the facade, and materials used in the facade, the texture inherent in the facade, the colors, pattern and trim used in the facade, and the design of the roof.
- (2) Existing rhythm created by existing building masses and spaces between them should be preserved.
- (3) The landscape plan should be sensitive to the individual building and its occupant and needs, and should be visually compatible with the buildings and environment with which it is visually related.

- (4) A new street facade should blend directionally with other buildings with which it is visually related which is to say, when adjacent buildings have a dominant horizontal or vertical expression, that expression should be carried over in the new facade.
 - (5) New construction must be compatible with the original construction of the historic resources, and should be distinguishable from the original construction and should enhance the architectural characteristic of the historic district.
 - (6) No single architectural style shall be imposed.
 - (7) The quality and excellence in design should be major determinants.
- (c) Exterior alteration:
- (1) All exterior alterations to a building or structure should be compatible with the building itself and other buildings with which it is related, as is provided in subsection (b)(1) above, and in applying these standards, an original design of the building or structure must be considered.
 - (2) Exterior alterations shall not affect the architectural character or historic quality of the building.
- (d) Signs:
- (1) The scale and design of any sign should be compatible with the building and environment with which it is related.
 - (2) The materials, style, size, color and patterns used in any sign should be compatible with the buildings and environment with which it is related.
- (e) Demolition. In considering an application for the demolition of a landmark or a resource within a historic district, the following shall be considered:
- (1) The individual historical or architectural significance of the resource.
 - (2) The importance or contribution of the resource to the aesthetics of the district.
 - (3) The difficulty or impossibility of reproducing such a resource because of its texture, design, material or detail.
 - (4) The proposed replacement structure and the future utilization of the site.
- (f) Reconstruction. The reconstruction of a building destroyed by fire, storm or other act of God shall be governed by the provisions of the Zoning Ordinance, except that the Commission shall

regulate the exterior design of such building in accordance with the criteria set forth in subsection (c) above.

- (g) Denial of application. An application for a Certificate of Appropriateness shall only be denied upon a determination that the proposed changes or project would:
- (1) Result in such disharmony of scale, materials, massing, spacing and/or style between the proposed project and its immediate surroundings and the historic district, landmark or landmark site as a whole so as to undermine the architectural integrity and character of the historic district, or landmark site or landmark, and inhibit the accomplishment of the purposes of this Section; or
 - (2) Result in such a change in the architectural design or character of an existing building or improvement so as to undermine the architectural integrity or character of a historic district as a whole and inhibit the accomplishment of the purposes of this Section; or
 - (3) Result in the loss of or irreparable harm to an existing building or improvement of architectural or historical significance. A Certificate of Appropriateness should not be denied if that denial would jeopardize the owner's legitimate right to earn a reasonable return from his investment in the landmark, landmark site or resource located within the historic district. Reasonable return from investments shall be decided and agreed upon by the owner and the Commission.
- (h) Stay of demolition. If an application for a Certificate of Appropriateness is for the demolition of a resource within a historic district, or a landmark or landmark site, action upon such application shall be stayed for a period of one hundred eighty (180) days, during which time the Commission and the applicant shall undertake meetings and continuing discussions for the purpose of finding a method to save such property. During such period, the applicant and the Commission shall cooperate in attempting to avoid demolition of the property. At the end of said one hundred eighty (180) day period, the Commission shall meet again to discuss the application and if no mutually agreeable method of saving the property bearing a reasonable prospect of eventual success is underway, or if no formal application for funds from any governmental unit or nonprofit organization to preserve the property is pending, the Commission shall notify the City, and the Building Inspector and/or the Inspection Department's designee, upon written notice of the City, may, but is not required to, issue a permit for demolition without a Certificate of Appropriateness having been issued.

Section 10.1-13. Demolition by Neglect.

- (a) Any building or structure which is a landmark and all buildings or structures within a historic district shall be preserved by the owner or such other person or persons who may have the legal custody or control thereof against decay and deterioration and free from unreasonable structural defects. The owner or other person having legal custody and control thereof shall repair such building or structure if it is found to have one (1) or more of the following defects:

- (1) The deterioration of a building(s) to the extent that it creates or permits a hazardous or unsafe condition as determined by the Building Inspector and/or the Inspection Department's designee.
- (2) The deterioration, as determined by the Building Inspector and/or the Inspection Department's designee, of a building(s) characterized by one (1) or more of the following:
 - a. Those buildings which have parts thereof which are so attached that they may fall and injure persons or property;
 - b. Deteriorated or inadequate foundation;
 - c. Defective or deteriorated floor supports or floor supports insufficient to carry imposed loads with safety;
 - d. Members of walls or other vertical supports that split, lean, list or buckle due to defective material or deterioration;
 - e. Members of walls or other vertical supports that are insufficient to carry imposed loads with safety;
 - f. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members which sag, split or buckle due to defective material or deterioration;
 - g. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that are insufficient to carry imposed loads with safety;
 - h. Fireplaces or chimneys which list, bulge, or settle due to defective material or deterioration; or
 - i. Any fault, defect or condition in the building which renders the same structurally unsafe or not properly watertight.

Source: Ordinance No. 1474-2006, 9-5-06

- (b) If the Commission makes a preliminary determination that a building or structure which is a landmark or is located within a historic district is being demolished by neglect, it shall direct the Building Inspector and/or the Inspection Department's designee to notify the owner or owners of the resource of this preliminary determination, stating the reasons therefor, and shall give the record owner or owners thirty (30) days from the date of mailing such notice or the posting thereof on the property, whichever comes later, to commence work to correct the specific defects as determined by the Commission. Said notice shall be given as follows:
 - (1) By certified mail, restricted delivery, mailed to the last known address of the record

owner or owners as listed on the County Tax Rolls; or

- (2) If the above mailing procedure is not successful, notice shall be posted in a conspicuous, protected place on the resource involved.

- (c) If the owner or owners fail to commence work within the time allotted as evidenced by a building permit, the Commission shall notify the owner or owners in the manner provided above to appear at a public hearing before the Commission at a date, time and place to be specified in said notice, which shall be mailed or posted at least thirty (30) days before said hearing. For the purpose of ensuring lawful notice, a hearing may be continued to a new date and time. The Commission shall receive evidence on the issue of whether the subject resource should be repaired and the owner or owners may present evidence in rebuttal thereto. If, after such hearing, the Commission shall determine that the resource is being demolished by neglect, it may direct the Building Inspector and/or the Inspection Department's designee to bring misdemeanor charges against the owner or owners if the necessary repairs are not completed within sixty (60) days of the determination by the Commission that the subject building or structure is being demolished by neglect.

Section 10.1-14. Public Safety Exclusion.

None of the provisions of this Chapter shall be construed to prevent any measure of construction, alteration, or demolition necessary to correct or abate the unsafe or dangerous condition of any resource, other feature or part thereof, where such condition has been declared unsafe or dangerous by the Building Inspector and/or the Inspection Department's designee or the Fire Department and where the proposed measures have been declared necessary, by such authorities, to correct the said condition; provided, however, that only such work as is reasonably necessary to correct the unsafe or dangerous condition may be performed pursuant to this Section. In the event any structure or other feature shall be damaged by fire or other calamity, or by Act of God or by the public enemy, to such an extent that in the opinion of the aforesaid authorities it cannot reasonably be repaired and restored, it may be removed in conformity with normal permit procedures and applicable laws.

Section 10.1-16. Procedures for Issuance of Certificates of Appropriateness.

Anyone desiring to take action requiring a Certificate of Appropriateness concerning a landmark, landmark site or resource within a historic district for which a permit, variance or other authorization from

either the Building Inspector and/or the Inspection Department's designee or the City is required, shall make application therefor in the form and manner required by the applicable Code Section or Ordinance. Any such application shall also be considered an application for a Certificate of Appropriateness and shall include such additional information as may be required by the Commission. After receipt of any such application, the Building Inspector and/or the Inspection Department's designee shall be assured that the application is proper and complete. No building permit shall be issued by the Building Inspector and/or the Inspection Department's designee which affects a resource in a historic district or a landmark or landmark site without a Certificate of Appropriateness, except when a structure has been damaged by fire, windstorm, flood or other disaster, in which case the Building Inspector and/or the Inspection Department's designee may issue a permit for emergency repairs. Said reports shall be only those necessary to return the structure to a safe, habitable condition. Any application for a Certificate of Appropriateness shall be reviewed in accordance with the following procedure:

- (a) When any such application is filed, the Building Inspector and/or the Inspection Department's designee shall immediately notify the Chairman, or Vice-Chairman if the Chairman is unavailable, of the Commission of the application having been filed.
- (b) When the Chairman or Vice-Chairman determines that an application is for action that will in no way alter the extant, exterior appearance of the structure involved, the Chairman or Vice-Chairman may recommend an exemption from a full review of the application by the Commission in the following manner:
 - (1) The Chairman or Vice-Chairman shall notify, in writing, the other members of the Commission that an exemption is being recommended, said written notification to include a description of the proposed action and an explanation of the basis for the exemption.
 - (2) If any member of the Commission objects in writing within five (5) days of being notified of the Chairman's intent to recommend exemption, the proposal shall be placed before the full Commission in the prescribed manner.
 - (3) If no objection is received, the Chairman shall notify the applicant, the Building Inspector and/or the Inspection Department's designee and the City that the Commission is recommending approval of the Certificate of Appropriateness.
- (c) When an application is not recommended for an exemption, the Chairman or Vice-Chairman shall set a time and date, which shall not be later than fifteen (15) days after the filing of the application, for a hearing by the Commission and the Building Inspector and/or the Inspection Department's designee shall be so informed.
- (d) The applicant shall, upon request, have the right to a preliminary conference with a member of the Commission or of the Commission staff for the purpose of making any changes or adjustments to the application which might be more consistent with the Commission's standards.
- (e) Not later than eight (8) days before the date set for the said hearing, the Building Inspector

and/or the Inspection Department's designee shall mail notice thereof to the applicant at the address in the application and to all members of the Commission, which shall serve as a call for a special meeting unless the hearing, is set for a regularly scheduled meeting.

- (f) Notice of the time and place of said hearing shall be given by publication in a newspaper having general circulation in the City at least three (3) days before such hearing and by posting such notice on the bulletin board in the lobby of City Hall.
- (g) Within not more than twenty-one (21) days after the hearing on an application, the Commission shall act upon it, either approving, denying or deferring action until the next meeting of the Commission, giving consideration to the factors set forth in Section 10.1-12 hereof. Evidence of approval of the application shall be by Certificate of Appropriateness issued by the Commission, and, whatever its decision, notice in writing shall be given the applicant and the Building Inspector and/or the Inspection Department's designee. The Commission shall keep a record of its actions under this Chapter.
- (h) The Commission shall have the right to make such recommendations for changes and modifications as it may deem necessary in order to enable the applicant to meet the requirements of the Commission.
- (i) After the hearing, the Commission shall submit to the City the Minutes of the meeting, which shall contain the Commission's recommendation on the Certificate of Appropriateness. If the recommendation is for approval of the Certificate of Appropriateness, the Mayor or the President of the City Council shall be authorized to immediately act upon the City's behalf and issue said Certificate of Appropriateness.
- (j) If the applicant objects to the Commission's decision and desires a hearing before the City, the applicant shall file a written request with the City Clerk not more than ten (10) days after the Commission decides upon its recommendation. No action by the City shall be taken on the matter within the said ten (10) day period.
- (k) If a request for a hearing before the City is timely filed, the City Clerk shall, not later than the day after such request is filed, mail a notice to the applicant of a hearing date, time and place, which shall be the first meeting of the City to be held more than eight (8) days after the filing of the request for hearing by the applicant. However, the applicant may request, in writing, that he be heard at the next meeting of the City and may therein waive the above notice.
- (l) An applicant, at his own expense, may have prepared a verbatim record of the hearing before the Commission. If a verbatim record is made of the hearing before the Commission and no request for a hearing is filed, the City shall make its decision from such record and the Minutes of the Commission.
- (m) Upon approval thereof by the City and receipt of a Certificate of Appropriateness signed by the Chairman or Vice-Chairman of the Commission and by the Mayor or President of the Council, the Building Inspector and/or the Inspection Department's designee may issue a Building Permit.

The issuance of a Certificate of Appropriateness shall not relieve an applicant for a Building Permit, Special Use Permit, variance or other authorization for compliance with any other requirement or provision of the laws of the City concerning zoning, construction, repair or demolition unless such is in conflict with this Section or action taken hereunder. If so, this Section or action taken hereunder shall control.

- (n) If no permit, variance or other authorization from either the Building Inspector and/or the Inspection Department's designee of the City is otherwise required and a Certificate of Appropriateness is required by this article, then the applicant therefore shall file an application with the Building Inspector and/or the Inspection Department's designee. Thereafter, the application shall be processed in the manner provided above. The application shall describe what the applicant proposes to do, how it is to be done and any such information as the Commission or Building Inspector and/or the Inspection Department's designee may require. Applications for color changes to the exterior of a building will not be considered for residential structures in the R-1, Low Density Residential District, or the R-2, Medium Density Residential District, with the Commission's emphasis being to retain the original or early color and textures of masonry surfaces, whenever possible, to prevent indiscriminate removal of paint from previously painted masonry and/or concrete surfaces, and to prevent the painting of previously unpainted masonry and/or concrete surfaces. However, when the application is for a color change only to the exterior of a commercial structure, applicant must come to the Historic Commission for pre-selection and pre-approval.

Section 11-6. Prohibition.

The location or presence of any junked, inoperable or unlicensed vehicle, junked equipment, or derelict property, on any lot, tract, parcel of land or portion thereof, occupied or unoccupied, improved or unimproved, residential or commercial, within the City of Laurel shall be deemed a public nuisance and it shall be unlawful for any person or persons to cause or maintain such public nuisance by wrecking, dismantling, rendering inoperable, abandoning or discarding his or their vehicle or vehicles or junked equipment or derelict property on the real property of another or to suffer, permit or allow the same to be placed, located, maintained or exist upon his or their own real property for a period of ten (10) days. Conditions under which an exception to the “prohibition may be made” are as follows:

- A. one (1) or more vehicles or parts thereof or derelict property may be kept in a completely enclosed building in a lawful manner where it is not visible from street or other private or public property. This enclosure does not include yards or areas encompassed by a site-obscuring fence which are located in residential zoning districts;
- B. vehicles or part thereof, equipment, or derelict property may be stored or parked in a lawful manner on private property where said property has a direct correlation with the licensed business operation at that location. Example: A licensed auto repair shop located on commercial property may possess on their commercial property inoperable vehicles, parts or equipment connected with auto repair but the City may require that the business screen long term vehicles and derelict property from public view;
- C. only one (1) unlicensed or inoperable vehicle per residence may be kept under one of the following conditions:

Condition 1: a vehicle may be covered by an approved commercial (fitted) car tarp and placed under a garage or carport. Tarps must be maintained free of mold and in good condition. Tires must remain inflated and under no circumstances shall the vehicle be placed on blocks or jacks of any kind.

Condition 2: a vehicle may be covered by an approved commercial (fitted) car tarp and parked on an all-weathered surface in the rear yard only. Tarps must be maintained free of mold and in good condition in colors of gray, brown or white only. All tires must remain inflated and under no circumstances shall vehicles be placed on blocks or jacks of any kind.

- D. a vehicle or part thereof which is temporarily used as a retail storage unit and is primarily used for retail transport purposes; however, such unit shall not remain on the property for a period longer than thirty (30) consecutive days.
- E. Mechanic work shall not be operated in a designated residential zone as a permitted use. These classified residential districts are R-1, Low Density Residential District; R-2,

Medium Residential District; R-3, High Density Residential District-Restricted; and R-4, High Density Residential. Property owners may continue to complete simple automotive tasks on their own vehicles, such as change a tire, change a spark plug, etc., but may not do “major” automotive repairs in these zoning districts.

Section 11-7. Presumption.

If any prohibited item shall remain on private property for ten (10) days or more, it shall be presumed that its presence there resulted from the act of consent of the landowner and tenant in possession.

Source: Ordinance No. 1284-1996, 10-8-96

Section 11-8. Abatement or Removal Order and Service.

The owner or tenant, in possession of private property upon which a violation exists, shall remove or abate it within fifteen (15) days from posting the notice of the infraction. Such notice shall be affixed to the vehicle, derelict equipment or residence of abode or given to the individual residing or occupying the residence and/or business.

Such notice shall contain the following information:

- A. Nature of complaint and findings;
- B. Description and location of the vehicle, machinery, or equipment or parts and/or derelict property;
- C. Time limits and dates of notice and removal restrictions; and
- D. Statement of penalties for noncompliance.

No person, after notification to remove any vehicle, machinery or equipment or parts thereof, or derelict property from any private property, which has been given pursuant to this Article, shall remove the same to any other private property upon which such storage is not permitted or onto any public highway, street, avenue, alley or other public property for purpose of storage or abandonment.

No person shall seek to prevent the removal of offending articles whose removal dates have expired by blocking access to the offending article, be it a vehicle, derelict equipment or part. Any vehicle, equipment or other item used to block access, purposely or inadvertently, will be subject to immediate removal without notice to the owner.

Section 11-9. Disposal of Junked Vehicles and/or Equipment.

- A. If such public nuisance is not abated by said owner or occupant after notice is

given in accordance with this Ordinance, official action shall be taken by the City of Laurel to abate such nuisance. Junked vehicles or parts thereof, shall be towed and impounded until lawfully claimed or disposed of in accordance with Sections 63-23-1 through 63-23-11, Mississippi Code Annotated 1972.

Disposition of lost, stolen, abandoned or misplaced personal property under this Article which remains in the City's possession and includes used machinery and equipment will be disposed of in accordance with Section 21-39-21, Mississippi Code Annotated, 1972. Owner or occupant of the junked vehicles or parts thereof, or other used machinery or equipment, also becomes subject to the penalties outlined in Section 11-13 of this Ordinance.

- B. Vehicles so towed and impounded shall be held for ninety (90) days and thereafter shall be disposed of with all rights of ownership being forfeited. Any time prior to the expiration of said ninety (90) days, the record title holder shall be allowed to redeem said vehicle and/or equipment upon the payment of all costs including towing, storage and other such administrative costs as may be determined.

Section 11-15. Temporary Parking for the Resident Disabled.

- Citizens or their caregivers shall contact the Inspection Department and request a non-fee permit to park on their grass when it is necessary to gain entrance to their residence for what presents as a temporary disability. Said permit shall be good for 30 days renewable once.
- Citizens or their caregivers with disabilities that are expected to last more than 60 days shall request a temporary parking permit to park on their grass for no more than 60 days while they make arrangements to install a ramp, sidewalk or expand their driveway with asphalt, concrete or gravel to accommodate getting as close as possible to their residential entrance.
- Citizens with disabilities who continue to park on their grass for more than 5 business days without obtaining a non-fee permit and/or making provisions to prevent killing the grass, water ponding and topsoil erosion shall be subject to Environmental Court Municipal Citations.

ARTICLE II. RESERVED

Sections 11-21 --- 11-50. Reserved.

ARTICLE III. RODENT CONTROL*

DIVISION 1. GENERALLY

Section 11-51. Definitions.

For the purpose of this article the following definitions shall apply:

Business building: Any structure, whether public or private, that is adapted for occupancy for transaction of business, for rendering of professional service, for amusement, for the display, sale or storage of goods, wares or merchandise or for the performance of work or labor, including hotels, rooming houses, office buildings, public buildings, stores, theaters, markets, restaurants, grain elevators, abattoirs, warehouses, workshops, factories and all outhouses, sheds, barns and other structures on premises used for business purposes.

Occupant: The individual, partnership or corporation that has the use of or occupies any business building or a part or fraction thereof, whether as the actual owner or as a tenant. In the case of vacant business buildings or any vacant portion of a business building the owner, agent or other person having custody of the building shall have the responsibilities of an occupant of a building.

Owner: The actual owner of the business building, whether individual, partnership or corporation, or the agent of the building or other person having custody of the building or to whom rent is paid. In the case of business buildings leased with a clause in the lease specifying that the lessee is responsible for maintenance and repair, the lessee will be considered in such cases as the owner for the purposes of this article.

Rat-harborage: Any condition which provides shelter or protection for rats, thus favoring their multiplication and continued existence in, under or outside of a structure of any kind.

Rat-stoppage or rat-proofing: A relatively inexpensive form of rat-proofing with material impervious to rat gnawing to prevent the ingress of rats into business buildings from the exterior or from one business building to another.

Section 12-53. Records Required

- (1) Each dealer shall keep the following information for six (6) months from the date of purchase of a precious item:
 - (a) The name, current address, date of birth and signature of the person from whom the dealer purchased the item
 - (b) A description of the person, including height, weight, race, complexion and hair color

- (c) A copy and the serial number of a valid identification card number, as required under subsection (2).
 - (d) A list describing the items purchased from that person. Upon the request of a local law enforcement agency, the dealer must make available any information required under this subsection.
- (2) Before making a purchase, a dealer shall require the person from whom he or she is purchasing the precious item to identify himself or herself with a valid driver's license, non-driver's identification card, armed services identification card or other valid photo identification sufficient to obtain the information required under subsection (1). The photo identification must contain a traceable serial number, which must be recorded by the dealer. The local law enforcement agency shall make available to each dealer a list of the forms of photo identification that are acceptable under this law.
 - (3) Each dealer, at least once each week in which he or she makes a purchase, shall make out and deliver to the local law enforcement agency a true, complete and legible list of all items purchased during the period since the last report. If the local law enforcement agency has issued forms for the making of the reports, the dealer must use those forms to meet the requirements of this subsection. The list of items must include the following:
 - (a) The brand name and serial number, if any, of the item or items purchased
 - (b) An accurate description of each item sufficient to enable the law enforcement agency to identify the item.
 - (c) The date and time when the item was received
 - (d) The amount paid for each item
 - (e) All information required under subsection (1) of this section

ARTICLE VII. - MOBILE FOOD VENDING

Sec. 12-190. - Applicability.

This article shall apply to all mobile food vendors licensed to sell food and/or beverages in the City of Laurel where permitted to do so and hereby may be referred to as the Mobile Food Vending

Ordinance.

SOURCE: Ordinance No. 1669-2017, 10-17-2017

Sec. 12-191. - Definitions.

The following words and phrases, whenever used herein, shall be construed as defined in this section:

Mobile food vendor means any person who sells food and/or beverages from a mobile pushcart or motorized mobile food preparation vehicle on a consistent basis and for a period of more than 15 days each calendar year.

Mobile pushcart means any portable vending device, pushcart or other wheeled vehicle or device which may be moved without the assistance of a motor and which is not required to be licensed and registered by the Department of Transportation, used for the displaying, storing or transporting of food offered for sale by a vendor. Said cart may be up to four feet in width, six feet in length, excluding auxiliary items such as handles or fenders, or otherwise the cart shall not occupy space greater than a total of 24 square feet.

Mobile food preparation vehicle means any motorized vehicle that includes a self-contained kitchen in which food is prepared, processed or stored and used to sell and dispense food to the consumer. The unit must be on wheels (excluding boats and trailers) at all times. This definition does not include pushcarts.

SOURCE: Ordinance No. 1669-2017, 10-17-2017

Sec. 12-192. - Permits required to use public sidewalks for mobile food vending.

- A. All mobile food vendors must obtain and maintain a permit for mobile pushcart or mobile food preparation vehicle operated.
- B. All applications for permit renewal must be filed yearly. The application shall be made with the City Clerk's Office. The application may be reviewed by any department of the city as may be necessary or convenient to determine whether the application is complete or whether the permit should be granted.
- C. Permits cost of \$250.00 per year which covers the administrative cost of processing the application and regulating each mobile pushcart or mobile food preparation vehicle.
- D. Permit applications shall contain the following information:
 - 1. The name, mailing address, physical address, telephone number(s), and email address of the applicant(s). If any applicant is anything other than a natural person, then all documents related to the creation and maintenance of the entity such as articles of incorporation and any similar relevant documents shall be included.
 - 2. A valid City of Laurel business permit.
 - 3. A food vending permit from the Mississippi Department of Health.

4. A list of products to be sold.
 5. Proof of a valid insurance policy that provides minimum liability coverage of \$500,000.00 per mobile food preparation vehicle and \$500,000.00 per mobile pushcart, with the city named as an additional insured.
 6. A written indemnity agreement that will hold harmless the city, its officers, and employees, for any loss or liability or damage, including costs, for bodily injury or property damage sustained by a person as a result of the negligent installation, use, or maintenance of a permitted space.
 7. Such other additional information required by law, rule, or ordinance, or that any department of the city or city council, or the permit applicant reasonably deems appropriate to assist the city in determining whether the permit should be granted. The applicant shall be provided reasonable time to supplement the application.
- E.. The permit must be displayed on the mobile pushcart preparation vehicle at all times.
- F. Permits are non-transferable.
- G. A damaged or destroyed mobile pushcart or mobile food preparation vehicle may be replaced if and only if approval for its replacement is obtained from the City Clerk's Office. Any such replacement pushcart or vehicle must be of substantially the same type, size, and dimension and with the same general characteristics as the original. Such replacement may be disallowed if the original vendor permit would not have approved the use of the replacement pushcart or food preparation vehicle.
- H. Any permit granted pursuant to this article shall be nonexclusive. The city may grant any number of such permits as the city deems appropriate. The grant of a permit shall not limit or abridge any power or authority of the city and shall not limit the authority of the city to commence appropriate civil, criminal, or other enforcement actions. The city retains full authority to amend the ordinances, rules and regulations that apply to any permit.
- I. The city may revoke and terminate the permit in the event the vendor violates any term, condition, or provision of the permit, the Laurel Code of Ordinances and/or zoning ordinances, state and/or federal law, or if the business license issued by the city for the permitted activity is revoked. The procedures for revoking or terminating a permit shall be the same as revoking or terminating a business license. The revocation may be sought as a remedy in a civil action. The vendor may terminate or surrender the permit at will any time prior to the expiration of the permit by providing written notice to the signs and license division of the office of code services in the planning and development department. Termination of the permit shall not operate to relieve the vendor of the obligation to release, hold harmless, and indemnify the city and its officers, agents, and employees.
- J. No public vending permit or public vending management contract shall convey any interest in the real property under the jurisdiction of the City of Laurel which is

identified in any permit or contract and such permit shall only convey the right to use the property for the purposes allowed in this article.

- K. Permit holders may be required to remove private materials or accessories to allow street, sidewalk, or utility access for emergency and maintenance operation or both.
- L. The vendor shall not receive compensation for relocating.
- M. This permit does not allow permit holders to operate within 300 feet of any public space during city appointed special events without proper notarized written authorization from the special event organizers. This notarized written authorization shall be posted while operating during the special event.
- N. The permit must be displayed on the mobile pushcart or mobile food preparation vehicle at all times.
- O. Permits are non-transferable.
- P. Any permit granted pursuant to this article shall be nonexclusive. The city may grant any number of such permits as the city deems appropriate. The grant of a permit shall not limit or abridge any power or authority of the city and shall not limit the authority of the city to commence appropriate civil, criminal, or other enforcement actions. The city retains full authority to amend the ordinances, rules and regulations that apply to any permit.
- Q. The city may revoke and terminate the permit in the event the vendor violates any term, condition, or provision of the permit, the Laurel Code of Ordinances and/or zoning ordinances, state and/or federal law, or if the business license issued by the city for the permitted activity is revoked. The procedures for revoking or terminating a permit shall be the same as revoking or terminating a business license. The revocation may be sought as a remedy in a civil action. The vendor may terminate or surrender the permit at will any time prior to the expiration of the permit by providing written notice to the signs and license division of the office of code services in the planning and development department. Termination of the permit shall not operate to relieve the vendor of the obligation to release, hold harmless, and indemnify the city and its officers, agents, and employees.

SOURCE: Ordinance No. 1669-2017, 10-17-2017

Sec. 12-193. - Location and operation.

- A. Mobile pushcarts shall conduct business in C-4, Central Business District, only and shall only be located in designated areas approved by the Department of Public Works and the Inspection Department. Mobile Food Preparation Vehicles shall only conduct business in designated areas approved by the Department of Public Works and the Inspection Department within the following Zoning Districts C-1B, Medical Professional District; C-1, Restricted Commercial District; C-2, General Commercial District; C-3, Heavy Commercial

District; C-4, Central Business District; I-1, Restricted Industrial District; I-2, Light Industrial District; and I-3, Heavy Industrial District. All other areas must receive prior approval by the Department of Public Works and the Inspection Department. The mobile food vendor is responsible for initiating a request to utilize such locations, and the Department of Public Works and the Inspection Department shall have complete discretion as to which locations to approve considering the needs of traffic, pedestrians, public safety, public works, public convenience, the general uses of adjacent private property, and any other factor that is proper and lawful for the city to consider in approving or disapproving such locations. The City of Laurel Police and Fire Departments shall have concurrent authority to oversee locations and setup of mobile pushcarts and mobile food preparation vehicles. If an applicant is denied and wishes to appeal his grievance, he/she/they may file in writing a request for an appeal hearing before the City Council to approve or disapprove the application. Appeal request may be filed with the Inspection Department. Appeal will be heard at a regular scheduled meeting of the City Council and said item will be considered "approved or disapproved."

- B. Mobile pushcarts and mobile food preparation vehicles shall conform to the following regulations regarding location and operation:
 - 1. Mobile pushcarts and mobile food preparation vehicles must be located at least 300 feet in all directions from the entrance to any non-mobile business selling food unless the owner of the other business gives notarized written permission for the infringement of the no-vending area. Proof of said permission must be filed with the City Clerk's Office.
 - 2. Mobile pushcarts and mobile food preparation vehicles must not be locked or attached to trees, garbage receptacles, or street furniture.
 - 3. Mobile pushcarts and mobile food preparation vehicles may not locate within 20 feet of any bus stop.
 - 4. Mobile pushcarts and mobile food preparation vehicles may not locate within three feet of a building or structure unless the sidewalk is not less than 11 feet wide.
 - 5. Mobile pushcarts and mobile food preparation vehicles may not locate within any area which would block the view of traffic or traffic signals or traffic signs.
 - 6. Mobile pushcarts and mobile food preparation vehicles may not locate within ten feet of any fire hydrant.
- C. In no event shall any mobile pushcart or mobile food preparation vehicle, display device, or accessory container be located inside any public building or structure or at any place the general public is prohibited.
- D. Mobile pushcarts and mobile food preparation vehicles may only be operated between the hours of 6:00 a.m. and 9:00 p.m. Cleanup and removal of the pushcart or vehicle

must be completed by 9:30 p.m.

- E. The operators must be present at all times.
- F. Mobile food vendors are responsible for all waste and trash removal. The containment area must be kept clear of grease, trash, paper, cups or cans associated with the operation. No liquid waste or grease is to be disposed of in tree pits or onto sidewalks, streets, or other public places.
- G. Mobile food vendors shall not vend from mobile vending units within 300 feet of elementary, middle or high school grounds from 1 hour before schools starts, during the time school is in session, or 1 hour after regular school hours ends.
- H. The mobile food vendor shall contain all refuse, trash and litter within the mobile food service unit or within a small moveable trash can maintained by the vendor, and located adjacent to the mobile pushcart or mobile food preparation vehicle in such a manner as not to block or otherwise obstruct pedestrian or vehicular traffic. The vendor shall be responsible for the proper disposal of such refuse, trash, and litter, and shall place it in the public trash container, or in any private container with proper permission. The vendor is responsible for all litter and trash within 15 feet of the mobile pushcart or mobile food preparation vehicle at any time the vendor is selling or offering to sell any merchandise or service.
- I. The mobile pushcart or mobile food preparation vehicle must have self-contained utilities and shall not use the city's utilities or private utilities that are not self-contained and integral to the vendor unit.
- J. No mobile food vendor shall sell or attempt to sell any item to the occupant of any motor vehicle, unless it is parked in a lawful parking space. Section 13-113. Suspension or Revocation.

- (a) Failure to abide by the provisions of this article or any of the Ordinances of the City or laws of the State of Mississippi in any manner affecting or regulating the operation of the carriage for which the permit is issued, or the failure to maintain the required liability insurance shall be grounds for the suspension or the revocation of a permit issued under this article.
- (b) If a permit should be suspended or revoked, the holder thereof shall first give written notice by certified mail or the right to appear before the Inspection Department and show cause, if any, why the permit should not be suspended or revoked. Such suspension or revocation, however, shall take place immediately and remain in effect pending hearing the City Council, which should be requested in writing after final ruling of the Inspection Department.
- (c) In the event of an emergency, or to prevent a breach of the peace or conduct by a permit holder which is injurious to persons or property or otherwise annoying, harassing or distracting to tourists or other persons at or near the designated passenger zone areas, the Chief of Police shall have the authority to remove any permit holder or operator from the premises for a period not to exceed twenty-four (24) hours. Three (3) repeated violations by permit holder of this section shall constitute a basis for suspension or revocation of its certificate.

Section 13-115. Operations and Restrictions upon Operations, Drivers and Employees.

In addition to other requirements, restrictions and limitations upon operations by persons

receiving a permit under the provisions of this article, such persons shall conduct operations and activities in a safe and sanitary manner and in a manner conducive to tourism development within the City. Specifically:

- (a) All drivers of horse-drawn vehicles shall be at least eighteen (18) years of age, having good eyesight and not be subject to any infirmity of body or mind which might render him or her unfit for the safe operation of the vehicle, and be able to operate a horse-drawn vehicle in a safe and prudent manner. Each driver of a horse-drawn carriage shall, while on duty, do the following:
 - (1) Conduct himself or herself in a reasonable and prudent manner;
 - (2) Not consume alcoholic beverages or drugs while operating a carriage and not be under the influence of alcoholic beverages or drugs in any amount while operating such horse-drawn carriage;
 - (3) Not solicit passengers in a loud or annoying tone of voice and not obstruct the movement of any person or follow any person for the purpose of soliciting patrons. In this regard, actions of any permit holders, their drivers, employees, agents, representatives or other personnel in violation of this section or any other section hereunder shall be deemed a violation by the permit holder and shall be grounds for revocation of the permit.
 - (4) Not permit any unauthorized person to operate any horse-drawn carriage under the driver's control;
 - (5) Empty diapers of all excrement when half (1/2) full and at the beginning of each trip in an appropriate receptacle and manner, and in accordance with all federal and state laws;
 - (6) Keep all routes and carriage stands clean and free of animal excrement;
 - (7) Travel at a pace not faster than a slow trot in conformation with § 65-7-41 Miss. Code Ann. And display the appropriate slow-moving vehicle emblem pursuant to § 63-7-91 Miss. Code Ann.;
 - (8) Not leave any horse-drawn vehicle unattended at any time and shall keep the interior of the vehicle clean at all times;
 - (9) Report all accidents to the owner, the permit holder and to the police department immediately;
 - (10) Each driver shall wear uniforms or other suitable or presentable clothing, have an identification badge or name plate in plain view at all times; this provision shall be applicable to all permit holders, drivers, employees, representatives or agents;
 - (11) Display company name, telephone number, rates and passenger capacity in plain view on the carriage only.

Section 13-116. Rates.

Prior to commencement of operations hereunder, all permit holders shall be required to file with the City Clerk a schedule of rates to be charged for transportation of person under this article.

Such rates, as filed, shall conform to the rate schedule set forth on the carriage or carriages of the permit holder, and shall not be altered or changed except by the filing of a new rate schedule with the City Clerk. No rate schedule, if changed, shall take effect until after ten (10) working days after such change is made with the City Clerk, and such notice shall be filed during regular working hours, being 8:00 a.m. until 5:00 p.m. Monday through Friday. In no event shall the rates charged by a permit holder be changed or altered except in conformity with this section. Nothing herein shall prevent the charging of group rates of a lesser amount for groups of five (5) or more.

ARTICLE VIII. GOLF CARTS AND LOW-SPEED VEHICLES

Section 13-118. Definitions.

The following term and phrase, when used in this chapter, shall have the meaning ascribed to it in this section, except where the context clearly indicates a different meaning

- (c) "City" means the City of Laurel, Mississippi.
- (d) "Governing authorities" means the Mayor and City Council of Laurel, Mississippi.
- (e) "Golf cart" means a motor vehicle that is designated and manufactured for operation on a golf course for sporting or recreational purposes and that is not capable of exceeding speeds of twenty (20) miles per hour. It must be in compliance with Mississippi Law as enacted or amended.
- (f) "Low-speed vehicle" means any four-wheeled electric or gasoline powered vehicle that has a top speed of greater than twenty (20) miles per hour but less than twenty-five (25) miles per hour. It must be in compliance with Mississippi Law as enacted or amended.

Sections 13-119. Permissible Operation

- (c) Any person operating a golf cart and/or low-speed vehicle on the public roads and streets must have in his or her possession a valid driver's license or temporary driver's permit and proof of financial responsibility/insurance as required under Section 63-15-1 et seq., Mississippi Code of 1972.
- (d) Golf carts and/or low-speed vehicles may be operated on all City streets and roads where the posted speed limit does not exceed thirty (30) miles per hour.

Golf carts and/or low-speed vehicles may not be operated on interstate highways or highways as designated by the comprehensive plan of the City except for the crossing of these streets, in which case the shortest traveling distance to do so shall be required. The City may also prohibit other streets based on traffic counts, street designs and other factors.

- (e) Drivers of golf carts and/or low-speed vehicles are required to operate said vehicles in the outside lane of multi-lane streets and roads, where applicable.
- (f) Every golf cart and/or low-speed vehicle to be operated on a public road or street in the city must be registered with the City of Laurel.

A one-time registration fee of twenty-five dollars (\$25.00) is required to cover the cost of administration. The registration shall remain valid for as long as the registering owner owns the golf cart or slow-moving vehicle. Upon registration, a decal will be provided; it must be displayed on the left rear fender of the vehicle at all times. The City shall provide the registrant with a map of the areas where golf carts or low-speed vehicles may be operated.

- (g) Operation of golfcarts and/or low-speed vehicles is subject to all other applicable laws of the State of Mississippi and the City of Laurel related to traffic and parking, along with corresponding penalties, not specifically addressed herein.

Sections 13-120. Violations and Enforcement

A violation of this ordinance is a civil violation and is punishable by a civil penalty of Twenty-Five Dollars (\$25.00). Violation of traffic laws while operating a golf cart or low-speed vehicle may result in issuance of traffic citations in the same manner as if the infraction occurred while operating a motor vehicle.

Sections 13-121. Liability Disclaimer

Neither the city nor any officer or employee thereof shall be held responsible for any damages caused by the operation of a golf cart or low-speed vehicle on any public street or within public right-of-way. All persons who operate or ride upon golf carts or low-speed vehicles on public roads or streets

do so at their own risk and peril and must be observant to and attentive to the safety of themselves and others, including their passengers, other motorists, bicyclists, and pedestrians. The city has no liability under any theory of liability for permitting golf carts or low-speed vehicles to be operated on roads or streets.

Sections 13-122. Repeals.

Any and all ordinances or parts thereof in conflict or inconsistent with any of the terms and provisions of this Ordinance are hereby repealed to such extent as they are so in conflict or inconsistent.

Sections 13-123. Severability.

It is hereby declared to be the intention of the City that the actions, paragraphs, clauses and phrases of this ordinance, when adopted, are severable, and if any sections, paragraphs, clauses, sentences or provisions of this ordinance as adopted shall be declared unconstitutional or otherwise invalid, same shall not affect any of the remaining sections, paragraphs, clauses and phrases of this ordinance.

CHAPTER 14.1

NOISE ORDINANCE*

Section 14.1-1. Generally.

- A. Unnecessary noise degrades the environment of the City to a degree
 - 1. that is harmful and detrimental to the health, welfare and safety of its citizens; and
 - 2. interferes with the comfortable enjoyment of life, property and recreation and with the conduct and operation of business and industry; and
 - 3. causes nuisances.
- B. No one has any right to create unnecessary noise;
- C. Effective control and elimination of unnecessary noise is essential to the furtherance and health and welfare of the City's citizens, and to the conduct of the normal pursuits of life, recreation, commerce and industrial activity;
- D. A busy City creates sufficient noise by its own activity which cannot be eliminated, therefore, it is in the public interest that unnecessary noise be eliminated within the corporate limits;
- E. It is the express legislative intent of the Council that the proliferation of boom boxes, portable radios and tape players being played outside of dwellings, upon the public way, on public sidewalks and in parks and plaza areas and on porches and steps of buildings be discouraged. Individuals who find it necessary to operate these devices out-of-doors at loud levels should operate them with headsets or headphones attached so that the persons who desire to listen to these devices may enjoy them in comfort and that they may not be permitted to create a nuisance in the neighborhood.
- F. Furthermore, it is the express legislative intent of this Council that commercial establishments which provide live entertainment, jukebox entertainment or entertainment through some amplification system be discouraged from having such entertainment audible outside of said premises.

***Editor's Note** --- Ordinance No. 1216-1993, §§ 1---6, adopted August 3, 1993, did not specify the manner of codification, but was included herein as Ch. 14.1, §§ 14.1---14.6, at the editor's discretion.

Section 14.1-2. General Noise Prohibition.

It shall be unlawful for any person within the City of Laurel to make, continue or cause to be made or continued, any loud, unnecessary or unusual noise which either disturbs or endangers the comfort, repose, health, peace or safety of others within the limits of the City.

Source: Ordinance No. 1216-1993, § 2, 8-3-93

Section 14.1-3. Specific Unlawful Noises.

The following acts, among others, are declared to be loud, disturbing and unnecessary noises in violation of this Ordinance, but such enumeration shall not be deemed to be exclusive, namely:

- (a) **Motor noises:** Any noise made by the motor of any automobile, truck, tractor, motorcycle, not reasonably required in the operation thereof under the circumstances and shall include but not be limited to backfiring and motor racing.

- (b) **Explosive use of engine and compressed air-braking devices:** “Engine retarding brake” means a “Dynamic Brake,” “Jake Brake,” “Jacobs Brake,” “CBrake,” “Paccar Brake,” transmission brake or any other engine retarding brake system that alters the normal compression of the engine and subsequently releases that compression.
 - (b1) It shall be unlawful for the driver of any vehicle to use or operate or cause to be used or operated within the incorporated areas of the City of Laurel any engine brake, compression brake or mechanical exhaust device designed to aid in the braking or deceleration of any vehicle that results in excessive, loud, unusual or explosive noise from such vehicle, unless such use is necessary to avoid imminent danger. Emergency vehicles shall be exempt from the application of this ordinance.
 - (b2) Signs stating “VEHICLE NOISE LAWS ENFORCED” or “ENGINE BRAKE ORDINANCE ENFORCED” may be installed at locations deemed appropriate by the City Council to advise motorists of the prohibitions contained in this ordinance, except that no sign stating “VEHICLE NOISE LAWS ENFORCED” or “ENGINE BRAKE ORDINANCE ENFORCED” shall be installed on a state highway without a permit from the Mississippi Department of Transportation. The provision of this Ordinance shall be in effect, however, even if no signs are installed. The terms of this ordinance shall be strictly enforced by the City of Laurel and failure to comply shall be deemed an infraction.

- (b3) If any section, part or provision of this sub-section of Chapter 14.1 NOISE ORDINANCE be held invalid, the remaining part shall be severable and shall continue to be in full force and effect
- (c) ***Horns and signaling devices:*** The sounding of any horn or signaling device on any automobile, motorcycle, trolley coach or other vehicle on any street or public place of the City, except as a danger warning; the creation by means of any such signaling device of any unreasonably loud or harsh sound; and the sounding of any such device for an unnecessary and unreasonable period of time. The use of any signaling device except one operated by hand or electricity; the use of any horn, whistle or any other device operated by engine exhaust; and the use of any such signaling device when traffic is for any reason held up.
- (d) ***Yelling and shouting:*** Yelling, shouting, hooting, whistling, singing or blowing of horns on the public streets, or at any time or place so as to annoy or disturb the quiet, comfort, or repose of persons in any office, or in any dwelling, hotel, motel, apartment or other type of residence, or of any persons in the vicinity.
- (e) ***Pile drivers, hammers, etc.:*** The operation between the hours of 10:00 p.m. and 7:00 a.m. of any pile driver, steam shovel, pneumatic hammer, derrick, steam or electric hoist or other appliance, the use of which is attended by loud or unusual noise.
- (f) ***Tools:*** The use of or operation between the hours of 10:00 p.m. and 7:00 a. m. of any power saw, power planer, or other tool or appliance or saw or hammer, or other tool, so as to disturb the quiet, comfort, or repose of persons in any dwelling, hotel, motel, apartment, or other type of residence, or of any person in the vicinity.
- (g) ***Blowers:*** The operating of any noise-creating blower or power fan or any internal combustion engine the operation of which causes noise due to the explosion of operating gases or fluids, unless the noise from such blower or fan is muffled and such engine is equipped with a muffler device sufficient to deaden such noise.
- (h) ***Exhausts:*** The discharge into the open air of the exhaust of any steam engine, stationary internal combustion engine, motor boat, motorcycle or motor vehicle except through a muffler of other device which will effectively prevent loud or explosive noises therefrom. No person while on a public or private highway, street or road shall operate a motor vehicle with the muffler cut out or removed.
- (i) ***Loading, unloading; opening boxes:*** The creation of a loud and excessive noise in connection with loading or unloading any vehicle or the opening and destruction of bales, boxes, crates and containers.
- (j) ***Hawkers, peddlers and vendors:*** The shouting and crying of peddlers, hawkers and vendors which disturbs the peace and quiet of persons in the neighborhood.

- (k) ***Drums***: The use of any drum or other instrument or device for the purpose of attracting attention by creation of noise to any performance, show or sale.
- (l) ***Transportation of metal rails, pillars and columns***: The transportation of rails, pillars or columns of iron, steel or other material, over and along streets and other public places upon carts, drays, cars, trucks in any manner so as to cause loud noises or to disturb the peace and quiet of persons in the vicinity thereof.
- (m) ***Animals, birds, fowls***: The keeping of any animal, bird or fowl which by causing frequent or long continued noise shall disturb the comfort or repose of persons in the vicinity.
- (n) ***Radios, tape players, etc.***: Any noise emitted from a radio, tape player, tape recorder, record player, or television outdoors on or in any publicly owned property or place, including but not limited to public parks when such noise is audible to a person of normal hearing sensitivity fifty (50) feet from said radio, tape player, tape recorder, record player, or television.
- (o) ***Music***: The playing of music by a live band or other instruments or devices utilizing amplification equipment and/or the amplification of voices in any manner so as to disturb the peace and quiet of persons in the vicinity thereof.

Section 14.1-4. Exemptions.

The following uses and activities shall be exempt from the noise prohibitions described in other Sections of this Ordinance:

- (a) Non-amplified crowd noises resulting from legal activities, between the hours of 7:00 a. m. and 9:00 p.m.
- (b) Construction operations for which building permits have been issued, or construction operations not requiring permits due to ownership of the project by an agency of government, provided such equipment is operated with the manufacturing mufflers and noise reducing equipment in use and in proper operating condition.
- (c) Noises of safety signals, warning devices, and emergency pressure relief valves.
- (d) Noises resulting from any authorized fire or police vehicle when responding to an emergency call, acting in time of emergency or in connection with official Police or Fire Department business.

- (e) Noises from emergency work, being work made necessary to restore property to a safe condition following a public calamity or work required to protect persons or property from an imminent exposure to danger or work by private or public utilities when restoring utility service.
- (f) Noises made by places of worship using bells, chimes or carillons as part of their religious observance and by persons having obtained a permit to use the streets.
- (g) Any aircraft operated in conformity with, or pursuant to, a Federal law, Federal Air Regulations, and air traffic control instructions and pursuant to and within the duly adopted Federal Air Regulations. Any aircraft operating under technical difficulties in any kind of distress, under emergency orders of air traffic control or being operated pursuant to and subsequent to the declaration of an emergency under Federal Air Regulations are also exempt.
- (h) All noises resulting from normal operations of railroad trains are exempt; provided, however, that excessive use of railroad train signaling devices are declared to be loud, disturbing, and unnecessary noises.
- (i) Use of public address systems in any ball park or stadium while an athletic contest is in progress therein.
- (j) Cries for emergency assistance and warning calls.
- (k) Any other noise resulting from activities of a temporary duration and for which a permit has been granted by the Chief of Police.

Section 14.1-5. Permits.

The Chief of Police may grant a temporary permit to persons desiring to use loudspeakers or other electrical devices for parades or for religious, social or political gatherings to be held in any park or other suitable place of assembly.

- (a) Application. Any permit issued hereunder should be issued only on written application which shall set forth the following:
 - (1) A description of the premises for which the permit shall be issued.
 - (2) The dates and times for which the permit is to be used.
 - (3) The name and address of the person applying for the permit.
 - (4) Any facts which would show that the activity for which the permit is sought would not disturb the peace of any family or person within the area into which the sound shall carry.

- (5) The application shall designate a responsible person to be present during the activity. Said person shall be responsible for conducting the activity in compliance with the provisions of the permit and may be present at all times.
 - (6) Other such information as the Chief of Police shall deem necessary and proper.
 - (7) The application shall become a part of any permit issued.
- (b) Issuance. The Chief of Police shall issue a permit only upon a showing that the activity will not disturb the peace of any family or person within the area within which the noise will carry. A permit shall be issued or denied within fifteen (15) days of receipt of a completed, signed application. The Chief of Police shall consider the following factors in considering whether to grant such a permit:
- (1) The anticipated noise.
 - (2) The time of day the activity is to take place.
 - (3) The proximity of the activity to residential areas, schools, churches or other places.
 - (4) Prior complaints from residents as a result of other similar activities.

In the event a permit is denied, the applicant may appeal the decision to the Mayor and City Council. Any such appeal shall be taken not more than ten (10) days from denial of a permit by giving notice of the appeal to the City Clerk.

- (c) Revocation. The Chief of Police shall have the authority to revoke any permit issued on the finding of any of the following:
- (1) That the activity is being conducted in a manner inconsistent with the permit, including the description of the activity as set out in the application.
 - (2) That the activity is causing a disturbance of the peace of families or persons within the area into which the sound carries.
 - (3) That there is any misrepresentation of the activity on the application for the permit.
 - (4) Other good cause.

Section 14.1A-4. Adoption and Implementation of the Environmental Complaint Process.

The City Administration, through the Environmental Enforcement Committee, shall adopt and shall implement such due process and notice Policies and Procedures necessary to handle all environmental complaints and for the issuance of a Municipal Offense Ticket. A current copy of said Policies and Procedures, after adoption, shall be maintained in the City Clerk's Office for inspection, review and copying by any interested party during all regular office hours. Said Committee shall be composed of at least seven (7) members who shall at least be those persons filling the following positions: Chief Administrative Officer, Building Inspector and/or assigned designee of the Inspection Department, Chief of Police Department or Designee, Chief of Fire Department or Designee, Director of Public Works or Designee, Municipal Court Clerk, and two (2) Council persons appointed by Council President. Additional members may be appointed by the Mayor, if the Mayor so chooses. Said Policies and Procedures may be amended from time to time by said Committee without amending this Ordinance, the only requirement being that said Committee file the most current copy thereof (as amended) with the City Clerk's Office. The issuance of a Municipal Offense Ticket after following said Policies and Procedures shall be the complaint against the violator and shall also be the summons to appear in Environmental Court.

Section 14.1A-5. Authorization of City Employees to Issue a Municipal Offense Ticket.

When any officer, inspector, investigator, auditor, or other employee of the City of Laurel, finds any violation or violations of any provision of any municipal law which he or she is authorized and required to enforce, said City employee may issue, on forms provided by the City, a City of Laurel Municipal Offense Ticket. A copy of said Ticket shall be served on the person accused of violating said municipal law, with the original to be filed with the Clerk of the Municipal Court. Service on the violator may be either on the person, or by certified mail, return receipt requested, or by any other manner authorized by law. Said Ticket shall also give notice of a hearing before the Environmental Court which shall be at least fourteen (14) days after the service of said Ticket.

ALARM ORDINANCE

Section 14.2-1. Title.

This Ordinance shall be known as the **Alarm Ordinance** for the City of Laurel.

Source: Ordinance No. 1323-1998, §14.2-1, 9-8-98

Section 14.2-2. Definitions, as used in this Ordinance.

(a) **ALARM ADMINISTRATOR:**

An individual designated by the Mayor of the City of Laurel, to oversee the enforcement of this Ordinance. The Alarm Administrator shall oversee, administer, enforce this Ordinance and assess all Administrative Service fees for violations of this Chapter.

(b) **ALARM COMPANY:**

Any company, individual or commercial enterprise seeking to conduct the sale, service, installation, or monitoring of any security or fire alarm system in the City of Laurel, Mississippi.

(c) **ALARM SYSTEM:**

An assembly of equipment or devices arranged to summon either the Laurel Police or Fire Departments in an urgent manner to render emergency service. This does not include automobile alarms.

(d) **ALARM USER:**

Any person who owns, possesses, controls, or otherwise exercises dominion over property upon which an alarm system is placed or installed.

(e) AUDIBLE ALARM:

Any alarm system that emits an audible signal that may be heard by persons outside the protected building, structure or facility that is not connected to a monitor system or directly connected to the Police or Fire Departments by telephone.

(f) CALENDAR YEAR:

Shall mean January 1 through December 31 of each twelve (12) month period.

(g) FALSE ALARM:

A bell or siren, mechanical, electrical or telephone apparatus or combination thereof which is activated for the purpose of summoning the Police or Fire Departments to respond to a holdup, burglary, unauthorized entry, fire, or other emergency when in fact the service is not called for. This shall not include activations due to weather.

(h) TELEPHONIC ALARM:

Any mechanism, device or equipment which is designed to operate automatically through use of the telephone system to transmit a message of warning to another location.

(i) VIOLATOR:

Any Alarm User or Alarm Company or other person that violates any term of this Chapter.

Section 14.2-4. Notification Information.

- (a) All Alarm Users shall furnish, to the monitoring company, the names and telephone numbers of two (2) persons who can respond within thirty (30) minutes to reset the alarm. Each alarm site shall be marked in such a manner as to allow the Police or Fire Departments to retrieve this information from the alarm company or other source.
- (b) Each Alarm Company, monitoring company, or any organization involved in the monitoring of alarms shall maintain a resource file where names and telephone numbers of contact persons for each alarm will be available to the Police and Fire Department. This file shall be updated yearly or when a change is known.
- (c) Failure to comply with this section shall result in either the Alarm User, Alarm Company or other such organization involved in alarm monitoring being assessed an Administrative Service fee of One Hundred Dollars (\$100.00) per incident.

Source: Ordinance No. 1323-1998, §14.2-4, 9-8-98

Section 14.2-5. Audible Alarms.

- (a) Audible Alarm sites shall have conspicuously affixed on the exterior of the building, near or adjacent to the main entrance, the name and telephone number of the alarm company, if any, and the telephone number of two (2) persons who are responsible for the control of the system in absence of the Alarm User.
- (b) Audible Alarms shall automatically discontinue emitting audible sound within fifteen (15) minutes.
- (c) Any audible alarm system installed prior to implementation of this ordinance shall be replaced, removed, or otherwise brought into compliance with the requirements of subsection (a) and (b) of this section no later than thirty (30) days from the date of the first incident in violation of this section. The thirty (30) day period will commence from the date of notification of the violation by the Alarm Administrator.
- (d) Alarm Users failing to comply with this section shall be charged with an Administrative Service fee of One Hundred Dollars (\$100.00) per incident.

Section 14.2-8. Authority to Pursue Obligation.

If any Violator fails to pay an Administrative Service fee assessed and invoiced pursuant to this Chapter within thirty (30) days after such invoice is postmarked and mailed to the Violator's address, the City may institute a civil action against said Violator for the recovery and collection of said fee.

Source: Ordinance No. 1323-1998, §14.2-8, 9-8-98

Section 14.2-9. Exemptions to Administrative Service Fees.

The Alarm Administrator shall have broad discretion in granting exemptions from administrative service fees on False Alarms that were caused by outside reasons that can be substantiated. Some examples are:

(a) MAINTENANCE:

Alarm activation caused by a person working on the system with prior notification to the Communication Center of the City of Laurel Police Department shall not be considered a false or unknown activation. Notification shall include the following:

1. Proper identification of the alarm business or user and identification of the individual(s) performing the work.
2. Exact location of the alarm.
3. Estimated time of completion of the work or test.

(b) ACTS OF GOD OR THIRD PARTY ACCIDENTS:

There shall be no assessment against the Alarm User or Violator for False Alarms which can be substantiated as being activated by disruption or disturbance of utility service or by vehicle-utility pole accidents or by storm or other weather conditions or by animals or some similar incident or third party.

(c) OTHER EXEMPTIONS:

The Administrator shall have broad discretion to consider other reasons to grant exemptions from administrative service fees to any Violator for False Alarm where said reason can be substantiated to the satisfaction of the Alarm Administrator.

Section 14.2-10. Appeal Process.

(a) ALARM REVIEW PANEL:

1. Composition

An Alarm Review Panel will be composed of the Alarm Administrator and single representatives from the Laurel Police and Fire Departments. The Alarm Administrator shall be appointed by the Mayor with the Chief of each department to appoint the representative from their Department.

2. Responsibility

The Panel will be charged with the proper review and consideration of appeals from the assessment of Administrative Service fees by the Alarm Administrator. The Panel has the authority to specify administrative action to be taken and to grant the appropriate relief, if any.

(b) APPEAL PROTOCOL:

Any Violator may appeal assessment of an Administrative Service fee to the Alarm Review Panel by filing a written request for hearing with the Alarm Administrator of the City of Laurel and setting forth the reasons for the appeal within ten (10) days after receiving written notification of the violation of this Ordinance and the assessment of said fee. This action will stay collection efforts until final determination in the case has been rendered.

(c) HEARING:

The Alarm Review Panel will conduct a hearing to consider all evidence and make a decision on the basis of the evidence presented. The Alarm Administrator will notify the appealing party of the date of the hearing in writing.

(d) DISPOSITION:

The Alarm Review Panel will render a decision within thirty (30) days after the appeal is heard. The Violator shall be notified in writing by the Alarm Administrator of the Review Panel's decision by mail to the Violator at the address provided in the notice of appeal. The Panel will have the authority to affirm, revise, or modify the Administrative Service fee assessed. This decision will be final as to administrative remedies.

Section 15-11. Unlawful Presence in Certain Areas to Engage in Drug-Related Activity.

The offense and description of same of the circumstances in violation thereof.

A. Unlawful Acts

It is unlawful for any person to be present in or near any thoroughfare, place open to the public, or near any public or private place in a manner and under circumstances manifesting the purpose to engage in drug-related or other criminal activity contrary to any of the provisions of Mississippi Code Annotated, §41-29-101 et seq.

Among the circumstances which may be considered in determining whether such

purpose is manifested are:

1. Such person is a known unlawful drug user, possessor or seller. For purpose of this Chapter, a “known unlawful drug user, possessor or seller” is a person who has, within the knowledge of the arresting officer, been convicted in any court within this state of any violation involving the use, possession, or sale of any controlled substance as defined in Mississippi Code Annotated, §41-29-101 et seq.; or a person who displays physical characteristics of drug intoxication or usage, such as “needle tracks”; or a person who possesses drug paraphernalia as defined in Mississippi Code Annotated, §41-29-101 et seq.;
2. Such person while in a high crime area behaves in such a manner as to raise a reasonable belief that he or she is about to engage in or is then engaged in an unlawful drug-related activity, including by way of example only, such person acting as a “look-out”;
3. Such person is physically identified by the officer as a member of a “gang”, or association which has as its purpose illegal drug activity;
4. Such person is occupying a vehicle which is registered to a known unlawful drug user, possessor or seller or which has been recently involved in illegal drug-related activity;
5. Such person is stopping, conversing with the occupant(s) of, handling money or any object to the occupant(s) of or receiving money or any object from the occupant(s) of a vehicle which is registered to a known unlawful drug user, possessor or seller or which has been recently involved in illegal drug-related activity;
6. Such person takes flight upon the appearance of a police officer;
7. Such person manifestly endeavors to conceal himself or herself or any object which could reasonably be involved in an unlawful drug-related activity;
8. The area involved is by public reputation known to be an area of unlawful drug activity, use and trafficking or generally a high-crime area (See Section B for designation of these areas);
9. The premises involved are known to have been reported to law enforcement officials as a place suspected of activity contrary to any of the provisions of Mississippi Code Annotated, §41-29-101 et seq.;
10. Any vehicle involved is registered to a known unlawful drug user,

possessor, seller, or a person for whom there is an outstanding warrant for a crime involving drug-related activity.

B. Area Designations

The areas described in subsection A above shall be designated by the Council as stated herein. It shall not be necessary that the list describe or designate the areas by either name, and they may be combined on one list.

1. **Unlawful drug activity, use and trafficking areas.** These areas shall be designated by the City Council, upon recommendation either by the Chief of Police, or his designee, or a Council member, by resolution which shall be posted in the following three (3) public places: the bulletin board at City Hall, the bulletin board at the Jones County Courthouse in Laurel, and the front desk at the Laurel Police Department. The City Clerk will maintain a current copy of the list of these areas in her office which will be available to the public upon request. The list of these areas may be revised from time to time by resolution of the Council.
2. **High-crime areas.** These areas will be defined, designated and noticed by the Council by resolution as set forth in Section I.B.1. above. Said list may be revised from time to time as therein provided.

C. Police Officer's Authority

1. When any police officer shall, in the exercise of reasonable judgment, decides that the presence of any person in any public place is causing or is likely to cause any of the conditions enumerated in subsection A herein, he may, if he deems it necessary for the preservation of the public peace and safety, order that person to leave that place. Any person who shall refuse to leave after being ordered to do so shall be guilty of a violation of this Section.
2. Unless flight by the person or other circumstances makes it impracticable, a law enforcement officer shall, prior to any arrest for a violation of subsection A herein, afford the person an opportunity to dispel any alarm or immediate concern which would otherwise be warranted by requesting him to identify himself and explain his presence and conduct. No person shall be convicted of violating subsection A if the law enforcement officer did not comply with this procedure or if it appears at trial that the explanation given by the person is true and, if believed by the officer at the time, would have disclosed a lawful purpose.
3. Among the circumstances which may be considered in determining whether alarm or immediate concern is warranted is the fact that the

person takes flight upon appearance of a law enforcement officer, refuses to identify himself, or manifestly endeavors to conceal himself or any object. When any police officer shall, in the exercise of reasonable judgment, observe any actions described herein by any person in any public or private place, he may, if he deems it necessary for the preservation of the public peace and safety, order that person to leave that place or detain that person for questioning about his said actions. Any person who shall refuse to leave after being ordered to do so shall be guilty of a violation of this Ordinance.

C. Penalty

Any person who violates any of the provisions of this Section shall be guilty of a misdemeanor and subject to a fine not exceeding One Thousand Dollars (\$1,000.00), or by imprisonment in City Jail not exceeding one (1) year, or both. Any such violation shall constitute a separate offense on each day committed or continued.

Section 15-30. Enforcement.

- A. Before taking any enforcement action this section, a police officer shall ask the apparent offender's age and reason for being in the public place or establishment. The officer shall not issue a citation or make an arrest under this section unless the officer reasonably believes that an offense has occurred and that based on any response and other circumstances no defense in Section 15-29 is present.
- B. A police officer of the City who has probable cause to believe that a minor is in violation of Section 15-27, Subsection A(3), of this Ordinance shall transport the minor to a school attendance officer.
- C. When a child has been transported to a school attendance officer, the arresting officer shall cause to be sent to the minor's parents or guardian by certified mail, written notice of said violation and a copy of this Ordinance. Said notice shall be sent to the minor's parent or guardian at his or her last known address and evident of its mailing as specified shall constitute sufficient notice of the minor's violation.
- D. A police officer of the City who has probable cause to believe that a minor is in violation of Section 15-27, subsections A(1) or (2) of this Ordinance, shall transport the minor to the Police Department.
- E. When a minor is taken to the Police Department, the minor's parents or guardian shall be immediately contacted. If the minor was violating Section 15-27, subsections A(1) or (2) of this Ordinance, the minor shall be held until the parent or guardian arrives at the Police Department to take the minor home. When the parent or guardian arrives, he or she shall be given a copy of this Ordinance. If no parent or guardian has arrived within one hour, the minor shall be turned over to custody of the local juvenile authorities until a parent or guardian can take custody of him or her, and the Chief of Police shall, by certified mail, send to the minor's parent or guardian written notice of said violation and a copy of this

Ordinance. Said notice shall be sent to the minor's parent or guardian at his or her last known address and evidence of its mailing as specified shall constitute sufficient notice of the minor's violation.

Section 15-31. Penalties.

- A. Any owner, operator or employee of an establishment who violates a provision of this chapter is guilty of a separate offense for each day or part of a day during which the violation is committed, continued, or permitted. Each offense, upon conviction, is punishable by a fine not to exceed Five Hundred Dollars (\$500.00).
- D. If, after the warning notice as set forth in Section 15-30 herein is delivered to the parent, there is a second violation of the Ordinance by the minor, the parent of the minor will be held to have violated this Ordinance in connection with the second violation by the minor, and this shall be treated as a first offense by the parent. For such first parental offense, a parent shall be fined Twenty-five Dollars (\$25.00). For each subsequent offense, the fine shall be increased by a doubling factor, Fifty Dollars (\$50.00) for second, One Hundred Dollars (\$100.00) for third, Two Hundred Dollars (\$200.00) for fourth offense, etc., but not to exceed One Thousand Dollars (\$1,000.00). The Court, in its discretion, may require each parent to perform community service work, with due regard given for age and health considerations, for each third and subsequent violation.
- C. Any minor who shall violate any of the provisions of this Ordinance more than one (1) time shall be dealt with according to the Youth Court laws of the State of Mississippi.

CHAPTER 15.2

ELIMINATING SMOKING IN PUBLIC PLACES AND PLACES OF EMPLOYMENT *

Section 15.2-1. Title.

This Article shall be known as the City of Laurel Smokefree Air Act of 2008.

Source: Ordinance No. 1525-2008, 11-4-08

Section 15.2-2. Findings and Intent.

The Mayor and City Council of the City of Laurel does hereby find that:

The 2006 U. S. Surgeon General’s Report, “The Health Consequences of Involuntary Exposure to Tobacco Smoke”, has concluded that (1) secondhand smoke exposure causes disease and premature death in children and adults who do not smoke; (2) children exposed to secondhand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks, and that smoking by parents causes respiratory symptoms and slows lung growth in their children; (3) exposure of adults to secondhand smoke has immediate adverse effects on the cardiovascular system and caused coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to secondhand smoke; (5) establishing smokefree workplaces is the only effective way to ensure that secondhand smoke exposure does not occur in the workplace, because ventilation and other air cleaning technologies cannot completely control for exposure of nonsmokers to secondhand smoke; and (6) evidence from peer-reviewed studies shows that smokefree policies and laws do not have an adverse economic impact on the hospitality industry. (U. S. Department of Health and Human Services: “The Health Consequences of Involuntary Exposure to Tobacco

***Editor’s Note**—Ordinance No. 1525-2008, §§ 1-20, adopted November 4, 2008, did not specify the manner of codification, but was included herein as Ch. 15.2, §§ 1-20, at the editor’s discretion.

Smoke: A Report of the Surgeon General.” U. S. Department of Health and Human Services, Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Office on Smoking and Health, 2006).

Unregulated high-tech smoking devices, commonly referred to as electronic cigarettes, or “e-cigarettes,” closely resemble and purposefully mimic the act of smoking by having users inhale vaporized liquid nicotine created by heat through an electronic ignition system. After testing a number of electronic cigarettes from two leading manufacturers, the Food and Drug Administration (FDA) determined that various samples tested contained not only nicotine but also detectable levels of known carcinogens and toxic chemicals, including tobacco-specific nitrosamines and diethyl glycol, a toxic chemical used in antifreeze. The FDA’s testing also suggested that “quality control processes used to manufacture these products are inconsistent or non-existent.” According to a more recent study, electronic cigarette emissions are made up of a high concentration of ultrafine particles, and the particle concentration is higher than in conventional tobacco cigarette smoke. Electronic cigarettes produce an aerosol or vapor of undetermined and potentially harmful substances, which may appear similar to the smoke emitted by traditional tobacco products. Their use in workplaces and public places where smoking of traditional tobacco products is prohibited creates concern and confusion and leads to difficulties in enforcing the smoking prohibitions. The World Health Organization (WHO) recommends that electronic smoking devices not be used indoors, especially in smoke free environments, in order to minimize the risk to bystanders of breathing in the aerosol emitted by the devices and to avoid undermining the enforcement of smokefree laws.

Source: Ordinance No. 1628-2015, 10-20-2015

The smoking of tobacco, hookahs, or marijuana and the use of electronic cigarettes are forms of air pollution and constitute both a danger to health and a material public nuisance.

Source: Ordinance No. 1628-2015, 10-20-2015

Accordingly, the City of Laurel finds and declares that the purpose of this ordinance are (1) to protect the public health and welfare by prohibiting smoking in public places and place of employment; and (2) to guarantee the right of nonsmokers to breath smokefree air, and to recognize that the need to breath smokefree air shall have priority over the desire to smoke.

Section 15.2-3. Definitions.

The following words and phrases, whenever used in this Article, shall be construed as defined in this Section:

- A. “Bar” means as establishment that is devoted to the serving of alcoholic beverages for consumption by guests on the premises and in which the serving of food is only incidental to the consumption of those beverages, including but not limited to, taverns, nightclubs, cocktail lounges, and cabarets.
- B. “Business” means a sole proprietorship, partnership, joint venture, corporation, or other business entity, either for-profit or not-for-profit, including retail establishments where

goods or services are sold; professional corporations and other entities where legal, medical, dental, engineering, architectural, or other professional services are delivered, and private clubs.

- C. “Cigar Bar” means a bar, as defined in this section, legally in operation, that generates income from the on-site sale of premium cigars and the rental of humidors, not including sales from vending machines. A Cigar Bar does not permit the smoking of cigarettes or vaping and shall not knowingly sell to or permit entrance to any person less than 21 years of age. A Cigar Bar shall be equipped with ventilation equipment that provides for 8-10 air changes per hour or one (1) smoke eater ventilation unit per 500 square feet. A Cigar Bar shall not be permitted to hold a dance hall permit. A Cigar Bar shall close no later than 12:00 PM (Midnight).
- D. “Electronic Smoking Device” means any product containing or delivering nicotine or any other substance intended for human consumption that can be used by a person to simulate smoking through inhalation of vapor or aerosol from the product. The term includes any such device, whether manufactured, distributed, marketed, or sold as an e-cigarette, e-cigar, e-pipe, e-hookah, or vape pen or under any other product name or descriptor
- E. “Employee” means a person who is employed by an employer in consideration for direct or indirect monetary wages or profit, and a person who volunteers his or her services for a non-profit entity.
- F “Employer” means a person, business, partnership, association, corporation, including a municipal corporation, trust, or non-profit entity that employs the services of one or more individual persons.
- G “Enclosed Area” means all space between floor and ceiling that is enclosed on all sides by solid walls or windows (exclusive of doorways), which extend from the floor to the ceiling.
- H “Health Care Facility” means an office or institution providing care or treatment of diseases, whether physical, mental, or emotional, or other medical, physiological, or psychological conditions, including but not limited to, hospitals, rehabilitation hospitals or other clinics, including weight control clinics, nursing homes, homes for the aging or chronically ill, laboratories, and offices of surgeons, chiropractors, physical therapists, physicians, dentists, and all specialists within these professions. This definition shall include all waiting rooms, hallways, private rooms, semiprivate rooms, and wards within health care facilities.
- I “Hookah” means a water pipe and any associated products and devices which are used to produce fumes, smoke, and/or vapor from the burning of material including, but not limited to, tobacco, shisha, or other plant matter.
- J “Place of Employment” means an area under the control of a public or private employer that employees normally frequent during the course of employment, including, but not

limited to, work areas, private offices, employee lounges, restrooms, conference rooms, meeting rooms, classrooms, employee cafeterias, hallways, and vehicles. A private residence is not a “place of employment” unless it is used as a child care, adult day care, or health care facility.

- K “Playground” means any park or recreational area designed in part to be used by children that has play or sports equipment installed or that has been designated or landscaped for play or sports activities, or any similar facility located on public or private school grounds or on City grounds.
- L “Private Club” means an organization, whether incorporated or not, which is the owner, lessee, or occupant of a building or portion thereof used exclusively for club purposes at all times, which is operated solely for a recreational, fraternal, social, patriotic, political, benevolent, or athletic purpose, but not for pecuniary gain, and which only sells alcoholic beverages incidental to its operation. The affairs and management of the organization are conducted by a board of directors, executive committee, or similar body chosen by the members at an annual meeting. The organization has established bylaws and/or a constitution to govern its activities. The organization has been granted an exemption from the payment of federal income tax as a club under 26 U.S.C. Section 501.
- M “Public Event” means an event which is open to and may be attended by the general public, including, but not limited to, such events as concerts, fairs, farmers’ markets.
- N “Public Place” means an enclosed area to which the public is invited or in which the public is permitted, including but not limited to, banks, bars, educational facilities, gaming facilities, health care facilities, hotels and motels, laundromats, public transportation facilities, reception areas, restaurants, retail food production and marketing establishments, retail service establishments, retail stores, shopping malls, sports arenas, theaters, and waiting rooms. A private club is a “public place” when being used for a function to which the general public is invited. A private residence is not a “public place” unless it is used as a child care, adult day care, or health care facility.
- O “Restaurant” means an eating establishment, including but not limited to, coffee shops, cafeterias, sandwich stands, and private and public school cafeterias, which gives or offers for sale food to the public, guests, or employees, as well as kitchens and catering facilities in which food is prepared on the premises for serving elsewhere. The term “restaurant” shall include a bar area within the restaurant.
- P “Service Line” means an indoor line in which one (1) or more persons are waiting for or receiving service of any kind, whether or not the service involves the exchange of money.
- Q “Shopping Mall” means an enclosed public walkway or hall area that serves to connect retail or professional establishments.

- R “Smoking” means inhaling, exhaling, burning, or carrying any lighted cigar, cigarette, pipe, or other lighted or heated tobacco or plant product intended for inhalation, including hookahs and marijuana, whether natural or synthetic, in any manner or in any form. “Smoking” also includes the use of an electronic smoking device which creates an aerosol or vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing
- S “Sports Arena” means sports pavilions, stadiums, gymnasiums, health spas, boxing arenas, swimming pools, roller and ice rinks, bowling alleys, and other similar places where members of the general public assemble to engage in physical exercise, participate in athletic competition, or witness sports or other events.

- (4) The name of the persons to be notified in case of emergency and twenty-four (24) hour telephone number.
- (5) A map or plat of the area within three hundred (300) feet of the well bore showing, among other things, streets, structures, utilities and/or utility easements, natural drainage courses and the lot and block number of any dedicated plat, said map or plat to be certified by a professional surveyor or engineer licensed by the State of Mississippi.

- (6) Preliminary plans for development of the site if wells are to be established, to include all structures, improvements, etc., on the site, shall be filed at the time of application. As built, detailed plans of the producing well site shall be filed when production commences.
- (7) A map or plat of the area within one thousand (1,000) feet of the well bore showing the locations of any hospitals, nursing homes, schools or churches; a copy of any emergency plan filed with the State under the provisions of Title III of SARA, and a report on the analysis of any oil found.
- (8) A statement signed by the applicant that the applicant will comply with all City Ordinances.

Section 16-24. Same---For Well.

If an application under this article shall be for the drilling and/or operation of a well, it shall contain the following information:

- (1) Date of application.
- (2) Name and address of the applicant.
- (3) Certified copy of permit for such operation, approved by the State Oil and Gas Board.
- (4) Name of the lease-owner
- (5) Type of derrick, rig and motor(s) to be used.
- (6) The name of the persons to be notified in case of emergency and twenty-four (24) hour telephone number.
- (7) A map or plat of the area within three hundred (300) feet of the well bore showing, among other things, streets, structures, utilities and/or utility easements, natural drainage courses, and the lot and block number of any dedicated plat, said map or plat to be certified by a professional surveyor or engineer licensed by the State of Mississippi.
- (8) Preliminary plans for development of the site if wells are to be established, to include all structures, improvements, etc., on the site, shall be filed at the time of application. As built, detailed plans of the producing well site shall be filed when production commences.
- (9) A map or plat of the area within one thousand (1,000) feet of the well bare showing the locations of any hospitals, nursing homes, schools or churches; a copy of any emergency plan filed with the State under the provisions of Title III of SARA, and a report on the analysis of any oil found.
- (10) A statement signed by the applicant that the applicant will comply with all City Ordinances.

Section 16-25. Issuance; Report of Noncompliance.

- (a) Within thirty (30) days after the filing of an application under this article, the Governing Authority, on recommendation of the inspection team shall determine whether or not the application complies in all respects with the provisions of Sections 17-22 through 17-24.
- (b) If it does comply with such Sections, the Governing Authority shall issue the permit within such thirty (30) day period.
- (c) If it does not comply with such Sections, the Governing Authority shall issue a written report to the applicant specifying in detail why the application does not comply.

Section 16-27. Indemnifying and Damages Agreement.

A permittee, by acceptance of a permit under this article, covenants and agrees to indemnify and save the City harmless from, of and against any loss, damage or liability of any kind or nature occasioned by, growing out of or arising or resulting from any accidents or any tortuous or negligent acts of commission or omission (attributable to the granting of such permit), on the part of the permittee, his agents, employees, representatives and servants. The permittee further covenants and agrees to defend at his own expense any and all suits so arising from the drilling and operation of wells and pipelines, and to satisfy all judgments arising therefrom. If the City is involved in any litigation attributable to the granting of such permit, the permittee further covenants and agrees to pay the attorney's fees and other expenses involved in the defense thereof and to satisfy all judgments arising therefrom. The permittee further covenants and agrees to pay the City for all losses and damages of any kind or nature to streets, alleys, roads, sidewalks, parks and other public places, attributable to the granting of such permit. In order to protect City streets, alleys, roads, sidewalks and other public property, the inspection team and Police Department shall determine the exact route for all hauling to and from the drill site. Use of the route assigned shall be part of permit compliance.

Section 16-29. Termination.

Each permit under this article shall contain and specify that the drilling permit will terminate at the end of one hundred twenty (120) days in the absence of commencement of operations for drilling. If operations for drilling are commenced before the expiration of one hundred twenty (120) days, then the term of the drilling permit shall be as long thereafter as the permittee is engaged in drilling operations with no cessations of such drilling operations for more than ninety (90) days, or as long as oil or gas is produced in commercial quantities from the well drilled pursuant to such permit. Provided, however, that if at any time after discovery of oil or gas the production thereof in commercial quantities shall cease, the term shall not terminate if the permittee commences additional re-working operations within ninety (90) days thereafter, or requests, in writing, any extensions of one hundred and twenty (120) day periods, and if they result in the production of oil or gas, then the permit shall continue so long thereafter as oil or gas is produced in commercial quantities from such well. In the event that a dry hole results, or the permit expires, or if the permittee abandons the well for any reason, he shall have sixty (60) days to plug the hole and to remove the rig and equipment from the well premises, the permittee shall, within sixty (60) days of completion or abandonment as the case may be, fill in any excavations and/or level any excavated materials to the previous ground level; clear the site of any debris or trash and, to prevent erosion, plant vegetation on any areas of bare dirt on the site, unless the surface owner requests that the site be left otherwise for a specific reason.

ARTICLE III. BOND AND INSURANCE

Section 16-41. Required.

In the event a permit or Certificate of Compliance is issued by the Mayor under the terms of this Chapter for the drilling of a well, or installation of a trunkline pipeline, waterflooding project or gas injection project, no actual operations shall be commenced until the permittee shall file with the City Clerk a bond or approved letter of credit from a reputable bank doing business in Mississippi and a Certificate of Insurance.

Section 16-42. Insurance; Amount; Types of Coverage.

- (a) In addition to the bond required in Section 17-41 et seq., a permittee under this Chapter shall carry a policy or policies of standard comprehensive public liability insurance, including contractual liability covering bodily injuries and property damage, naming the permittee and the City, in an insurance company authorized to do business in the State. Such policy or policies in the aggregate shall provide for the following minimum coverages:
 - (1) Bodily injuries, One Million Dollars (\$1,000,000.00), one (1) person; Three Million Dollars (\$3,000,000.00), one (1) accident;
 - (2) Property damage, One Million Dollars (\$1,000,000.00); said coverage to be provided for the duration of the existence of the project.
- (b) The permittee shall file with the City Clerk Certificates of such Insurance as above stated and shall obtain the written approval thereof by the inspection team, which shall act thereon within ten (10) days from the date of such filing. The insurance policy or policies shall not be canceled without written notice to the City Clerk at least ten (10) days prior to the effective date of such cancellation. In the event such insurance policy or policies are canceled, the permit granted shall terminate, and the permittee's right to operate under such permit shall cease until the permittee files additional insurance as provided in this Section.

Section 16-43. Bond---Amount; Conditions.

- (a) The bond or letter of bank credit required in this article shall be in the principal sum of such amount as may be determined by the Mayor, but not in excess of Fifty Thousand Dollars (\$50,000.00) per site, executed by a reliable corporate surety company authorized to do business in the State of Mississippi or a reputable federally insured bank authorized to do business in Mississippi, as surety, and the applicant as principal, for the benefit of the City and all persons concerned, conditioned that the permittee will comply with the terms and conditions of this Chapter in the drilling and operations of this well, water-flooding project, gas injection project or operation of any pipeline.
- (b) Such bond or approved letter of bank credit shall become effective on or before the date it is filed with the City Clerk and remain in force and effect for at least a period of six (6) months subsequent to the expiration of the term of the permit issued. In addition, the bond or approved letter of bank credit will be conditioned that the permittee will promptly pay all legally imposed fines, penalties and other assessments imposed upon the permittee by reason of his breach of any of the terms, provisions and conditions of the Chapter and the permittee will promptly restore to their former condition the streets and sidewalks and other public property of the City which may be disturbed or damaged in the operations and will promptly clear all premises of all litter, trash, waste or other substances used, allowed or occurring

in the operations, and will, after abandonment or completion, grade, level and restore such property to the same surface conditions, as nearly as possible, as existed when operations first commenced. If an approved letter of bank credit is used in lieu of a surety bond, said letter of credit shall be drafted and designed so as to achieve the same objectives as a surety bond under the provisions of this Chapter. If at any time the Mayor, subject to review by the City Council, shall deem any permittee's bond or letter of credit to be insufficient for any reason, they may require the permittee to file a new bond or letter of credit within the Fifty Thousand Dollar (\$50,000.00) limitation.

Section 16-44. Same---Reduction Upon Completion of Operations.

If after completion of a producing well, gas injection well, water injection well or any facility or pipeline for which a bond is required by this Chapter and the permittee has complied with all the provisions of this Chapter, such as removing derrick, clearing premises and erection of fences, he may apply to the City Council to have the bond reduced to a sum of not less than Twenty-five Thousand Dollars (\$25,000.00) on each site or facility for the remainder of the time the well produces or the facility is operated without reworking. During reworking operations the amount of the bond shall be increased to the original amount. A trunkline pipeline installation shall not be considered as completed until the lines have been tested and in operation for a period of thirty (30) days.

Section 16-45. Guaranty of Indemnity or Blanket Bond in Lieu of Bond and Insurance.

The City Council may elect to make an exception to the requirements of this article when in its opinion the intent and purpose for the requirements of the bond and insurance can be assured by any of the following means:

- (1) Acceptance of a guaranty of indemnity to the City in lieu of bond a plan of self-insurance in the case of financially responsible operators.
- (2) Acceptance of a blanket bond and a single policy of insurance to cover all operations of the permittee within the City Limits.

ARTICLE IV. LOCATION OF WELLS

Section 16-56. Proximity to Residences and Commercial Buildings.

- (a) No well under this article shall be drilled and no permit shall be issued for any such well to be drilled at any location which is nearer than two hundred fifty (250) feet from any residence or commercial buildings, without the applicant having first secured the written permission of the owner thereof, and which is nearer than three hundred (300) feet from any school, church or hospital. Said distances shall be measured from the well bore.
- (b) No high pressure gas injection well or a compressor used in conjunction with a gas injection well shall be located nearer than three hundred (300) feet from any residence, commercial building, school, church or hospital.

ARTICLE V. EQUIPMENT

Section 16-71. Storage Tanks.

- (a) Storage tanks shall be enclosed within a conventional type fire wall, constructed of compacted earth, according to State law and the International Fire Code, 2018 Code, latest edition adopted. Sufficient water shall be used during the fire wall construction to assure adequate compaction. The fire wall area enclosing the storage tanks shall have a minimum capacity equal to one and one-half (1½) times the volume of, the largest tank enclosed. The top or crown of the fire wall shall have a normal height at least three (3) feet above normal ground elevation. The outward surface must be soil cemented, concreted or asphalted to provide erosion control. Storage tanks shall be painted the color determined by the inspection team.

- (b) Oil and gas produced by a permittee under this Chapter, and placed in storage tanks, may thereafter be transported outside the City Limits by underground pipelines, pursuant to other provisions of this Chapter, or by tank trucks, and the procedures must meet industrial standards and State law.

- (c) A permittee may use, construct and operate a steel conventional separator and such other steel tanks and appurtenances as are necessary for treating oil, provided such are adequately vented. Each oil-gas separator shall be equipped with both a regulation pressure relief safety valve and a bursting head. All such tanks and separators shall be placed above ground and the tank shall be placed on a suitable earth or concrete pad.

Section 16-72. Pits; Type; Removal.

Steel slush pits shall be used in connection with the drilling and reworking operations. Such pits and contents shall be removed from the premises and the drilling site within thirty (30) days after completion of the well. No earthen slush pits shall be used, except for reserve pits. The permittee shall notify the Engineering Department prior to digging any reserve pits. Any earthen reserve pit shall meet the requirements that have been established for lined pits by the U. S. Environmental Protection Agency to protect the ground water supply.

Section 16-75. Fences---Enclosing Derrick; Producer Well.

- (a) Prior to commencing drilling operations, a permittee under this Chapter shall erect one (1) or more chain-link fences extending from the ground to a minimum height of six (6) feet; except when the drilling site abuts residential property the fences(s) shall be of a solid, sight-obscuring material, six (6) feet in height (a fence higher than six (6) feet may be required by the inspection team if the required height meets the approval of the City Council or the City's adopted Building Code), within which shall be enclosed: The derrick and all machinery, all metal tanks, all pipe racks and all chemicals such as caustic soda, soap and other mud additives. Prior to the use of any earthen pits, the permittee shall enclose the same with a chain-link fence extending from the ground to a minimum height of six (6) feet, with double strands of barbed wire along the top. Such fences shall remain intact so long as any of the designated items remain within the enclosure.

- (b) Should the well be completed as a producer, the permittee shall erect a chain-link fence, or, if the site abuts residential property, a fence of solid, sight-obscuring material, extending from the ground to a height of six (6) feet, with double strands of barbed wire along the top, within which shall be enclosed all pumps, tanks and separators, and which fence shall remain intact so long as any of such items remain within the enclosure. The inspection team may require a fence higher than six (6) feet, as long as the height meets the approval of the City Council or the City's adopted Building Code.

Section 16-76. Same---Compressor Unit and Gas Injection Well Location.

- (a) The compressor unit and gas injection well location shall be enclosed on all sides by a six (6) foot chain-link fence with double strands of barbed wires along the top, except when the site abuts residential property when the fence shall be of a solid, sight-obscuring material. The inspection team may require a fence higher than six (6) feet when the requirement meets the approval of the City Council or the City's adopted Building Code.
- (b) The well site, tank site, tank battery site, pump station site or compressor site shall not be used for the storage of pipe, equipment and materials except during the drilling or servicing of the wells, tanks, pump stations or compressor stations.

ARTICLE VI. DRILLING OPERATIONS

Section 16-91. General Standards and Equipment.

- (a) All drilling and operations at any well performed by a permittee under this Chapter shall be conducted in accordance with State and Federal law.
- (b) Valves shall be installed on all transmission pipelines at such locations and spacing to safely and adequately control the operation of the line and to minimize the quantity of gas, oil or water that would be released from the line in case of line failure or rupture. The types and locations of all valves shall be indicated on a plan layout and approved by the inspection team.
- (c) Adequate pressure control valves shall be installed in the pipelines to eliminate or minimize the degree of hazard or damage in case of pipe failure; the valve shall be designed to “close in” the pipeline and/or compressor or pump when the pressure drops below or rises above the pre-determined operating condition; the pressure operating range of the valve shall be forty percent (40%) more than the maximum pressure to be applied on the line and shall be approved by the inspection team.
- (d) Pipeline location markers shall be approved as to type and location by the inspection team, and the removal of any pipeline marker without the express permission of the inspection team shall constitute a violation of the provisions of this Chapter.
- (e) Any pipeline under thoroughfares shall be cased and vented in accordance with State and Federal law.
- (f) The permittee herein may file with the inspection team or any utility company a request that he be advised of any proposed construction operation within a specific area or areas if the permittee desires to exercise special supervision as a safety precaution, and the agency or agencies with whom such request is filed is obligated to comply with such request.

Section 16-95. Cleanliness, Sanitation.

- (a) Premises under this article shall be kept in a clean and sanitary condition, free from rubbish of every character, to the satisfaction of the inspection team, at all times drilling operations or re-working operations are being conducted, and as long thereafter as oil and/or gas is being produced therefrom.
- (b) It shall be unlawful for any permittee, his agent or employee to permit within the City Limits any mud, water waste, oil, slush or other waste matter from any slush pit, storage tank or oil and/or gas well located within the City Limits or from any premises within the City, developed or being developed for oil and/or gas purposes, to go into the streets, alleys, sidewalks, lots or lands within the City Limits. The well site shall be cleared and graded in such a manner as to prevent the creation of stagnant pools and not obstruct natural drainage. Sanitary toilet facilities shall be installed which meet the approval of the County Health Department. No industrial waste, such as salt water, oil, mud or acid, will be allowed to drain away from the location through existing drainage ditches, sewers or streams.

Section 16-96. Protection of Water Supply.

In order to protect the City water supply, a permittee under this Chapter shall comply with the following requirements:

Prior to any of the following operations, a member of the inspection team must be present at the job site to verify compliance to the requirements stated below:

- (1) A minimum of twenty-two hundred (2,200) feet of new or equivalent surface casing shall be set. The minimum weight of such casing shall be thirty-six (36) pounds per linear foot and a minimum grade of K/J-55 with a minimum outside casing diameter of nine and five-eighths (9-5/8) inches. In the event the operator of a well desires to drill a hole of smaller diameter than that required for the setting nine and five eighths (9-5/8) surface casing, then and in that event, he may substitute surface casing of a smaller outside diameter if so authorized by the inspection team after said inspection team is satisfied that the casing substituted will be of design specification, relative tension, collapse and burst to conform with similar specifications required in this paragraph, under the nine and five-eighths (9-5/8) casing design.
- (2) A minimum of one (1) centralizer per two hundred (200) feet of surface casing shall be used.
- (3) Enough cement shall be used behind the surface casing to circulate back to the surface. (Circulate to the surface shall mean the calculated amount of cement necessary to fill the theoretical annular space plus eighty percent (80%). A minimum of a twelve and one-quarter (12¹/₄) inch bit is required for a nine and five-eighths (9-5/8) inch casing. If the cement is not circulated back to the surface, the top one hundred and twenty (120) feet shall be displaced by washing out through a one (1) inch pipe and replaced with neat cement (Topping out).
- (4) Surface casing shall be tested in accordance with the State Oil and Gas Manual. No surface casing may be pulled from the well.
- (5) No surface casing may be perforated for water production.
- (6) The permittee shall comply with abandonment and plugging provisions of Section 17-103 of this Chapter and the salt water disposal provisions of Section 16-97.

Source: Ordinance No. 1131-1988, 8-16-88

Section 16-97. Salt Water; Disposal.

A permittee under this Chapter shall make adequate provision for the disposal of all salt water or other impurities by one (1) or the other of the following ways:

- (1) By injecting into a salt water disposal well, and discharging below a depth of twenty-two hundred (2,200) feet, or as required by the Environmental Protection Agency.
- (2) By piping the salt water or other impurities outside the City Limits, in which event the provisions of this Chapter concerning pipelines shall be applicable.

- (3) By trapping in steel slush tanks and, thereafter, by transporting the same outside the City Limits in tank trucks.

Section 16-98. Nuisances.

All oil operations, drilling and production operations under this Chapter shall be conducted in such a manner as to minimize dust, mud, noise, vibrations and noxious odors. Both during drilling operations and after completion of drilling operations, the permittee shall use due diligence as a reasonable, prudent operator to muffle all engines and pumps and reduce noises therefrom, and for this purpose the best muffling equipment available to the oil industry shall be used. All gas, gasoline, or diesel engines used in producing and drilling operations shall be equipped with silencers with spark arresters designed for residential areas and of a proper size for the engine in use. The permittee shall install sound absorption bumpers on all pipe racks in order to reduce pipe handling noise and shall install sound baffles where feasible. Care shall be taken to direct exhaust away from residential areas, if possible. Sound level shall be controlled at eighty (80) decibels at three hundred (300) feet on a four (4) hour average.

Section 16-99. Conduits on Streets and Alleys---Permit Required; Fee.

If pipelines, other than flow lines to storage tanks, pipes to slush tanks and other pipes which are constituent parts of the drilling rig, are to be constructed and installed by any person, then it shall be necessary for such person to make separate application for permit, accompanied with the filing fee of One Hundred Dollars (\$100.00), with such application showing all information required in this Section. If such application conforms with the requirements of this Section, after recommendation by the inspection team, the Mayor should issue a pipeline permit within such period of time. No permittee shall make any excavations or construct any pipelines for the conveyance of fuel, water or minerals on, under or through the streets and alleys and other public places of the City without such a permit.

Source: Ordinance No. 1131-1988, 8-16-88

Section 16-100. Same---Contents of Application.

The application for a permit to construct and install any pipelines shall contain the following information:

- (1) Date of application.
- (2) Name and address of applicant.
- (3) Detailed explanation of operating pressures of all pipelines and facilities.

- (4) Location of compressors, pressure control and safety devices with explanation of operating characteristics of each.
- (5) The name and twenty-four (24) hour telephone number of persons to be notified in case of emergency.
- (6) A map or plat of the area in which the pipelines are to be installed indicating the locations thereof with respect to any structures, utility easements, natural drainage courses, streets and alleys and grades and depth to be buried, said map or plat to be certified by a professional surveyor or engineer licensed in the State of Mississippi.

Section 16-103. Abandonment; Plugging, Precautionary Measures.

Whenever any well is abandoned it shall be the obligation of the permittee and the operator of the well to set a two hundred foot (200) cement plug (with the bottom of the plug one hundred (100) feet below the bottom of the surface of the surface casing section, and to set a fifty (50) foot cement plug in the top of the surface casing section. No surface or conductor string of casing may be pulled or removed from a well. During initial abandonment operations, it will be the obligation of the permittee and the operator of the well to flood the well with laden fluid weighing not less than the weight necessary to overcome the bottom hole pressure encountered.

Section 18-53. Employee Testing.

- (a) When there is reasonable cause to believe an employee is under the influence of a prohibited drug, or alcohol the employee will be required to submit to a drug or alcohol test.
- (b) Reasonable cause must be based on observable actions that can be specifically described. Examples of factors examined in finding reasonable cause to test include repeated errors on the job, violations of regulatory or City rules or unsatisfactory time and attendance patterns in combination with other specific contemporaneous events that indicate probable drug or alcohol use.
- (c) Supervisory personnel who have reasonable cause to believe that an employee may be under the influence of a prohibited drug or alcohol will have the reasonable cause confirmed by another member of management when possible.
- (d) Prior authorization for any drug or alcohol test based on reasonable cause must be received from one (1) of the following:
 - (1) Mayor
 - (2) Any member of the City Council
 - (3) Chief Administrative Officer
 - (4) Drug Program Coordinator

If one (1) of the above individuals is also the supervisor who makes the initial reasonable cause determination, prior authorization for any drug or alcohol test must be received from another person listed.

- (e) The employee to be tested shall be transported to the collection or testing site and returned to the work site after the sample has been collected or the test conducted. The employee will also be provided with transportation to his or her residence or a destination of his or her choosing within reasonable distance of the employee's work site.
- (f) An employee will be terminated after obtaining the results of a positive confirmed test of prohibited drugs or alcohol as defined by Section 18-51.
- (g) Employees who adulterate (ingest fluids) or dilute a specimen in order to mask drug usage with a Creatinine Value of less than 20 mg/dl and/or a Specific Gravity of

less than 1.003, will be treated as though they tested positive and will be terminated from employment.

- (h) The cut-off levels for alcohol and all substance abuse drugs listed in this policy, shall be the cut-off levels established by the Department of Health and Human Services for the Department of Transportation, and shall apply to all employees.

Section 18-54. Job Applicants.

- (a) Applicants for covered positions will be informed of the City's drug policy and the policy will be posted in areas where applications are received.
- (b) All applicants to be made a job offer for any position will be tested for prohibited drugs and alcohol. Final selection for any position is contingent upon successful completion of the drug test.
- (c) An applicant who tests positive, as confirmed by the MRO, may, at the option of the City, have his or her sample re-tested. The applicant may designate re-testing by the original laboratory or another comparable certified laboratory. The applicant may be required to pay the cost of re-analysis in advance, subject to reimbursement, if the re-test is negative. An applicant whose original sample tested positive and who does not request re-testing or whose sample is confirmed positive upon re-testing, will not be hired.
- (d) Applicants who refuse to be tested for prohibited drugs or alcohol will be removed from consideration for employment in any position.
- (e) An employee who transfers into a sensitive position requiring drug and alcohol testing and whose test is confirmed positive has the right to have his sample re-tested. An employee whose re-test is confirmed positive will be terminated.
- (f) Applicants who adulterate (ingest fluids) or dilute a specimen in order to mask drug usage with a Creatinine Value of less than 20 mg/dl and/or a Specific Gravity of less than 1.003, will be removed from consideration for employment in any position.
- (g) The City is required to obtain information regarding the employee's testing status from the employee's previous employer, if that employer was covered under the Department of Transportation Regulations. In that regard, within fourteen (14) days of hiring or using a driver, the City must request and received from the driver's employer for the previous two (2) years with respect to the employee's testing status. If the City does not receive this information within a fourteen (14) day period from the ate of hire, it may no longer use that driver to operate a motor vehicle or equipment. Exceptions are, none response, or the employer has gone out of business, or was unable to be contacted. In this regard, a notation is made in the employee's records and retained in the records the City is required to obtain under the Department of Transportation Act. The City must require an authorization from

the employee regarding his/her specific previous employers in order to retrieve this information. Refusal to supply this authorization will result in not hiring this applicant.

Section 18-56. Re-Testing.

- (a) An employee has a right to have the original sample re-tested. Within five (5) working days after receipt of a positive confirmed test result report from the testing laboratory, an employer shall in writing, inform an employee of such positive test result and inform the employee of the consequences of such a report and the options available to him. The City's Medical Review Officer will serve as liaison between the laboratory and the City. The employee may designate re-testing by the original laboratory or another comparable certified laboratory. The employee may be required to pay the cost of re-analysis in advance, subject to reimbursement.
- (b) Subject to employee rights under Civil Service Laws, termination pursuant to this policy is final and will not be affected by a request to re-test made after the effective date of termination.
- (c) An employee who is to be terminated pursuant to this policy and who requests a re-test prior to the effective date of termination will be put on leave without pay pending the results of the re-test. If the re-test confirms the presence of a prohibited drug or alcohol, the employee will be terminated. If the re-test does not confirm the presence of a prohibited drug or alcohol, the employee will be reinstated with full pay and benefits.

Section 18-57. Rehabilitation and Discipline.

- (a) An employee who tests positive for prohibited drugs or alcohol, or refuses to be

tested as required by the policy will be terminated from his employment. Termination shall be implemented by the Chief Administrative Officer. In the absence of the Chief Administrative Officer, the Mayor shall take such action. If proper action is not taken by the Administration within the ten (10) days as required by the State Law, it may become necessary for the City Council to intervene.

- (b) An employee who admits in writing to the Drug Program Coordinator, the use of a prohibited drug or alcohol thirty (30) days prior to being called for testing, will not be terminated as a result of prior drug or alcohol abuse. The employee will be required to take rehabilitative leave pursuant to the City's Drug Ordinance. This protection from dismissal applies only to the first time an employee admits use of prohibited drugs or alcohol.
- (c) An employee who returns to work from rehabilitative leave and tests positive for a prohibited drug or alcohol or refuses to be tested as required by this policy will be terminated.
- (d) Any administrative decision made by or action taken by the Chief Administrative Officer, in conjunction with the Drug Program Coordinator, shall be final.
- (e) All rehabilitation and disciplinary actions of this section shall apply equally to employees who are tested under the Department of Transportation Regulations.

Section 18-58. Rehabilitative Leave.

- (a) All rehabilitative leave is without pay and must be approved in writing by the governing authority. No rehabilitative leave will be granted in excess of six (6) weeks and any extensions must be renewed in writing. All rehabilitative leave, must be approved by the governing authority.
- (b) An employee, at his own expense, must enroll in a City approved rehabilitation program. When requested by the City, the employee must provide sufficient evidence of his participation and progress in the rehabilitation program. The decision will then be made by the City as to whether the employee will continue in the rehabilitation program, return to work or have his employment with the City terminated.
- (c) The employee will not be allowed to return to work until the rehabilitation program provides a release directly to the governing authority. The release must certify that the employee has successfully completed the drug program.
- (d) Upon returning from rehabilitative leave, an employee will remain drug and alcohol free and, if necessary, continue to participate in the rehabilitation program.

- (e) All articles of this section shall apply equally to all employees covered under the Department of Transportation Regulations.

Section 18-59. Testing Standards/Procedures.

1. Current employees will be notified thirty (30) days before the first testing occurs or upon adoption of this policy. Applicants for employment will be notified (at the time of application) in writing that they may be required to be tested for drugs/alcohol.
2. The City shall contract with a certified laboratory to conduct initial and confirmation drug and alcohol tests. The laboratory shall be responsible for:
 - a. developing the pool of covered employees by use of a “blind” identifying system and for generating the list of individuals to be tested (for random testing). The laboratory shall also develop a separate pool of transit safety sensitive personnel to be tested in accordance with FTA testing rates.
 - b. providing qualified individuals to secure the sample and assure its custody (on-site, if the test is neutral selection; at the laboratory, if post-offer or reasonable suspicion testing).
 - c. releasing positive and negative results to the City’s Medical Review Officer and/or Human Resources Manager as required under applicable laws and regulations.
 - d. storing samples and chain of custody paperwork as prescribed by applicable state and/or federal laws and regulations.
3. The laboratory shall report test results to the City’s Medical Review Officer within five (5) working days of the tested specimen receipt by the laboratory. Reports shall identify the drugs/metabolites tested for, if the specimen tested positive or negative, and the laboratory’s specification identification number. All specimens positive on initial testing and negative on confirmation testing shall be reported negative. The laboratory will, before reporting test results, certify their validity.
4. The City’s Medical Review Officer shall review the test results, individual’s known medical history and other relevant information to determine if there is any other reasonable explanation for the positive drug test results before notifying the City Human Resources Manager of a positive result. The Human Resources Manager will notify the Department Director/Chief and Chief Administrative Officer of positive test results.
5. The following specimens are appropriate for testing: for drugs, initial and confirmation: urine; for alcohol test: breath.
6. Initial Test – Alcohol. An alcohol level of .02 in the breath specimen of an individual

will be cause for confirmation test. This is one consequence for this type of alcohol concentration test result.

7. Confirmation Test – Alcohol. To be considered positive and in absolute violation, an employee’s confirmed alcohol level must be .04 or greater. Results between .02 and .04 are not absolute violations, but require that the employee be relieved of his/her duties until the longer of 24 hours or the start of his/her next shift. This is one consequence for this type of alcohol concentration test result.
8. Initial Test – Drugs. The City’s drug testing protocols shall include marijuana, cocaine, opiates, amphetamines, and phencyclidine. (Additional controlled substances may be included as applicable federal and/or state laws and regulations allow.) Initial testing shall meet United States Food and Drug Administration requirements. Cut-off levels established by applicable federal or state laws and regulations will be used to determine if an initial test is positive or negative.
9. Confirmation Test – Drugs. Positive initial tests shall be confirmed using gas chromatography/mass spectrometry (GC/MS) techniques at appropriate cut-off levels established by applicable Federal or State laws and regulations for tested drugs.
10. If an employee is informed by the Medical Review Officer/Human Resources that the result of the laboratory’s analysis of his primary specimen is positive, the employee has 72 hours from the time he is informed of the verified positive result to request an analysis of the split specimen being held by the laboratory. Any request for analysis of the split specimen made after this 72 hour period will not be honored unless the MRO, in his discretion, determines after discussion with the employee that there were unusual circumstances that caused an excusable delay in requesting the test. Any test of the split specimen pursuant to an employee’s request will be at the expense of the employee.
11. Any employee to be tested, under whatever circumstances (post-accident/incident, reasonable suspicion, or neutral selection) will be provided transportation to the collection site and, as appropriate, to the workplace or to his/her residence or another desired location that is within a reasonable distance of the work site.
12. Prior to testing, an individual shall be allowed to list on the laboratory’s Chain of Custody and Control Form any prescription or non-prescription medication currently being taken. That information will accompany the specimen through to final testing and storage.
13. Individuals to be tested will, prior to testing, be informed at what levels the test will be considered positive. The information will indicate the cut-off levels for initial and confirmation testing.
14. Any employee who refuses to submit to a drug/alcohol test will be considered

insubordinate and subject to immediate termination.

15. An employee who tests positive shall be terminated. In all situations, the employee will be apprised of his/her rights to grievance and appeal.
16. **Employees required to submit to testing will be “observed” by the certified technician to ensure the integrity of the test.**
17. **If a sample submitted is determined to be “diluted” by the MRO, upon notification the employee must immediately submit another sample. Failure to do so will be considered insubordinate and the employee will be subject to immediate termination. If the second sample is still considered “diluted” by the MRO, the test will be considered posited and the employee will be subject to immediate termination.**
18. **A submitted sample which is confirmed by the MRO to have been altered or tampered will be considered the same as a “positive” test result and the employee will be subject to immediate termination.**

Section 18-60. Reporting Criminal Convictions.

- (a) An employee must notify the governing authority of any criminal drug conviction, including misdemeanor convictions, and/or conviction of driving under the influence of alcohol not later than five (5) days after the conviction becomes final.
- (b) A covered employee who is convicted of a violation of a criminal drug or alcohol statute as described in (a) above will be terminated from his employment when such conviction becomes final.

Section 18-61. Confidentiality.

1. All information received by the City through its drug and alcohol testing program is property of the City and is classified, as provided in these procedures and in accordance with state/federal law.
2. Such information shall not be released to anyone other than the employee/applicant, City Medical Review Officer or supervisory personnel designated as “need-to-know”; unless:
 - (a) the applicant/employee has, in writing, granted permission for its release;
 - (b) (1) it is necessary to introduce a positive confirmed test in an administrative/judicial proceeding because of its relevancy to the

- hearing/proceeding; (2) its release is necessary under state/federal law regulations or orders; (3) it must be released to comply with government contract; or, (4) it is necessary that it be disclosed to a drug abuse rehabilitation program for the employee's evaluation/treatment; or,
- (c) there is an immediate risk to public health or safety that can be minimized or eliminated by the disclosure.

Section 18-62. Construction and Severability.

- (a) The provisions of this Article are subject to modification by the City of Laurel by proper Ordinance.
- (b) Nothing in this Article should be construed as granting anyone a right to specific benefits or continued employment.
- (c) If any part or parts of this Ordinance shall be construed to be unconstitutional, void or of no effect by a Court of competent jurisdiction, it is expressly intended that all other parts herein are to remain in full force and effect.

CHAPTER 19

PLANNING AND DEVELOPMENT*

Art. I. Planning Commission, §§ 19-1 --- 19-4

ARTICLE I. PLANNING COMMISSION**

Section 19-1. Membership.

Said Commission shall consist of at least sixteen (16) members representing the following:

- a. at least one (1) representative from each Council Ward;
- b. four (4) at-large members representing divergent professions and segments of the City; and,
- c. five (5) ex-officio members, one (1) member representing each of the following entities: Jones County Economic Development Authority, Laurel Downtown Association, Laurel City School District, Jones County Board of Supervisors, and Laurel Historic Preservation Commission.

These members shall be selected primarily on their ability and willingness to strive for the overall betterment of Laurel. Each member will be nominated by the Mayor and confirmed by the City Council to serve in an advisory capacity without pay. The duties of the said Commission shall be such as are hereinafter set forth.

The members of said Commission shall be appointed for terms of five (5) years, in a staggered fashion and beginning on the calendar year, unless it is to fill an unexpired term; but the original appointment of the members thereof shall be so fixed that the terms of office of as near an equal number as possible shall expire each year. Members shall be eligible to succeed themselves at the pleasure of the Mayor and City Council.

The following are hereby named as current members of the said Commission hereby established and, solely for the purpose of providing for terms to expire in each year, the terms of such appointees shall be as follows, to-wit:

Those to serve for a period of five (5) years:

Eleanor McClendon, Ward 7

Walter Strong, Laurel City School District (ex-officio member)
Thomas Shows, Ward 1

Those to serve for a period of four (4) years:

Jones County Board of Supervisors (to be named)
Curtis Boykin, Ward 6
Harry Bush, Ward 3
Sandy Holifield, Jones County EDA (ex-officio member)

Those to serve for a period of three (3) years:

Laurel Historic Preservation Commission (to be name)
Ken Morgan, Laurel Downtown Association (ex-officio member)
Lee Watts, Ward 4

Those to serve for a period of two (2) years:

Louis Crumbley, Jr., Member-at-Large
Charlotte Myrick, Ward 2
Billy Taylor, Member-at-Large

Those to serve for a period of one (1) year.

Bill Renovich, Member-at-Large

All appointed Planning Commission members shall also attend and hear all zoning public hearings and matters. Whenever any of the voting members shall have missed more than three (3) unexcused meetings, within a calendar year, being either the Commission meeting or the zoning public hearings, said member shall be automatically terminated from the Commission. The Planning Commission shall establish its own rules for attendance and unexcused records. The Mayor shall nominate replacement members no later than thirty (30) days subsequent to a member's termination.

In conjunction with membership, there shall be two (2) types of membership:

- a. voting members, none of whom may be employees of the City, whose terms of office shall be as specified in the Ordinance creating the Planning Commission, and ex-officio members.
- b. Ex-officio members shall have all privileges of a member except that of holding elective office and voting on all business matters. However, ex-officio members may be allowed to vote if a quorum of voting members is not present and a

decision of the Commission is required on pending matters providing that their inclusion does not constitute a majority of the required number of votes.

Section 19-2. General Responsibilities.

In order to further the welfare of the people of this community by helping to create an increasingly better, a more healthful, convenient, efficient and attractive City environment with emphasis being placed on the most depressed areas of the city, and to coordinate and bring planning into a high degree of harmony in accordance with a carefully thought out comprehensive long-range plan for the development of the City of Laurel, including the most depressed areas of the City with the goal being to bring them up to par with other areas of the City in all facets, the members of said Commission shall make, prepare, recommend and present to the City Council:

- (1) a long-range comprehensive plan to guide the development of the City and its environs;
- (2) continuing work to review, to update and to improve the comprehensive plan on an annual basis;
- (3) critical review of all subdivision plats, proposals for amendments of the Zoning Ordinance and Subdivision Regulations, including inspection in their physical locations of the areas described in such plats and proposals;
- (4) pertinent recommendations to guide subsequent actions of the local governing body; and
- (5) studies or preparing information at the request of the Mayor and City Council when these efforts directly concern the long-range comprehensive planning process or probable major change in the City's physical or economic environment.

Also any other matters which may be submitted from time to time by the City Council, and any other matters which in the judgment of the Commission will bring about a more orderly development of the City of Laurel, Mississippi, working in close cooperation with Jones County Economic Development Authority, Laurel Downtown Association, Laurel City School District, Laurel Historic Preservation Commission, and Jones County Board of Supervisors.

Section 19-3. Meetings.

Regular meetings of the Planning Commission shall be held on the second Thursday of each month with the designated time of the meeting to be set by the Planning Commission. All zoning public hearings will immediately follow the regular meetings of the Planning Commission. Appearing at either of these meetings qualifies the member for being in attendance.

Special meetings may be called by the chairman and as often as the Commission may deem necessary for the accomplishment of the purposes for which the said Commission is created. A quorum for all regular and called special meetings shall be at least fifty percent (50%) of the voting members of the Commission.

When any item is before the Commission, either for discussion or voting, and it is apparent that the vocation, profession, or personal interest of any member of the Commission may be opposed to or contrary to the public interest, the member so concerned shall excuse himself/herself and abstain from consideration or voting on that item.

The Commission shall establish its own rules of procedure, subdividing itself into such committees as it may deem proper, and select such other officers, coordinating committees, and other committees as will best promote the work of the said commission, and accomplish the purposes for which it is created.

It is the responsibility of the Planning Commission to meet with the Mayor and City Council when requested in order to understand the policy of the governing authority and thereby assist by relating the long-range comprehensive planning to such policy and in order that there may be a maximum of harmony between the planning and policy-making functions of local government.

Section 19-4. Officers and Duties.

There shall be at least two (2) elected officers: the Chairman and the Vice-Chairman.

The Chairman shall preside at all meetings and public hearings of the Planning Commission and shall have the duties normally conferred by parliamentary usage of such offices. The Chairman shall be one of the voting members of the Commission and shall have the privilege of discussing all matters before the commission and to vote thereon.

The Vice-Chairman shall act for the Chairman in his absence and shall be a voting member of the commission.

Section 20-10. User Charge.

- (1) User charge shall be the charge levied on all users including, but not limited to, persons, firms, corporations or governmental entities that discharge, cause or permit the discharge of sewage into the public sewage works.

- (2) The user charge shall reflect the current costs of operation and maintenance (including replacement) of the public sewage works, retirement of existing debt and repayment of Water Pollution Control Revolving Fund Loans, and the costs of planned future projects that may be required to keep said sewage works fully operational and in compliance with and able to meet the requirements and regulations of all federal and state laws as may be added or changed from time to time.

- (3) The City Clerk and/or the City Finance Director shall periodically review and compare how the payment and collection of sewer user charges relate to the total cost of operation and maintenance (including replacement) of the sewage works, and the other costs related to and included in the sewage charge system as herein required. The City Clerk and/or the City Finance Director shall recommend revisions to the sewage charge system and rate schedule so as to generate sufficient revenue from said charges to pay the total costs of said items specified in subsection (2), above.

Section 20-11. Sewer Rate Schedule.

- (1) The following Sewer Rate Schedule shall apply monthly to each user of the sewage

works located inside the City Limits of Laurel.

SEWER RATE SCHEDULE

Service Charge Monthly and For Fractional Periods

The following Rate Schedule shall apply monthly to each user unless (a) the initial billing period is for a fraction of a month, in which case the quantity used shall be included in the quantity consumed in the next following month billing period and the assessment or charge made as if the total had been consumed in one billing period, or (b) the final billing period is for a fraction of a month in which case the quantity consumed shall be prorated.

SEWER RATE SCHEDULE

Residential Customers:

Inside City Rate - minimum charge of \$21.71 for 3,000 gallons or any part thereof plus Five Dollars and seventy-nine cents per thousand gallons used beyond the first 3,000 gallons (\$5.79/1,000)

Outside City Rate – minimum charge of \$33.01 for 3,000 gallons or any part thereof plus Eight Dollars and sixty-seven cents per thousand gallons used beyond the first 3,000 gallons (\$8.67/1,000)

Commercial Customers:

Inside City Rate - minimum charge of \$24.60 for 3,000 gallons or any part thereof plus Five Dollars and seventy-nine cents per thousand gallons used beyond the first 3,000 gallons (\$5.79/1,000)

However, any customer who, on or before the effective date of this ordinance, is discharging non-city generated water into the city sewer system in a volume not less than Three Million (3,000,000) gallons per month average for the twelve (12) consecutive months immediately preceding the effective date of this ordinance, and continuing in such volume thereafter, will be charged Two Dollars and seventy-five cents per thousand gallons (\$2.75/1,000). This exception only applies to customers who meet this minimum volume on September 21, 2010.

Outside City Rate – minimum charge of \$36.85 for 3,000 gallons or any part thereof plus Eight Dollars and sixty-seven cents per thousand gallons used beyond the first 3,000 gallons (\$8.67/1,000)

Industrial Customers:

Will be charged a combined water/sewer rate of Four Dollars and forty cents per thousand gallons used (\$4.40/1,000). To qualify for Industrial rates, the customer shall average five million (5,000,000) or more gallons/month for twelve (12) consecutive months immediately preceding the following month's City of Laurel Water Department Billing cycle.

Industrial users outside the City Limits of Laurel for which the City of Laurel does not provide the water shall pay for sewer at the rate of \$4.17 per thousand gallons of water used. Where a

special pump station is required, such Industrial user shall pay an additional fee of \$852.00 per month for operation and maintenance.

(2) To accomplish the requirements of Section 20-10(3) in setting the Rate Schedule in Section 20-11(1) above, the following formula is to be used and calculations submitted to the governing authority for approval.

Minimum - As directed by the governing authority.

For all usage above the volume covered by the minimum charge, use charges based on the number of gallons of water used per month shall be separately established for two (2) categories, capital and debt, and operating and maintenance, using the following formula. To assure adequate recovery of cost any user charge may be adjusted upward by not more than \$0.05.

CAPITAL AND DEBT

User charge = (B+C-F-M) divided by (V-V_m)

Where:

User charge = Rate per 1,000 gallons above minimum

B = Annual bond and other debt (SRF) repayments divided by 12
C = Capital requirements in current year divided by 12
F = Other funds available for current year divided by 12
M = Annual minimum collected for sewer use divided by 12
V = Monthly sewage volume for entire system in 1,000 gallons
V_m = Monthly sewage volume covered by minimum

Recovery of this portion of the User Charge is adjusted for the following increments:

First Increment - First 100,000 gals. less minimum

Rate = (1 + [V_{2s} divided by (V_{2s} + V_{4s})] x user charge

Second Increment - Next 400,000 gals.

Rate = 1 x user charge

Third Increment -

Rate = [V_{4s} divided by (V_{2s} + V_{4s})] x user charge

Where:

V_{2s} = Monthly volume used by this group less minimum

V_{4s} = Monthly volume used by this group less minimum

OPERATING AND MAINTENANCE

User Charge = O divided by $(V - V_m)$

Where:

User Charge = Rate per 1,000 gals. Above minimum

O = Operating, maintenance and normal replacement cost divided by 12

This charge is to be paid equally by all users for all use above the minimum.

Section 20-12. Industrial Waste Surcharge.

(1) In the event that a user discharges industrial wastes to the sewage works having an average Biochemical Oxygen Demand (B) content in excess of 300 mg/l, and/or an average Suspended Solids (SS) content in excess of 300 mg/l, and/or an average Total Kjeldahl Nitrogen (TKN) content in excess of 30 mg/l, and/or an average grease content in excess of 15 mg/l, said industrial user shall pay a surcharge based upon the excess strength of their discharges. BOD, SS and TKN may be increased by written approval of Superintendent for limited periods of time.

(2) Industrial user shall be defined as any non-governmental, non-residential users of the public sewage works which discharges more than the equivalent of 25,000 gallons per day (GPD) of sewage and which is identified in the Standard Industrial Classification Manual, 1972, Office of Management and Budget, as amended and supplemented under one (1) of the following divisions:

Division A	-	Agriculture, Forestry and Fishing
Division B	-	Mining
Division D	-	Manufacturing
Division E	-	Transportation, Communication, Electric, Gas and Sanitary Services
Division I	-	Services

(3) Any non-governmental user of the sewage works shall also be considered any industrial user if such user discharges to the sewage works sewage which contains toxic pollutants or poisonous solids, liquids or gases in sufficient quantity either singly or by interaction with other wastes, to contaminate the sludge of any municipal systems, or to injure or

to interfere with any sewage treatment process, or which constitutes a hazard to humans or animals, creates a public nuisance or creates any hazard in or has an adverse effect on the water receiving any discharge from the sewage works.

(4) The costs of treatment of each pound of BOD, SS , TKN and grease removed by the sewage works shall be reviewed at the end of each fiscal year and appropriate surcharge rates applied to the sewage billing. These rates shall be in effect until the next annual rate review.

Source: Ordinance No. 1178-1990, § 3, 12-28-90

Section 20-13. Method of Billing Surcharge.

(1) The industrial waste surcharge shall be based on the following formula, with the total applied to the monthly bill of affected users:

$$[A(E-300) + B(F-300) + C(G-30) + D(H-15)] \frac{8.34}{1000} \times I \times J =$$

Surcharge payment (\$ /Mo)

Where:

- A. Surcharge Rate for BOD, in \$ 0.05/Pound
- B. Surcharge Rate for SS, in \$ 0.03/Pound
- C. Surcharge Rate for TKN, in \$ 0.03/Pound
- D. Surcharge Rate for Grease, in \$ 0.05/Pound
- E. Industrial User's BOD Concentration, in mg/l
- F. Industrial User's SS Concentration, in mg/l
- G. Industrial User's TKN Concentration, in mg/l
- H. Industrial User's Grease Concentration, in mg/l
- I. Industrial User's Flow to Sewage Works, in 1,000 gals./day
- J. Number of Days in Month

(2) No reduction in sewage service charges, fees, or taxes shall be permitted because of the fact that certain industrial wastes discharged to the sewage works contain less than 300 mg/l of BOD, 300 mg/l of SS, 30 mg/l of TKN or less than 15 mg/l of grease.

(3) Should the payment of surcharge occur in two (2) consecutive months, the City may refuse to accept sewage until pretreatment is designed to eliminate the excess strength of user's charge.

ARTICLE II. SEWER USE

Section 20-45. Definitions.

Unless the context specifically indicates otherwise, the meaning of terms used in this article shall be as follows:

“Act” shall mean the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 U.S.C 1251, et seq.

SOURCE: Ordinance 1667-2017, 9-19-2017

“BOD” (denoting Biochemical Oxygen Demand) shall mean the value of the 5-day test for Biochemical Oxygen Demand, as described in the latest edition of “Standard Methods for the Examination of Water & Wastewater”.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Building Drain” shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning five (5) feet (1.5 meters) outside the outer face of the building wall.

“Building Sewer” shall mean the extension from the building drain to the public sewer or other place of disposal.

“COD” shall mean the value of the test for Chemical Oxygen Demand, as described in the latest edition of “Standard Methods for the Examination of Water & Wastewater”.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“City Plumbing Inspector” shall mean the person and/or persons authorized by the City Administration to conduct plumbing inspections on behalf of this ordinance.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Combined Sewer” shall mean a sewer receiving both surface run-off and sewage. Combined sewers shall not be allowed.

“EPA” shall mean the United States Environmental Protection Agency.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Fats, oils and greases (FOG)” shall mean organic polar compounds derived from animal and/or plant sources that contain multiple carbon chain triglyceride molecules. These substances are detectable and measurable using analytical test procedures established in 40 CFR 136, as may be amended from time to time. All are sometimes referred to herein as “grease” or “greases”.

“Food” shall mean any substance, whether solid or liquid, and whether animal, vegetable, or fruit origin, intended to be used or commonly used as a food for human consumption.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Food Establishment” shall mean any place where food is manufactured, packaged, produced, processed, prepared or served for commercial, public or facility resident consumption. These establishments primarily use one or more of the following preparation activities: cooking by frying (all methods), baking (all methods), grilling, sauteing, rotisserie cooking, broiling (all methods), boiling, blanching, roasting, toasting, or poaching. Also included are infrared heating, searing, barbecuing, and any other food preparation activity that produces a hot, non-drinkable food product in or on a receptacle that requires washing. The term shall also include any such place regardless of whether there is a charge for the food. The term shall not include a private home where food is prepared for individual family consumption.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Grease Trap” or grease interceptor shall mean a device designed to use differences in specific gravities to separate and retain light density liquids, waterborne fats, oils, and grease prior to the wastewater entering the sanitary sewer collection system. These devices also serve to collect settle able solids generated by and from food preparation activities, prior to the water exiting the trap and entering the sanitary sewer collection system. The terms grease trap and grease interceptor are used interchangeably for purposes of this Article.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Garbage” shall mean solid wastes from the domestic and commercial preparation, cooking and dispensing of food and from the handling, storage and sale of produce.

“Indirect Discharge” or **“Discharge”** shall mean the introduction of pollutants into the city sewer system from any non-domestic source.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Industrial Wastes” shall mean the liquid wastes from industrial manufacturing processes, trade or business distinct from sanitary sewage as defined under “Industrial User” in 40 CFR 35.905.

“Interference” shall mean a discharge which alone or in conjunction with a discharge or discharges from other sources inhibits or disrupts the city sewer system, its treatment processes or operations or its sludge processes, use or disposal, or is a cause of a violation of the city’s laws and/or regulations.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Natural Outlet” shall mean any outlet into a watercourse, pond, ditch, lake or other body of surface or groundwater.

“Oil/Water separator” shall mean approved and industry standard system that is specifically designed and manufactured to separate oil from water. The system shall allow the oil to be collected and removed on a regular basis so as to prevent it from being discharged into the wastewater collection system. Only oil/water separators manufactured for that specific operation will be approved.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Person” shall mean an individual, or any association, company, corporation, firm, organization or partnership, singular or plural, of any kind.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“pH” shall mean the negative of the logarithm of the concentration of hydrogen ions in moles per liter of solution.

“Properly Shredded Garbage” shall mean the wastes from the preparation, cooking and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch (1.27 centimeters) in any dimension.

“Public Sewer” shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.

“Sanitary Sewer” shall mean a system of pipes, conduit, and treatment facilities owned or operated by the City which collect, transport and treat sanitary sewage, and to which storm, surface, and ground waters are not intentionally or normally admitted.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“Sewage” shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface and stormwaters as may be present.

“Sewage Treatment Plant” shall mean any arrangement of devices and structures used for treating sewage.

“Sewage Works” shall mean all facilities for collecting, transporting, pumping, treating and disposing of sewage.

“Sewer” shall mean a pipe or conduit for carrying sewage.

“Shall” is mandatory; **“May”** is permissive.

“Slug” shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes more than five (5) times the average twenty-four (24) hour concentration of flows during normal operation.

“Storm Drain” (sometimes termed **“storm sewer”**) shall mean a sewer which carries storm and surface waters and drainage but excludes sewage and industrial wastes, other than unpolluted cooling water.

“**Superintendent**” shall mean the Superintendent of Utilities of the City or his authorized deputy, agent or representative.

“**Suspended Solids**” shall mean solids that either float on the surface of, or in suspension in water, sewage or other liquids and which are removable by laboratory filtering.

“**City**” shall mean the City of Laurel, Mississippi, or when appropriate to the context, its duly authorized representative.

“**User**” shall mean any person or establishment including those located outside the jurisdictional limits of the City who contributes causes, or permits the contribution or discharge of wastewater into the City’s wastewater collection or treatment system, including persons who contribute such wastewater from mobile sources, such as those who discharge hauled wastewater.

SOURCE: Ordinance No. 1667-2017, 9-19-2017

“**Watercourse**” shall mean a channel in which a flow of water occurs, either continuously or intermittently.

Section 20-46. Use of Public Sewers Required.

- (1) It shall be unlawful for any person to place, deposit or permit to be deposited in any unsanitary manner on public or private property within the City of Laurel or in any area under the jurisdiction of said City, any human or animal excrement, garbage or other objectionable waste.
- (2) It shall be unlawful to discharge to any natural outlet within the City of Laurel, or in any area under the jurisdiction of said City, any sewage or polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this Ordinance.
- (3) Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of sewage.
- (4) The owner of all houses, buildings or properties used for human occupancy, employment, recreation or other purposes, situated within the City and abutting on any street, alley or right-of-way in which there is now located or may in the future be located a public sanitary sewer of the City, is hereby required at his expense to install suitable toilet facilities therein and to connect such facilities directly with the proper public sewer in accordance with the provisions of this Ordinance, within ninety (90) days after official notice to do so, provided that said public sewer is within one hundred (100) feet (30.5 meters) of the property line.

If an on-site pressure system is required for a service connection, the operation and maintenance costs for the facility shall be the responsibility of the owner or user.

- (5) It shall be unlawful for any person, establishment or corporation to discharge to the sewer system any pollutant except in compliance with Federal Standards promulgated pursuant to the Clean Water Act and any more stringent State and Local Standards.
- (6) Any individual, business establishment and/or corporation connecting to or using the City's waste water system shall be required to use the City's water system, if available. Availability, as judged by the City, should be based on such considerations as proximity of nearest water line, volume required, cost of service, and other related factors.

Section 20-47. Private Sewage Disposal.

- (1) Where a public sanitary sewer is not available under the provisions of Section 20-101(4), the building sewer shall be connected to a private sewage disposal system complying with the provisions of this Section.
- (2) Before commencement of construction of a private sewage disposal system, the owner shall first obtain a written permit signed by the Superintendent. The application for such permit shall be made on a form furnished by the City, which the applicant shall supplement by any plans, specifications and other information as are deemed necessary by the Superintendent. A permit and inspection fee of Two Hundred Dollars (\$200.00) shall be paid to the City at the time the application is filed.
- (3) A permit for a private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Superintendent. He shall be allowed to inspect the work at any stage of construction and, in any event, the applicant for the permit shall notify the Superintendent when the work is ready for final inspection and before any underground portions are covered. The inspection shall be made within twenty-four (24) hours of the receipt of notice by the Superintendent.
- (4) The type, capacities, location and layout of a private sewage disposal system shall comply with all recommendations of the Department of Public Health of the State of Mississippi. No permit shall be issued for any private sewage disposal system employing subsurface solid absorption facilities where the area of the lot is less than three (3) acres. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

- (5) At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in Section 20-102(4), a direct connection shall be made to the public sewer in compliance with this Ordinance, and any septic tanks, cesspools and similar private sewage disposal facilities shall be abandoned and filled with suitable material.
- (6) The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the City. If an on-site pressure system is required for use of the public sewer facility, the operation and maintenance costs of the pressure systems shall be the responsibility of the owner or user.
- (7) No statements contained in this Section shall be construed to interfere with any additional requirements that may be imposed by the Health Officer.
- (8) When a public sewer becomes available, the building sewer shall be connected to said sewer within sixty (60) days and the private sewage disposal system shall be cleaned of sludge and shall either be removed or shall be filled with clean bank-run gravel, sand or dirt.

Section 20-48. Building Sewers and Connections.

- (1) No unauthorized person shall uncover, make any connections with or open into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Superintendent.
- (2) There shall be two (2) classes of building sewer permits: (a) for residential and commercial service; and (b) for service to establishments producing industrial wastes. In either case, the owner or his agent shall make application on a special form furnished by the City. The permit application shall be supplemented by any plans, specifications or other information considered pertinent in the judgment of the Superintendent.

A permit and inspection fee of Two Hundred Dollars (\$200.00) for a residential and commercial building sewer permit and Five Hundred Dollars (\$500.) for an industrial building sewer permit shall be paid to the City at the time the application is filed.

As a condition for authorization to dispose of industrial wastes through the municipal system, the industrial applicant for a sewer permit shall provide the City with information describing wastewater constituents and characteristics, and the type of activity and quantity of production.

- (3) All costs and expense incidental to the installation and connection of the building

sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

- (4) A separate and independent building sewer shall be provided for every building except where one (1) building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one (1) building sewer.
- (5) Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Superintendent, to most all requirements of this Ordinance.
- (6) The size, slope, alignment, materials of construction of a building sewer and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, shall conform to the requirements of the Building and Plumbing Code or other applicable rules and regulations of the City. In the absence of Code provisions or, in amplification thereof, the materials and procedures set forth in appropriate specifications of the American Society for Testing and Materials (ASTM) and the Water Pollution Control Federation (WPCF) Manual of Practice No. 9 shall apply.
- (7) Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer.
- (8) No person shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface run-off or, groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
- (9) The connection of the building sewer into the public sewer shall conform to the requirements of the Building and Plumbing Code or other applicable rules and regulations of the City or the procedures set forth in appropriate specifications of the ASTM and the WPCF Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials shall be approved by the Superintendent before installation. The Superintendent shall prescribe saddles or other connections that will not allow protrusion into the public sewer and will meet the gastight and watertight requirements. The connection shall be made under the supervision of the City and prior to backfilling, a Polaroid picture shall be taken by a designated City

employee. On the back of said photo, there shall be entered the date, appropriate street address, distance in feet between the center line of the connection and the nearest manhole, the number of the manhole and the employee's name. This photo shall be turned over to the Engineering Department and within ten (10) days thereof the connection entered on the master drawing of the sewer system. The photo is to be permanently filed.

- (10) The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Superintendent or his representative.
- (11) All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the City.

Section 20-49. Use of the Public Sewers.

- (1) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater roof run-off, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.
- (2) Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged, on approval of the Superintendent and the Bureau of Pollution Control, to a storm sewer or natural outlet.
- (3) All persons owning vacuum or "cesspool" pump trucks or other liquid transport trucks and desiring to discharge septic tank, seepage pit, interceptor or cesspool contents, industrial liquid waste or other liquid wastes to the sewage works, shall first have a valid Trucker's Discharge Permit. All applicants for a Trucker's Discharge Permit shall complete the application form, pay the appropriate permit fee, receive a copy of the regulations governing discharge to sewers of liquid wastes from trucks and shall agree in writing, to abide by these Regulations.

Discharge of septic tank, seepage pit, interceptor or cesspool contents or other wastes containing no industrial wastes, may be made by truckers holding a permit at any of the designated public dumping manholes. Truck transported industrial wastes shall be discharged only at the locations specified by the approving authority for the specific waste. The City shall require payment for treatment and disposal costs of the compatible industrial waste, or may refuse permission to discharge prohibited wastes.

The Trucker's Discharge Permit shall be valid for one (1) year from the date of issuance.

Any person violating the City's requirements for liquid waste discharges from trucks may have his permit revoked by the City.

- (4) No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewer:
 - (a) Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.
 - (b) Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance or create any hazard in the receiving waters of the sewage treatment plant.
 - (c) Any waters or wastes having a pH lower than 6.0 or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works.
 - (d) Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewage works such as, but not limited to ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and flashings, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.
- (5) No person shall discharge or cause to be discharged the following described substances, materials, waters or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to the flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant and other pertinent factors. The substances prohibited are:
 - (a) Any liquid or vapor having a temperature higher than one hundred twenty degrees (120°) Fahrenheit (49 degrees Celsius).

- (b) Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 150 mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32°) and one hundred thirty (130°) degrees Fahrenheit, (0 and 65 degrees Celsius).**

****Cross Reference: Chapter 10, Article III, Sections 40-50 contain specific rules and regulations regarding fat, oil, and grease interceptors**

- (c) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of 3/4 horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the Superintendent.
- (d) Any waters or wastes containing strong acid iron pickling wastes or concentrated plating solutions whether neutralized or not.
- (e) Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials. (For Industrial Processes Wastes, see Section 20-104, Subsection (6)).
- (f) Any waters or wastes containing phenols or other taste or odor-producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of the State, Federal or other public agencies of jurisdiction for such discharge to the receiving waters.
- (g) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
- (h) Any waters or wastes having a pH in excess of 8.5 or below 6.0.
- (i) Materials which exert or cause:
 1. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate.)
 2. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tannin solutions).

3. Unusual BOD, chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 4. Unusual volume of flow or concentration of wastes constituting “slugs” as defined in Section 20-100, Subsection (18).
- (j) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.
- (k) Any waste prohibited by Environmental Protection Agency Standards 40 CFR 403.
- (6) All industrial and commercial process wastewater shall be pretreated prior to discharge to the public sewers, if necessary, in accordance with the provisions of the United States Environmental Protection Agency, the Bureau of Pollution Control and/or the City, whichever is more stringent. The minimum pretreatment requirements are as follows:

<u>Parameter</u>	<u>Maximum Concentration (mg/l)</u>
BOD 5	300.0*
Suspended Solids (SS)	300.0*
TKN	30.0*
Oil or Grease	150.0
Arsenic	0.05
Barium	5.0
Boron	1.0
Cadmium	0.02
Chromium	0.05
Copper	0.02
Cyanide	0.05
Lead	0.10
Manganese	0.50
Mercury	0.002
Nickel	0.08
Selenium	0.02
Silver	0.01
Zinc	0.05

*Any non-conventional parameter that is specific to an industrial process that

results in a discharge BOD 5, SS and TKN may be increased by written approval of Superintendent for limited periods of time.

NOTE: The determination of limits for these parameters shall be based on any current applicable EPA categorical industrial guidelines, receiving stream water quality standards/criteria, biological process threshold inhibition levels and sludge quality criteria.

As a condition for authorization to dispose of industrial wastes through the municipal system, the industrial applicant for a sewer permit shall provide the City with information describing wastewater constituents and characteristics and the type of activity and quantity of production.

- (7) If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in subsections (5) and (6) of this Section, and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:
- (a) Reject the wastes,
 - (b) Require pretreatment to an acceptable condition for discharge to the public sewers,
 - (c) Require control over the quantities and rates of discharge, and/or
 - (d) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of subsection (11) of this Section.

If the Superintendent permits the pretreatment or equalization of wastes flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable Codes, Ordinances and laws.

- (8) Grease, oil and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent and shall be located as to be readily and easily accessible for cleaning and inspection.**

****Cross Reference: Chapter 10, Article III, Sections 40-50 contain specific rules and regulations regarding fat, oil, and grease interceptors**

- (9) Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
- (10) When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary motors and other appurtenances in the building sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plant approved by the Superintendent. The manhole shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times.
- (11) All measurements, tests and analysts of the characteristics of waters and wastes to which reference is made in this Ordinance shall be determined in accordance with the latest edition of Standard Methods for the Examination of Water Wastewater published by the American Public Health Association, Methods for Chemical Analysis of Water and Wastes published by EPA, and 40 CFR 136 and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer, is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).
- (12) No statement contained in this Section shall be construed as preventing any special agreement or arrangement between the City and industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment therefor by the industrial concern.

Section 20-50. Protection from Damage.

- (1) No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

Section 20-51. Powers and Authority of Inspectors.

- (1) The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing in accordance with the provisions of this Ordinance. The Superintendent or his representatives shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.
- (2) While performing the necessary work on private properties referred to in Section 20-51, subsection (1) above, the Superintendent or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company. The company is responsible for providing access as required in Section 20-49, subsection (10).
- (3) The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

Section 20-52. Penalties.

- (1) Any person found to be violating any provision of this Ordinance except Section 20-50 shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
- (2) Any person who shall continue any violation beyond the time limit provided for in Section 20-52, subsection (1), shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding Two Hundred Dollars (\$200.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense. Additionally, chronic violation of the terms of this Ordinance may result in termination of the sewer disposal permit.
- (3) Any person violating any of the provisions of this Ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

Section 20-53. Validity.

- (1) All prior sewer use Ordinances or parts of Ordinances are hereby repealed.
- (2) That invalidity of any section, subsection, clause, sentence or provision of this Ordinance shall not affect the validity of any other part of this Ordinance which can be given effect without such invalid part or parts.

CHAPTER 20.1

WASTEWATER HAULING

Section 20.1-1. Definitions.

For the purposes of this article, the following definitions shall apply:

“Commercial wastewater” shall mean the liquid or liquid-borne wastes from commercial or non-residential establishments including, but not limited to, restaurants, dry cleaners, service stations, shopping centers, grocery stores, retail establishments, or public or private non-residential buildings; and shall include any grease, oil, sludge, septic waste, or any other material removed from and sewage disposal system or onsite wastewater treatment facility.

“City of Laurel” shall mean any employee of the City of Laurel or a representative of the City duly recognized and approved to carry out specific responsibilities on behalf of the City.

“Domestic wastewater” shall mean the liquid-borne waste resulting from normal residential activities including the disposal and/or discharge of human waste and associated materials.

“Industrial wastewater” shall mean the liquid or liquid-borne waste from industrial manufacturing processes, trades, or businesses. The waste may include what is otherwise deemed as domestic-type wastewater.

“Sewage disposal system” shall mean septic tanks, wastewater holding tanks, seepage pits, cesspools, privies, portable toilet facilities, grease traps, and other equipment facilities, or devices used to store, treat, or dispose of human waste or liquid-borne wastewater.

“Tank” shall mean any container when placed on a vehicle and used to transport wastewater.

“Vehicle” shall mean the device used to transport a tank.

“Waste or wastewater” shall mean commercial wastewater, domestic wastewater, industrial wastewater, or sewage disposal system.

“Wastewater hauler” shall mean any person who engages in the activity, service, business, or leasing of vehicles for the purpose of transporting domestic, commercial, industrial wastewater or sewage disposal system to another location for disposal.

Section 20.1-2. Wastewater Hauler Criteria.

Any wastewater hauler whose legal business address is in the City of Laurel or any wastewater hauler whose legal business address is outside the City of Laurel but who engages in business in the City of Laurel must comply with the following provisions of this article. This applies to wastewater haulers approved to dispose of waste to the city's *Massey* wastewater treatment plant.

Source: Ordinance No. 1510-2008

Section 20.1-3. Registration and Licensing.

- (1) Any wastewater hauler defined in Section 20-61, Chapter 20, "Sewers", of the Laurel Code of Ordinance Book, must register with the City of Laurel and receive permission to discharge waste at the city's treatment plant. There is an annual license required for each vendor. The cost of this license is one hundred dollars (\$100.00) and it must be renewed each year in order to use the City of Laurel authorized dump site.
- (2) Each wastewater hauler must complete an application as set forth by the City and shall include the following information:
 - a. Proof of ownership of each vehicle, including the owner's name and legal address.
 - b. Proof of insurance including at least one million dollars (\$1,000,000.) liability coverage and naming the City of Laurel and United Water as additional insured. A certificate of coverage shall be submitted to the City at the time of registration.
 - c. The hauler's legal address of premises and legal business address, type of business (domestic, industrial, commercial wastewater hauler).
 - d. The number of wastewater hauling vehicles, tank capacity in gallons, and vehicle identification numbers of all vehicles.
 - e. Any other information deemed by the City to be necessary to evaluate where approval is granted to a particular hauler.
- (3) Each vehicle shall be equipped with an entry port which allows sampling of the tank contents from top to bottom by city personnel. The port shall have a minimum diameter of six (6) inches and tightly secured to prevent leakage. In addition, each tank shall have a valve or similar structure located at the discharge point to allow for sampling of the wastewater.
- (4) After the application has been received and evaluated by the City, and has been determined to satisfy the conditions outlined above, the City will issue a license prescribing the conditions of the program. The conditions include, but not limited to:
 - a. Approved charges and fees associated with the program.

- b. Limits on the characteristics of the wastewater.
 - c. Restrictions on the times and days of discharge.
 - d. Requirements to provide for the completion, submittal, and retention of customer receipts and other documents to verify the source of wastewater.
 - e. Types of wastewater allowed to be hauled to the wastewater treatment facility.
 - f. Location of the approved discharge site.
 - g. Any other condition deemed appropriate by the City to properly regulate the discharge of hauled wastewater.
 - h. An approved license.
- (5) A hauler’s license is issued to a specific person for a specific location and does not constitute a property interest nor shall the license be assigned, conveyed, or sold to a new owner, different premises, or a new or changed operation.
- (6) Hours of Operation: The standard hours of operation at the receiving station is Monday-Friday from 7:30 am until 3:00 pm. Any dumping outside of those times will be charge at the after hour fee rate. Any dumping outside of the standard hours need prior approval.

Section 20.1-4. Fees.

Rate:

Restaurant Grease	\$40.00/1,000 Gal.
All other Septage	\$35.00/1,000 Gal.
Any After Hours Dumping	\$75.00/1,000 Gal.

Volume Measurement (aka Capacity):

The volume of each load discharge will be determined by plant personnel utilizing either a calibrated sight tube or calibrated sight-glass (“bubbles”) installed on the tank. If sight-glasses are used, the reported volume will be that indicated by the lowest sight-glass level that does not contain liquid. If the tank is not equipped with a sight tube or sight-glass, the disposal fee will be based on the total capacity of the tank.

Source: Ordinance No. 1510-2008; Ordinance No. 1514-2008

Section 20.1-5. Discharging Procedures.

- (1) All discharging of wastewater from the hauler’s tanks must be done at a site designated and approved by the City. The City retains the right to limit the hours of the day and days of the week during which discharging shall be allowed.

- (2) Any unlicensed, discharging of waste into the city's treatment facilities at any location under the jurisdiction of the City is prohibited unless approved by the City prior to discharging.
- (3) The wastewater hauler shall be responsible for the cleanup to the satisfaction of the City for any spills or leakage on City streets, right-of-ways, and property. Any defective equipment which has resulted or may result in the leaking or spilling of wastewater from the vehicle shall be repaired before the hauler is allowed to discharge at the designated point.
- (4) The disposal of each tank of wastewater must receive approval from treatment plant personnel prior to discharge. Approval shall be contingent on the completion of a waste ticket specifying the contents and characteristics of the wastewater.

Source: Ordinance No. 1510-2008

Section 20.1-6. Testing Requirements.

- (1) The contents of all vehicles are subject to preliminary sampling and testing by the City of plant personnel before discharging at the designated approved site. The test results must be within a specified range for any test parameters established by the City to protect the wastewater treatment plant processes and performance.
- (2) Any tank contents that are found unsuitable for discharge or fail the preliminary test procedures will be subject to additional testing to determine the nature of the tank contents. If the City determines the wastewater cannot be discharged, it will be the responsibility of the hauler to arrange for the proper disposal of the waste. In addition, the hauler must submit proof of proper disposal in the form of affidavits and/or receipt from a facility accepting the wastewater. Until the City has determined that the conditions have been satisfied, the hauler is prohibited from using the designated disposal site.
- (3) The City may refuse to accept any wastewater it deems unsatisfactory for discharge into the treatment facility.
- (4) The licensed hauler shall be responsible for all costs associate with disposal, treatment, and testing of any approved or prohibited waste.

Source: Ordinance No. 1510-2008

Section 20.1-7. Administration Procedures.

- (1) All licensed wastewater haulers shall maintain accurate business records pertaining to their wastewater hauling activities and shall make these records available to the City upon request. The records shall include the names, addresses, and telephone numbers

of wastewater generators, the origin, type of waste, volume of waste, and customer receipts. All records required under this section shall be retained for a minimum of three (3) years.

- (2) The driver of each vehicle delivering waste to the treatment facility for discharge shall have dated customer receipts for each source of wastewater showing the names and addresses of each customer, the nature of the wastewater (grease, oil, sludge, etc.), amount of wastewater in gallons, the hauler's name and address, and the driver's name.
- (3) Prior to discharge, the hauler shall complete a discharge ticket on a form designated by the City and containing the information required in Section 20-65(b), Chapter 20, "Sewers", of the Laurel Code of Ordinance Book, as well as any additional information deemed necessary by the City. The ticket shall be signed by the hauler and a city representative prior to discharge.
- (4) The hauler shall compensate the City for the full cost of sampling, analysis, and treatment costs associated with discharge of wastewater. Fees shall be based on a fee schedule published by the City.
- (5) Whenever required to carry out the objectives of this article relating to the regulation and control of wastewater or the collection of discharge fees, the City or its representative shall have the right of entry to, upon, or through any premises for the purposes of inspection, sampling, or measuring. This right of entry shall include, but not limited to, any equipment necessary to conduct such inspections. It shall be the duty of the hauler to provide all necessary clearance before entry and to not unnecessarily delay or hinder the City in carrying out its duties. The right to inspect shall exist at any time.

Source: Ordinance No.1510-2008

Section 20.1-8. Enforcement.

- (1) Any person who fails to comply with any provision of this article may be fined an amount not to exceed the maximum allowed by city regulations for each offense. A violation of any provision or of any license requirement issued under authority of this article shall constitute a violation of this article. Each violation shall constitute a separate offense. In addition, the City shall be entitled to all reasonable expenses including court costs and attorney fees.
- (2) Nothing in this article shall restrict the City from any right which may be provided by statute or common law to bring other actions, at law or in equity, including injunctive relief.

Source: Ordinance No. 1510-2008

Section 20.1-9. License Revocation.

- (1) The City may revoke, suspend, or modify the license of any hauler for any of the following reasons:
 - a. A violation of any provision of this article or of any applicable State or Federal statute or regulation related to wastewater hauling;
 - b. Failure to report the characteristics of any load, including the furnishing of false information or misrepresentation of any material fact related to wastewater hauling;
 - c. Refusal of reasonable access to the wastewater hauler's premises for the purpose of inspecting records, inspection, sampling, and monitoring, and,
 - d. Noncompliance with any condition of the license entered into under the authority of this article.

- (2) The City shall serve written notice to the hauler of the facts underlying the license revocation either by personal service, by certified U. S. Mail, postage prepaid, return receipt requested, or by any other method consistent with the Mississippi Rules of Civil Procedure. Said written notice to the hauler shall contain notice to the hauler of his or her right to appeal the revocation to the Building Board of Adjustments within thirty (30) days of service upon filing a written notice of appeal with the City Clerk at City Hall, Laurel, Mississippi. Upon written notice of appeal being filed, a hearing shall be granted to the hauler under the provisions outlined in the International Building Code, 2018 Edition, as amended, or most recent edition adopted, and described in Section 112 of the "Board of Appeals" process, to present any evidence relevant to the issues associated with the revocation of discharge privileges. Not later than seven (7) days following the hearing, the Building Board of Adjustments shall make a final determination either revoking, suspending, modifying, or reinstating the license, and the final determination shall be served upon the hauler within five (5) days thereafter.

Source: Ordinance No. 1633-2016, 3-22-2016; Ordinance No. 1705-2021, § 1, 3-16-21

- (3) Notwithstanding the above, the City shall have the right to immediately revoke the discharge approval of any hauler to prevent the potential harm associated with a discharge.

Section 22-57. Responsibility of Property Owners.

(1) Property owner or occupant's responsibility for preparation, storage and placement of trash for collection:

- (a) Paper, glass, metal and other small or flexible objects shall be placed in approved containers, not thirty (30) gallons. Approved containers shall include cardboard boxes, paper or plastic bags manufactured for refuse disposal or other suitable containers which are readily capable of being mechanically loaded into the collection vehicle. Leaves, yard clippings and pine straw shall be piled neatly at the collection point.
- (b) Discarded tree branches, shrubbery, brush, lumber, (excluding debris from new construction or major remodeling) cardboard boxes and other organic items, shall be placed in an orderly fashion at the curb site.
- (c) Discarded furniture, appliances (with door(s) removed), water heaters, mattresses, bed-springs and other large objects which cannot be placed in containers shall be stored in a location not visible from the street until arrangements for special unscheduled collection by the City or other means of disposal has been made by the property owner, at which time they shall be stacked neatly at street, alley or curbside.

Source: Ordinance No. 1368-2000, 2), 22-57(1)(c), 5-2-00

(2) Collection service shall only be provided from street, alley edge or curb. Trash containers, piles of leaves, lawn clippings, pine straw or items described in Section 22-57(b), when no developed alley exists at the rear or side of the property shall be placed in front of the property, adjacent to the street or curb line but shall not, under any circumstances, be placed beyond the curb line into the traveled portion of the street. In those areas of the City with alleys and accessible to the collection vehicles, containers and trash shall be placed at the edge of the alley. Placement shall be in a manner which does not create an obstruction to pedestrian or vehicular traffic.

(3) Property owners and occupants are responsible for maintaining in a neat and orderly manner, trash containers and trash prepared and stored in accordance with the provisions of this Section until collection is made. Light material subject to being scattered by wind shall be covered, closed or otherwise suitably prepared to prevent scattering by normal winds.

(4) Trash to be picked up shall not be behind a fence or other enclosure or obstruction so that it is not accessible by pick-up crews.

ARTICLE I. IN GENERAL

Sections 23-1. Policy on Gated or Guarded Public Residential Streets.

The City Council will not indiscriminately allow public streets to be closed after business hours or otherwise. It will consider closings in circumstances where the residential street pattern design and/or conditions are conducive to providing increased security for neighborhood residents without unduly burdening the general public or restricting the provision of public services necessary for the protection of public health, safety and welfare. The City Council will, on a case-by-case basis, review requests from citizens to close certain residential streets on a limited basis or consider accepting the dedication of certain private residential streets which will allow them to be closed on a limited basis. Before allowing any closures, the Council shall find that such limited closings will protect and assist the area either by improving security, by reducing crimes, vandalism and nuisances, or by preventing injury to or destruction of or interference with public or private property, or by preserving good order and peace of the municipality, or by otherwise enhancing the public safety, health and general welfare. The City Council may approve this request following a public hearing after the Planning Commission has reviewed it and made a recommendation, and there is a finding that such closing is in the public interest. The other items to be considered by the Council are set forth in Article III, Division 3, Sections 23-48, *et seq.*, *Laurel Code*.

Section 23-2. Limited Closing of Residential Streets.

The following rules, regulations, policies and procedures shall apply to the limited closing of residential public streets or accepting the dedication of residential streets for public use to be closed at certain times. The same shall be applied taking into consideration the policy set forth in Section 23-1.

Section 23-3. Criteria.

1. Any request for limited closure of a residential street (either public or private and to be dedicated to the City) must be made by either the property owner, the developer, the homeowners' association, or any other responsible entity (herein "said Owner") that owns property fronting said residential street.
2. Said Owner must be a legal entity that is capable of satisfying the financial responsibility requirements herein stated.
3. Limited closure/closing of said street may be by mechanical/electronic gates, other mechanical/electronic devices, a guard service, or some other traffic control device (herein "said Gate").
4. All costs associated with the construction, operation and maintenance of said Gate shall be the responsibility of said Owner.
5. Only local residential streets (that is, no connecting or through streets, no collector or major streets or no local streets serving commercial, institutional, or industrial establishments) shall be considered for limited closing or shall be considered for acceptance as public streets with a limited closing.
6. Provision shall be made for unlimited access to said residential street by emergency vehicles, service vehicles, school buses, and other vehicles necessary for the public health, safety and welfare.
7. For residential areas containing space for more than one hundred (100) dwelling units the Inspection Department and/or Planning Commission may require that other conditions be met before any local residential street will be considered for limited closure.
8. Said residential streets shall always remain open to the general public for a minimum of the following hours each day: 6:00 a.m. to 7:00 p.m. (i.e., business hours).
9. Any private street and related infrastructure (including but not limited to curbs, gutters, sidewalks, storm drains, etc.) proposed to be deeded or dedicated to

public use must meet the minimum specifications of the City or be brought up to said minimum specifications at the cost of said Owner before the City will consider accepting it. Also, said Owner must propose dedicating it for public use at no cost to the City.

10. Said Owner, for himself and/or his successors in title, shall waive and release the City from any liability caused by the failure of said gates to allow immediate access to the residential area by said emergency or service vehicles.

Source: Ordinance No. 1370-2002, §23-48, 6-20-00

Section 23-4. Procedure.

1. An application by said Owner shall be addressed to the City Council and the Planning Commission and filed with the Inspection Department, which application shall request a limited closing of a residential street.
2. A filing fee of One Hundred Dollars (\$100.00) shall be paid to the Inspection Department at the time of filing. Said fee is not refundable. Said fee shall be used by the Inspection Department to defray the cost of review and reporting on the request.
3. Detailed plans of the operation of said Gate that said Owner proposed to use to close said street shall be presented to the Inspection Department (or other designated official) for review and approval. Plans for the control and operation of said Gate shall include provisions for unrestricted access to the residential neighborhood by emergency vehicles, school buses, and other vehicles necessary for protection of public health and safety.
4. Said Owner will furnish evidence of financial responsibility for the cost associated with the operation and maintenance of said gates and other costs associated herewith, such as the indemnity agreement. Evidence of financial responsibility must be in a form acceptable to the Inspection Department, such as a payment bond, continuing guaranty, etc. Said form may authorize the original applicant (who is a single owner or developer) to assign said financial responsibility to homeowners association after it is organized, upon written approval of the Inspection Department.
5. Said Owner shall sign an agreement to indemnify and hold harmless the City from any and all costs and expenses associated with defending the policy adopted herein and approving the requested closing, including reasonable attorney's fees. Said indemnity shall include the defense of the policy for said street being closed pursuant to this policy.
6. The Inspection Department shall have all appropriate department heads and City officials review the plans and other documentation submitted and advise the

Planning Commission when all criteria have been met.

7. After all criteria have been met to the satisfaction of the Inspection Department, the Planning Commission shall hold a public hearing on the criteria and the policy decisions herein stated. Thereafter, the Planning Commission shall make its recommendation to the City Council.
8. Residential streets will be considered for said limited closing only after a finding by the Planning Commission that such closing will not have a significant adverse effect on travel by the general public or impede ingress or egress to the neighborhood by emergency vehicles, services vehicles, school buses, or other vehicles necessary for the general welfare and the protection of public health and safety. Said Commission shall also make the findings that this request will further the policy specified in Section 23-1.
9. The City Council shall consider the recommendations of the Planning Commission and whether or not to grant the requested limited closing of said residential street or streets or accept a private residential street with limited closing. The Council shall have the sole authority to make the final decision on whether or not to grant said request regardless of the recommendations of the Planning Commission.

Section 23-5. Termination.

The City, upon recommendation of the Inspection Department or the Planning Commission, may terminate the right of limited closing of any local residential public street upon determination that said entranceways, gates, barriers or other devices are not maintained in good repair or are defective in their operation, or in any of the other findings previously made are no longer valid. Upon termination of said right, said Owner shall immediately remove said Gate, barriers, etc. Failure to do so will authorize the City Council to order the same removed at the cost of said Owner.

Section 23-32. Drainage Installations.

It shall be unlawful for any person to install storm sewers, to place drainage pipes under driveways or to enclose or cover any natural drainageways within the City without first obtaining a written permit. To obtain said permit, plans must be submitted to the Engineering Department. Said plans shall include the following:

- (1) All materials and construction shall conform to the State Highway Department specifications (1976 Edition or later editions thereof).
- (2) Said plans shall show the grade that the culverts of storm sewers are to be laid upon and shall show the amount of cover that will be over said storm sewers.
- (3) No utilities, such as water and sewer lines and their connections, shall be disturbed in any manner by said construction.
- (4) Said plans shall show the location and/or site on which work is to be performed.
- (5) Said plans shall show the type of pipe to be used, the size, quantity and method of construction or installation of said pipe shall also be shown.
- (6) Said plans must identify the number of acres that said pipe shall drain. Drainage structures shall be sized utilizing the rational method and shall be designed to carry the ten (10) year flood frequency.

- (7) The minimum driveway drain shall be fifteen (15) inch reinforced concrete or an approved equivalent.
- (8) No untreated corrugated metal pipe will be permitted.
- (9) The minimum size for bituminous coated-metal corrugated pipe shall be twenty-four (24) inches.

Section 23-47A. Naming or Renaming---Streets, Buildings, and any other Structures or Facilities.

- (1) All considerations and/or proposals for naming or renaming of streets, buildings and any other structures or facilities within the City of Laurel, must be submitted to the office of the City Clerk on the application request form, along with the necessary fee. The Clerk will route the application to the Laurel Planning Commission for their review, study and recommendation.
- (2) A non-refundable administrative fee in the amount of \$100.00 (one hundred dollars) will be charged on each application request, to process the review, to notify all city utility companies and government offices, and to conduct public hearings.
- (3) Except in unusual circumstances or for compelling reasons names to be considered shall be those of persons who are deceased.
- (4) Each application request form for renaming of a street, will require a petition with the printed name, address and signature of every resident and/or business on the street, showing approval or disapproval of the naming or renaming of the street. The person presenting the petition to the City Clerk shall also present an affidavit attesting to the authenticity of the signatures and that the individuals understood what was being signed. The City Clerk shall validate all signatures and addresses. A minimum of 75% (seventy-five percent) of the residents and businesses combined along said street shall give an affirmative response in order for the proposal to be considered.
- (5) The naming or renaming of a building or facility for a donor to the City of Laurel may be considered when the donor's gift(s) are at least 25% (twenty-five percent) of the total building/facility cost.
- (6) Any new name for a street cannot duplicate (either exact in spelling or phonetically similar) another street name within the City of Laurel.
- (7) The Laurel Planning Commission will review and study the application request, will conduct a public hearing and will make a recommendation to the Mayor and City Council for approval. The deadline for a recommendation to the Council shall be no later than 60 (sixty) days after introduction of application request.
- (8) Any request approved by the Laurel Planning Commission shall be brought before the City Council for final approval at the next scheduled meeting of the Council, if there is sufficient time to be placed on the agenda prior to the deadline; otherwise, it must be presented at the next schedule meeting of the Council.
- (9) An appeal to the Laurel City Council may be taken within 30 (thirty) days after an order becomes effective, by any person or persons aggrieved or by any officer, department or board of the city of Laurel affected by the decision.
- (10) If the City Council approves the proposal, the official action on such matters

outlined in the approved ordinance will go into effect after 30 (thirty) days and all city utility companies and government agencies will be officially notified of the change.

DIVISION 3. LIMITED CLOSING OF RESIDENTIAL STREETS

Section 23-48. Criteria.

- (1) Any request for limited closure of a residential street (either public or private and to be dedicated to the City) must be made by either the property owner, the developer, the homeowners' association, or any other responsible entity (herein "said Owner") that owns property fronting said residential street.
- (2) Said Owner must be a legal entity that is capable of satisfying the financial responsibility requirements herein stated.
- (3) Limited closure/closing of said street may be by mechanical/electronic gates, other mechanical/electronic devices, a guard service, or some other traffic control device (herein "said Gate").
- (4) All costs associated with the construction, operation and maintenance of said Gate shall be the responsibility of said Owner.
- (5) Only local residential streets (that is, no connecting or through streets, no collector or major streets or no local streets serving commercial, institutional, or industrial establishments) shall be considered for limited closing or shall be considered for acceptance as public streets with a limited closing.
- (6) Provision shall be made for unlimited access to said residential street by emergency vehicles, service vehicles, school buses, and other vehicles necessary for the public health, safety and welfare.
- (7) For residential areas containing space for more than 100 dwelling units the Inspection Department and/or Planning Commission may require that other conditions be met before any local residential street will be considered for limited closure.
- (8) Said residential streets shall always remain open to the general public for a minimum of the following hours each day: 6:00 A.M. to 7:00 P.M. (*i.e.*, business hours).
- (9) Any private street and related infrastructure (including but not limited to curbs, gutters, sidewalks, storm drains, etc.) proposed to be deeded or dedicated to public

use must meet the minimum specifications of the City or be brought up to said minimum specifications at the cost of said Owner before the City will consider accepting it. Also, said Owner must propose dedicating it for public use at no cost to the City.

- (10) Said Owner, for himself and/or his successors in title, shall waive and release the City from any liability caused by the failure of said gates to allow immediate access to the residential area by said emergency or service vehicles.
- (11) Said Owner, for and on behalf of his successors and assigns, by its application hereunder accepts the responsibility for the operation and maintenance of said gates at all times. Said Owner will also provide a means for all City safety and service personnel to have immediate and unlimited access to the public property located behind said gates.

Section 23-49. Procedure.

- (1) An application by said Owner shall be addressed to the City Council and the Planning Commission and filed with the Inspection Department, which application shall request a limited closing of a residential street.
- (2) A filing fee of \$100.00 shall be paid to the Inspection Department at the time of filing. Said fee is not refundable. Said fee shall be used by the Inspection Department to defray the cost of review and reporting on the request.
- (3) Detailed plans of the operation of said Gate that said Owner proposed to use to close said street shall be presented to the Inspection Department (or other designated official) for review and approval. Plans for the control and operation of said Gate shall include provisions for unrestricted access to the residential neighborhood by emergency vehicles, school buses, and other vehicles necessary for protection of public health and safety.
- (4) Said Owner will furnish evidence of financial responsibility for cost associated with the operation and maintenance of said gates and the other costs associated herewith, such as the indemnity agreements. Evidence of financial responsibility must be in a form acceptable to the Inspection Department, such as a payment bond, continuing guaranty, etc. Said form may authorize the original applicant (who is a single owner or developer) to assign said financial responsibility to homeowners' association after it is organized, upon written approval of the Inspection Department.
- (5) Said Owner shall furnish the City with a general liability insurance policy from a reputable company authorized to do business in the State of Mississippi with minimum limits of \$1,000,000. per occurrence, insuring Owner and City. Said Policy shall also waive the right of subrogation for the City's benefit.

- (6) The Inspection Department shall have all appropriate department heads and city officials review the plans and other documentation submitted and advise the Planning Commission when all criteria have been met.
- (7) After all criteria have been met to the satisfaction of the Inspection Department, the Planning Commission shall hold a public hearing on the criteria and the policy decisions herein stated. Thereafter, the Planning Commission shall make its recommendations to the City Council.
- (8) Residential streets will be considered for said limited closing only after a finding by the Planning Commission that such closing will not have a significant adverse effect on travel by the general public or impede ingress or egress to the neighborhood by emergency vehicles, service vehicles, school buses, or other vehicles necessary for the general welfare and the protection of public health and safety. Said Commission shall also make the findings that his request will further the policy specified in Section 23-1.
- (9) The City Council shall consider the recommendations of the Planning Commission and whether or not to grant the requested limited closing of said residential street or streets or accept a private residential street with limited closing. The Council shall have the sole authority to make the final decision on whether or not to grant said request regardless of the recommendations of the Planning Commission.
- (10) Each application hereunder will be considered on a case-by-case basis. The fact that one Owner has been granted approval to operate gates that will provide limited closing of public streets in one subdivision will have no bearing on whether another Owner's application hereunder for another subdivision will be approved.

Said applicant or proxy will also be required to attend a site plan meeting with representatives of the Inspection Department, Public Works, Engineering Department and Water and Sewer Department.

SECTION 23-62 Definitions.

The following words and phrases, whenever used in Article IV, shall have the meanings ascribed to them in this Section, except where the context clearly indicates a different meaning:

- A. “Applicant” means any owner, contractor, developer, or builder who has submitted an application for a permit to excavate or perform work or construction on, within, or under any street, alley, or public right-of-way.
- B. “City” shall mean the City of Laurel, Mississippi.
- C. “City Engineer” means the person designated by the Mayor.

- D. "Director of Public Works" means the Director of the Public Works Department, or other person designated by the Mayor or the Director of Public Works.
- E. "Emergency" shall mean the repair of a utility which must be made to restore service, to avoid property damage, or to eliminate danger to the public. An application shall be made for a permit for all emergency cuts, digging, or excavations within 2 business days after the cuts, digging, or excavations have been made. However, a prospective applicant shall give verbal notice immediately to the Public Works Director or his or her designee upon determination that "emergency" work or construction is needed and prior to commencing this work. All other provisions of this Ordinance shall apply to "emergency" cuts, digging, or excavations.
- F. "Excavation" shall mean any opening in the paved or improved surface or subsurface of the public right-of-way.
- G. "Excavation Influence Area" means the mandatory minimum areas for resurfacing an excavation.
- H. "Installations" means any legally authorized type of structure, plant, equipment, or other property installed in the public rights-of-way.
- I. "Notice" means a written notification which is deemed to have been received on the date on which it was faxed or three days after the date on which it was mailed via First Class United States Mail, postage pre-paid.
- J. "Owner" means the company or business authorized to construct, repair, or adjust a utility or to perform the work or construction referred to in the application or permit.
- K. "Pavement" means the fully improved roadway surface of the Public Rights-of-Way, designed and constructed to support the movement of vehicular traffic. Pavement typically consists of asphaltic concrete or cement concrete and it includes any sub-grade installations.
- L. "Person" means any natural person, corporation, partnership, or any governmental agency, department, or subdivision of the City, County, or the State of Mississippi, or United States of America.
- M. "Permit" means a permit to perform an excavation, trenching, boring or cutting across a street or within a right-of-way as it has been approved or may be amended or renewed by the Public Works Director or City Engineer or his or her designee.
- N. "Permit Application" means the prescribed "Permit Application for the Construction, Repair, or Adjustment of a Utility or for Work Within, On, or Under City Rights-of-Way" or such other application as approved by the Public Works Director or City Engineer.

- O. "Pothole" means a limited excavation used to determine the actual vertical and horizontal location of underground installations.
- P. "Public Rights-of-Way" or "rights-of-way" means the paved area across, along, beneath, in, on, over, under, upon, and within the City streets, as they now exist or hereafter will exist and which are or will be under the permitting jurisdiction of the Department of Urban Development and Department of Engineering.
- Q. "Resurface" or "Resurfacing" means any or all of the following as directed by the Director of Public Works or City Engineer or their authorized representative(s):
- 1) Any removal and replacement necessary for sub-base repairs using either cement concrete, or full depth base asphaltic concrete.
 - 2) Cold planning/milling the gutter-line, and making horizontal header cuts to a minimum depth of one-inch, for a minimum of six (6) feet in width, or if required by the City Engineer, cold planning/milling of the entire street width.
 - 3) Replacement of any damaged traffic signal detection loops.
 - 4) Placement of Pavement reinforcing fabrics, if required by the City Engineer.
 - 5) The placement of hot mix asphaltic concrete upon the existing roadbed, in varying thicknesses as directed by the City Engineer.
 - 6) The adjustment of any affected City manholes and gate valve covers.
 - 7) The permanent layout and installation of pavement markings.
- R. "Street" shall mean any public highway, road, street, avenue, alley, lane, drive way, easement, place, court, or trail, which has been accepted, or is hereafter accepted, by the City of Laurel, Mississippi into the City road system or in which the City has easement or ownership interests.
- S. "Trenchless Technology" means methods, material, equipment and techniques that can be used to install, replace, renew or repair underground infrastructure with minimal surface disturbance. Trenchless Technology includes drilling, auguring, boring and tunneling.
- T. "Unimproved Rights-of-Way" means City rights-of-way that do not have pavement and do not have a sidewalk, curb or gutters.

SECTION 23-63 Fees

Permit Fee

A Permit Fee of \$100 shall be paid to the Inspection Department at the time of the application.

Work within a recently paved roadway

When an applicant desires to conduct permitted activity within any roadway that has been constructed, reconstructed, resurfaced, or overlaid within the three (3) years immediately preceding the issuance of a right-of-way permit, then the applicant shall pay, in addition to all other permit fees, an additional fee as follows:

1. The additional fee for work within any such roadway within the first year after resurfacing or construction shall be two thousand five hundred dollars (\$2,500.00).
2. The additional fee for work within any such roadway in the second year after resurfacing or construction shall be one thousand dollars (\$1,000.00).
3. The additional fee for work within any such roadway in the third year after resurfacing or construction shall be five hundred dollars (\$500.00).

The additional fees set in this paragraph shall be in addition to, and not in lieu of, any other fees or licenses required.

SECTION 23-64 Installation Requirements

Applicant is responsible for installation, maintenance, operation and ownership of permitted facilities. No trees or shrubs on the City's right-of-way will be cut, trimmed or damaged during the construction or maintenance of this work or facility, except as expressly shown on approved plans or unless approved by the Public Works Director in unforeseen circumstances.

The applicant must maintain 3-foot minimum cover over all piping. All handheld boxes shall be set level and flush with surrounding surface or ground so as not to create a tripping hazard, create ponding or inhibit water runoff.

The applicant is responsible for any conflicts with city-owned utilities and must maintain a minimum 10-foot horizontal and 18-inch vertical separation buffer from all sanitary sewer and storm drainage structures. Applicant must maintain a minimum 5-foot horizontal and 18-inch vertical separation buffer from all city-owned water lines and appurtenances, fiber optic, power lines or any other city owned infrastructure. The issuance of this permit in no way constitutes a confirmation from the City of Laurel that utilities and said rights-of-way indicated on documents submitted with this application are true, complete and correct.

The applicant is responsible for any conflicts with other utilities on the city right-of-way and is to secure permission from said utilities for conflicts and/or necessary alterations.

The applicant is responsible for complete repair of any damage that occurs to the city owned infrastructure as a result of the permitted work.

The applicant accepts the responsibility of the safety of the traveling public and his/her workers and agrees to furnish, place and maintain traffic control devices, if required, in accordance with Part 6 of the Manual On Uniform Traffic Control Devices for Highways and Streets (MUTCD), Current Edition at a minimum. The applicant shall submit a special traffic control plan if special traffic control details or detours are warranted.

Applicant shall comply with all state, local, Mississippi Department of Health and Mississippi Department of Environmental Quality regulations including but not limited to the Field Manual for Erosion and Sediment Control. The applicant is responsible for all notifications to Mississippi One Call.

SECTION 23-65 Inspection.

Inspection during construction

Permittee shall make the work site available to the City Engineer/ Public Works Director or his authorized representative and to all others as authorized by law for inspection at all reasonable times during the execution and upon completion of the work. At the time of inspection, the City Engineer/ Public Works Director or his authorized representative may order the immediate cessation of any work which poses a serious threat to the life, health, safety or well-being of the public. The City Engineer/ Public Works Director or his authorized representative may issue a notice of violation to the permittee for any work which does not conform to the applicable standards, conditions or codes. The order shall state that failure to correct the violation will be cause for issuance of a municipal offense ticket and/or stop work order. Within the time frame indicated on the notice after issuance of the order, the applicant shall present proof to the city engineer that the violation has been corrected. If such proof has not been presented within the required time, the City Engineer/ Public Works Director may issue a stop work order and/or issue municipal offense tickets.

A permittee shall perform all work in conformance with all applicable codes and established rules and regulations and is responsible for all work done in the right-of-way pursuant to its permit, regardless of who performs the work. Except in the case of an emergency, and with the approval of the City Engineer or Public Works Director or his or her designee, no right-of-way obstruction or excavation may be performed when seasonally prohibited or when conditions are unreasonable for such work.

Final Inspection

When the work under any permit hereunder is completed, the permittee shall notify the City Engineer/ Public Works Director. A final inspection shall be held to determine if all City rights-of-way have been restored in accordance with applicable City of Laurel ordinances and the Mississippi Department of Transportation Standard Specifications for Road and Bridge Construction (2017 Edition) and Mississippi Department of Transportation Standard Drawings.

Failure to restore the permitted area may result in the inability to apply for subsequent permits.

SECTION 23-66. Enforcement of Permit Obligation.

Denial of permit

1. *Mandatory denial.* Except in the case of an emergency, no right-of-way permit will be granted:
 - a. To any person who has failed to comply with the requirements of this article;

- b. To any person who is delinquent in paying a debt owed to the city; and
 - c. If, in the discretion of the City Engineer/ Public Works Director, the issuance of a permit for the particular date and/or time would cause a conflict or interfere with an exhibition, celebration, festival, or any other event. The city engineer, in exercising this discretion, shall be guided by the safety and convenience of ordinary travel of the public over the right-of-way, and by considerations relating to the public health, safety and welfare.
2. *Permissive denial.* The City Engineer/ Public Works Director may deny a permit in order to protect the public health, safety and welfare, to prevent interference with the safety and convenience of ordinary travel over the right-of-way, or when necessary to protect the right-of-way and its users. The City Engineer/ Public Works Director may consider one (1) or more of the following factors:
- a. The extent to which right-of-way space where the permit is sought is available;
 - b. The competing demands for the particular space in the right-of-way;
 - c. The availability of other locations in the right-of-way or in other right-of-way for the facilities of the particular company;
 - d. The applicability of ordinances or other regulations of the right-of-way that affect location of facilities in the right-of-way;
 - e. The degree of compliance of the applicant with the terms and conditions of its franchise, this article, and other applicable ordinances and regulations; the degree of disruption to surrounding neighborhoods and businesses that will result from the use of that part of the right-of-way; and
 - f. The condition and age of the right-of-way, and whether and when it is scheduled for total or partial construction; and the balancing of the costs of disruption to the public and damage to the right-of-way, against the benefits to that part of the public served by the expansion into additional parts of the right-of-way.
 - g. Planned future construction/expansion projects that directly conflict with the requested permit.

Work done without a permit

1. *Emergency situations.* Each permittee shall immediately notify the City Engineer/ Public Works Director (by telephone or in person) of any event regarding its facilities which it considers to be an emergency. The applicant may proceed to take whatever actions are necessary in order to respond to the emergency. Within two (2) business days after the occurrence of the emergency, the applicant shall apply for the necessary permits, pay the fees associated therewith and fulfill the rest of the requirements necessary to bring itself into compliance with this article for the actions it took in response to the emergency.
2. In the event that the City Engineer/ Public Works Director becomes aware of an emergency regarding an applicant's facilities, the department shall attempt to contact the local representative of each applicant affected, if known, or potentially affected, by the emergency, who must comply with subsection (b)(1) of this section. In any event, the department may take whatever action deemed necessary in order to respond to the emergency.

3. *Non-emergency situations.* Except in the case of an emergency, any person who obstructs or excavates a right-of-way without a permit must:
 - a. Subsequently obtain a permit,
 - b. Pay three (3) times the normal fee for said permit,
 - c. Pay three times all the other fees required by the Code,
 - d. Deposit with the department any amount necessary to correct any damage to the right-of-way,
 - e. Comply with all of the requirements of this article. In addition, thereto, any such person shall also be subject to the issuance of a notice of violation and/or a municipal offense ticket.

Enforcement

1. Permittees hold permits issued pursuant to this article as a privilege and not as a right.
2. If the City Engineer/ Public Work Director determines that the permittee has violated a material term or condition of any statute, ordinance, rule, regulation or any condition of the permit, the Public Works Director or his designee shall issue a notice of violation to the permittee to remedy such violation. The demand shall state that continued violations may be cause for the issuance of a stop work order and issuance of a municipal offense ticket. Further, a substantial breach, as stated above, will allow the City Engineer/ Public Works Director, at his or her discretion, to place additional or revised conditions on the permit. Failure to comply with all provisions of this ordinance may result in the inability to apply for subsequent permits.

SECTION 23-67 Resurfacing and Restoration.

Resurfacing

Resurfacing shall include, but is not limited to:

- A. The length of the pavement restoration shall be measured perpendicular to traffic and shall be not less than 20 feet. The width of the restoration shall be equal to the influence area but not less than one full travel lane width measured from the edge of asphalt or curb-line. Should the influence area extend into multiple lanes of traffic, the entire widths of the roadway shall be restored from edge of pavement to edge of pavement.
- B. The thickness of asphalt pavement shall match the thickness of the existing asphalt pavement. Installation shall be performed in accordance with the MDOT Standard Specification for Road and Bridge Construction.
- C. Asphalt Mix Design shall be an approved MDOT mix design.
- D. Any pavement striping that is disturbed shall be replaced with like-kind materials, color and markings.
- E. Any traffic signal wiring or appurtenances disturbed shall be replaced.
- F. Infrared systems can be used under these circumstances only:
 1. heating the asphalt to a working temperature of 300 degrees, penetrating the asphalt to a depth of 2" to 4". After removing deteriorated asphalt and raking in new asphalt to a height of 1/8 to 1/4", the area is compacted with a vibratory roller, or compactor.

Restoration

In addition to any required resurfacing, any areas affected by work or construction shall be restored within three (3) days of completion of work or construction on the property or areas affected thereby so that each such property or area shall, to the best extent possible, be placed in the same or better condition it was in prior to the commencement of work or construction. Such restoration shall include, but not be limited to, the replacement of all markings and/or striping per the current Manual on Uniform Traffic Control Devices and City construction standards and the re-sodding of like or higher quality turf or replacement of similar vegetation that was adversely affected or damaged by the work as well as the replacement or restoration of any and all sidewalks, driveways, shoulders, curbs, curb cuts, manholes, and any other improvements. Replacement of improvements necessitated by work authorized by a permit shall be made in accordance with prevailing and governing industry standards, codes, regulations, and laws at the time of the replacement. If a sidewalk, curb, and/or gutter were damaged by the permittee, the permittee shall be responsible for all costs associated with its replacement.

Sidewalks, curb, and gutter shall be saw cut three inches (3") prior to replacement to provide a clean edge. Restoration of grassy areas that were, in the opinion of the City Public Works Director or Engineer, not generally maintained prior to commencement of work authorized under a permit, may include re-seeding of grass in lieu of re-sodding of turf. All such restoration efforts shall be inspected by the City Public Work Director or Engineer or his or her designee. By restoring the rights-of-way and areas affected by construction or work permitted hereunder, the permittee guarantees its work for twenty-four (24) months following its completion and acceptance by the City Public Works Director or Engineer or his or her designee. During this twenty-four (24) month period, the permittee shall, upon notification from the City Engineer or his or her designee, correct all restoration work to the extent necessary using the method required by the City of Laurel and such work shall be completed within the time specified by the City Public Works Director or his or her designee.

SECTION 23-68 As-Builts

Within 30 days of final inspection, permittee shall provide to the City Engineer/Public Works Director a CAD (DXF, DWG or DGN) or GIS (SHP or SHX) file of the AS-BUILT plans showing all work performed with respect to the centerline of the roadway, edge of pavement, right-of-way, components of work and materials used, and locations, dimensions and depths of existing, encountered and conflicting utilities.

SECTION 23-69 Posting of Permits

At all times while work or construction is in progress, the permittee shall keep and publicly post the original permit or a copy thereof at or near the work or construction site and shall, on demand, exhibit the permit to the Public Works Director or his designee.

SECTION 23-70 Violations and Penalties

Any person violating any of the provisions of this Article shall be guilty of a misdemeanor. Each person shall be deemed guilty of a separate offense for each and every day

or portion thereof during which any violation of any of the provisions of this Article is committed or permitted. Upon conviction of any such violation, such person shall be punished by a fine of not more than one thousand dollars (\$1,000.00) for each violation.

No person who has violated any provision of this Article shall be issued another permit hereunder, nor shall any contractor or agent apply for or be issued such a permit on such person's behalf, until the outstanding violation is corrected or a plan for correction is approved by the Director of Public Works and the City Engineer, or their authorized representative(s), which approval shall not be unreasonably withheld. The foregoing requirement or penalty is in addition to any penalty or remedy for violation that may be imposed or sought by the City at law or equity.

Section 24-11. Public Tree Care.

The City shall have the right, but not the responsibility to plant, prune, maintain and remove trees, plants and shrubs within the lines of all streets, alleys, avenues, lanes, squares and public grounds, as may be necessary to insure public safety or to preserve or enhance the symmetry and beauty of such public grounds.

The City Tree Board may, but is not obligated to, remove or order to be removed, any tree or part thereof which is in an unsafe condition or which by reason of its nature is injurious to sewer, electric power lines, gas lines, water lines, or other public improvements, or is affected with any injurious fungus, insect or other pest. Nothing herein shall obligate said Board or the City to search for and locate said unsafe trees and it shall have no liability for any act or failure to act thereon.

This Section does not prohibit the planting of *Street Trees* by adjacent property owners providing that the selection and location of said trees is in accordance with this Ordinance.

Section 24-13. Pruning, Corner Clearance.

Every owner of any tree overhanging any street or right-of-way within the City shall prune the branches so that such branches shall not obstruct the light from any street lamp or obstruct the view of any street intersection and so that there shall be a clear space of eight feet (8') above the surface of the street or sidewalk. Said owner shall remove all dead, diseased or dangerous trees, or broken or decayed limbs which constitute a menace to the safety of the public. The City shall have the right to prune any tree or shrub on private property when it interferes with the proper spread of light along the street from a street light or interferes with visibility of any traffic control device or sign.

Source: Ordinance No. 1253-1995, § 13, 1-17-95

Section 24-14. Dead or Diseased Tree Removal on Private Property.

The City shall have the right to cause the removal of any dead or diseased trees on private property within the City, when such trees constitute a hazard to life and property, or harbor insects or disease which constitutes a potential threat to other trees within the City. The City Horticulturist, or other City employee working with the City Tree Board, will request in writing to the owners of such trees that they remove them, with a copy to be maintained in the records of the City Tree Board and with a copy to be sent to the City Council. Said notice shall identify the tree or trees to be removed. After ten (10) working days, if the owner fails to comply with said request, an employee of the City may issue a Municipal Offense Ticket to said owners for failure to remove said trees which will require them to appear and respond to the Environmental Court for the City of Laurel. The City has no responsibility or obligation to act concerning trees on private property and has no liability for failure to act concerning trees on private property.

Section 24-19. Penalty.

Any person violating any provision of this Ordinance may be charged with a violation by the City before the Environmental Court. Upon conviction or a plea of guilty, said Court shall have broad discretion in fashioning a remedy against the guilty party. Where a City tree has been destroyed by the guilty party, the Court may either require that party to reimburse the City the value of the tree or trees destroyed or be subject to a fine not to exceed Two Hundred Fifty Dollars (\$250.00) or in the discretion of the Court, both. In the event of violation of § 24-14, the Court may order the City to remove the tree from the property of the guilty party at the cost of the guilty party or be subject to a fine, or, in the discretion of the Court, both.

ARTICLE II. CONNECTIONS

Section 25-36. Unauthorized Water Use

The water supplied by the City is for the exclusive use of the subscriber. Any person using City water in any manner from any source not on his own premises, or to which he/she does not subscribe, shall be considered a customer and a water fee shall be collected from said person the same as if he/she were regularly connected with the City water system. The owner or person in control of any premises who shall permit, or in any manner acquiesce in any other person's using water from his premises, unless by permission of the City, shall be liable for the water rent incurred by said person, and the same may be collected from either party, provided the said or person in control of said premises had knowledge, or could in any manner have had knowledge that said water was so taken from his premises. If said water rent is not paid by either party on demand, or within five (5) days thereafter, the City may cut-off the water from said premises until said rent is paid.

ARTICLE III. PRIVATE WATER WELLS

Section 25-40. Private Water Wells Defined

Any well drilled or operated within the city for private use shall not be connected in an unauthorized manner with the city water and sewer system.

Section 25-41. Established Rules and Regulations

Any private well within the city shall conform to the requirements of §§51-3-1 through 51-3-55 and §§51-5-1 through 51-5-9 of the Mississippi Code Annotated, 1972 and all State, Federal and Local regulations including those administered by the Mississippi Department of Environmental Quality and the Mississippi State Board of Health. Only licensed drillers are allowed to drill a well within the corporate limits of the City of Laurel, Mississippi. Every well shall have an approved backflow prevention device that complies with Mississippi Department of Environmental Quality and Mississippi State Board of Health regulations connected between the well and the distribution piping. This backflow device shall be installed to protect any backflow into the well.

Section 25-42. Letter of Submission

Each private well owner and/or operator within the city shall submit a letter to the City of Laurel Inspection Department stating the size, location and age of their well. Every well will be subject to initial and subsequent inspections to ensure that the well is not attached to or connected with the city water or sewer system.

Section 25-43. Responsibility of Private Well Operator

The owner and/or operator of any private well in the city shall be responsible for complying with any and all applicable health codes and regulations and with all applicable statutes of the State of Mississippi and with all applicable ordinances of the City of Laurel.

Section 25-44. Permit Application and Fee

Prior to beginning construction of a new well, the owner and/or operator shall file a permit application with the City of Laurel Inspection Department or other designated City Departments as directed by the City Administration. The City of Laurel will charge a permit fee for any well(s) drilled within the corporate limits of the City of Laurel, Mississippi or its designated water franchise. Those fees are as follows:

4” and below	\$ 500.00/well
Any well greater than 4”	\$ 1,500.00/well

Section 25-45. Requirements.

Any owner and/or operator of a private well that requests discharge of water from the well into the City of Laurel Sewer System shall have a water meter, approved by the City Water Department, and the owner and/or operator will be charged for the sewer at the existing rates as established by the City Council in the Sewer User Ordinance.

Section 25-46. Violation

It shall be unlawful for any person to fail in any way to conform with the provisions of this article, and any such person violating any of the terms of this article in any respect shall be guilty of a misdemeanor and may be punished by a fine of not more than one thousand dollars (\$1,000.00) and/or imprisonment up to thirty (30) days. The continued operation of said well from and after the date of notice of violation being issued to the owner shall be considered a separate violation for each day of operation thereafter and subjecting the violator to a fine not to exceed two hundred fifty dollars (\$250.00) per day for continued operation. Further, the failure of the owner to comply with the ordinance shall result in the City reporting the violation to the appropriate state agency and the commencement of the necessary actions to have said well shut down.

ARTICLE IV. RATES AND CHARGES*

Section 25-51. Meters

* **Cross Reference** --- Power of City to set water rates, Miss. Code 1972, §21-27-7

All water furnished by the City shall be metered. When a meter is not functioning properly, then the City may bill an average of the three (3) monthly water charges prior to the meter malfunctioning. The City shall repair the meter within six (6) months of notice of its malfunctioning, but this requirement does not affect the right of the City to continue billing on the average method. Bills therefore, shall be rendered monthly and shall be due and payable within ten (10) days of billing. After thirty (30) days a late fee of three percent (3%) of the total bill will be added to the customer's bill.

Section 25-52. Policy

It shall be the normal policy of the Water Collection activity to collect all water-sewer-garbage accounts on a monthly basis. Priorities on collections will be directed toward those accounts that have the largest dollar amount, the longest delinquency period, and the ones which have a history of poor credit.

The following procedures will apply to all customer accounts. Exceptions to these rules can only be made by Council action.

A. Obtaining and Maintaining Service

- (1) Water and sewer services may be obtained after all deposits and fees have been paid and proof of residency provided

Source: Ordinance No. 1613-2014, 6-18-2014.

Water Service Deposit:

Customers will be required to deposit with the City of Laurel a deposit of One Hundred Dollars (\$100.00) for residences. Commercial and industrial users will be charged a deposit of One Hundred and Fifty Dollars (\$150.00) and can be required to make a deposit equal to two (2) months estimated consumption; and may be required to provide a surety bond or request special consideration from the City Council. These deposits will be retained by the City of Laurel until service is disconnected. At that time the deposit will be applied to any outstanding balance on the account. Any balance remaining in the account will be refunded to the customer.

Landlord/Realtor Policy

a. Temporary Water Service Deposit

Landlords and Realtors within the City of Laurel may apply for a temporary five (5) day permit which allows them to turn on the water, sewer, and garbage pickup for a specific residence within the City of Laurel. The cost of this permit is one-month's

minimum bill, whatever amount is applicable in the Laurel Code of Ordinances on the beginning date of the five (5) day permit.

b. Notification of Rental of Premises.

The owner of any premises connected with the City water mains shall, upon renting or delivering the use of such premises to another, immediately give notice in writing of such rental or delivery of use of said premises, to the Water Department.

Source: Code 1969, § 44-40

c. Disconnection---Removal of Tenant.

The owner of any premises connected with the City water mains shall, upon the removal of a tenant from the premises, immediately give notice in writing to the Water Department to cut-off the water connection with the City water mains, and upon receipt of such notice the Water Department shall immediately cut- off the water from said premises.

Source: Code 1969, § 44-39

d. Failure of Owner to Give Notice.

The failure of an owner of premises to give the notices in writing, as required in this article, shall make the owner of such premises liable for water rental for such period as such owner fails to give such notice, and water shall not be used by any person on said premises until payment shall be made for such period.

Apartments, Multi-Family Units, and Mobile Home Parks/Subdivisions

- a. All owners of apartment buildings/complexes, multi-dwelling units or mobile home parks/subdivisions within the City of Laurel must complete and submit an informational form to be provided by the City of Laurel Water Department within seven (7) business days of receiving the same.
 - a1. At a minimum, the owner or other representative will be required to furnish the name of the complex, property or mobile home park; address of the same, the owner's name, mailing address and daytime telephone number, the property manager's name, mailing address, daytime telephone number if different than the owner, the total number of rental units available (occupied and unoccupied).
 - a2. If the owner or other representative fails to submit this form

then the City of Laurel shall have the right to disconnect water service at the address of the apartment building/complex, multi-dwelling unit or mobile home park/subdivision upon ten (10) days written notice thereof. All reinstatement fees will apply.

- a3. All owners shall inform the Water Department of the City of Laurel as to the number of units on the existing water meter. Each unit will be charged at the minimum rate whether they are presently occupied or unoccupied

- b. Water service and sewer service for multiple family units, duplexes, triplexes, etc. must be turned on in the manager or owner's name if only one (1) meter is installed. However, the minimum charge for water and sewer for such units will be based on the number of units.
- c. Apartments are required to pay the minimum water and sewer fee for each apartment unit or space (hereinafter "unit"). Each unit is entitled to three thousand (3,000) gallons for each minimum charge; the owner will begin paying excess charges for water and sewer after three thousand (3,000) gallons per unit has been reached.
- d. In the event the owners of any property described as Apartment Buildings, Apartment Houses, Apartment Complexes, Duplexes, Trailer Parks, Trailer Facilities and other Multi-family Dwelling desires a separate water meter or meters installed on his premises for individual units, the City upon sixty (60) days' notice will furnish and install the same at the site of the existing meter or meters after all applicable fees are paid. It shall be the responsibility of the owner to install at his expense all additional water pipes or lines leading to individual units from the main water pipe or line presently located on the property and the owner will be responsible to the City for any and all damage to City property incurred during the installation of such water pipes or line.

Transfer Fee:

Customers are required to pay a transfer fee of Thirty-five Dollars (\$35.00) when moving from one location to another. It must be determined before transferring service that the customer has a deposit with the City of Laurel. The transfer fee is not refundable. If no deposit is recorded for the current address, a deposit will be charged and no new service established until the current balance is paid in full.

Tap Fees:

The fees for the various sizes are listed below:

<u>Water Tap Size</u>	<u>Water Tap Fee</u>
5/8 --- 3/4"	\$ 430.00
1"	\$560.00
2"*	
4"*	
6"*	
8"*	
10"*	
12"*	

* Water taps larger than a 1 inch will be priced at the time the tap is requested

** Water tap sizes 2" and up, the customer must also pay for the meter, installation cost and saddles.

For a 5/8" water tap the anti-backflow cost will be Twenty-five Dollars (\$25.00).

1" and 2" anti-backflow cost will be Seventy-five Dollars (\$75.00).

Water meters and anti-backflow are taxed at seven percent (7%).

For a tap in excess of 2", an anti-backflow charge will be added in an amount to cover costs.

B. *Water Bill Collections*

In order to avoid interruption of service, accounts must be kept current. All accounts which have not been paid within ten days of due date will be charged a late fee of three percent (3%) of balance.

- (1) Should a bill reflect a previous balance, payment of the past due balance is due immediately upon receipt of the monthly bill. Failure to pay the past due balance may result in interruption of service. Failure to receive a bill does not release customer from obligation to pay. **NO SEPARATE NOTICE OF IMPENDING DISCONNECTION WILL BE SENT** to the customer prior to interruption of service. If payment of account scheduled for cut-off is not paid by 4:00pm on the day prior to cut-off, a service fee of thirty-two dollars (\$32.00) will be added to the balance.
- (2) Customers with previous balances may be given special consideration for

extension of payment in only two ways

- a. Special arrangements may be made under conditions and terms enumerated in Sub-Section C. *Water Customer Service Manager and Administration Duties and Roles* found in Article IV. *Rates and Charges*, Section 25-52, *Policy*, of this Chapter.
- b. Customers on a low fixed income consisting of one check per month may be granted a grace period consisting of the number of days between receipt of water bill and date on which said check is received each month. In order to qualify for this exception, the customer must verify that he/she receives only one check per month, must disclose the amount of the check, and document the date upon which the check is received each month.

- c. Customers that receive a large bill due to a leak on his/her water line can request an adjustment in the charges. Only one (1) leak adjustment will be allowed per customer in any twelve (12) month period. To receive an adjustment in charges the customer shall provide proof that his /her leak was repaired. Proof would include a copy of bill from a licensed plumber along with proof of payment. If the repair was made by the customer, a written statement along with copies of receipts for any material used in the repair will be considered proof. If the customer provides the required proof of repairs, the billing department is authorized to adjust his/her account to the average of the last three (3) months after the leak is fixed (the account will be monitored for three (3) months to insure the leak was fixed before the adjustment will be made). However, the monthly bill cannot be adjusted below the minimum water usage set forth by the City Ordinance of three thousand (3000) gallons. The adjustment also can be retroactive for more than two (2) months.

- (4) If the check for the payment of water, sewer and garbage is not honored upon the first presentation to the bank, a Non-Sufficient Fund (NSF) fee in the amount of \$40.00 will be charged to the customer. If a second presentation is made and the check is not honored, the customer's water service will be disconnected and a second NSF Fee in the amount of \$50.00 will be charged. The City may require cash or money order payment only from any customer with a history of NSF. All re-instatements will require the payment of the current balance including any fees charged. No partial payments will be accepted once the water has been turned off.

C. Customer Service Manager and Administration Duties and Roles

- (1) The Chief Administrator and Customer Service Manager are authorized to work with any customer and make any agreement necessary to bring the account up to date with the objective of maintaining the highest possible collection percentage. Any adjustment to a customer's account exceeding One Hundred Dollars (\$100.00) (this does not include billing corrections due to a billing error which are the responsibility of the Billing Department) will require two (2) of the above mentioned signatures. No adjustments exceeding Three Hundred Dollars (\$300.00) per year per customer will be allowed. The Chief Administrator or Customer Service Manager is authorized to deviate from this policy where it has been determined and demonstrated that an error has been made or that extraordinary circumstances and sound judgment dictate that an adjustment is needed. Adjustments cannot be made purely for political reasons or because an elected official has requested an adjustment to a particular customer's account. All adjustments will be documented and such documentation will be open for inspection. The term "adjustments", as used herein, shall not constitute a forgiveness or monies due to the City.
- (2) The Mayor and Chief Administrator are authorized to allow a customer to enter into a binding contract to collect arrears. The criteria for this contract is

as follows:

- a. Customer must pay the current amount in full each month. Failure to keep all current charges paid negates the contract and the City will demand all charges paid to continue water service.
- b. A MINIMUM of ten percent (10%) of arrears must be paid before the contract is agreed to.
- c. The arrears balance must be paid within six (6) months for all balances less than One Thousand Dollars (\$1,000.00). Only the Mayor or City Administrator can extend this payment for more than six (6) months. Any balance greater than One Thousand Dollars (\$1,000.00) must be paid within twelve (12) months. Only the City Administrator or Mayor can extend this payment for more than twelve (12) months.

D. City Council Responsibility

The Council members may report discrepancies, problems, and citizen complaints and make recommendations for relief. But, they have no authority, individually, to direct an adjustment to accounts. They can, as a whole, elect to deviate from this policy as an official Council action only.

E. Violations

Water will be disconnected and customers will be assessed additional charges under the following conditions.

- (1) If a water meter is intentionally defaced, destroyed, or in any manner altered or tampered with, the customer will be charged a minimum of One Hundred Dollars (\$100.00) for unreported water consumption plus the cost of repairs, including labor and materials. Materials include the cost of the meter and any devices attached to aid in the reading of the meter.
- (2) Water service will be disconnected immediately if meter reader staff find “jumpers” installed to either connect to the City water system or to by-pass the water meter. (“Jumpers” are defined as any method of pipes, tubes, device or devices used to connect to the City’s water system or to by-pass a meter.) The customer’s deposit will be taken for unrecorded consumption. Reinstatement will require a new deposit of One Hundred Dollars (\$100.00) and reinstatement fee and full payment of account. If no deposit has been made, proof of length of residence is required. (Any employee or employees found making, providing or installing “jumpers” will be terminated immediately and will be subject to prosecution. *See Civil Service Rule 15(c) and Rules and regulations (2)(f).) This will also apply to Contract employees.

- (3) Fees will be assessed against residential or business customers who illegally tap fire hydrants. For the first offense, the responsible person or customer will be charged a fee of Five Hundred Dollars (\$500.00). For the second and subsequent offenses, the fee will be One Thousand Dollars (\$1,000.00) for each occurrence.
- (4) Water service may be disconnected if the meter reader or service personnel identify a major leak, technical or mechanical problem that requires immediate attention. Water will be reinstated as soon as the problem has been corrected.
- (5) Special cases: fire, acts of God and other unpredictable situations, will be reviewed on a case-by-case basis.
- (6) Tampering with water meters or locks, use of jumpers or any unauthorized use of City water without proper authorization is a misdemeanor punishable by a maximum fine of Five Hundred Dollars (\$500.00) or thirty (30) days in jail or both.

F. Miscellaneous Policy Procedures

- (1) Sewer fees cannot be adjusted in the following cases:
 - a. Solely because water is consumed for product or cleanup process.
 - b. Where water is used and cannot be returned to sewer system, *i.e.*, watering lawns, unless a second meter is installed exclusively for irrigation only. Installation of a second meter will require a second tap fee, cost of the meter, cost of the riser, cost of the meter box, and Curb Stops and couplings.
 - c. Construction: Meters requested for construction will be issued after a deposit is collected. This deposit will be the cost of the meter plus 10%. Upon return of the meter all water use will be deducted from the deposit and the balance will be refunded.

- (2). Consumption used for filling swimming pools will NOT be charged sewer fees.

- (3). Taxation:
Sales of potable water will be taxed to all commercial and industrial accounts serviced by the City of Laurel, Mississippi. Sales to all apartments and trailer parks with one meter shall be charged and taxed as a commercial account.
Residential, noncommercial or non-agricultural use and “service related thereto” are exempt from this taxation.

Section 25-53. Water Rate Schedule.

- A. The Finance Director shall review, not less often than every two (2) years, the water charges and make a comparison of the payment and collection of said charges to the total cost of operation and maintenance (including replacement) of the water works, and total other costs, related to and included in, the water charge system. The Finance Director shall submit for final approval by the City Council his/her recommendation of rates for water and sewer to ensure that sufficient revenue from said charges is generated to pay the total operation and maintenance costs necessary for the proper operation and maintenance (including replacement) of the Revolving Fund Loans. Any increase put in place shall be based on the following United States Department of Labor-Bureau of Labor Statistics, Labor Cost Component, Chemical Cost Component, and Non-Labor Costs Component.

CHAPTER 26

CROSS CONNECTION CONTROL PROGRAM*

Section 26-1. Definitions.

- (1) **Potable Water.** Water that is fit for human consumption.
- (2) **Non-Potable Water.** Water not fit for human consumption or of questionable quality.
- (3) **Cross Connection.** Any arrangement of piping where a potable water line is connected to non-potable water; it may be a pipe-to-pipe connection where potable and non-potable water lines are directly connected, or a pipe-to-water connection where the potable water outlet is submerged in non-potable water. If the potable and non-potable source are separated by gate valves, check valves or devices other than the appropriate backflow preventer as outlined by this Ordinance, a cross connection exists. By-pass arrangements, jumper connections, swivel or change over assemblies, or other temporary or permanent assemblies through which, or because of which, backflow may occur are considered to be cross connections.
- (4) **Backflow.** The reversal of normal flow direction where water flows from the intended point of delivery towards the supply.
- (5) **Backflow Preventer.** A mechanical assembly that prevents backflow. The assembly includes the shut-off valves, test cocks and backflow device.
- (6) **Back Pressure Backflow.** Backflow caused by a lower pressure in the potable supply than at the point of delivery.
- (7) **Back Siphonage Backflow.** Backflow caused by a negative pressure in the potable supply line.
- (8) **Health Hazard, (High Hazard).** Contamination with the potential to endanger the health and well-being of the consumer.
- (9) **Non-Health Hazard, (Low Hazard).** Contamination that will not endanger the health of consumer, but does not meet established water quality standards for Public Water Systems.

* **Editor's Note** --- Ordinance No. 1332-1999, §§ 1---9, adopted February 16, 1999, did not specify the manner of codification, but was included herein as Ch. 26, §§ 1---9, at the Editor's discretion.

Section 26-2. Backflow Prevention Assembly Requirement,

1. Elimination and Protection of Cross Connections. Cross connections occurring within the City of Laurel Water System shall be eliminated or protected with the appropriate backflow preventer. Cross connections are eliminated by establishing an air gap between the potable and non-potable sources. Cross connections are protected by installing the appropriate backflow preventer. It shall be the responsibility of the owner of the cross connection to eliminate the cross connection or protect the cross connection with the appropriate backflow preventer.
2. Connections to Sewer. Direct connections, permanent or temporary, between the City of Laurel water system and a sanitary or storm sewer are prohibited.
3. Home Wells. Connection to any sources of water, other than the City of Laurel water system including home wells, is prohibited unless the appropriate backflow preventer is installed.
4. Approved Backflow Prevention Assemblies. Only backflow prevention assemblies approved by the Mississippi State Department of Health shall be installed.
5. Installation Requirements. Reduced Pressure Principle Assemblies, double check valve assemblies, and pressure vacuum breakers shall be installed in a manner and location that provides adequate access for testing and repair of the assembly. Reduced pressure principle assemblies and double check valve assemblies shall not be subject to possible flooding. Reduced pressure principle assemblies and double check valve assemblies shall not be installed in a pit or enclosure below ground level.

Section 26-3. Responsibility of Water System.

1. Surveys. The City of Laurel shall develop and implement a cross connection control program and shall conduct a survey with on-site visits as necessary to locate potential cross connections within its system, before December 31, 2000.

Source: Ordinance No. 1375-2000, 10-17-00

2. Right to Entry. Each customer identified during the survey as having a potentially high-hazard cross connection shall install an approved backflow preventer within ninety (90) days of receiving such notice. Additional time may

be granted for hardship, however, all high-hazard backflow devices must be installed before June 30, 2001.

Source: Ordinance No. 1375-2000, 10-17-00

3. Classification of Hazard. Each cross connection will be classified as High Hazard or Low Hazard. The City of Laurel will follow the recommendations of the Mississippi Department of Health in defining a high hazard connection or a low hazard connection. Of the low hazard connections, those posing a very low risk shall be exempt from the requirements to have a backflow prevention device.
 - (A) For the purpose of this section, the following cross connections shall be considered low hazard cross connections posing a very low risk and therefore shall not be required to have a backflow prevention device:
 - (1) Any lawn sprinkler or lawn irrigation system that is connected to a public water system was professionally installed, regardless of whether the system is underground or above ground or whether the system has pop-up sprinkler heads;
 - (2) Any swimming pool that is connected a public water system and was professionally installed, or any swimming pool that is connected to a public water system and has a fill line with an anti-siphon air gap;
 - (3) Any water fountain or cooler that provides drinking water for human consumption, that is connected to a public water system and was professionally installed;
 - (4) Any fire sprinkler system that contains only water or a dry pipe and no chemicals, that is connected to a public water system and was professionally installed; and
 - (5) Any commercial establishment that is connected to a public water system, that contains no cross connections directly with a dangerous or hazardous substance or material.
 - (B) For the purposes of this section, any lawn sprinkler system or lawn irrigation system that is connected to a public water system and either injects or stores lawn chemicals or is connected to a wastewater supply shall be considered as high hazard cross connections and not exempt from the requirements of this section; however, the local public water system shall not be required to conduct an on-site inspection to identify any such system under this paragraph.
 - (C) Additional backflow preventer devices shall not be required for carbonated beverage dispensers if (i) the water supply connection to the carbonated beverage dispenser is protected against backflow by a backflow preventer device conforming to ASSE 1022 or by an air gap, (ii) the backflow preventer device and the piping downstream from the device are not affected by carbon dioxide gas.

4. Selecting the Appropriate Backflow Preventer. It shall be the responsibility of the City of Laurel, acting through its agent, to determine the type of backflow preventer required at each cross connection and the location the backflow preventer will be installed. The type backflow preventer required and the location to be installed, will be selected utilizing guidelines published by the Mississippi State Department of Health.

5. Schedule of Installation and Testing.
 - (A) Before June 30, 2001, each property owner identified by the public water system as having a high hazard cross connection shall install a backflow preventer device. If the property owner already has a backflow preventer device installed and the backflow preventer device functions properly, the public water system shall consider the backflow preventer device approved and shall allow the installed backflow preventer device to remain in place until the backflow preventer device fails to function properly.
 - (B) Before June 30, 2004, each property owner identified by the public water system as having a low hazard cross connection shall install a backflow preventer device. This requirement does not apply to any low hazard cross connection that poses a very low risk. If the property owner already has a backflow preventer device installed and the backflow preventer device functions properly, the public water system shall consider the backflow preventer device approved and shall allow the installed backflow preventer device to remain in place until the backflow preventer device fails to function properly.
 - (C) Each backflow preventer device shall be inspected and tested immediately after installation, after repairs of any kind, and at least annually. If a high hazard backflow preventer device fails to function properly, the property owner shall have the backflow preventer device repaired and retested or shall install a new approved backflow preventer device within thirty (30) days of the initial test. If a low hazard backflow preventer device fails to function properly, the property owner shall have the backflow preventer device repaired or shall install a new backflow preventer device within ninety (90) days after the date the backflow preventer device first fails to function properly.

6. Review of Meter Applications. The City of Laurel, acting through its agent, shall review all applications for new meters to determine if a cross connection will be created. The appropriate backflow preventer will be required at all new connections where a cross connection will be created.

7. Inspections. The City of Laurel, acting through its agent, will periodically inspect any connection to the water system as deemed necessary to insure cross connections have not been created.
8. Record Keeping. The City of Laurel shall maintain records of the type, size and location of each backflow preventer installed in the system, when each backflow preventer is due to be tested, and the result of each test. Records shall be maintained for five (5) years from date of test and inspection.

Section 26-4. Permits.

1. Requirements. Any customer that has or will install a backflow prevention assembly shall obtain a permit from the City of Laurel. Each backflow prevention assembly shall require a separate permit. It shall be unlawful for any Customer to have a backflow prevention assembly connected to the City of Laurel Water System without a current and valid permit.
2. Permit Fee. The customer shall pay for each permit, a fee of One Hundred and No/100 Dollars (\$100.00).
3. Expiration of Permit. Each permit issued for a backflow prevention assembly shall remain valid as long as the backflow prevention assembly remains in use as originally installed. The permit shall become void if the assembly is moved, the application changes, the customer's water account is closed, or any other reason determined to be reasonable and necessary by the City of Laurel.

Source: Ordinance No. 1332-1999, §4, 2-16-99

Section 26-5. Testing.

1. Tests Required. Each reduced pressure principle backflow prevention assembly, double check valve assembly, and pressure vacuum breaker shall be tested immediately after installation, after repairs of any kind, and annually. Any backflow preventer found to be non-functional shall be repaired and re-tested within fourteen (14) days of the initial test.
2. Certified Testers. Only backflow preventer testers certified by the Mississippi State Department of Health shall test backflow preventers located in the City of Laurel.
3. Notification. The City of Laurel will notify the owner of each backflow preventer sixty (60) days prior to the due date that the backflow preventer is due to be tested.

Source: Ordinance No. 1332-1999, §5, 2-16-99

Section 26-6. Violations and Penalties.

1. Refusal of Inspection. If the owner of a connection refuses to let the Agent of the City of Laurel inspect that connection to determine if a cross connection exists, a reduced pressure principle backflow prevention assembly will be required at that connection.
2. Maintaining a Cross Connection. If the owner of a connection, after having been informed that a cross connection exists at the connection, refuses to comply with this Ordinance, water service to the connection shall be terminated until such time as all requirements have been met.

Section 26-8. Repealer.

Any other Ordinances, Orders, Resolutions, or portions thereof, in conflict with this Ordinance are hereby declared repealed and held invalid.

Any regulations adopted before the effective date of House Bill No. 692, 2001 Regular Session, or as included in the City of Laurel Ordinance No. 1332-1999, that are in conflict with House Bill No. 692 are hereby declared repealed and held invalid.

ARTICLE I. TITLE AND PURPOSE

SECTION 101.01. AUTHORITY.

The provisions of this Ordinance are adopted pursuant to the authority set forth in the Mississippi Code §§17-1-3 to 17-1-21 (1972) of the General Laws of the State of Mississippi.

The Mississippi Code 1972, §§ 17-1-3 to 17-1-37; 21-1-27; 21-13-7; 21-19-63; 41-25-13; 43-35-105; 49-23-1 to 49-23-29; 49-25-1 to 49-25-23 and 75-49-1, further empowers the City to enact provisions for other functions related to this Ordinance such as: planning, airport zoning regulations, a local planning commission, control of outdoor advertising along highways, control of junkyards, mobile home construction standards and sanitary regulations, building setback lines, adoption of official plans, extension or contraction of corporate boundaries, methods for adopting codes, subdivision of land and regulation thereof, among other matters. (See Appendix A).

SECTION 101.02. TITLE.

This Ordinance shall be known as the Official Zoning Ordinance of Laurel, Mississippi, and may be so cited, and further referenced elsewhere as “Zoning Ordinance” and herein as “the Ordinance” or “this Ordinance”; shall imply the same wording as the full title.

Source: Ordinance No. 1056-1985, 8-6-85

SECTION 101.03. INTERPRETATION.

In interpreting and applying this Ordinance, its provisions shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, morals, prosperity, and general welfare. It is not the intent of this Ordinance to interfere with,

abrogate or annul any Ordinance, rules, regulations, or permits previously adopted or issued, and not in conflict with any of the provisions of this Ordinance, or which shall be adopted or issued pursuant to law relating to the use of building or premises, and likewise not in conflict with this Ordinance to interfere with, abrogate, or annul any easement, covenant, or other agreement between parties except wherein this Ordinance imposes a greater restriction, this Ordinance shall control.

SECTION 101.04. CONFLICT.

All Ordinances or parts of Ordinances in conflict herewith are repealed, but nothing contained herein shall prevent the prosecution of any person or the bringing of a civil action to enjoin any person for the prior violation of any Ordinance or part of any Ordinance hereby repealed.

Source: Ordinance No. 1056-1985, 8-6-85

SECTION 101.05. SEVERABILITY AND VALIDITY.

If any section, subsection, paragraph, sentence, clause, or phrase of this Ordinance should be declared invalid for any reason whatsoever, such decision shall not affect the remaining portion of this Ordinance, which shall remain in full force and effect, and to this end the provisions of this Ordinance are hereby declared severable. The Council declares that it would have passed this Ordinance, and each section, subsection, sentence, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional.

SECTION 202. DEFINITIONS.

See Appendix B for actual definitions.

ARTICLE III. DISTRICTS

SECTION 301. ZONING DISTRICTS.

In order to regulate and restrict the location of trades and industries and the location of buildings erected, reconstructed, altered or enlarged for specified uses, to regulate and limit the height and bulk of buildings hereafter erected, reconstructed, altered or enlarged; to regulate and determine the area of yards and other open spaces and to regulate and limit the density of population, the City of Laurel is hereby divided into districts of which there shall be nineteen (19) as follows:

- A-1 General Agricultural District
- R-1 Low Density Residential District
- R-2 Medium Density Residential District
- R-3 High Density Restricted Residential District
- R-4 High Density Residential District
- C-1 Restricted Commercial District
- C-2 General Commercial District
- C-3 Heavy Commercial District
- C-4 Downtown Central Business District
- I-1 Restricted Industrial District
- I-2 Light Industrial District
- I-3 Heavy Industrial District
- F-1 Flood Plain District
- PUD Planned Unit Development

- C-1A Professional Office District
- C-1B Medical/Professional Commercial District
 - Laurel Central Historic District
 - Jefferson Street Overlay District
 - Tri-Park Overlay District

The order of classification shall be as enumerated above with the F-1 Flood Plain District being the most restrictive and the I-3 Heavy Industrial District the least restrictive classification.

The districts aforesaid and the boundaries of such districts are shown upon the map designated as the “*Official Zoning Map*” and said maps and all the notations, references and other information shown thereon are hereby made a part of this Ordinance as if the matters and information set forth by said map were all fully described herein.

Except as hereinafter provided:

First. No building shall be erected, reconstructed, altered or enlarged nor shall any building or land be used for any purpose other than is permitted in the district in which such building or land is located.

Second. No building shall be erected, reconstructed, altered or enlarged to exceed the height or bulk limit herein established for the district in which such building is located.

Nothing in this Ordinance shall interfere with limitation on height of structures included in Airport Zoning Regulations.

Third. No lot area shall be so reduced or diminished that the yards or other open spaces shall be smaller than prescribed by this Ordinance, nor shall the density of population be increased in any manner except in conformity with the area regulations herein established.

No building permit shall be issued by the City for the construction or placing of, and no person shall construct or place any dwelling, structure, or edifice, designed or usable as a dwelling place, on any lot, tract, or parcel of land unless the lot, tract or parcel of land upon which each such structure is to be located, or is located, has been defined, delineated, or described by a map or plat filed for record in the Deed Records of the County; provided, that this Ordinance shall not prohibit the issuance of a building permit for the construction or placing of any single structure, designed or usable as a dwelling, located on any tract of land set apart, delineated or defined by a metes and bounds description and recorded in the Deed Records of the County as of September 25, 1970, when the only structure (which with its permitted appurtenances) is located or, to be located thereon, faces or fronts upon a legally established public street.

No building permit shall be issued by the City for the erection or placing of any dwelling on a lot, the width or street frontage of which has been decreased from the width or street frontage as originally platted or as replatted and recorded in the Deed Records of the County, nor shall a building permit be issued for the erection or placing of any dwelling on the rear yard of any corner lot situated in Districts R-1, R-2, R-3, or R-4.

A building permit may be issued by the City through its proper agent for the construction or placing of a dwelling on a lot or tract of land composed of portions of two (2) or more lots as recorded in the Deed Records of the County, only when such resulting lot or tract has a street frontage of not less than the street frontage of any lot in the same block provided that such frontage meets the requirements of the City Subdivision Ordinance.

Fourth. No yard or other open space provided about any building for the purpose of complying with the provisions of these regulations shall be considered as providing a yard or open space for any other building; provided further that no yard or open space on an adjoining property shall be considered as providing a yard or open space on a lot whereon a building is to be erected.

Fifth. Every building hereafter erected shall be located on a lot as herein defined and in no case shall there be more than one (1) building with accessory building on one (1) lot, except as hereinafter provided. (See Section 803)

ARTICLE IV. SPECIFIC DISTRICT REGULATIONS

SECTION 401. A-1 GENERAL AGRICULTURAL DISTRICT.

401.01. General Description.

This district shall provide an area for agricultural and horticultural uses. The rural nature and low density of population in this district requires only that uses essential to agriculture and horticulture have a reasonable setback of buildings from dedicated streets and/or highways. It is the purpose of this district to encourage and protect such uses from urbanization until such is warranted and the appropriate change in district classification is made in accordance with the provisions of this Ordinance.

SECTION 402. R-1 LOW DENSITY RESIDENTIAL DISTRICT.

402.01. General Description.

This is the most restrictive residential district. The principal use of land is for single-family dwellings and with special permission related recreational, religious and educational facilities normally required to provide the basic elements of a balanced and attractive residential area. These areas are intended to be defined and protected from the encroachment of uses not performing a function appropriate to the residential environment. Internal stability, attractiveness, order and efficiency are encouraged by providing for adequate light, air and open space for dwellings and related facilities and through consideration of the proper functional relationships of each element.

Source: Ordinance No. 1056-1985, 8-6-85

402.02. Uses Permitted.

In the "R-1" Low Density Residential District, no building or land shall be used and no building shall be hereafter erected, reconstructed, altered or enlarged, unless otherwise provided in this Ordinance, except for one (1) or more of the following uses:

- 402.02.01 Detached single dwellings, but not including mobile homes, or modular houses.
- 402.02.02 Detached accessory buildings, not exceeding two (2) stories in height, including one (1) private garage, private stable or servants' quarters, when located not less than sixty (60) feet from the front lot line, nor less than the distance required for the main building from any side of lot line; provided that if the accessory building is located within the "required" rear yard, no clearance from a side line will be required. The area of accessory buildings shall not exceed fifty percent (50%) of the area in the main building. The stable shall provide for not more than one (1) horse or mule for each twenty thousand (20,000) square feet of lot area. Servants' quarters shall be occupied only by servants employed on the premises.

The area of servants' quarters shall not exceed fifty percent (50%) of the area permitted for all accessory buildings on the premises. An accessory building may be constructed as a part of the main building, in which case the regulations controlling the main building shall apply.

- 402.02.03 Churches and related accessory buildings, provided they are a permanent structure and fronting a major artery or connecting route with required off-street parking spaces separated from property lines by a five (5) foot concealing fence. Also subject to approval of outdoor lighting arrangements.
- 402.02.04 Schools, kindergartens, elementary and secondary.
- 402.02.05 Museums, libraries parks, playgrounds or community centers and cemeteries owned and operated by the City.
- 402.02.06 Golf courses, except miniature courses, driving tees and other similar activities operated for commercial purpose.
- 402.02.07 Farm, truck gardens, orchards or nurseries on a minimum of a three (3) acre tract, for the growing of plants, shrubs and trees, provided no retail or wholesale business sales offices are maintained on the premises, and provided that no obnoxious fertilizer is stored upon the premises, and no obnoxious soil or fertilizer processing is conducted thereon.
- 402.02.08 Uses customarily incident to any of the above uses when situated in the same dwelling, when not involving the conduct of a business or industry, but including home occupation, as hereinafter defined. The furnishing of board or lodging for not more than four (4) persons in a dwelling occupied as a private residence shall be considered an accessory use, provided no window or other display or sign is used to advertise such use.
- 402.02.09 Hobby shops, as an accessory use.
- 402.02.10 One (1) non-illuminated sign advertising the sale or rent of the land or buildings upon which it is located. Such sign shall not exceed sixteen (16) square feet in area and shall be located at a point not closer than two and one-half feet (2½') from the street right-of-way line. The sign may remain in place until no longer needed provided it is kept in a non-deteriorating condition.
- 402.02.11 Bed and Breakfast facilities, subject to provisions contained in Section 402.04.

402.03. Area, Height and Setback Regulations.

In the "R-1" Single-Family District, the height of buildings, the minimum dimension of lots and yards, and the minimum lot area per family shall be as follows: (For additional district provisions, see Article V.)

- 402.03.01 Front Yard: There shall be a front yard of not less than twenty-five (25) feet.
- 402.03.02 Side Yard: On interior lots of fifty (50) feet or less in width, there shall be a side yard on each side of a building of not less than five (5) feet in width. For lots of more than fifty (50) feet in width, either of the side yards may be five (5) feet, and the sum of the side yards shall be twenty percent (20%) of the lot width, but need not exceed twenty (20) feet in total side yard width. (See Appendix C.)
- On corner lots the side yard regulation shall be the same as for interior lots except in the case of reversed frontage where the corner lot rears on the side of a lot facing the other intersecting street, in which case, there shall be a side yard on the corner lot of not less than fifty percent (50%) of the front yard required on the lot abutting the rear of the corner lot or separated only by an alley. No accessory buildings on a said corner lot shall project beyond the front yard line of the lots in the rear, nor shall a building be erected, reconstructed, altered or enlarged, closer than five (5) feet to the line of the abutting lot to the rear.
- 402.03.03 Rear Yard: There shall be a rear yard having a depth of not less than twenty-five (25) feet, however, any existing structure may be added onto with the existing setback provided it is not closer than five feet to the property line.
- 402.03.04 Height: No building hereafter erected reconstructed, altered or enlarged, shall exceed forty-five (45) feet.
- 402.03.05 Width of Lot: The minimum width of a lot at the building line shall be fifty (50) feet, provided that where a lot of record and in separate ownership at the time or the passage of this Ordinance, has less width than herein required this regulation shall not prohibit the erection of a single-family dwelling. Lots fronting on cul-de-sacs shall be at least thirty-five (35) feet in width at street frontage and shall have a width of at least fifty (50) feet at the front building line. There shall not be more than six (6)

lots facing on a cul-de-sac.

- 402.03.06 Lot Area Per Family: In the “R-1” Low Density Residential District every building hereafter erected, reconstructed, altered or enlarged shall provide a lot area of not less than seven thousand five hundred (7,500) square feet per family; provided, however, that where a lot has less area than herein required and was of record and in separate ownership on the effective date of this Ordinance said lot may be occupied by not more than one (1) family.

Section 415. Short Term Rental Ordinance

415.01 General Description

This ordinance is to provide for a balance of economic opportunities and growth, sustainable housing developments and preservation of the neighborhoods of the City of Laurel. Short-term rentals are defined as a room or housing unit that is rented to a person or group for a fee for a duration of time, not to exceed thirty consecutive (30) nights. Short term rentals shall be allowed in residential and commercial zoning districts by special use permit.

415.02 Definitions

- *Adjacent property owner*- A Property which adjoins the Subject property in any way to the north, south, east, and west. In the case that a street, right-of-way, or alley adjoins the property in question, the adjacent property is one which, by extending the property lines across the street, right-of-way or alley would adjoin the property in any way.
- *Applicant*- the owner or a person acting as a representative on the owner's behalf.
- *Guest*- means any person or persons renting and occupying a dwelling unit.
- *Local Property Manager*- person who is located within Jones County who will respond to questions or concerns twenty-four (24) hours a day. The name, address and phone number(s) of the local property manager shall be posted prominently inside the short-term lodging rental unit.
- *Owner*- any person who, alone or with others, has title or interest in any building, property, dwelling unit, or portion thereof, with or without accompanying actual possession thereof, and including any person who as agent, executor, administrator, trustee, or guardian of an estate has charge, care, or control of any building, dwelling unit, or portion thereof.
- *Privilege license*- a license that allows an individual or company to conduct business.
- *Short-Term Rental Unit*- a room or housing unit that is rented to a

person or group for a fee for a duration of time, not to exceed thirty consecutive (30) nights

- *Special Use Permit*- a permit which allows a property or parcel of land to be used in a manner that deviates from generally accepted activities within a specific area or zone.
- *Zoning Ordinance*- an established set of rules that governs how properties, structures and land can be used in a specific area.

415.03

Uses Permitted : A short-term rental is only permitted by obtaining a special use permit. Short-term rental establishments shall only be allowed in residential (R-1, R-2, R-3 and R-4) and commercial (C-1, C-2, C-3 and C-4) zoning districts and are subject to all applicable building codes, zoning restrictions, overlay districts and any other regulations and shall comply with such codes and regulations. Homeowner Associations (HOA) may have covenants that prohibit short-term rentals, even if permitted by city zoning, in which case, the HOA shall govern. With the exception of R-1, multiple units are allowed in a structure in the approved residential and commercial zones.

- In R-1 areas: only one (1) short-term rental unit per single-family structure shall be permitted. Short-term rental units shall be limited to two (2) units per lot, when there is an existing structure or outbuilding separate from the primary, single-family structure, [i.e., one (1) per structure]. This restriction is placed in order to control and maintain the density, traffic flow and integrity of residential neighborhoods. A special exception regarding this particular requirement, in so far as it pertains to the existing structure or outbuilding separate from the primary single-family structure, may be requested and addressed by the Planning Commission with final approval by the City Council.
- It is unlawful to conduct or operate a short-term rental without prior obtaining a special use permit. Listing a property for short-term rental prior to receiving an approved permit from the City of Laurel Inspection Department shall result in a one (1) year suspension of permit eligibility.

415.04

Obtaining A Permit:

The short-term rental process requires the submission of a completed application, in accordance with the following criteria, which may be obtained from the Inspection Department. Each application shall be reviewed by the Planning Commission, with

the aid of the Inspection Department, on its own merit. The Planning Commission shall conduct a public hearing regarding said permit prior to approving the permit. The applicant shall be provided written notification of the date, time and place of the public hearing. The Planning Commission has broad discretion when considering permit applications. Upon final approval from the Planning Commission, a permit shall be issued by the Inspection Department. Please note that a preliminary inspection must be performed and deemed satisfactory, prior to final approval of the permit.

- 415.04.01 The Inspection Department will promptly provide notification by mail to any adjacent property owners that the proposed property is being considered for use as a short-term rental. Said notification shall provide the date, time and place of the public hearing during which the Planning Commission will consider the application for the proposed property and at which time and place adjacent property owners may appear and be heard.
- 415.04.02 Application shall contain such information including, but not limited to, the property location/address of the short-term rental establishment; the number of sleeping areas contained therein; the maximum number of persons the property proposes to accommodate; the name, address and telephone number of the local property manager; a copy of the rental agreement; proposed parking plan; the rules of the rental property; a plan for trash management related to curbside pickup; and any and all signatures of all owners of record of the subject property.
- 415.04.03 While the City does not require proof of insurance, it shall be the duty of the applicant to ensure that homeowner's fire, hazard, and liability insurance coverage does not exclude short-term rentals from coverage.
- 415.04.04 The application shall include a statement from the applicant affirming compliance with all applicable zoning requirements, building codes, deed restrictions and/or covenants, including any HOA bylaws.
- 415.04.05 Proof of payments of all applicable taxes, fees and other charges, including taxes approved by House Bill 1836 (1998) and Senate Bill 2155 (2022) shall be provided with the application.
- 415.04.06 The application shall include execution of a written statement acknowledging that a violation of the ordinances of the City of Laurel, as it relates to short-term rentals, may result in a one (1) year suspension or revocation of an existing permit.

- 415.04.07 At the time of the filing of the application with the Inspection Department: A nonrefundable permit fee of three hundred fifty dollars (\$350.00) per unit shall be paid by applicant.
- 415.04.08 Approval of short-term rental permit does not legalize any nonpermitted use or structure. Short-term rental units are not to be used to distribute retail products or personal services to invitees for marketing or similar purposes. The outdoor display of goods and merchandise for sale is prohibited.
- 415.04.09 Short-term rental permits are not transferable. Upon sale or at time of transfer of the property, any permit issued pursuant to the terms set forth herein, shall automatically expire. Any new owner(s) or transferee(s) shall be required to apply for a new permit, in accordance with this ordinance.
- 415.04.10 Any structure or unit that is deed restricted for affordable housing shall not be eligible for a short-term rental permit.
- 415.04.11 Each separate unit or listing shall require an individual permit, regardless if multiple listings are located at the same address or location or owned by the same owner. Documentation and/or proof of permit issuance shall be included in the listing on all short-term rental postings.
- 415.04.12 Each short-term rental permit shall expire one (1) year from the date of issuance.
- 415.05 *Taxes, License and Registration*
- 415.05.01 A local privilege license is required to be obtained by the applicant from the City Clerk's office.
- 415.05.02 Registration of state tax is required.
- 415.05.03 Any and all other tax requirements.
- 415.06 *Short-Term Rental Code Requirements*
- 415.06.01 Short-Term Rental Establishments shall meet and comply with any and all applicable building and property maintenance codes, as adopted by the City of Laurel.
- 415.07 *Denial or Revocation of a Special Use Permit Conditions for denial*

or revocation of a permit to operate a short-term rental unit shall include, but not be limited to, the following:

- 415.07.01 Failure by the applicant to conform to the criteria set forth herein for the current or previous year.
- 415.07.02 Guests and/or users of the property were issued citations for violating the noise ordinance or disturbing the peace during the previous or current year.
- 415.07.03 Any other reasonable or rational factors as determined by the Planning Commission.
- 415.07.04 The Inspection Department is authorized to revoke or deny permits. The permitted owner shall be provided with a written notice of the reason(s) the permit is subject to revocation. The applicant shall be allowed thirty (30) days from the date written notice is issued to correct the defective conditions. If the condition is not corrected within thirty (30) days to the satisfaction of the Inspection Department, the permit shall be revoked by a revocation order of the Inspection Department. Upon receipt of the revocation order by the owner or property manager, the unit shall cease operation as a short-term rental.
- 415.07.05 The owner may appeal any denial of a permit application or order revoking the permit application or application renewal. The owner's appeal must be in writing and filed with the Inspection Department within ten (10) days of entry of the applicable order. The revocation shall remain in full effect for the duration of the appeal. The appeal should be presented to the Mayor and City Council at the next scheduled meeting, following the filing of the appeal. The owner shall be provided notice of the meeting for the opportunity to be heard. The City may appoint a hearing officer to preside over any such appeal.
- 415.08 *Renewal of Short-term Rental Permit*
- 415.08.01 Short-term rental permit may be renewed through the Inspection Department for the fee as cited in 415.04.07
- 415.08.02 The permit renewal process shall consist of staff review of City records, complaints and any other issues pertaining to the property under consideration. Filed complaints that are in violation of any

zoning codes, building codes, property maintenance and other applicable laws or regulations will be considered as part of the renewal process. A violation of applicable local, state and federal laws or regulations may be cause for the denial of a permit renewal.

415.09 *Complaints*

415.09.01 A concerned party should contact the Inspection Department regarding complaints and violations of this Ordinance that cannot otherwise be resolved through contact with the local property manager and/or property owner. If the issue is related to the public safety and/or noise violations, the Police Department shall be contacted. The Police Department shall be provided with an updated list of all contact persons for short-term rentals by the Inspection Department. Verified complaints concerning noncompliance with the terms of this Ordinance may be considered in determining whether or not a permit should be revoked.

415.10 *Violations*

415.10.01 Any person or user who allows such use of a residential property in violation of this Ordinance shall be guilty of a misdemeanor.

415.10.02 For purposes of prosecution of violations of this chapter, each day that any violation occurs is deemed to constitute a separate violation. Those found guilty of such violation shall, upon conviction, be fined for each violation, not to exceed an amount of one thousand dollars (\$1,000.00) for the first offense within a calendar year; not to exceed an amount of two thousand dollars (\$2,000.00) for the second offense within a calendar year; and not to exceed more than five thousand dollars (\$5,000.00) for other offenses within a calendar year, in addition to all court related fees.

415.11 *Constitutionality*

415.11.01 Should any portion, provision or section of this Ordinance be held void, unconstitutional or invalid, the remaining portion of the Ordinance shall remain in full effect.

415.12 *Conflicts*

415.12.01 It is hereby provided that the provisions of these regulations shall not be construed as being in conflict with the provisions of any of the laws or regulations of the City of Laurel, Mississippi. In any case where the provisions in these laws or regulations and provisions of

the other regulations both apply, the provisions of this Ordinance shall govern for the purpose of short-term rentals of residential dwellings.

ARTICLE V. ADDITIONAL DISTRICT PROVISIONS

The purpose and intent of the additional District provisions in companion with the specific District regulations is to permit the City Council the flexibility to establish and/or superimpose over existing District regulations, special conditions to provide additional restrictions when necessary to carry out the protective intent of this Ordinance. The same conditions may apply whereby restrictions can be modified to be more flexible when specific conditions are met to provide the intended protection to citizens and property. Nothing in this Section should be interpreted or construed which would weaken or void the full intent and purpose of this Ordinance.

The additional Districts shall be:

Section 501 F-1 Flood Plain District
Section 502 PUD Planned Unit Development
Section 503 Site Plan Review
Section 504 Laurel Central Historic District
Section 505 Leontyne Price Overlay District
Section 506 Tri-Park Overlay District
Section 507 Sawmill Overlay District
Section 508 Downtown Overlay District

and each is more fully described as follows:

SECTION 501. F-1 FLOOD PLAIN DISTRICT.

There are certain areas of Laurel, Mississippi, that are subject to periodic flooding by the Tallahala and Tallahoma Creeks and their tributaries with attendant damage to residential and other properties. In meeting requirements of the National Flood Insurance Program, the City Council has declared it to be the intent of the City to comply with land use and management criteria set forth by the National Flood Insurance Act of 1968, as amended. In the interests of public safety, health and general welfare, the City has caused to be prepared an Ordinance establishing a "*General Flood Plain District*" for the City of Laurel and regulating the use of land and structures therein. Upon approval and formal adoption by the City, provisions of the Flood Plain Regulations shall be applied to all Districts of this Zoning Ordinance located within the limits of the superimposed F-I Flood Plain District.

There shall be no construction of any type permitted in the designated floodway except

underground construction such as utilities as approved by the City.

Before any Building Permit or Certificate of Occupancy is granted, the applicant shall submit a Site Plan to the Site Plan Review Committee for review and approval.

Source: Ordinance No. 1056-1985, 8-6-85

501.01. Permitted Uses.

- 501.01.01 When the use meets all flood proofing and flood protection requirements imposed by the City, as well as the requirements of the Specific District Regulations in which it is located, the use may be permitted. An engineering report shall be required which clearly indicates that the proposed construction will have no detrimental effect on the level of water surface (less than 0.5') upstream from the proposed construction. Any floor elevation shall be a minimum of one (1.0) foot above the latest official National Flood Insurance Map for Laurel and/or Jones County.

- 501.01.02 The following types of uses are recommended in the F-1 Flood Plain District so long as it does not cause a nuisance to adjacent properties in a less restricted district.
 - (a) The growing of agricultural crops and nursery stock, and gardening.
 - (b) The keeping of agricultural livestock (no feed lots).
 - (c) Public recreation.
 - (d) Golf course.
 - (e) Fish camp.
 - (f) Billboards, provided such structure does not restrict or impede the flow of water in the drainage channel.
 - (g) Parking areas.

SECTION 502. PUD - PLANNED UNIT DEVELOPMENT DISTRICT.

502.01. General Description.

The purpose of this District is to provide a means for developing open space areas in larger development, to take advantage of natural features of the landscape in this design, to improve the quality of the urban environment and to reduce the costs of developing and

providing public resources and utilities. The owners of any tract of land containing at least five (5) acres may submit a plan for the use and development of the entire tract for residential, compatible commercial, and related uses as a single and unified project. The basic control development intensity shall be one or more of the residential districts. The Planned Unit Development shall be a superimposed designation providing a broader latitude of design to achieve the above stated goals.

Source: Ordinance No. 1056-1985, 8-6-85

502.02. Site Plan Required.

A detailed Site Plan of the proposed Planned Unit Development District shall be submitted to the Site Plan Committee for study and approval; which shall be considered as a recommendation to the City Planning Commission. Final approval shall be made by the City Council based on the recommendation of the Planning Commission.

Source: Ordinance No. 1056-1985, 8-6-85

502.03. Uses Permitted.

Uses permitted by right in the Planned Unit Development District are those normally necessary to make up a total neighborhood community, specifically including the following:

- 502.03.01 Residential Uses: Any use permitted by right in the R-4 Multi-Family Residential District.

- 502.03.02 Commercial Uses: Permitted commercial uses shall be those of retail type and personal service type commercial associated with community shopping centers, and high-quality office park type development.

- 502.03.03 Public and Semi-Public Facilities: Community centers, schools, parks and other recreational facilities, churches, clubs, public utilities, libraries and other public buildings and structures required to provide essential public services and any other use which primarily serves the residents of such a development.

Source: Ordinance No. 1056-1985, 8-6-85

502.04. Regulations.

- 502.04.01 Residential Lot Size: No minimum lot sizes are established, per se, so that housing can be clustered or otherwise concentrated or arranged in planned locations on the site to take advantage of its natural features.

- 502.04.02 Open Space Reservation: In any Planned Unit Development the amount of land not used by residential buildings, accessory structures, and yards

but required by the residential zoning of the site, shall be reserved collectively in contiguous units accessible to all the building sites in the development as maintained open space for the purpose of providing parks, recreational facilities, ways for pedestrian movement and circulation, and conserving visually pleasing elements of the environment. Prior to the sale of any lot, site, home or other structure a bond of sufficient surety shall be posted with the City Council for completion of said open space improvements prior to such sale. The open space developed will constitute no less than an equivalent proportional amount to the area being developed in the case of partial development.

- 502.04.03 Development Density: Commercial uses in any Planned Unit Development District shall not constitute over twenty-five percent (25%) of the land area of such development and land area occupied by residential, commercial, public and other buildings and accessory structures shall not exceed forty-five percent (45%) of the total land area of such development. Parking areas for commercial facilities are considered a commercial use of land. Be it further provided that commercial development may not be started until the residential development is at least one-fourth ($\frac{1}{4}$) complete.
- 502.04.04 Homes Association: As part of the plan proposed for any Planned Unit Development, the developer shall submit a set of covenants running with the land providing for an automatic membership Homes Association, to be an incorporated non-profit organization, operating under recorded land agreements, through which each property owner in the Planned Unit Development is automatically subject to a charge for an appropriate proportionate share of the expenses for maintaining the common property, open space and/or other activities of the Association. Once established the covenants shall continue and remain in force during the entire existence of the Planned Unit Development.
- 502.04.05 Responsibility for Open Space. Nothing in this section of the Ordinance shall be construed as a responsibility of the City of Laurel, either for maintenance or liability of the following, which shall include but not be limited to: any private open areas, parks, recreational facilities, and a hold harmless clause shall be incorporated in the covenants running with the land to this effect. It shall be provided further, however, that when an owner of a Planned Unit Development desires to dedicate certain land areas to the City for public parks and recreational facilities, and the City approves the nature and location of such lands, and accepts the dedicated areas, the City shall be responsible for the operation and maintenance of these lands and properties.
- 502.04.06 Appearance of Public Utility Facilities: Public utility facilities and

structures shall be architecturally compatible, or shall be properly screened and landscaped in keeping with the character and appearance of the neighborhood, all as approved by the City Planning Commission.

502.04.07 City Council Approval: Planned Unit Development District and establishment of zoning therefor must be approved by the City Council. However, development shall be in accordance with the approved Site Plan. Any contemplated deviation from the approved plan shall be reviewed by the Site Plan Review Committee and recommendations submitted to the City Council for approval. The City Planning Commission has the authority to require reasonable plan changes for the Planned Unit Development as a prerequisite to approval.

503.02. Creation of Site Plan Review Committee.

The Mayor shall appoint a Site Plan Review Committee to be chaired by the Building Inspector and/or the Inspection Department's designee which shall consist of one (1) principal representative from each of the following City Departments:

- (1) Engineering Department.
- (2) Public Works Department.
- (3) Fire Department.
- (4) Water Department.
- (5) Inspection Department.
- (6) Police Department.
- (7) Parks Department.
- (8) ADA Coordinator.

503.02.01 Other Representation: In addition, other representation may include a

representative from the Laurel Municipal School District, Jones County Health Department and from the telephone, gas, and electric utility companies.

503.04. Contents.

The Site Development Plan required to be submitted under subsection 503.03 above and the requirements of these Zoning Regulations shall include the following elements:

- 503.04.01 Statements of ownership and control of the proposed development.
- 503.04.02 Statement describing in detail the character and intended use of the development.
- 503.04.03 A dimensioned site plan based on exact survey of the property drawn to scale of sufficient size to show:
 - (a) exact location of all buildings and structures,
 - (b) all means of ingress and egress,
 - (c) all screens and buffers,
 - (d) off-street parking and loading areas,
 - (e) refuse collection areas,
 - (f) access to utilities and points of utilities hook-up, and
 - (g) natural features such as streams, lakes, or other topographic features.
- 503.04.04 Storm drainage and sanitary sewer plans.
- 503.04.05 Architectural definitions for buildings in the development; location, sizes and types.
- 503.04.06 Plans for recreation facilities, if any, including buildings for such use.
- 503.04.07 Such additional data, maps, plans, or statements as may be required for the particular use or activity involved.
- 503.04.08 Such additional data as the applicant may believe is pertinent to the Site Development Plan.
- 503.04.09 Design professional certification stating that the Site Development Plan is in compliance with all applicable City Ordinances except as noted, and

standard acceptable practice.

Items 503.04.03, 503.04.04, 503.04.05 and 503.04.09 above shall be prepared by a registered surveyor, engineer, or architect or practicing land planner as may be appropriate to the particular item.

503.05. Conditions and General Considerations on Issuance of Site Plan Approval.

The Site Plan submitted for such development as defined in this Section shall provide that the proposed lot sizes, lot coverage, density, setback provisions and other factors are in conformity with the requirements of this Chapter and other applicable Ordinances and laws. In addition to such general considerations, said Plan shall be approved only after a consideration of the following factors:

- 503.05.01 Ingress and egress to the property and proposed structures thereon, with particular reference to automotive and pedestrian safety, traffic flow and control, provision of services and servicing for utilities, and access in case of fire or catastrophe.
- 503.05.02 Manner of drainage on the property, with reference to the effect of provisions for drainage on adjacent properties and the consequence of such drainage on overall City capacities.
- 503.05.03 Conditions on ownership, control and use generally, and conditions on ownership, control, use, and maintenance of open space or common lands to insure preservation of such lands for their intended purposes.
- 503.05.04 All utility connections shall be indicated and shall be in conformity with the standards and requirements for connection to utility companies proposed to serve the property whether said utility companies are public or private.
- 503.05.05 Off-street parking and loading areas, with attention to automotive and pedestrian safety, traffic flow and control, access in case of fire and catastrophe, and screening and landscaping.
- 503.05.06 Recreation and open spaces, with attention to the location, size, and development of the areas as to adequacy, effect on privacy of adjacent and nearby properties, and relationship to community-wide open spaces and recreation facilities.
- 503.05.07 Density and/or purpose of the development, with attention to its relationship to adjacent and nearby properties.

- 503.05.08 General site arrangement, amenities, and convenience, with particular reference to ensuring that appearance and general lay-out of the proposed development will be compatible and harmonious with properties in the general area and will not be so at variance with other development in the area as to cause a substantial depreciation of such property values.
- 503.05.09 All setbacks, parking areas and accessory structures shall be so landscaped, located and constructed so as not to interfere with the use of the surrounding property.
- 503.05.10 Buffer Zones - Whenever the proposed development is to be on land zoned for commercial or industrial use and is adjacent to any property zoned residential or when the proposed development is on land zoned R-3 or R-4 and is adjacent to property zoned R-1 or R-2, unless the development is single-family residential (other than a mobile home park or subdivision), a buffer between the properties shall be provided as follows:
- (1) Landscape. Plans shall be submitted to show how a buffer strip averaging twenty (20) feet in width will be landscaped and maintained. This area shall have as a minimum grass or ground cover. A greater density of landscaping may be required to reduce site, noise, and pedestrian intrusion into residential areas. Earthen berms landscaped with shrubs may be permitted to achieve this requirement.
 - (2) Wall or fence. A six (6) foot masonry wall or a fence of approved wood of natural decay resistance may be built in place of ten (10) feet of the twenty (20) foot buffer strip as outlined in subparagraph 10(a) above.
 - (3) Landscaping and wall or fence. The Site Plan Review Committee and the Inspection Department may require a masonry wall or fence and the twenty (20) foot buffer strip (as outlined in paragraph (1) above) if, in their opinion, it is necessary to protect the residential zone due to an intense use of the property by commercial or industrial occupancies or by the very nature of the proposed development.
 - (4) When a development is so small in scope that the buffer would present a hardship, the Site Plan Review Committee and the Inspection Department may require only a wall or fence as described in (2) above without any additional buffer, or may waive the buffer requirement.

505.07.03 Specific Standards

The review of all site and building design plans shall be based on the following standards:

- A. New Structures, additions and renovations shall be designed to be compatible with existing structures in terms of architectural design exterior building materials, colors and arrangement of buildings and other features.
- B. At least seventy-five percent (75%) of the non-glass wall surface facing Jefferson Street and Interstate 59, or other major arterials, shall be clad with brick, wood, stone, split face block, drivit, stucco or a complimentary siding material, except to the extent prohibited by applicable building codes. Building materials with a cost equal to or greater than the materials listed above may be substituted provided the cost is documented.
- C. Exterior improvements, such as fences, utilities, outdoor furniture and displays shall be compatible with the mass and scale of such improvements elsewhere in the adjacent area.

- D. All buildings shall have no more than two hundred (200) continuous feet of wall plane with the same setback fronting along a street. If the building is wider than two hundred (200) feet, then the setback of the wall planes from the street must vary by at least two (2) feet. Canopies, porches, covered walkways and similar architectural features will be approved for shopping centers in lieu of the required offset provided said features cover a minimum of thirty-five percent (35%) of the length of the shopping center.
- E. The main entrances to all buildings shall face the street which fronts the lot; however, corner lots may choose either street as the one which fronts the entrance.

505.08. Site Plan and Building Design Review.

505.08.01.1 Site Plan and Building Design Review

For all new buildings to be constructed and for all additions to existing buildings, the size of which is twenty-five percent (25%) or greater of the size of the existing building, and for all renovations, the cost of which is twenty-five percent (25%) or greater of the value of the building prior to renovation. Site Plan and Building Design Review and Building Design Standards contained in Section 505.07 above shall apply and the approval shall be secured prior to any building permit being issued.

505.08.02 Curb and Gutter Required

For all new buildings to be constructed and for all additions to existing buildings, the size of which is twenty-five percent (25%) or greater of the size of the existing building, for all renovations, the cost of which is twenty-five percent (25%) or greater of the value of the building prior to

renovation and for any change in use from residential to commercial, all parking and drives shall be bordered by standard curb and gutter.

505.09. Sign Standards.

505.09.01 Ground Signs

Ground signs as specified in Article VI, Section 602 are permitted provided they are affixed to the ground in a permanent manner and provided there is a minimum of twenty-five (25) square feet of landscaping around the base of the sign. Ground signs exclusively serving sites of less than three (3) acres shall not exceed seventy-five (75) square feet in size nor exceed the height of adjacent building or twenty-five (25) feet, whichever is less. Setback of all ground signs in the Jefferson Street Overlay District shall be a minimum of ten (10) feet from the property lines. Billboards are prohibited.

505.09.02 Attached Signs

The total surface area of an attached sign shall not exceed, in square feet, one times the linear feet that is the horizontal length of the wall to which the sign is attached. The surface area shall be measured as specified in Article VI, Section 602. An additional one square feet of surface shall be allowed for each foot which the building on which the sign is to be located is set back beyond the front yard requirements as specified by this Ordinance. Notwithstanding these provisions, a maximum of two (2) square feet for each linear foot that is the horizontal length of the wall on which the sign is to be attached shall be permitted. For multi-tenant buildings, the total area as specified above shall be distributed among each business therein according to the linear feet frontage occupied by each business. Internally lit box signs are discouraged.

Section 505.10. Parking Lot/Access Driveways.

505.10.01 Number of Driveways

The number of driveways connecting to Jefferson Street shall be kept to a minimum. Not more than one (1) driveway shall be allowed per site, for each street on which the site has frontage. A one-way pair shall be considered one (1) driveway. On Jefferson Street, driveways shall be shared to the extent possible. Specifically, two (2) adjoining businesses shall share a common drive.

505.10.02 Distance from Intersection

Driveways shall be a minimum of fifty (50) feet from any street intersection.

505.10.03 Separation of Driveways

On sites with greater than two hundred (200) feet of frontage, a second driveway may be allowed. On sites with a greater than five hundred (500) feet of frontage, a third driveway may be allowed. On sites with greater than eight hundred (800) feet of frontage, a fourth driveway may be allowed. All such driveways shall be a minimum of two hundred (200) feet apart.

SECTION 506. TRI-PARK OVERLAY DISTRICT.

506.01 Purpose and Intent.

506.01.01 Findings: The provisions of this Part are based on the findings that the City of Laurel, through the Laurel Planning Commission, has given reasonable consideration to, among other things, the character of the districts and their peculiar suitability for particular uses, with a view for conserving the value of buildings and encouraging the most appropriate use of land.

506.01.02 The purpose and intent of the Tri-Park Overlay District are defined as the following:

1. Maintain and increase the values of the properties located within said district;
2. Make the district a better, cleaner, safer, and more beautiful area in which to live;
3. Protect and promote the visual quality of the area;
4. Preserve the character and style of the overlay district neighborhood;
5. Prevent the development of property that would be out of character with the predominant style in the area and which would adversely affect the property values or hurt the potential for continued and prolonged prosperity of the area; and,
6. Promote the more efficient enforcement of city laws and/or codes pertaining to the same.

Source: Ordinance No. 1451-2004, 12-21-04

506.02 Location and Applicability.

506.02.01 Location: The following property is hereby designated as the Tri-Park Overlay District and is described in the back of this section for reference purposes (see complete Ordinance No. 1451-2004, 12-21-2004). The boundaries are known as from N. 10th Ave. to Front Street and from W. 5th St. to W. 13th St. which includes Daphne Park, Euclid Park and Gardiner Park.

506.02.02 Applicability: This district has been studied and has been reviewed by all applicable laws and/or codes and has been determined that the following outlined laws and/or codes will provide a stronger means of enforcing property maintenance and zoning requirements and will concentrate the city's code enforcement resources in areas of greatest need.

Source: Ordinance No. Ordinance No. 1451-2004, 12-21-04

506.03 Specific Codes.

The following specific codes will provide a stronger means of enforcing property maintenance and zoning requirements and will concentrate the city's code enforcement resources in areas of greatest needs in this designated neighborhood.

506.03.01 Abandoned and Junked Vehicles.

- A. Abandoned vehicles on public property: Any abandoned vehicle left unattended or forsaken upon any public street or other public property within the Tri-Park Overlay District for a period longer than twenty-four (24) hours constitute a public nuisance.
- B. Junked vehicles on private property: A junked vehicle is a vehicle which either does not have a current license plate and does not have a current safety inspection sticker or which cannot be driven legally on the streets of Laurel. Any junked vehicle, which is visible from the street and is left upon any private property within the Tri-Park Overlay District for a period longer than ten (10) days constitutes a public nuisance.

506.03.02 Clotheslines.

Clotheslines, clothing, or other household fabrics may not be placed, hung, dried, or aired so that they are visible from a public street.

506.03.03 Fences.

Fence height is regulated depending on where the fence is located on the property. No fence shall exceed eight (8) feet in height on the side or rear of the property. No fence shall exceed four (4) feet in height on the front of the property from the building line and shall be visually opened to the structure.

506.03.04 Portable Metal Carports and/or Sheds.

The Tri-Park Overlay District shall not permit the placement of

portable metal carports and/or sheds in the front and side yards of all Residential properties.

506.03.05 Garage Conversions.

The sole function of a garage is to house vehicles. Garages cannot be used as living quarters as they create a safety hazard to the occupant and the neighborhood. No garage may be converted or partitioned for providing additional habitable space unless approved by the City Inspection Department.

506.03.06 Garbage.

Uncollected and unwrapped garbage has visual and health impacts. To keep the Tri-Park Overlay District clean, garbage must not be allowed to accumulate in such a way as to create a fire, health, or other safety hazard. Trash shall be placed in garbage cans with tight fitting lids, plastic garbage bags or cardboard boxes. Leaves, yard clippings, pine straw, tree branches, shrubbery, cardboard boxes and brush shall be piled neatly at the garbage collection site. Discarded furniture, appliances with doors removed, water heaters, mattresses, bed springs, and other large objects shall be kept in a place not visible from the street until arrangements have been made with the city. The garbage site shall be either in the alley or front street whichever the city determines. Property owners or occupants are responsible for maintaining the garbage collection area in a clean and neat manner. A household shall not be allowed to have more than three (3) thirty (30) gallon containers of garbage per pick up day.

506.03.07 Home or Building Exteriors.

The property owner and/or tenant shall be responsible for the following: repair of broken windows; repair of ripped or torn screens; repair and replacement, if necessary, of exterior doors; elimination of aluminum foil from windows; maintaining the exterior wood surfaces to prevent the peeling of paint; treatment of wood destroying insects or rodent infestation; and treatment and repair of dry rot.

506.03.08 Interior Furniture Located Outside.

No one can keep any upholstered furniture not manufactured for outdoor use, including stuffed chairs, stuffed couches, mattresses and recliners in any front yard, side yard, rear yard, or any other area visible from the street.

506.03.09 Landscape.

The homeowner shall be responsible for the maintenance of all landscaping which shall be maintained in good condition so as to present a healthy, neat and orderly appearance and shall be kept free from overgrown vegetation, refuse or debris. Minimum landscape standards are as follows:

- a. Overgrown vegetation is characterized as thick weeds and grasses and shall not exceed six (6) inches in height. Overgrown trees, vines, shrubs may also be classified as overgrown vegetation. Overgrown vegetation is unsightly and can be a health hazard since rodents, snakes, and other pests are attracted to these areas. In the event that trees, shrubs, or other landscaped materials should die, such materials shall be removed and/or replaced within thirty (30) days.
- b. Fifty (50) percent of the front yard must be landscaped with grass. Fifteen (15) percent of the front yard may then consist of shrubs, flowers, and bedding plants that may also include decorative landscaping materials. A maximum of thirty-five (35) percent of the front yard may be used for parking.
- c. All landscaping must be maintained with regard to the mowing of grass, raking of leaves, and maintenance of landscape beds in the property.
- d. All landscaping must be maintained to insure its continued growth.
- e. Owners or occupants of lots in the City within this district abutting on any sidewalk shall not permit weeds, grass or any kind of vegetative growth to grow over and cover the sidewalk, whether paved or unpaved, on which lots may abut, whether lots or property are occupied or not, and it shall be the duty of every owner of property and occupants thereof to keep all sidewalks on which their property abuts free from weeds, grass or vegetative growth.
- f. All residential properties shall be brought into compliance with the terms of this part (Section 3, Paragraph 3) within six (6) months.

506.03.10 Littering.

No person shall litter in the Tri-Park Overlay District. Property owners and/or occupants shall have the responsibility to pick-up litter on their property. Property owners and/or occupants shall have the responsibility to pick-up litter in the streets of their properties.

506.03.11 Noise.

This section is intended to allow residents the quiet enjoyment of their homes. No person shall recklessly engage in or be responsible for loud or unruly conduct, which disrupts another person in his or her home.

- a. Loud Music: Music shall not be played loud enough to heard more than fifty (50) feet away.
- b. Loud Cars: Car radios and/or stereos shall not be played loud enough to heard more than fifty (50) feet away.
- c. Barking Dogs: Barking dogs shall not be allowed to disturb the neighbors by incessant barking.
- d. Yelling and Shouting: Yelling, shouting, hooting,

whistling, singing, or blowing horns on the public streets or at any time or place is not allowed.

506.03.12 Parking.

Motor vehicles must be parked on an all-weathered surface such as black top, brick, concrete, or gravel. Only runners made of an all-weathered surface shall be used for driveways and parking spaces located in the front yard. No vehicle shall be parked on the lawn, the yard, or the sidewalk. No motor home, trailer, water-craft, mobile home or aircraft, operable or inoperable, may be parked on front yard, side yard, or on the street for longer than three (3) days.

The Tri-Park Overlay District shall now prohibit the parking of advertised, commercial vehicles parked on city streets in the described boundaries during the weekday hours from 5 o'clock p.m. to 5 o'clock a.m. and on the weekends. This includes logging trucks, agricultural product trucks, and any other obviously commercial vehicle whether or not a company name appears on the vehicle. These types of commercial vehicles shall be parked in commercial zones or parked in residential driveways, carports or garages. No vehicle shall be parked on the lawn, the yard, or the sidewalk. Parking of emergency or "on-call" vehicles on the city streets may be considered and allowed on a case to case basis provided there is no possible way the vehicle can be parked off-street, but this allowance is not taken to allow such parking when the vehicle is not "on-call" nor does it allow parking that causes a traffic obstruction.

506.03.13 Animal Control.

Dogs must be leashed at all times while outside a secured area. No dog may be permitted to run at large. Dog owners are responsible for picking up their own pet's feces and disposing of them properly in a trash receptacle. Any and all damages caused by a pet are the responsibility of the pet owner.

Incessant barking or other excessive or persistent noise is not permitted. Dogs must not be left outside unattended except within the confines of a proper fence or an invisible fence that has been installed. No chained dogs shall be permitted. No animals, livestock, or poultry of any kind shall be raised, bred or kept on any of said property, except that dogs, cats, or other household pets may be kept provided they are not kept, bred or maintained for any commercial purposes. These requirements shall be brought into compliance within six (6) months.

506.03.14 Residential Occupancy.

Each home shall have at least one hundred fifty (150) square feet of floor space for the first occupant and at least a hundred (100) square feet of floor space for each additional occupant. Every room occupied for sleeping purposes shall have at least seventy (70) square feet for one occupant and every room occupied for sleeping purposes by more than one occupant must have at least fifty (50) square feet of floor space for each occupant. No basement or cellar space shall be used as livable space unless it meets certain city building requirements.

506.03.15 Garage Sales.

No one shall hold more than two (2) garage sales a year. A garage or home sale cannot last more than four (4) days. A garage sale must be conducted in a home, garage, yard, accessory building, or driveway.

506.04 Enforcement Provisions.

The enforcement provisions for these specific codes will be addressed and determined in accordance to Ordinance No. 1287-1997m with all applicable existing amendments, known as an Environmental Court Ordinance, which will allow certain ordinances and sections of the Laurel Code of Ordinances for the City of Laurel to be enforced by said municipal court after issuance of a municipal offense ticket.

SECTION 507. DOWNTOWN SOCIAL DISTRICT

507.01. Creation and Designation of Leisure and Recreation District

- A. Pursuant to the authority granted in Section 1 of Senate Bill 2612, 2017 Regular Session of the Mississippi Legislature, there is hereby created a “Leisure and Recreation District (District)”, within the corporate limits of the City of Laurel
- B The previously mentioned District shall be known as the “Downtown Social District” and shall be further defined by a line running as follows:

Beginning at the intersection of 5th Street and 6th Avenue and running easterly along 5th Street/Sawmill Road to the intersection of Spec Wilson Boulevard, thence running southwesterly along Spec Wilson Boulevard to the intersection of Carroll Gartin Boulevard, thence running northwesterly along Carroll Gartin Boulevard to the intersection of Leontyne Price Boulevard, thence running northerly along Leontyne Price Boulevard/6th Avenue to

the Point of Beginning.

C. The Newly created District is geographically represented by a map attached hereto.

The map is available upon request.

507.02. Rules and Regulations to Be Observed within the District

Any on premise retail alcoholic beverage permittee (herein “permittee”) located within the above described district shall comply with all laws, rules and regulations, which govern its license type, except that a patron, guest or member of the licensee may remove an open container of alcoholic beverage and wine from the licensed premises and may possess and consume the alcoholic beverage and wine outside of a licensed premise anywhere within the boundaries of the District subject to the following regulations:

1. A person may not enter a licensed premise with an alcoholic beverage whether acquired at that licensed premises, or elsewhere.
2. A permittee located in the District shall allow alcoholic beverages to be removed from the licensed premises only in a paper or plastic cup, not larger than 16 fluid ounces in size, and no such alcoholic beverage

shall be removed from the licensed premises in a can, bottle, glass container or other container, except as otherwise allowed by law.

3. Within the boundaries of the District, a permittee may allow light wine and beer to be removed from the licensed premises in a paper or plastic cup, not larger than 16 fluid ounces in size. All requirements and provisions of this Ordinance regarding alcoholic beverages shall also apply to light wine and beer.
4. No permittee shall allow a patron, guest or member to exit its licensed premises with more than one open container of alcoholic beverages, and it shall be unlawful for any person to exit such licensed premises with more than one open container of alcoholic beverage.
5. Permittees located in the District shall post, at all points of egress from the licensed premises, a map of the boundaries of the District in which it is located. This map shall be provided, either in electronic or paper form, to permittees by the City upon request of the permittees. The map is available upon request.
6. Nothing in this ordinance shall be construed to require a permittee located in the District to allow its patrons to remove alcoholic beverages or wine, in open containers, from the licensed premises.
7. All ordinances or any parts thereof in conflict with this ordinance are hereby declared to be inapplicable within the geographic boundaries of the District.

SECTION 602. GENERAL SIGN REGULATIONS.

602.01. General Description.

The purpose of this Section is to establish general requirements which regulate the type, location, height and size of specific signs and outdoor displays as they relate to the *Zoning Ordinance of the City of Laurel, Mississippi*.

The following signs and/or sign regulations are allowable and shall apply as described, in addition to any other more specific sign standards of the City of Laurel.

- 602.01.01 A permit application is required when any owner, authorized agent, or contractor desires to construct, enlarge, alter, repair, move, or change a sign on a building or location on the premise and said person shall first make application to the Inspection Department and obtain the required permit for the work. **EXCEPTION:** Permits shall not be required for regular maintenance to an existing sign, such as cleaning and repainting, or to replace a face with the same identical contents.

- 602.01.02 Therefore, a permit is required for all sign installation including permanent ground, wall, marquee, canopy, roof and trailer/portable signs, except for those signs two (2) square feet or less in size and designed for identification purposes only.
- 602.01.03 The permit fee for a sign valued at Five Hundred Dollars (\$500.00) or less shall be one-half (½) of the minimum fee for a building permit. The permit fee for all other signs shall be based on the building permit fee schedule. However, a sign permit shall become null and void if (1) the work for which the permit was issued has not been completed within a period of six (6) months after the date of the permit; (2) the sign varies in any respect from the approved design or location. A new sign application with fee is required in the event of any nullification.
- 602.01.04 No permit is required for advertising banners; however, the use of advertising banners is limited as follows:
- (1) Banners are allowed for special events, as defined by the Zoning Ordinance. Banners are not considered permanent signs and may not be used indefinitely or in lieu of permanent signs.
 - (2) Advertising banners may only remain in place during a specified special event and must be removed at the conclusion of that event. No banner may remain on site for more than thirty (30) days at a time. The use of banners is limited to two (2) banners per site.
 - (3) Banners must be kept in good repair and must not be allowed to become damaged or dilapidated. Any banner that is not in good repair must be replaced immediately. If a banner becomes damaged prior to the conclusion of the special event, another banner may be installed but no additional time is granted for the replacement banner. No banner can be located on any property without the prior consent of the property owner. No banner or advertising material may be placed on any tree, bush, shrubbery, utility pole, traffic sign, fence or street marker on public right-of-way.

602.02. Commercial Signs Within Fifty (50) Feet of Residentially Zoned Properties.

Signs located within fifty (50) feet of R-1 or R-2 Residential Districts shall not exceed fifteen (15) feet in height, thirty (30) square feet in area, and one hundred (100) footlamberts in

luminance to be directed away from said residential area, or shall adhere to the commercial district regulations, whichever is more restrictive.

Source: Ordinance No. 1056-1986, 8-6-85

602.03. Trailer/Portable Signs.

Trailer and/or portable signs are permitted in certain zoning districts of the City as designated in this Ordinance and shall conform to the following:

602.03.01 Trailer/portable signs shall not be permitted in a Residential District or Commercial C-1, C-1A, C-1B and C-4 Districts, except that a religious institution may place a temporary trailer/portable sign on its premises after securing a permit and provided said sign conforms to the provisions of this Ordinance. The use of such temporary sign may not exceed thirty (30) days and not more than two (2) separate occasions during a twelve (12) month period.

602.03.02 A permit, which must be renewed annually, is required before the placing of any trailer/portable sign and the permit number shall be painted on or otherwise affixed to the sign. The permit fee for a trailer/portable sign shall be one-half (1/2) the minimum fee for a Building Permit as established by the City Council at the time of application for said permit. Both the owner of the sign and the person installing the sign are responsible for the permit. If any sign is placed without an approved permit or placed in an illegal location or is abandoned, the City shall give notice to the apparent owner of the sign to correct such violation. If the violation is not corrected by the specified time, the City shall remove the sign and hold it until the fine and/or moving fee are paid.

602.03.03 Trailer/portable signs shall be allowed only when in compliance with all applicable provisions of the National Electrical Code (latest adopted edition) and in addition shall meet all the following requirements:

The internal wiring of an outdoor sign that is portable or mobile and is readily accessible shall be supplied from, and protected by, ground-fault circuit-interrupters identified for use with portable electric signs, thereby providing protection for personnel. The required ground-fault circuit-interrupter shall be permitted on or within the sign as an integral part of the attachment plug or the supply plug connected to the sign. Conductive supports of a sign covered by this Section shall be considered part of the sign.

The electrical supply cord shall not exceed eight (8) feet in length and, in no instance, shall any exposed supply cord be placed across any pedestrian walkway, such as a sidewalk, or any vehicular driveway.

- 602.03.04 No sign shall be located so as to interfere with driver visibility of the streets, roads or thoroughfares or the visibility of any traffic control device or sign. Any sign maintaining less than seven (7) feet of vertical clearance between the sign display surface and the ground shall be set back at least twenty (20) feet from the intersection right-of-way line of two (2) streets. See diagram below.
- In addition, when the location is not at an intersection, all trailer/portable signs shall be set back ten (10) feet from the curb, or, in the absence of a curb, fifteen (15) feet from the edge of the street pavement; however, in no event is the sign to be placed on public property or right-of-way. The Superintendent of Inspection shall have the power to order the removal or relocation of any sign found to interfere with driver visibility.
- 602.03.05 Signs shall either be so designed or anchored to the ground in such a manner as to prevent them from being blown over in a sixty (60) mile per hour windstorm, as per the Standard Building Code.
- 602.03.06 No sign shall contain any exposed lightbulb which emits white light or contain any flashing, chasing, pulsating or oscillating lights. All exposed bulbs shall be color coated and shall not exceed sixty (60) watt bulbs.
- 602.03.07 No sign shall be placed on public right-of-way or on other public property without written consent from the owner. No off-premise sign shall be permitted without written consent of the property owner.
- 602.03.08 Only one (1) trailer/portable sign shall be allowed per business and the square footage of a trailer/portable sign shall be considered as part of the square footage for ground mounted signs as per other Sections of this Ordinance; however, in the event there is more than one (1) business on one (1) premise, an additional trailer/portable sign shall be allowed for each four hundred (400) linear feet of street frontage in excess of the first four hundred (400) linear feet of street frontage, with each trailer/portable sign to be spaced at least four hundred (400) feet apart. This limitation applies regardless of the number of businesses per premise.
- 602.03.09 No trailer/portable sign shall exceed thirty-two (32) square feet in area.
- 602.03.10 All trailer/portable signs now in use shall be brought into conformance with the provisions of 602.03.01, 602.03.02, 602.03.04, 602.03.05, 602.03.06, 602.03.07, 602.03.08 and 602.03.09 within ninety (90) days from the date on which this Ordinance goes into effect. All trailer/portable signs now in use shall be brought into conformance with the provisions of 602.03.03 within six (6) months from the date on which

this Ordinance goes into effect.

602.04. Signs or Sign Conditions Not Permitted.

Following is a list of those signs and/or sign conditions which are not permitted within the City of Laurel, Mississippi

- 602.04.01 Any sign which by reason of size, shape, content, coloring, location or manner of illumination interferes with driver visibility of any traffic control device or sign. Any sign which resembles any traffic control or emergency device or sign which creates any traffic hazard is not allowed.
- 602.04.02 Any sign not permanently attached to the ground or to a building, such as "A" Frame or Sandwich Board, Sidewalk and Curb Signs.
- 602.04.03 Any sign which:
 - a. Bears or contains statements, words or pictures of an obscene, pornographic, immoral character, or which contains advertising matter which is untruthful;
 - b. Emits audible sound, odor or visible matter.
- 602.04.04 Any sign with flashing, chasing, pulsating, and/or oscillating lights.
- 602.04.05 Any sign or any type of advertising material including political signs, written on or affixed upon any tree, bush, shrubbery, utility pole, traffic sign, fence or street marker on public right-of-way.

Source: Ordinance No. 1348-1999, §I, 8-17-99

- 602.04.06 Any sign placed on, in or over any private property without the written consent of the property owner; nor shall any sign be placed on, in, or over any public property including public right-of-way without the written consent of the public authority having jurisdiction over the property.

602.05. On-Premise Sign Regulations.

For the purpose of this Ordinance all uses that may be made of land within the City of Laurel shall be considered to be contained in one (1) of these ten (10) categories. These categories group the zoning classifications as established in the cited Zoning Ordinance. Particular uses included in each category shall be as defined herein. Sign standards for uses not specifically mentioned shall be the same as for the most similar use noted. The seven (7) major categories of land use in the City of Laurel are as follows:

- 602.05.01 Lower Density One-Family and Two-Family Residential Uses (R-1, R-2).
- 602.05.02 Medium-Higher Density Multi-Family and Mobile Home Residential Uses (R-3 and R-4).
- 602.05.03 Restricted Commercial Use (C-1).
- 602.05.04 General Commercial Use (C-2).
- 602.05.05 Heavy Commercial Use (C-3).
- 602.05.06 Reserved.
- 602.05.07 Industrial Uses (I-1 through I-3).
- 602.05.08 Professional Office Use (C-1A).
- 602.05.09 Medical/Professional Commercial Use (C-1B).
- 602.05.10 Central Business District Use (C-4).

Each use is allowed a maximum of one (1) ground-mounted and one (1) building-mounted sign per street frontage, except for wall signs for commercial and industrial uses which shall not be limited in number, but shall not exceed the total allowable area. Height, area and location are to be regulated as set forth for the particular use category.

602.06. Principal Land Uses Determined.

In a complex of various uses such as an office building or shopping center, the use of the property to be used in determining the sign standards to be complied with shall be the "principal use." In such complexes the principal use shall be allowed one (1) ground-mounted sign and one (1) building-mounted sign per street frontage, and each separate use located within the complex shall be allowed one (1) building-mounted wall sign per street frontage. The combined total sign area for individual businesses within a premises or complex shall not exceed the total allowed wall and ground-mounted sign area permitted in this Ordinance.

602.07. Criteria in Determining Area.

Premises fronting on more than one (1) public right-of-way shall not combine permissible sign area of one (1) frontage with that of another frontage, except that premises fronting on corner streets may combine permissible sign area on one (1) frontage if it does not exceed the maximum allowable sign area of that zoning classification.

Source: Ordinance No. 1056-1985, 8-6-85

602.08. Criteria in Determining Setback.

Signs shall be so constructed so as to permit adequate driver visibility of any traffic control device or sign, and of the street, road, thoroughfare or expressway. Ground-mounted signs maintaining less than seven (7) feet of vertical clearance between the sign display surface and the ground shall be set back at least twenty (20) feet from the intersecting right-of-way line of two (2) streets. In addition, all ground-mounted signs shall comply with the setback provisions for on-premise and off-premise signs, as stated in this Article.

Source: Ordinance No. 1056-1985, 8-6-85

602.09. Rotating Signs.

One (1) rotating ground-mounted sign is permissible only on a corner lot and only when it replaces or substitutes for the two (2) ground-mounted signs allowable per corner lot street frontage, subject to the restrictions on rotating signs as stated within the zoning categories of this Article. Rotating signs shall not rotate at a rate of more than six (6) revolutions per minute.

602.10. Projecting, Marquee and Under the Canopy Signs.

Projecting, marquee and under the canopy signs shall be at least eight (8) feet at their lowest levels above the street or ground level, and shall not project over a sidewalk or other public property nor project by more than five (5) feet beyond the building line. The criteria for sign area of each sign type is as follows:

- 602.10.01 Projecting Sign: Formula for area is as follows: forty (40) square feet plus one (1) square foot for each one (1) foot of building height, not to exceed eighty (80) square feet in area.

- 602.10.02 Marquee Signs: The sign area of marquee signs shall be included within the maximum area for wall signs and said total shall not exceed the designated area of the respective zoning classifications, as stated in this Article.

- 602.10.03 Under the Canopy Sign: The sign area of canopy signs shall not exceed twenty (20) square feet.

The provisions for sign area shall apply to each side of the sign. No projecting, marquee or canopy sign shall project within two (2) feet of the street curb.

601-12-12 DIGITAL SIGNS

A. DEFINITION

A digital sign is any sign having the capacity to display a message on the face or facing of a sign by manipulation of light projected onto a screen or otherwise produced within the screen. Digital signs include those using LED Technology, Plasma Technology, or any similar method/technology to produce the same results as LED or Plasma. This type of sign will be referred to throughout this section as a “digital sign.”

B. APPROVAL /PERMITTING

Placement of digital signs is regulated by this section. Approval and permitting of digital signs will be by the City of Laurel Inspection Department and will require Mississippi Department of Transportation (MDOT) approval on sites on any roadway within the City limits over which MDOT retains primary jurisdiction. All permits for digital signs are subject to a review by the City of Laurel as to location in order to preserve the public health, safety and welfare of the community.

Source: Ordinance No. 1565-2010, 7-27-2010 remembered; Ordinance No. 1577-2011, 6/7/2011; Ordinance No., 1587-2012, 2-21-2012; Ordinance No. 1666-2017, 9-5-2017

C. PLACEMENT AND SIZE

Placement of digital signs is allowed in C-2, C-3, I-1, I-2 or I-3 zones and is considered an “Interstate Outdoor Advertising Device” when adjacent to a highway right of way. Signs may be no larger than 360 square feet and no taller than 40 feet within the City’s corridors and no taller than 60 feet when located on Interstate frontage. Sign orientation: Digital signs shall be oriented away from residentially zoned districts and toward nonresidential districts.

Digital billboards may not be located closer than 1000 feet from any other billboard. On-premise digital signs or digital signs other than those classified as a billboard may not be located closer than 250 feet from any other digital sign located on the same side of the street.

Framing/housing of digital signs may be no larger than 360 square feet and no taller than 40 feet within the City’s corridors or no taller than 60 feet when located on Interstate frontage.

D. SPECIFIC REGULATIONS

1. The display change time shall not exceed (1) second with duration of each display being no less than (8) seconds. Digital signs shall contain a default design that will freeze the display in one static position if a malfunction occurs. The owner of every permitted Digital sign will provide the City of Laurel and/or MDOT (where applicable) with an on-call contact person and phone number in regard to each permitted digital sign. The contact person must have the authority and ability to make immediate modifications to the displays and lighting levels when the need arises.
2. Displays shall not create excessive brightness or glare. Such displays shall contain static messages only. Movement is not allowed. Movement in this context is defined as the appearance or illusion of movement, either text or images, on any part of the sign including but not limited to the structure, design, or pictorial segment of the sign. This includes movement of any illumination or flashing, scintillating or varying of light intensity.
3. The digital sign must have capability to adjust its intensity in response to ambient lighting conditions. Signs shall not be erected or maintained unless effectively shielded so as to prevent beams or rays of direct or reflected light from being directed at any portion of the street or roadway. They shall not have such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle. Should the governing authority and/or MDOT (where applicable) determine that the sign or any display or effect of the sign causes glare or in any way impairs the vision of the driver of any motor vehicle or that the display otherwise interferes with the operation of a motor vehicle, then upon request the owner of the sign shall immediately reduce lighting intensity of the sign to an acceptable level. "Immediately" in this context shall mean that the owner shall promptly and diligently begin and complete modifications as soon as he/she is advised of the problem. Should the malfunction pose a hazard to the safety of the traveling public, the sign shall be turned off upon arrival by the owner or its maintenance personnel until such repairs can be made. Failure to reduce lighting intensity on request shall be cause for revocation of the permit.
4. The maximum brightness for digital signs shall not exceed an illumination of 5,000 NITS (candelas [the basic unit of luminous intensity] per square meter) during daylight hours nor 1,000 NITS (candelas per square meter) during the period from sunset to sunrise, as measured from a sign face at maximum brightness. Each digital sign shall have an automatic dimmer control to produce a distinct illumination change from a higher illumination level to a lower one for the period of time from sunset to sunrise. Each sign must appropriately, automatically, and individually adjust display brightness to conform with applicable brightness specifications as ambient light levels change at each such sign location due to sunrise, sunset, prevailing weather conditions, or otherwise.
5. No conventional sign structure can be converted to a digital sign unless the site is located in a C-2, C-3, I-1, I-2, or I-3 site which has been approved by the City for digital sign placement. Nonconforming, grandfathered, or illegal sign structures may not be retro-fitted with a digital sign.

6. Conversion to a digital sign will require approval and issuance of a permit. No retro-fitted digital sign may be placed on permitted, conforming structures without first being approved in advance by the City of Laurel and MDOT (where applicable).

E. CONFLICTS

Any conflicts with this section shall be handled in the manner found under ARTICLE VIII ADMINISTRATION, Section 803.04 APPEAL

602.13.1 Definitions.

Animated Sign: Any sign which includes action or motion, either electronic, mechanical or optical.

Awning Sign: A sign that is either attached to, affixed to, painted or printed on an awning.

Banner Sign: Any sign non-permanent advertising devise, usually made of cloth or vinyl, which is suspended from a building or is suspended between two poles. Banners shall not be considered permanent signs and may not be used in lieu of permanent signs. The use of banners is regulated under Section 602: General Sign Regulations, Subsection 602.01.04.

Billboard: Any structure, or portion thereof, situated on private premises, on which lettered, figured or pictorial matter is displayed for advertising purposes, except the name and occupation of the user of the premises, the nature of the business conducted on the premises or the products primarily sold or manufactured on the premises and having an area of 100 square feet or more. Any signboard carrying a message except in this definition which also carries extraneous advertising of 100 square feet or more shall be considered a billboard. This definition shall not include any board, sign or surface used to display any

official notices issued by a court or public duty, or bulletin boards used to display an announcement of meetings to be held on the premises on which such bulletin boards are located, not shall it include a real estate sign advertising for sale or rent the property upon which it stand when such sign does not exceed 100 square feet.

Canopy Sign: A sign mounted on a permanently roofed shelter covering a sidewalk, driveway, awning, portions of a roof or other similar area, which is wholly or partially supported by the building and may be partially supported by columns, poles, or braces extending from the ground.

Construction Sign: A temporary sign identifying the architects, engineers, contractors, and other persons involved in a construction project as well as the project itself.

Corridor/Gateway: A main strip of passageway, entrance or exit, used for public transportation.

Directional Signs or Symbols: Any sign which serves the sole purpose to designate the location or direction of a place or area.

Flag: Any official flag of any city, state, organization or military unit within the United States as well as the flags of the United State of America.

Ground-Mounted Sign: Any detached sign connected to the ground which is not an attached sing, inclusive of signs on movable objects and erected on a free-standing frame, mast or pole, which is not attached to any building.

Hanging Sign: A sign which hangs from and under awnings, canopies, marquees or other structures. Hanging signs are similar to, but typically smaller than, projecting signs.

Marquee Sign: Usually a glass or metal canopy sign over an entrance of a structure advertising a specific usage.

Monument Sign: A freestanding sign with a base affixed to the ground, where the length of the base is at least two-thirds (2/3) the horizontal length of the monument.

Multi-tenant Sign: A building sign which has the name and address of the building along with the names and tenants and/or individual professional offices.

Off-site Sign: A sign which advertises an activity, business, product or service not conducted on the premises on which the sign is located.

Political Sign: A temporary sign erected to publish the name of a candidate or to

enlist votes in any official public election.

Portable Sign: Any sign not permanently attached to the ground or a building and which is designed or constructed to be moved on a trailer, wheeled carriage or other non-motorized mobile structure. A portable sign which has its wheels removed shall still be considered a portable sign.

Projecting Sign: A sign that is attached to a building in a perpendicular manner and which extends more than twelve (12) inches from the wall surface.

Real Estate Sign: Any sign pertaining to the sale, lease, or rental of real property (land and buildings).

Roof Sign: Any sign or outdoor advertising device attached to the roof of a building.

Rotating/Revolving Sign: Any sign revolving or spinning in the action or process of rotating on or as if an axis or center. A rotating/revolving sign, specifically that of a striped barber pole, is allowed only in conjunction with a barber shop.

Sign: Any device, light, figure, picture, letter, word, message, symbol, plaque, or poster visible from outside the premise on which it is located and designed to inform or attract the attention of persons not on that premise, excluding searchlights, flags, streamers, pennants, balloons, and other similar devices.

Special Purpose Sign: A sign temporarily supplementing the permanent signs on a premise.

Window Sign: Any sign that is applied to the glassed area of a building or located such that the message, symbol, insignia, visual representation, logo, or other materials which communicate information can be read from off the property.

602.13.3 Signage

The following additional sign standards shall apply to the aforementioned areas:

A. Ground-Mounted Signs

1. **Size and Number:** Either one ground sign or one projecting sign is permitted per business property. The maximum size of a ground sign is thirty-two (32) square feet. The maximum height of a ground sign is eight (8) feet as measured from the ground at the base of the sign structure to the uppermost portion of the sign.
2. **Placement:** Ground signs may be placed no closer than fifteen (15) feet to any edge of curb or street right-of-way, and no closer than five (5) feet to any side or rear property line.
3. **Setbacks:** Front setback shall be a minimum of fifteen (15) feet; side setbacks shall be a minimum of fifteen (15) feet; rear setbacks shall be a minimum of twenty-five (25) feet.
4. **Lighting:** Internally-illuminated signs are permitted. Electronic message signs are permitted, subject to special conditions which make them more compatible with the character of an historic downtown and less intrusive to the neighboring residential areas.
 - a. Full color displays are prohibited. Only amber or white Lights are permitted.
 - b. Moving video images are not permitted.
 - c. Blinking, flashing and scintillating messages are not permitted.
 - d. Electronic message signs may not be greater than forty percent (40%) of the total size of the ground sign.
 - e. Only one (1), two-sided electronic message sign is permitted per commercial development.
5. **Materials:** Sign materials and finishes should be compatible to the style of the building and the appearance of other site features. Signs should be professionally constructed using high quality materials such as metal, stone, masonry, or wood. If sign foam or other synthetic material is used, the finish should have the appearance of wood.
6. **Appearance:** Care should be taken in designing a sign which enhances the appearance of the site. Sign messages should be simple and easy to read. Signs should be constructed of new materials. Salvaged material may only be used if the design, construction and graphic quality of the finished sign product is indistinguishable from signs

- constructed of new materials.
7. Trailer/Portable signs are not allowed.
 8. Trailer/Portable signs and/or Blackboard signs shall not be converted to permanent signs.
 9. **Billboards** shall not be allowed in the gateway/corridor district and/or Central Business District Neighborhood.
 10. Other prohibited signs:
 - a. No commercial off-premise advertising signs shall be allowed.
 - b. No non-commercial off-premise advertising signs shall be allowed.

B. Building-Mounted Signs

1. Size and number: The maximum sign area is equal to one square foot per linear foot of the length of the wall to which it is attached. More than one wall sign is permitted, provided the total area of all signs does not exceed the maximum sign area. Height shall not exceed the top wall line of the building.
2. Placement: Wall signs may be placed no more than twelve (12) inches from the edge of the building wall.
3. Lighting: Internally-illuminated signs are not permitted. Signs may be illuminated using spotlights placed above or below the sign. Said spotlights shall be directed toward the sign in such a way as to illuminate only the wall sign.
4. Roof signs are not allowed.
5. Marquee signs are allowed with maximum included in wall sign area.
6. Canopy signs are allowed but not to exceed eight (8) square feet.
7. Animated signs are not allowed.
8. Rotating signs are not allowed.
9. Rummage/Garage/Yard Sale signs are not allowed.
10. Special Purpose signs are not allowed.
11. Materials: Wall signs should be professionally painted on a building façade or professionally constructed using high-quality materials such as metal or wood. Glass, acrylic or fiberglass panels are also permitted. If sign foam or other synthetic material is used, the finish should have the appearance of wood.
12. Appearance: Care should be taken in designing sign which references the building style and enhances the appearance of the site. Wall signs shall be designed to be compatible with the building in scale, proportion, form, and color. Wall signs shall be mounted in locations that respect the design of a building, including the location and arrangement of bays and openings (doors and windows). Wall signs should not cover window openings or architectural/ornamental features.

C. Hanging Signs

1. Size and number: The maximum size of a hanging sign is four (4) square feet. Either one hanging sign or one projecting sign is permitted for each business/storefront.
2. Placement: Hanging signs shall be placed no lower than eight (8) feet above the sidewalk. Hanging signs are typically oriented to pedestrian customers, though with proper placement, they can also be highly visible to motorists.
3. Lighting: Internally-illuminated signs are not permitted. Signs may be illuminated using spotlights placed above or below the sign. Said spotlights shall be directed toward the sign in such a way as to illuminate only the hanging sign.
4. Materials: Sign materials and finishes should be compatible to the style of the building. Hanging signs should be professionally constructed using high-quality materials such as metal, stone, or wood. If sign foam or other synthetic material is used, the finish should have the appearance of wood/natural materials.
5. Appearance: Care should be taken in using forms and colors which reference the building style or the nature of the business and enhance the appearance of the site. Signs which use geometric shapes, natural forms and simple graphic elements are interesting to look at and easy to read.

D. Projecting Signs

1. Size and number: The maximum size of a projecting sign is six (6) square feet. Either one projecting sign or one hanging sign is permitted for each business/storefront. Either one ground sign or one projecting sign is permitted per business property.
2. Placement: Projecting signs shall be securely mounted on the building façade no lower than eight (8) feet above the sidewalk. The top of a projecting sign shall be no higher than twenty (20) feet above the sidewalk and/or shall not extend above the top of the building façade. Projecting signs may be placed over public sidewalks but shall not be placed over a street right-of-way or alley. Projecting signs shall be placed in locations that are highly visible to pedestrians and motorists.
3. Lighting: Internally-illuminated signs are not permitted. Signs may be illuminated using spotlights placed above or below the sign. Said spotlights shall be directed toward the sign in such a way as to illuminate only the projecting sign.
4. Materials: Sign materials and finished should be compatible to the style of the building. Signs should be professionally constructed using high-quality materials such as metal, stone or wood. If sign form or other synthetic material is used, the finish should have the appearance

of wood/natural materials.

5. Appearance: Care should be taken in using forms or colors which reference the building style or the nature of the business and enhance the appearance of the site. Signs which use geometric shapes, natural forms and simple graphic elements are interesting to look at and easy to read.

E. Awnings and Window Signs

1. Size and Number: Lettering, logos and symbols are permitted to cover up to forty percent (40%) of the sloped portion of the awning and valance portion of the awning. One awning sign is permitted for each business/storefront. Awnings shall conform to the size and shape of the window or door they are above. Overly large awnings and awnings with unusual shapes designed for the purpose of providing additional sign area are not permitted. No more than twenty percent (20%) of any window, including display windows, may contain a window sign or signs. No more than two (2) window signs may appear on any single window, and no more than four (4) window signs may appear on any single business/storefront. Open/closed placards, Chamber of Commerce memberships and credit card emblems should not be included in this calculation.
2. Placement: The uppermost part of an awning shall not be located more than two (2) feet above a window or door. Window signs may be placed in any location on a window.
3. Lighting: Back-lit awnings, which are internally-illuminated awnings made with translucent fabric with graphics or copy applied to the surface of the awning, are not permitted. Internally illuminated signs are not permitted to be used as window signs. Awning signs may be illuminated using spotlights placed above the awning and directed in such a manner as to illuminate only the awning sign. Neon signs are permitted to be used as window signs. One (1) neon window sign is permitted per business or storefront. In the case of corner businesses, one (1) neon window sign is permitted for each side fronting on a public street.
4. Materials: The lettering, logos and symbols contained in both awning and window signs shall be applied to or printed on the awning or window.

F. Multi-Tenant Buildings

Signs on multi-tenant buildings shall use uniform design elements such as color, lettering style, and placement. New signs proposed for existing multi-tenant buildings shall provide a compatible appearance with the existing signage of other tenants. Signage should be planned to create a unified

building appearance.

Individual tenant signs shall be mounted to the main sign and not hang from said sign. All tenant signs shall be identical in color and design. All letters shall be uniform in size and color for all tenant's name, with the background a uniform dark color. If more than one (1) sign is used as in the case of a site with two (2) frontages, both signs shall be uniform in color and design.

1. Twenty-five percent (25%) of the sign shall be used to identify the name of the business and/or the address of the building.
2. The remaining seventy-five percent (75%) shall be used to list the names of the tenants and/or businesses within the building.

G. Multi-Story Buildings

Wall signs and projecting signs are permitted on the building's first and second stories. Ground floor tenants should place signs at the storefront level.

602.13.4 Permit Required

- A. A permit application is required when any owner, authorized agent, or contractor desires to construct, enlarge, alter, repair, move, or change a sign on a building or location on the premise and said person shall first make application to the Inspection Department and obtain the required permit to work. **EXCEPTION:** Permits shall not be required for regular maintenance to an existing sign, such as cleaning and repainting, or to replace a face with the same identical contents.
- B. A permit is required for all sign installation including permanent ground, wall, marquee, canopy, roof and trailer/portable signs, except for those signs two (2) square feet or less in size and designed for identification purposed only.
- C. The permit fee for all signs shall be based on the building permit schedule. A sign permit shall become null and void if (1) the work for which the permit was issued has not been completed within a period of six (6) months after the date of the permit; of (2) if the sign varied in any respect from the approved design or location. A new sign application with fee is required in the event of any nullification.
- D. Signs not requiring permits:
The following types of signs are exempted from permit requirements but must be in conformance with all other requirements of this section and/or the general sign regulations.
 - (1) Construction signs.
 - (2) Directional/information signs of two (2) square feet or less.
 - (3) Individual political signs.
 - (4) Public signs or notices or any sign relating to an emergency.

- (5) Real estate signs.
- (6) Residence signs or street address numbers, not exceeding four (4) square feet in size.
- (7) Flags.

602.13.5 Maintenance

- A. All signs which are no longer functional or are abandoned shall be removed, or relocated, at the owner's expense, in compliance within the provisions of this Section after receiving proper notice of the Inspection Department and given thirty (30) days to comply with regulations following the disfunction of any sign.
- B. All outdoor advertising signs and sign structures shall be kept in repair and in proper state of preservation.
- C. Weeds and grass shall be kept cut in front of, behind, underneath, and around the base of the ground signs for a perimeter distance of ten (10) feet, and no rubbish or debris that would constitute a fire or health hazard shall be permitted under or near such a sign.
- D. All signs shall be constructed in accordance with the requirements of the City of Laurel, the International Building Code, 2018 Edition, with amendments and the National Electrical Code, 2014 Edition.
- E. No sign shall be suspended by nonrigid attachments that will allow the sign to swing in a wind. All free-standing signs shall have self-supporting structures erected on or permanently attached to concrete foundations. And all portable signs on display shall be braced or secured to prevent motion. Solid signs, and skeleton signs other than attached signs, shall be design to withstand a wind load according to the International Building Code, 2018 Edition, with amendments for our region.

602.13.6 Non-Conforming Signs

Any non-conforming sign in existence on the date of enactment of this Section (Ordinance No. 1551-2009) shall be considered a non-conforming sign and shall be subject to the following conditions:

- A. Where a legally allowed non-conforming structure, lot, or use exists, new signs shall conform to the district in which the property is located.
- B. The following signs are to be removed or made to conform to this Section within ninety (90) days:
 - 1. non-conforming signs made of paper, cloth, or other non-durable material;
 - 2. all temporary signs other than those permitted herein; and,

3. all existing billboards that are non-functional, or with expired lease agreements, or lease agreements that will expire within twelve (12) months at the passage of this ordinance.
- C. If any non-conforming sign is removed or destroyed, then the replacement sign shall be in conformity with the requirements of this Section.
- D. Where a material alteration occurs which necessitates the altering of a sign in any manner, the altered or changed sign shall be in conformance with the requirements of this Section.
- E. Upon failure to comply with the time specified, the Building Inspector or designated inspector from the Inspection Department is hereby required to cause removal as provided by law of such sign and any expense incident thereto shall be paid by the owner, agent or lessee of said sign or of the property upon which the sign is located.
- F. Existence of any non-conforming sign on the premises will prohibit issuance of further sign permits while non-conforming use exists.

SECTION 603. REGULATING COMMERCIAL USE OF ANTENNAS AND TOWERS.

603.01. Findings, Purpose and Intent.

The City of Laurel expressly finds that in order to protect the safety and welfare of its citizens, to protect adjacent property owners from damage by excessively tall, bulky or heavy antennas and towers mounted on insufficiently designed or constructed towers or masts and to insure the aesthetic value of the City is protected, it is necessary to regulate antennas and towers to be constructed in the City.

The purpose of these regulations are to facilitate the rapid expansion of the wireless telecommunications industry through the use of reasonable and nondiscriminatory policies designed to encourage growth and competition for the benefit of the citizens of the City of Laurel, but at the same time to protect the public against any adverse impact upon the City's aesthetic resources, avoid potential damage to adjacent properties from tower failure through structural standards and setback requirements, maximize the use of existing and approved towers and buildings through co-location, and protect the public health, safety, and welfare.

603.02. Definitions.

- (A) Amateur Radio Operator – A person who owns and operates an amateur radio and has a current federal license and has an antenna on his property that is under 70 feet in height, which is used exclusively by said operator for personal, non-commercial use or as a receive-only antenna.

- (B) Antenna – Any structure or device used for the purpose of collecting or radiating (receiving or transmitting) electromagnetic waves, including, but not limited to, directional antennas, such as panels, microwave dishes, satellite dishes, and omni-directional antennas, such as whip antennas.
- (C) Co-Location – The placement of any new antenna or tower on any existing structure or tower within the City so as to make maximum use of said existing structure.
- (D) Commercial Wireless Telecommunication Services – Licensed commercial wireless telecommunication services including cellular, personal communication services (PCS), specialized mobilized radio (SMR), enhanced specialized mobilized radio (ESMR), paging and similar services that are marketed to the general public.
- (E) FAA – Federal Aviation Administration.
- (F) FCC – Federal Communication Commission.
- (G) Governing Authority – Shall mean the City Council of the City of Laurel.
- (H) Grandfathered Towers and Antennas – Any tower or antenna existing on the effective date of this Article shall not be required to meet the requirements of this Article, other than the requirements of the Standard Building Code or the regulations of FAA. Any such towers or antennas that fail to meet requirements of this Article shall be referred to as “legal non-conforming” or “grandfathered” towers or antennas.
- (I) Height of Towers – The height of towers shall be determined by measuring the vertical distance from the tower’s point of contact with the ground or rooftop (whichever is greater) to the highest point of the tower, including all antennas or other attachments (as well as planned attachments). When towers or antennas are mounted upon existing structures, the combined height of the structure and tower must meet the height restrictions of this Article.
- (J) International Building Code, 2018 Edition - That Code which regulates construction in the City of Laurel, as currently existing or as may hereafter be amended.
- SOURCE: Ordinance No. 1633-2016. 3-22-2016; Ordinance No. 1705-2021, §I, 3-16-21*
- (K) Person – Any natural person, or partnership of two (2) or more persons having a joint or common interest, corporation, partnership, limited partnership, limited liability company, or other entity or form of entity,

including an association of persons or entities.

- (L) Protected Areas – Any property within the City that meets all of the following requirements:
1. The property is zoned and designated either R-1 (Low Density Residential), R-2 (Medium Density Residential), R-3 (High Density Residential-Restricted), R-4 (High Density Residential), C-1 (Restricted Commercial), or C-1A (Professional Office); or
 2. The property is used or subdivided for use as one of the aforesaid zoning designations; or
 3. The property is located in the Historic District.
 4. The property is zoned C-4 (Central Business District) and other property located in the Comprehensive Development Plan, known as Neighborhood #7 – Central Business District Neighborhood.
- Source: Ordinance No. 1317-1998, §1, 6-16-98*
- (M) Public Utility – Persons, corporations, or governments supplying gas, electric, transportation, water, sewer, or land line telephone service to the general public. For the purpose of this Ordinance, commercial wireless telecommunication services shall not be considered public utility uses, and are defined separately.
- (N) Satellite Dish – The term Satellite Dish shall be an inclusive term and shall mean any antenna designed to receive direct broadcast satellite service, including direct-to-home satellite services, video programming services via multipoint distribution services, including multichannel multipoint distribution services, instruction television fixed services, local multipoint distribution services or television broadcast signals, via direct or orbital satellite signals.
- (O) Tower – Any ground or roof mounted pole, spire, mast, structure, or combination thereof taller than 12 feet, including supporting lines, cables, wires, braces, and masts, intended primarily for the purpose of mounting an antenna, meteorological device, or similar apparatus above grade.

603.03. APPLICABILITY AND PROHIBITED ACTIVITY.

603.03.01 Prohibited Activity:

- (A) It shall be unlawful for any person to erect, construct in place, place or erect, replace, repair, or operate any tower within a Protected Area. See Definition K. *Source: Ordinance No. 1317-1998, §1, 6-16-98*

- (B) It shall be unlawful for any person to erect, construct in place, place or erect, replace, repair, or operate any tower without a permit from the City of Laurel in any other area of a zoning designation that is not a Protected Area. See Definition K.

Source: Ordinance No. 1317-1998, §I, 6-16-98

- (C) It shall be unlawful for any person to erect, construct in place, place or erect, replace, repair, or operate any tower that does not meet the height and other specifications of this Section.

Source: Ordinance No. 1301-1997, Art. VI, §603, 9-2-97

603.03.02 District Height and Space Limitations: The requirements set forth shall govern the location, installation and maintenance of towers that exceed twelve (12) feet in height above the ground's surface.

- (A) Buildings and structures other than towers will be regulated according to the yard requirements set forth in each designated zoning district. The height limitations applicable to buildings and structures shall not apply to towers and antennas.
- (B) In all Protected Areas (See Definition K) the maximum height of any tower, including all antennas and other attachments, shall be thirty (30) feet.

Source: Ordinance No. 1317-1998, §I, 6-16-98

- (C) In all other areas, the maximum height of any tower, including all antennas and other attachments, shall not exceed a maximum height of one hundred fifty (150) feet.
- (D) All towers shall be set back from all other property a distance of the height of the tower and all attached antennas plus ten percent (10%), unless the tower is a monopole construction with a collapsible design, in which event the setback requirements shall be the radius of the collapsed zone around the base plus five percent (5%).
- (E) Tower locations may not be closer than one-quarter (1/4) of a mile in any direction to another, except that the Inspection Department may grant a variance to this where two (2) separate providers need coverage in one area.

Source: Ordinance No. 1301-1997, Art. VI, §603, 9-2-97

603.03.03 Exemptions: This Article shall apply to all Satellite Dishes and other forms of Antennas and Towers located within the City of Laurel, except that the following shall be exempt from the requirements of this Article.

- (A) Any Satellite Dish as defined herein that is mounted at a height no greater than twelve (12) feet above grade (this measurement includes both the height of the mast or tower to which the antenna is attached as well as the height of the structure upon which it is mounted, such as a house, if applicable) that is designed to receive direct broadcast satellite service, including direct-to-home satellite service, that is one meter or less in diameter; or that is designed to receive video programming services via multipoint distribution services, including multichannel multipoint distribution services, instructional fixed services, and that is one meter or less in diameter or diagonal measurement.
- (B) Any antenna that is designed to receive a television broadcast signals that is mounted at a height no greater than thirty-six (36) feet from the ground for the personal use of the resident.
- (C) Any existing Amateur Radio Antenna or Tower, or the installation of any such Tower or Antenna that is under seventy (70) feet in height and location in the rear yard of a residence in a Protected Area and is owned and operated by an Amateur Radio Operator.
- (D) Any Grandfathered Towers and Antennas as defined herein. If one of these towers is replaced, added to or upgraded, the same shall be approved in advance by the Inspection Department.
- (E) Any City property, regardless of where the same is located.

603.04. PERMIT APPLICATION, FEES, PROCESSING AND APPEALS.

603.04.01 Permit: It shall be unlawful for any person to erect, construct in place, place or erect, replace, or repair any tower without first making application to the Inspection Department and securing a permit therefor as

provided herein and in compliance with the International Building Code, 2018 Edition, as amended, or most recent edition adopted.

Source: Ordinance No. 1474-2006, 9-5-06; Ordinance No. 1633-2016, 3-22-2016; Ordinance No. 1705-2021, §I, 3-16-21

603.04.02 Preliminary Site Approval: A person may seek preliminary approval of a site by the Inspection Department prior to completing the detailed application and paying the fees required below. The request to the Inspection Department must be in writing, which address shall require as a minimum the name, address, and telephone number of the person requesting a permit, the street address of the site, the name of the owner of the site, the proposed height of the tower and type of tower and uses of tower. The preliminary approval or disapproval of the site by the Inspection Department will not be determinative as to whether or not applicant is ultimately granted a permit to construct and operate a tower on said site.

603.04.03 Fees: The application shall be accompanied by a non-refundable fee of Five Hundred Dollars (\$500.00). Such fee shall be payable by a certified check, postal order or money order to the City of Laurel. Said fees may be periodically revised by the City Council as it deems necessary.

603.04.04 Application: Any application to the City of Laurel for a permit to erect, construct and place, replace or repair any tower (including personal wireless service facilities) in the City of Laurel shall contain the following minimum information:

(A) The names, address and telephone number of the person requesting the permit. The person named shall be a primary contact who has authority to act on behalf of the person or entity requesting the permit.

(B) A site plan which shall include the following:

1. street address and legal description of site;
2. property boundary lines and dimensions, available utilities, location of easements, roadways, rail lines and public rights-of-ways crossing adjacent to the subject property;
3. the proposed height, dimensions and arrangements of buildings and uses on the site;
4. the type and location of landscaping proposed for the site;
5. the locations of points of ingress and egress to and from the

site; and

6. location of any significant regrading of the site and alteration of any significant topographical or physical features, including water courses.

(C) The names and addresses of all adjoining land-owners on all sides of the site, including those across any street.

(D) A report from a qualified and licensed professional engineer which describes the following items as they relate to the various requirements of this Section.

1. the tower height and design, including a cross section and elevation;
2. a report demonstrating the tower's compliance with structural and electrical needs required by the City of Laurel International Building Code, 2018 Edition, as amended, or most recent edition adopted;

Source: Ordinance No. 1474-2006, 9-5-06; Ordinance No. 1633-2016, 3-22-2016; Ordinance No. 1705-2021, §I, 3-16-21

3. the height above grade for all potential mounting positions for co-located antennas and the minimum separation distances between antennas;
4. the towers' capacity, including the number and type of antennas that it can accommodate;
5. the co-location requirements in subsection 603.08;
6. an outline of the steps the applicant will take to avoid interference with established public safety telecommunications;
7. the type, wattage and other lighting specifications to be used on the site and the tower;
8. a description of the method of securing the site and the tower from vandals, curiosity seekers and unauthorized personnel; and
9. the stamp, registration number and signature of the engineer preparing the report.

- (E) Written authorization from the site owner allowing the application and the installation of said tower.
- (F) Proof that the proposed tower complies with regulations administered by the FAA as it affects towers in said location.
- (G) A letter of intent by the owner, for himself and successors, agreeing to allow the shared use of the tower by third parties upon agreement to reasonable terms and conditions for such use.
- (H) Any additional information that the City Council and Inspection Department may from time to time require.

- 603.04.05 Processing: Each application shall be processed within a reasonable period of time after the application has been filed. A permit or denial of permit shall be issued by the Inspection Department no later than thirty (30) days after the date on which the application was filed. The Inspection Department may extend the time period for considering said application beyond the allowed time in increments not to exceed thirty (30) days at a time if the Inspection Department finds that due to the nature and scope of the application additional time is required. The reasons for the additional time shall be provided to the applicant in writing. The Inspection Department may request in writing additional information from applicant, which request will suspend the time for granting or denying a permit.
- 603.04.06 Notice: Applicant must furnish proof that all adjoining landowners have been given written notice of his application. Inspection Department must give at least fifteen (15) days public notice by publication in the local newspaper that it is considering said application.
- 603.04.07 Objections: Any citizen may file objections to an application in writing with the Inspection Department. Said objections will be considered by the Inspection Department in passing on said application.
- 603.04.08 Permit Approval: If the Inspection Department decides to grant the permit, it will give applicant a written notice to proceed with its site plan and tower construction. Applicant will furnish a schedule of dates for completing each phase of the project and will give Inspection Department notice of the completion of each. Inspection Department will have forty-eight (48) hours to inspect each completion. Failure to inspect within said time will authorize applicant to proceed to the next phase. Inspection Department may stop the project by giving written notice of deficiencies. Inspection Department's failure to inspect or find deficiencies does not place any liability on the City of Laurel nor does it relieve applicant of all liability for any accident arising out of said construction or said tower.

Upon completion of all construction and after final inspection, Inspection Department will issue applicant a permit.

603.04.09 Permit Denial: If the application for a permit is denied then the denial shall be in writing setting forth each specific reason for the denial. Said reasons shall be placed in applicant's file in the records of the Inspection Department. The Inspection Department shall mail said reasons to applicant by certified U. S. Mail, return receipt requested. A denial will be supported by substantial evidence.

603.04.10 Appeals: Applicant may appeal a decision of the Inspection Department to the Planning Commission within ten (10) days after receipt of a written denial. Notice of appeal must be in writing and filed with the Inspection Department. The Planning Commission may hear said appeal after fifteen (15) days' public notice of the subject matter, time, date and place of the hearing to consider said appeal. An appeal from any decision of the Planning Commission shall be to the City Council as authorized by other articles of this Ordinance.

603.05. TOWERS; PERFORMANCE STANDARDS AND OTHER REQUIREMENTS.

603.05.01 Tower Construction Requirements. All towers erected, constructed, or located within the City, and all wiring therefor, shall comply with the requirements set forth in the International Building Codes, 2018 Edition, as amended, or most recent editions adopted.

Source: Ordinance No. 1474-2006, 9-5-06; Ordinance No. 1633-2016, 3-22-2016; Ordinance No. 1705-2021, §I, 3-16-21

603.05.02 Tower and Antenna Design Requirements:

(A) Towers and antennas shall be designed to blend into the surrounding environment, to the extent possible, unless the FAA or other federal or state authorities require otherwise or that the goal of the co-location would be better served by an alternate design. The use of color and camouflaging architectural treatment is encouraged and may be required in some area abutting residential areas or other areas of the city. The Inspection Department may, on a case-by-case basis, require specific colors or other kind of camouflage, such as landscaping, to insure that the aesthetic results compliment the surrounding area. The use of guyed wires is prohibited.

(B) Towers shall be of a monopole design unless the zoning authority

determines that an alternative design would better blend in to the surrounding environment.

- 603.05.03 Tower Lighting:
- (A) Towers shall not be illuminated through the use of artificial lights such as strobe lights or other lighting devices unless specifically required by the FAA or other state and federal government agencies. Light fixtures may be attached if it is part of the design incorporated into the tower structure to be used for the illumination of athletic fields, parking lots, streets or other similar areas. Lighting of the accessory buildings for basic security purposes is permissible but may not result in unnecessary glare on adjacent properties in residentially zoned areas.
 - (B) Should lighting be required by state or federal law the lighting they shall be placed on the tower and designed in such a way as to minimize the glare on adjacent residential properties. White strobe lights may not be used unless required.
- 603.05.04 Signs and Advertising: Towers shall not display signs or advertisements for commercial or non-commercial purposes, unless such signs are for the purpose of providing warning or specific equipment information.
- 603.05.05 Accessory Utility Buildings and Screening: All utility buildings and structures accessory to a tower shall be architecturally designed to blend in with the surrounding environment and shall meet the minimum setback requirements of the underlying zoning districts. Ground mounted equipment shall be screened from view by suitable vegetation, except where a design of non-vegetative screening better reflects and compliments the architectural character of the surrounding neighborhood. The Inspection Department may require additional screening or otherwise require design modifications to insure that the attractiveness and the aesthetic quality of the area is not adversely impacted.
- 603.05.06 Abandoned or Unused Towers: All abandoned, unused or obsolete towers and accompanying accessory facilities shall be removed by the property owner within twelve (12) months of cessation of use. In the event that a tower and its associated facilities are not removed within twelve (12) months of cessation of operations at a site, the tower and associated facilities may be removed by the City and the costs of removal assessed against the property.
- 603.05.07 Proof of Non-Interference: Each application for construction of a wireless telecommunication facility shall include either a preliminary or a certified

statement that the construction tower, including reception and transmission functions, will not interfere with the radio, television and public safety communications devices or other services enjoyed by adjacent residential and nonresidential properties. In the event only a preliminary statement is submitted with the application a final certified statement of non-interference will be provided and approved prior to issuance of a building permit. The certificate shall be certified by a licensed engineer.

- 603.05.08 Radio Frequency Emissions: Each application must show that any antenna placed on the tower meets state and federal regulations pertaining to non-ionizing radiation and other health hazards related to such facilities. If new or more restrictive standards are adopted then the antenna shall be made to comply or continued operation may be restricted.

603.06. SPECIAL USE PERMITS (VARIANCE).

- 603.06.01 General: if an applicant desires to build a tower or other antenna that exceeds the height, setback or other requirements herein, or if the applicant wishes to place a tower in a protected area (See Definition K), the applicant may apply for a special use permit or variance, provided the applicant can meet the other requirements of this Article. The following provisions shall govern the issuance of special use permits (variance).

Source: Ordinance No. 1317-1998, §I, 6-16-98

- (A) The applicant shall present sufficient evidence to support his need for a special use permit and the particular requirements from which he requests relief.
- (B) A variance or a special use permit shall be required for the construction, placement and operation of any tower or other antenna where either the site or the structure does not meet the requirements of this Article.
- (C) The Inspection Department shall consider each request for a variance on a case-by-case basis.
- (D) In granting a special use permit (variance), the Inspection Department may impose zoning conditions to the extent the Inspection Department concludes such conditions are necessary to buffer or otherwise minimize any adverse effect of the proposed tower on adjoining properties.

- 603.06.02 Factors Considered in Granting Special Use Permits (Variances): The Inspection Department shall consider the following factors in determining

whether to issue a special use permit (variance), although the Inspection Department may waive or reduce the burden on the applicant of one or more of the criteria, if, in the sole discretion of the Inspection Department, the goals of this Article are better served thereby:

- (A) Height of the proposed towers or antenna;
- (B) Proximity of the tower to residential structures and residential district boundaries;
- (C) Technical or engineering requirements limiting placement of the tower in other areas in order to provide coverage to a specific area;
- (D) Nature of uses on adjacent and nearby properties;
- (E) Surrounding topography, tree coverage and foliage;
- (F) Design of the tower, with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness; and,
- (G) Availability of suitable existing towers and other structures.

Source: Ordinance No. 1301-1997, Art. VI, §603, 9-4-97

603.07. INDEMNITY.

The owner of the tower and all communications service providers must file with the Inspection Department proof of either liability insurance or financial ability to respond to claims up to \$1,000,000.00 in the aggregate which may arise from operation of the facility during its life, at no cost to the City.

603.08. CO-LOCATION REQUIREMENTS WITH EXISTING TOWERS OR OTHER STRUCTURES.

- 603.08.01 All persons applying to erect, construct, or locate a tower or antenna within the City shall also consider the following requirements and either include them in their application or show cause why they cannot be included on that particular tower or site.
- 603.08.02 Any proposed tower shall be designed, structurally, electrically, and in all respects, to accommodate both the applicant's antennas and comparable antennas for at least two (2) additional users if the tower is over one hundred (100) feet in height or for at least one (1) additional user if over sixty (60) feet in height. Towers must be designed to allow for future

rearrangement of antennas upon the tower and to accept antennas mounted at varying heights. The applicant shall not unreasonably deny the right for other providers to co-locate in the future.

- 603.08.03 No new tower shall be permitted unless the applicant demonstrates to the reasonable satisfaction of the Inspection Department that no existing tower or other structure can accommodate the applicant's proposed antenna within a one mile search radius (one-half mile for towers under 120 feet in height, one quarter mile for towers under 80 feet in height) of the proposed tower. Evidence submitted to demonstrate that no existing tower or structure can accommodate the applicant's proposed antenna may consist of any of the following:
- (A) No existing tower is located within the geographic area required to meet applicant's engineering requirements.
 - (B) Existing towers or structures are not of sufficient height to meet applicant's engineering requirements.
 - (C) Existing towers or structures do not have sufficient structural capacity to support applicant's proposed antenna and related equipment and the existing or approved tower cannot be reinforced, modified, or replaced to accommodate planned or equivalent equipment at a reasonable cost.
 - (D) The applicant's proposed antenna would cause electromagnetic interference with the antenna on the existing towers or structures, or the antenna on the existing towers or structures would cause interference with the applicant's proposed antenna.
 - (E) The fees or costs required to share an existing tower or structure or to adapt an existing tower or structure for sharing are unreasonable. Costs exceeding new tower construction are presumed unreasonable.
 - (F) Property owners or owners of existing towers or structures are unwilling to accommodate reasonably the applicant's needs.
 - (G) The applicant demonstrates that there are other limiting factors that render existing towers and structures unsuitable.

603.09. PENALTY.

Any person who violates, neglects, or refuses to comply with, or who resists the enforcement of any of the provisions of this Article, shall on conviction be fined no more than Three Hundred Dollars (\$300.00) for each offense, or be imprisoned for ninety (90)

days, or both such fine and imprisonment. Each day that a violation is permitted to exist shall constitute a separate offense. In addition to the above penalty, the City may obtain an injunction for the purpose of enforcing the terms of this Article.

604. RESIDENTIAL FENCES AND WALLS.

604.01. Fences and Walls

Fences and walls in residential districts may be permitted in any required yard or along the edge of any yard provided that no fence or wall which is also a concealing fence and located in front of any front building line shall exceed four (4) feet in height and shall not exceed eight (8) feet in height on the side or rear yards. In a reverse frontage lot situation, the fence or wall which is also a screen located in the side yard abutting the rear of the lot shall not exceed six (6) feet in height. The lawful location and maintenance of fences and walls existing at the time of the passage of this Section may be continued, although such use does not conform with the provisions hereof, provided however, that no structural alterations may be made therein and the same may not be replaced without conforming to this Section.

604.02. Building Permit Required

Fences, walls, and other boundary structures require a building permit according to this ordinance and the International Building Code, 2018 Edition, as amended,

or most recent edition adopted, and any future editions and all commercial installers of these structures will be required to have a City Privilege License.

605. REGULATING THE LOCATION AND OPERATION OF ADULT ENTERTAINMENT ESTABLISHMENTS.

605.01.Purposes and Intent.

It is the purpose of this Ordinance to regulate sexually oriented businesses and related activities to promote the health, safety, morals, and general welfare of the citizens of the City of Laurel, and to establish reasonable and uniform regulations to prevent the deleterious location and concentration of sexually oriented businesses within the City. The provisions of this Ordinance have neither the purpose nor the effect of imposing a limitation or restriction on the content of any communicative material, including sexually oriented materials. Similarly, it is not the intent nor effect of this Ordinance to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. Neither is it the intent nor effect of this Ordinance to condone or legitimize the distribution of obscene materials.

The Mayor and Council find that such regulation would protect the health, safety, and welfare of the residents of the City of Laurel, Mississippi.

605.02.Definitions.

- (A) ADULT ARCADE means any place to which the public is permitted or invited wherein coin-operated or slug-operated or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images to five (5) or fewer persons per machine at any one time, and where the images so displayed are distinguished or characterized by the depicting or describing of “specified sexual activities” or “specified anatomical areas”.
- (B) ADULT BOOKSTORE or ADULT VIDEO STORE means a commercial establishment which, as one of its principal business purposes, offers for sale or rental any form of consideration, any one or more of the following:
 - 1. books, magazines, periodicals, or other printed matter, or photographs, films, motion picture, video cassettes or video reproductions, slides, or other visual representations which depict or describe “specified sexual activities” or “specified anatomical areas”; or

2. instruments, devices or paraphernalia which are designed for use in connection with “specified sexual activities”.

A commercial establishment may have other principal business purposes that do not involve the offering for sale or rental of material depicting or describing “specified sexual activities” or “specified anatomical areas” and still be categorized as ADULT BOOKSTORE or ADULT VIDEO STORE. Such other business purposes will not serve to exempt such commercial establishments from being categorized as an ADULT BOOKSTORE or ADULT VIDEO STORE, so long as it offers for sale or rental for consideration the specified materials which depict or describe “specified sexual activities” or “specified anatomical areas”. A principal business purpose need not be a primary use of an establishment, so long as it is a significant use. A significant use includes, but is not limited to, the following:

- 25% of commercial inventory; or
- 25% of gross sale; or
- 25% of commercial floor space

(C) ADULT CABARET means a nightclub, bar, restaurant, or similar commercial establishment which regularly features:

1. persons who appear in a state of semi-nudity; or

605.04. Permit and/or License Required.

- 605.04.01 It shall be unlawful for a person to operate a sexually oriented business without a valid permit and/or license issued by the Director.
- 605.04.02 An application for a permit and/or license must be made on a form provided by the City of Laurel. The application must be accompanied by a sketch or a diagram showing the configuration of the premises, including a statement of total floor space occupied by the business. The sketch or diagram need not be professionally prepared, but must be drawn to a designated scale or drawn with marked dimensions of the interior of the premises to an accuracy of plus or minus six inches (6”).
- 605.04.03 The applicant must pay a permit and/or license fee. The fee must be paid either in cash or by cashier’s check or money order made payable to the City of Laurel.
- 605.04.04 The applicant must be qualified according to the provisions of this Ordinance, and the premises must be inspected and found to be in compliance with the law by the health department, fire department,

building inspector and zoning official.

- 605.04.05 If a person who wishes to operate a sexually oriented business is an individual, he must sign the application for a permit and/or license as applicant. If a person who wishes to operate a sexually oriented business is other than an individual, each individual who has a ten percent (10%) or greater interest in the business must sign the application for a permit and/or license as applicant. If a corporation is listed as owner of a sexually oriented business, or as the entity which wishes to operate such a business, each individual having ten percent (10%) or greater interest in the corporation must sign the application for a permit and/or license as applicant.
- 605.04.06 The fact that a person possesses other types of state or city permits and/or licenses does not exempt him from the requirement of obtaining a sexually oriented business permit and/or license.
- 605.04.07 Application for a permit, whether original or renewal, must be made to the Director by the intended operator of the enterprise. Applications must be submitted by hand delivery to the office of the Director or the Director's designee during regular working hours. Application forms shall be supplied by the Director. The intended operator shall be required to give the following information on the application form:
- (A) the name, street address (and mailing address, if different), and Mississippi driver's license number of the intended operator;
 - (B) the name and street address (and mailing address, if different) of the owner(s);
 - (C) the name under which the establishment is to be operated and a general description of the services provided;
 - (D) the telephone number of the establishment;
 - (E) the address and legal description of the tract of land on which the establishment is to be located;
 - (F) if the establishment is in operation, the date on which the owner(s) acquired the establishment for which the permit is sought, and the date on which the establishment began operations as sexually oriented business at the location for which the permit is sought; and
 - (G) if the establishment is not in operation, the expected start-up date (which shall be expressed in number of days from the date of issuance of the permit). If the expected start-up date is to be more than ten (10) days following the date of issuance of the permit, then a detailed explanation of the construction, repair or remodeling work or other cause of the expected delay and a statement of the owner's time schedule and plan for accomplishing

the same.

605.04.08 The application shall be accompanied by the following:

- (A) payment of the application fee in full;
- (B) if the establishment is a Mississippi corporation, a certified copy of the Articles of Incorporation, together with all amendments thereto;
- (C) if the establishment is a foreign corporation, a certified copy of the Certificate of Authority to Transact Business in the State of Mississippi together with all amendments thereto;
- (D) if the establishment is a limited partnership formed under the laws of Mississippi, a certified copy of the Certificate of Limited partnership, together with all amendments, thereto;
- (E) if the establishment is a foreign limited partnership, a certified copy of the Certificate of Limited Partnership and the qualification documents, together with all amendments, thereto;
- (F) proof of the current fee ownership of the tract of land on which the establishment is to be situated, in the form of a copy of the recorded deed;
- (G) if the persons identified as the fee owner(s) of the tract of land in item (F) are not also the owners of the establishment, then the lease, purchase contract, purchase option contract, lease option contract or other document(s) evidencing the legally enforceable right of the owners of the establishment to have or obtain the use and possession of the tract or portion thereof that is to be used for the establishment for the purpose of the operation of the establishment;
- (H) any of items (B) through (G) above, shall not be required for a renewal application, provided the applicant states that the documents previously furnished the Director with the original application, or previous renewals thereof, remain correct and current.

605.04.09 The application shall contain a statement under oath that:

- (A) the applicant has personal knowledge of the information contained in the application and that the information contained therein and furnished therewith is true and correct; and
- (B) the applicant has read the provisions of this Article.

605.04.10 A separate application and permit shall be required for each sexually oriented business, regardless of the owner.

605.05. Fees.

The annual fee for a sexually oriented business permit and/or license is Five Hundred Dollars (\$500.00). This fee is to be used to pay for the cost of administration and enforcement of this Ordinance.

605.06. Issuance of Permit and/or License.

- 605.06.01 The Director shall approve the issuance of a permit and/or license to an applicant within thirty (30) days after receipt of an application, unless he finds one or more of the following to be true:
- (A) an applicant is under twenty-one (21) years of age;
 - (B) an applicant is a convicted felon;
 - (C) an applicant or applicant's spouse is overdue in his payment to the City of taxes, fines or penalties assessed against him, or imposed upon him;
 - (D) an applicant has failed to provide information reasonably necessary for issuance of the permit and/or license or has falsely answered a question or request for information on the application form;
 - (E) an applicant is residing with a person who has been denied a permit and/or license by the City to operate a sexually oriented business within the preceding twelve (12) months, or residing with a person whose license to operate a sexually oriented business has been revoked within the preceding twelve (12) months;
 - (F) the premises to be used for the sexually oriented business have not been approved by the health department, fire department, building inspector and zoning official, as to be in compliance with applicable laws and Ordinances.
 - (G) the permit and/or license fee required by this Ordinance has not been paid;
 - (H) an application of the proposed establishment is in violation of, or is not in compliance with, any of the provisions of this Ordinance.
- 605.06.02 The permit and/or license, if granted, shall state on its face, the name of the person or persons to whom it is granted, the expiration date, and the address of the sexually oriented business. The permit and/or license shall be posted in a conspicuous place at or near the entrance to the sexually oriented business so that it may be easily read at any time.
- 605.06.03 The Health Department, Fire Department, and Building Inspector shall complete their certification that the premises is in compliance or not in compliance within thirty (30) days of receipt of the application by the Director. The certification shall be promptly presented to the Director.

- 605.06.04 In the event that the Director determines that an applicant is not eligible for a permit, the applicant shall be given notice in writing of the reasons for the denial within forty-five (45) days of the receipt of its application by the Director. The applicant may request in writing, that such period be extended for an additional period of not more than ten (10) days at any time before the notice is issued in order to make modifications necessary to comply with this Ordinance.
- 605.06.05 An applicant may appeal the decision of the Director, regarding denial to City Council by filing a written notice of appeal with the City Clerk within ten (10) days after the applicant is given notice of the Director's decision. The notice of appeal shall be accompanied by a memorandum or other writing setting out fully the grounds for such appeal and all arguments in support thereof. The Director may submit a memorandum in response to the memorandum filed by the applicant on appeal to City Council. After reviewing such memoranda, as well as the Director's written decision, if any, and exhibits submitted to the Director, the City Council shall vote to either uphold or overrule the Director's decision. Such vote shall be taken within thirty (30) calendar days after the date on which the City Clerk receives the notice of appeal. However, all parties shall be required to comply with the Director's decision during the pendency of the appeal.

605.10. Revocation.

605.10.01 The Director shall revoke a permit and/or license, if a cause of suspension in Section 605.09 occurs and the permit and/or license has been suspended within the proceeding twelve (12) months.

605.10.02 The Director shall also revoke a permit and/or license if he determines that:

- (A) a permittee and/or licensee gave false or misleading information in the material submitted during the application process;
- (B) a permittee and/or licensee or an employee has knowingly allowed possession, use or sale of controlled substances on the premises;
- (C) a permittee and/or licensee or an employee has knowingly allowed prostitution on the premises;
- (D) a permittee and/or licensee or an employee knowingly operated the sexually oriented business during a period of time when the permittee's and/or licensee's permit and/or license was suspended.
- (E) a permittee and/or licensee or an employee has knowingly allowed any act of sexual intercourse, sodomy, oral copulation, masturbation, or other sexual conduct to occur in or on the permitted and/or licensed premises;
- (F) a permittee and/or licensee is delinquent in payment to the City, County, or State for any taxes or fees assessed;
- (G) the owner or operator of the permitted establishment knowingly allowed a

- (H) person under twenty-one (21) years of age to enter an establishment; or that there was a change of owner or operator for which a transfer application was not timely filed; or
- (I) convicted of a felony.

605.10.03 When the Director revokes a permit and/or license, the revocation shall continue for one (1) year, and the permittee and/or licensee shall not be issued a sexually oriented permit and/or license for one (1) year from the date revocation became effective. If, subsequent to revocation, the Director finds that the basis for the revocation has been corrected or abated, the applicant may be granted a permit and/or license, if at least ninety (90) days have elapsed since the date the revocation became effective.

605.10.04 After denial of an application by the Director and City Council, or denial of a renewal of an application, or suspension or revocation of a permit and/or license by the Director, the applicant or licensee or permittee may seek prompt judicial review of such administrative action in any court of competent jurisdiction.

605.12. Location Restrictions.

Sexually oriented businesses shall be permitted in Section I-2, Light Industrial District only, provided that:

- (A) The sexually oriented business may not be operated within one thousand (1,000) feet of:
 1. a church, synagogue or regular place of religious worship;
 2. a public or private elementary or secondary school;
 3. a boundary of any residential district;
 4. a public park, playground, or any other public recreation/sports facility;
 5. a licensed day-care center;
 6. a nursing, convalescent, retirement, or assisted care facility; or
 7. another sexually oriented business.

- (B) A sexually oriented business may not be operated in the same building, structure, or portion thereof, containing another sexually oriented business.
- (C) For the purpose of this Ordinance, measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest portion of the building or structure used as a part of the premises where a sexually oriented business is conducted, to the nearest property line of the premises of a church, synagogue, regular place of worship, or public or private elementary or secondary school, or to the nearest boundary of an affected public park, residential district, or residential lot, or licensed day care center.
- (D) For purposes of Subsection (C) of this section, the distance between any two (2) sexually oriented business uses shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the structure in which each business is located.
- (E) A sexually oriented business must be conducted in a building with a minimum of three thousand (3,000) square feet.
- (F) A sexually oriented business must have a parking lot providing at least one (1) parking space for every one hundred (100) square feet of building space, in addition to providing handicapped parking as prescribed by § 1104 (Table 1104.3) of Standard Building Code, 1994 Edition and thereafter as amended.
- (G) A sexually oriented business must provide outside lighting for the parking lot, with a minimum luminescence of 5-7 foot candle (average maintained).

605.13. Non-Conforming Uses.

- 605.13.01 Any business lawfully operating on the effective date of this Ordinance that is in violation of the locational or structural configuration requirements of this Ordinance shall be deemed a non-conforming use. The non-conforming use will be permitted to continue for a period not to exceed two (2) years, unless sooner terminated for any reason or voluntarily discontinued for a period of thirty (30) days or more. Such non-conforming uses shall not be increased, enlarged, extended, or altered, except that the use may be changed to a conforming use. If two (2) or more sexually oriented businesses are within one thousand (1,000) feet of one another, and otherwise in a permissible location, the sexually oriented business which was first established and continually operated at a particular location is the conforming use and the later-established business(es) is non-conforming.
- 605.13.02 A sexually oriented business lawfully operating as a conforming use is not rendered a non-conforming use by the location, subsequent to the grant or renewal of the sexually oriented business permit and/or license, of a church, synagogue, or regular place of religious worship, public or private elementary or secondary school, licensed day-care center, public park or residential district within one thousand (1,000) feet of the sexually

oriented business. This provision applies only to the renewal of a valid permit and/or license, and does not apply when an application for a permit and/or license is submitted after a permit and/or license has expired or has been revoked.

605.15. Exterior Portions of Sexually Oriented Businesses.

- 605.15.01 It shall be unlawful for an owner or operator of a sexually oriented business to allow the merchandise or activities of the establishment to be visible from a point outside the establishment.
- 605.15.02 It shall be unlawful for the owner or operator of a sexually oriented business to allow the exterior portion of the sexually oriented business to have flashing lights, or any words, letting, photographs, silhouettes, drawings, or pictorial representations of any manner except to the extent permitted by the provisions of this Ordinance.
- 605.15.03 It shall be unlawful for the owner or operator of a sexually oriented business to allow exterior portions of the establishment to be painted any color other than a single achromatic color. This provision shall not apply to a sexually oriented business, if the following conditions are met:
- (A) the establishment is part of a commercial multi-unit center; and
 - (B) the exterior portions of each individual unit in the commercial multi-unit center, including the exterior portions of the business, are painted the same color as one another or are painted in such a way so as to be a component of the overall architectural style or pattern of the commercial multi-unit center.
- 605.15.04 Nothing in this section shall be construed to require the painting of an otherwise unpainted exterior portion of a sexually oriented business.

605.16. Signage.

- 605.16.01 Notwithstanding any other City Ordinance Code, or regulation to the contrary, it shall be unlawful for the owner or operator of any sexually oriented business or any other person to erect, construct, or maintain any sign for the sexually oriented business, other than the one (1) primary sign, and one (1) secondary sign, as provided herein.
- 605.16.02 Primary signs shall have no more than two (2) display surfaces. Each such display surface shall:
- (A) not contain any flashing lights;
 - (B) be a flat plane, rectangular in shape;
 - (C) not exceed seventy-five (75) square feet in area; and
 - (D) not exceed ten (10) feet in height or ten (10) feet in length.
- 605.16.03 Primary signs shall contain no photographs, silhouettes, drawings, or pictorial representations in any manner, and may contain only the name of the enterprise.
- 605.16.04 Each letter forming a word on a primary sign shall be of solid color. The background behind such letters on the display surface of a primary sign shall be of a uniform and solid color.
- 605.16.05 Secondary signs shall have only one (1) display surface. Such display surface shall:
- (A) be a flat plane, rectangular in shape;
 - (B) not exceed twenty (20) square feet in area;
 - (C) not exceed five (5) feet in height and four (4) feet in width; and
 - (D) be affixed or attached to any wall or door of the enterprise.
- 605.16.06 The provisions of item (A) of Subsection 605.16.02 and Subsections 605.16.03 and 605.16.04 shall also apply to secondary signs.

605.17. Persons Younger than Twenty-One (21) Prohibited from Entry; Attendant Required.

- 605.17.01 It shall be unlawful to allow a person who is younger than twenty-one (21) years of age to enter or be on the premises of a sexually oriented business at any time that the sexually oriented business is open for business.
- 605.17.02 It shall be the duty of the operator of each sexually oriented business to ensure that an attendant and/or clerk is stationed at each public entrance to the sexually oriented business at all times during such sexually oriented business' regular business hours. It shall be the duty of the attendant

and/or clerk to prohibit any person under the age of twenty-one (21) years from entering the sexually oriented business. It shall be presumed that an attendant and/or clerk knew a person was under the age of twenty-one (21) years of age unless such attendant and/or clerk asked for and was furnished:

- (A) a valid operator's, commercial operator's or chauffeur's driver's licenses; or
- (B) a valid personal identification certificate issued by the State of Mississippi reflecting that such person is twenty-one (21) years of age or older.

605.18. Additional Regulations for Adult Motels.

- 605.18.01 Evidence that a sleeping room in a hotel, motel, or a similar commercial establishment has been rented and vacated two (2) or more times in a period of time that is less than ten (10) hours, creates a rebuttable presumption that the establishment is an adult motel as that term is defined in this section.
- 605.18.02 It is unlawful if a person, as the person in control of a sleeping room in a hotel, motel, or similar commercial establishment that does not have a sexually oriented permit and/or license, rents, or sub rents a sleeping room to a person, and within ten (10) hours from the time the room is rented, he rents or sub rents the same sleeping room again.
- 605.18.03 For purposes of Subsection 605.18.02 of this section, the terms "rent" or "sub rent" mean the act of permitting a room to be occupied for any form of consideration.

605.19. Regulations Pertaining to Exhibition of Sexually Explicit Films or Videos.

- 605.19.01 A person who operates or causes to be operated a sexually oriented business, other than adult motel, which exhibits on the premises a viewing room of less than one hundred fifty (150) square feet of floor space, a film, video cassettes, or other video reproduction which depicts specified activities or specified anatomical areas, shall comply with the following requirements:
 - (A) Upon application for a sexually oriented permit and/or license, the application shall be accompanied by a diagram of the premises showing a plan thereof specifying the location of one or more

manager's stations and the location of all overhead lighting fixtures, and designating any portion of the premises in which patrons will not be permitted. A manager's station may not exceed thirty-two (32) square feet of floor area. The diagram shall also designate the place at which the permit will be conspicuously posted, if granted. A professionally prepared diagram in the nature of an engineer's or architect's blueprint shall not be required; however, each diagram should be oriented to the north or to some designated street or object and should be drawn to a designated scale or with marked dimensions sufficient to show the various internal dimensions of all areas of the interior of the premises to an accuracy of plus or minus six inches (6"). The Director may waive the foregoing diagram for renewal applications if the applicant adopts a diagram that was previously submitted and certifies that the configuration of the premises has not been altered since it was prepared.

- (B) The application shall be sworn to be true and correct by the applicant.
- (C) No alteration in the configuration or location of a manager's station may be made without the prior approval of the Director or his designee.
- (D) It is the duty of the owners and operator of the premises to ensure that at least one employee is on duty and situated in each manager's station at all times that any patron is present inside the premises.
- (E) The interior of the premises shall be configured in such a manner that there is an unobstructed view from a manager's station of every area of the premises to which any patron is permitted access for any purpose, excluding restrooms. Restrooms may not contain video reproduction equipment. If the premises have two (2) or more manager's stations designated, then the interior of the premises shall be configured in such a manner that there is an unobstructed view of each area of the premises to which any patron is permitted access for any purpose from at least one of the manager's stations. The view required in this subsection must be by direct line of sight from the manager's station.
- (F) It shall be the duty of the owners and operator, and it shall also be the duty of any agents and employees present in the premises, to ensure that the view area specified in Subsection (E) remains unobstructed by any doors, walls, merchandise, display racks, or other materials, at all times, to ensure that no patron is permitted access to any area of the premises which has been designated as an area in which patrons will not be permitted in the application filed, pursuant to Subsection (A) of this section.
- (G) No viewing room may be occupied by more than one (1) person at

- any time.
- (H) The premises shall be equipped with overhead lighting fixtures of sufficient intensity to illuminate every place to which patrons are permitted access, at an illumination of not less than one (1.0) foot-candle, as measured at the floor level.
 - (I) It shall be the duty of the owners and operator, and it shall also be the duty of any agents and employees present in the premises, to ensure that the illumination described above is maintained at all times that any patron is present in the businesses.

SECTION 606. LANDSCAPING REGULATIONS

606.01. General Description.

The purpose and intent of the City of Laurel Landscaping Regulations is to recapture and maintain many of the environmental features and amenities of the City for present and future generations. Adherence to these regulations will improve the appearance of off-street vehicular use areas and other development parcels within the City through the installation and maintenance of landscaping for screening and aesthetic effects, thereby serving to protect and preserve the appearance, character, value and safety of the total urban area and nearby properties. It is intended that these provisions shall constitute minimum requirements. Creative designs are encouraged, and may be augmented from time- to-time by ordinances adopted by the City Council.

606.02. Applicable Areas.

- 606.02.01 All developments, including parking lots, other than R-1-- Low Density and R-2 -- Medium Density Residential, shall maintain a landscaped strip over that area being thirty (30) percent of the lineal frontage along one street of the subject parcel and being equal in depth to 50% of the required front yard for the subject zoning district. This required landscape area shall be maintained with grass or other landscape materials as described in Section 606.04 below, and maybe installed as described above or the equivalent square footage of this area may be located in one or more clusters at any other place in front of the front building line of the principal structure. This requirement shall be in addition to that landscaping required under Sections 606.06.01, 606 07, and 606.08 for vehicular use areas, as indicated below

- 606.02.02 All vehicular use areas, except those located on, under, or within buildings and except those serving single residences or two-family residential uses on lots of less than forty-eight (48) feet in width, shall conform to the minimum landscaping requirements hereinafter provided. However, single and/or multi-family residential buildings joined together by common walls, where individual garages and driveways for each dwelling unit are provided, shall be excluded from the minimum landscaping requirements hereinafter provided.

- 606.02.03 Vehicular Use Areas shall include all areas used for parking, circulation and/or display of any and all types of vehicles, hoses, or heavy construction equipment, or other machinery capable of movement over streets and highways, whether self-propelled or not, and all areas upon which such vehicles traverse as a function of the primary uses of the related structures or properties.

This section shall include, but is not limited to, activities of a drive-in nature, such as service stations, convenience stores, banks, restaurants, multiple dwellings, and the like. The requirements set forth herein shall also apply to improvements or additions to existing vehicular use areas, but shall not apply to vehicular use areas in existence at the time of adoption of this

Ordinance. For the purpose of this Ordinance, improvements shall include the installation of asphalt paving and/or concrete over any previously unimproved vehicular use area. Additions shall include any increase equal to twenty-five percent (25%) of the required parking for said use or size of existing vehicular use area. Additions equal to fifty percent (50%) of the total area of vehicular use shall require that the remaining fifty percent (50%) be brought up to standard both in terms of paving and landscaping.

606.03. Grounds Permit and Site Plan Reviewed Required.

Prior to any development or expansion of any vehicular use area, Application shall be made to the Building Inspector and/or the Inspection Department's designee in conjunction with the Site Plan Review Committee for site plan review and the issuance of a grounds permit. A grounds permit shall be issued upon approval by the appropriate City departments after a finding that the provisions of this Section have been complied with and properly shown on an approved site plan.

606.03.01 Landscaping Plan: The developer shall submit to the Building Inspector and/or the Inspection Department's designee such information as may be deemed necessary, including three (3) copies of a combination site plan/landscaping plan/planting plan. Said plan shall hereinafter be referred to as the "Landscaping Plan" and shall be required to be submitted for all proposed Vehicular Use Area and buffer strips and screening required elsewhere in this Ordinance. When the Vehicular Area is adjacent to, or developed a connection with a proposed new structure, the Landscaping Plan shall be submitted at the time of the submittal of construction plans for the proposed structure.

606.03.02 Required Information to be shown on Plans
The Landscaping Plan shall indicate the following:

- Owner: name, address, telephone number
- Designer: name, address, telephone number
- Scale of plans (Min 1" = 30')
- Arrow indicating north
- All dimensions and property lines
- Delineation of existing and proposed parking
- Access aisles, driveways, sidewalks, curbs
- Any vehicular use controls (signs, strips, fire lanes, other special areas)
- Location of curb cuts on adjacent property and rights-of-way
- Location of median opening on abutting street
- Lighting
- Irrigation systems
- Planting areas: quantity, spacing, size, species

- Decorative or screen walls heights and type of construction
- Existing and proposed trees: quantity, spacing, size, species
- Wheel stops
- Screening or buffering, if required.

606.03.03 Fees: Review of Landscape plans shall be considered as a site plan review and shall be subject to such fees as are currently in effect at time of submission. A Public Works fee may also be required if installation of driveways is involved.

606.03.04 Certification of Compliance: Upon completion of improvements, an Inspection Officer shall inspect the Vehicular Use Area for compliance with the approved plan and other requirements of this Section. Certification of compliance must be indicated on the Building Permit by the Inspection Officer before a certificate of occupancy can be issued for any related structure. When occupancy of a related building is desired, prior to completion of the Vehicular Use Area, a temporary certificate of occupancy may be issued if a financial guarantee, acceptable in form to the City and adequate to assure completion of the requirements of this Ordinance, is provided.

Certification that the landscape plan has been prepared by one of the following is required: a registered landscape architect, professional engineer, landscape designers, full- time builder designer, and that it satisfies all purposes, objectives and requirements of this Section.

606.04. Landscaping Standards.

All required landscaping shall consist of any of the following or combination thereof: materials such as, but not limited to, grass, ground covers, shrubs, vines, hedges, or trees. In addition, non-living durable materials may be used to complement, but not to be credited as landscaping. These materials include, but are not limited to wood chips, wood structures walls, or fences, but excluding paving, sand, rocks and pebbles. Plant materials used in conformance with provisions of this Ordinance shall conform to the standards recommended by the American Standard for Nursery Stock at revised in 1990.

606.04.01 Trees shall be a species recognized by the State of Mississippi Division of Forestry, as being acceptable for this area. Trees shall be of a species achieving at maturity, an average spread of crown of greater than fifteen (15) feet and having trunk(s) which can be maintained with a minimum of six (6) feet of clean wood trunk elevation. Trees basing an average mature spread of crown less than fifteen (15) feet may be substituted by grouping

same so as to create the equivalent of a fifteen (15) foot crown spread. Tree species shall have a minimum of one and one half to two (1½ to 2) to two (2) inch caliper measured at the diameter at breast height and shall be a minimum of six to eight (6-8) feet in overall height at the time of planting. Trees of a species whose roots are known to cause damage to public roadways, sewers, or other public works shall not be allowed unless the tree root system is completely contained within a barrier for which a minimum interior surface dimension shall be ten (10) feet square with a depth of five (5) feet.

- 606.04.02 Shrubs and Hedges: Shrubs shall be a minimum of one (1) foot in height at the time of planting. Hedges, where required, shall be planted and maintained so as to form a continuous, unbroken, visual screen within a maximum of one (1) year after time of planting.
- 606.04.03 Vines: Vines shall be a minimum at thirty (30) inches in height at the time of planting and maybe used in conjunction with fences, screens or walls to meet physical barrier requirements as specified.
- 606.04.04 Ground Covers: Ground covers used in lieu of grass, in whole or in part, shall be planted in such a manner as to present a finished appearance and reasonably complete coverage within three (3) months after planting.
- 606.04.05 Lawn Grass: Grass areas shall be planted and grown as permanent lawns. Grass may be sodded, plugged, sprigged or seeded except that solid sod shall be used in swales or other areas subject to erosion and providing that. In areas where other than solid sod or grass seed is used, nurse-grass seed shall be sown for immediate effect and protection until coverage is achieved.
- 606.04.06 Tree Protection During Construction: It shall be unlawful for any person in the construction of any structures or other improvements to place solvents, material, construction machinery, or temporary soil deposits within ten (10) feet of any protected tree trunk having twenty-four inch (24”) or greater DBH (Diameter at Breast Height).

Before development, land clearing, filling or any land alteration, a permit will he required; the developer shall be required to erect suitable protective barriers and this protection, where required, shall remain until permanent barriers have been erected. Also, during construction, no attachments or wires shall be attached to any of said trees so protected.

Except for sidewalks, driveways, and streets, no person shall pave with concrete, asphalt or other impervious material within ten inches (10”) per inch of DBH of any remaining Public Tree. The Parks Superintendent

shall have the discretion to waive this requirement.

606.05. Installation and Maintenance.

All landscaping shall be installed in a sound workmanship-like manner and according to accepted good planting procedures with the quality of plant material as herein described. All elements of landscaping exclusive of plant material, except hedges, shall be installed so as to meet all other applicable Ordinances and Code requirements. Landscaped areas shall require protection from encroachment. (Encroachment is defined as any protrusion of a vehicle outside of a parking space, display area or accessway into a landscaped area).

The owner shall be responsible for the maintenance of all landscaping which shall be maintained in good condition so as to present a healthy, neat and orderly appearance and shall be kept free from weeds, refuse and debris.

All landscaped areas shall be provided with an irrigation system or available water supply with at least one hose connection within one hundred (100) feet of all plant material to be maintained in the event that trees shrubs or other landscaped materials should die, such materials shall be replaced within thirty (30) days. Failure of the owner of the property to maintain the premises in good condition, as set forth above, shall make him liable for the penalties as set forth in Section 606.13 of this Ordinance.

606.06. Landscaping Adjacent to Public Right-of-Way.

Wherever a Vehicular Use Area will not be entirely screened visually from any abutting right-of-way by screening located on the lot being landscaped there shall be provided landscaping between such Vehicular Use Area and such right-of-way as follows (No landscaping is required adjacent to a dedicated alley):

606.06.01 Landscape Strip – Buffer Strip: A strip of land averaging at least twenty (20) feet in depth, located between the abutting right-of-way and the Vehicular Use Area which is exposed to an abutting right-of-way or between commercial and/or industrial zoned land and land zoned for R-1, R-2, R-3, and R-4 shall be landscaped. A site plan for said landscaping shall be submitted to the Site Plan Review Committee. The Committee shall determine the type of buffer from sections 606.06.01, 606.06.02 and 606.06.03.

- (1) Landscape. Plans shall be submitted to show how this twenty (20) foot buffer strips will be landscaped and maintained. This area shall have a minimum grass or ground cover. A greater density of landscaping may be required to reduce sight noise and pedestrian intrusion into residential areas. Earthen berms landscaped with

shrubs may be permitted to achieve this requirement.

- (2) Wall or Fence. A six (6) foot masonry wall or a fence of approved material may be built in place of ten (10) feet of the twenty (20) foot buffer strip as outlined in paragraph (1) above.

606.06.02 Grass and Ground Cover. All property, other than the required landscaped strip, lying between the street and the Vehicular Use Area, shall be landscaped with at least grass or other ground cover.

606.06.03 Accessways. Necessary accessways from the public right-of-way through all such landscaping shall be permitted to service the Vehicular Use Area.

Source: Ordinance No. 1356-1999, 11-16-99

606.07. Perimeter Landscaping Relating to Abutting Properties.

Wherever a commercial, industrial or public Vehicular Use Area will not be entirely screened visually from abutting residential property by an intervening building, structure or wall which is located on the lot being landscaped, the portion of such Vehicular Use Area not so screened shall be provided with a landscape/buffer strip as specified in 606.06.01.

In addition, one (1) appropriate species of tree shall be provided for each fifty (50) lineal feet of such landscaped barrier or fractional part thereof as applicable. Such trees shall be located between the common lot line and the Vehicular Use Area. Each tree shall be planted in at least twenty-five (25) square feet of planting area with a minimum dimension of at least five (5) feet. Each planting area shall be landscaped with grass, ground cover or other landscape materials, excluding paving or sand, in addition to the required tree(s).

606.07.01 Exceptions to Required Perimeter Landscaping: The provisions of this shall not be applicable in the following situations:

- A. When a property line abuts a dedicated alley.
- B. Where a proposed parking area or other Vehicular Use Area directly abuts an existing hedge, wall or other durable landscape barrier on an abutting property, said existing barrier may be used to satisfy the landscape barrier requirements of this Section, providing that said existing barrier meets all applicable standards of this Ordinance and protection against vehicular encroachment is provided for same.

606.08. Interior Landscaping Requirements.

An area or combination of areas, equal to a minimum of five percent (5%) of the total

square footage of the Vehicular Use Area, shall be devoted to interior landscaping. Any landscaping provided in excess of that provided by this article may be counted as part of the interior-landscaping requirement. When the Vehicular Use Area is adjacent to a structure or structures on the same parcel of land, and landscaping on said parcel, which serves to beautify the Vehicular Use Area, it may be counted toward meeting the interior landscaping requirement.

Such landscaped areas shall be located in such a manner as to divide and break up the monotony of paving or to prevent and discourage cross taxiing.

These areas shall be distributed appropriately through the lot and be subject to site plan review. The following interior landscaping elements (606.08.01 and 606.08.02) shall be required as part of the interior landscaping requirements.

- 606.08.01 Terminal Islands: Contiguous rows of forty (40) or more parking spaces shall be terminated on both ends by landscaped islands which measure an average of not less than five (5) feet in width and extend the entire length of the parking space. At least one (1) tree, or grouping, as per the Landscaping Standards Section shall be planted on said island.
- 606.08.02 Interior Island: Interior landscaped islands which measure an average of not less than five (5) feet in width and extend the length of a parking space shall be placed within rows of contiguous parking spaces so that there is at least one interior island for every six thousand (6,000) sq. ft. of parking area, or portion thereof, within the lot. These islands shall be placed at intervals of not less than (8), nor more than twenty-four (24) spaces. At least one (1) tree, or grouping, as per the landscaping Standards Section, shall be planted on every interior island interior islands need not be placed directly opposite each other when abutting parking rows.

EXAMPLE OF INTERIOR LANDSCAPE

- 606.08.03 Exceptional to Required Interior Landscaping: In Vehicular Use Areas where the strict application of Section 606.08 will seriously limit the function of said area, the required landscaping may be located near the perimeter of the paved area, including such perimeters which may be adjacent to a building on the site. Such required interior landscaping which is relocated as herein provided shall be in addition to the perimeter landscaping requirements.

ARTICLE VII. NON-CONFORMING USES

SECTION 701. NON-CONFORMING USES.

701.01 The lawful use of a "building" existing at the time of the passage of this Ordinance may be continued, although such use does not conform with the provisions hereof, and such use may be extended throughout the building provided no structural alterations, except those required by law or Ordinance, are made therein. If no structural alterations are made, a non-conforming use of a building may be changed to another non-conforming use of the same or more restricted classification. If such non-conforming building is removed, every future use of such premises shall be in conformity with the provisions of this Ordinance.

701.02 Repairs and alterations may be made to a legal nonconforming building, provided that no structural alterations shall be made except those required

by law or Ordinance, unless the building is changed to a conforming use; and provided that no additional dwelling units shall be added where the non-conforming use results from there being more dwelling units on the lot than is permissible in the district in which the building is located. The Zoning Board shall have the authority after hearing to grant extension to non-conforming buildings not to exceed twenty-five percent (25%) of the ground area of the same in case of evident hardship, subject to the yard restrictions herein provided.

Source: Ordinance No. 1197-1992, Art. V, 701.02, 11-17-92

- 701.03 The lawful use of "land" existing at the time of the passage of this Ordinance, although such does not conform to the provisions hereof, may be continued, but if such non-conforming use is discontinued, any future use of said premises shall be in conformity with the provisions of this Ordinance. Provided, however, that where "land" is situated in any district other than a Heavy Industrial District, which is now used for a use permitted only in a Heavy Industrial District, and is not an accessory to the use of the main building located on the same lot or grounds, such non-conforming use of "land" shall be discontinued and all material completely removed by its owner not later than three (3) years from the date of the passage of the Ordinance.
- 701.04 A legal non-conforming use if changed to conforming use may not thereafter be changed back to a non-conforming use. A legal non-conforming use if changed to a more restricted non-conforming use may not thereafter be changed unless to an equal or to a more restricted use.
- 701.05 A legal non-conforming use, when discontinued or abandoned, shall not be resumed. Discontinuance or abandonment shall be defined as follows:
- 701.05.01 When land used for a legal non-conforming use shall cease to be used in a bonafide manner for one (1) calendar month.
- 701.05.02 When a building designed or arranged for a non-conforming use shall cease to be used in a bona fide manner as a legal non-conforming use for a continuous period of twelve (12) consecutive calendar months.
- 701.05.03 When a building designed or arranged for a conforming use shall cease to be used in a bonafide manner as a legal non-conforming use for a period of six (6) consecutive calendar months. Upon evidence of hardship, the Zoning Board shall have the power to extend the above time limits not to exceed six (6) months. A Certificate of Occupancy shall be issued for all legal non-conforming uses.

SECTION 802. CERTIFICATE OF OCCUPANCY.

No vacant land shall be occupied or used, except for agricultural uses, and no building hereafter erected, reconstructed, altered, or enlarged, shall be occupied or used until a Certificate of Occupancy shall have been issued by the Building Inspector and/or the Inspection Department's designee.

Certificate of Occupancy for a Building: Certificate of Occupancy for a new building or the alteration of an existing building shall be applied for coincident with the application for a Building Permit and said Certificate shall be issued within three (3) days after the request for same shall have been made in writing to the Building Inspector and/or the Inspection Department's designee after the erection, reconstruction, alteration or enlargement of such building or part thereof shall have been completed in conformity with provisions of these regulations. Pending the issuance of a regular Certificate of Occupancy, a temporary Certificate of Occupancy may be issued by the Building Inspector and/or the Inspection Department's designee for a period not exceeding six (6) months during the completion of alterations or during partial occupancy of a building pending its completion. Such temporary Certificate shall not be construed as in any way altering the respective rights, duties or obligations of the owners or of the City relating to the use or occupancy of the premises or any other matter covered by this Ordinance, and such temporary Certificate shall not be issued except under such restrictions and provisions as will adequately insure the safety of the occupants. Request for Certificate of Occupancy for any change in the use of a building shall be made in writing at least ten (10) days in advance of such change and shall be issued within three (3) days after such request if the new use is in conformity with the provision of these regulations.

Certificate of Occupancy For Land: Certificate of Occupancy for use of vacant land or

the change in the character of the use of land as herein provided, shall be applied for before any such land shall be occupied or used and a Certificate of Occupancy shall be issued within three (3) days after the application has been made, provided such use is in conformity with the provisions of these regulations.

Certificate of Occupancy For A Legal Non-Conforming Use: Certificate of Occupancy shall be required for all legal non-conforming uses. Application for Certificate of Occupancy for such non-conforming uses shall be filed within twelve (12) months from the effective date of this Ordinance, accompanied by affidavits of proof that such non-conforming uses were not established in violation of this Ordinance, or any previous Zoning Ordinance.

Certificate of Occupancy shall state that the building or proposed use of a building or land, complies with all the building and health laws and Ordinances and with the provisions of these regulations. A record of all Certificates shall be kept on file in the office of the Superintendent of Inspection and copies shall be furnished, on request, to any person having a proprietary or tenancy interest in the building affected. (No fee shall be charged for a Certificate of Occupancy.)

No permit for excavation for any building shall be issued before application has been made for Certificate of Occupancy.

SECTION 803. Planning Commission.

Source: Ordinance No. 1197-1992, Art. V, 803, 11-17-92

803.01. Establishment of the Planning Commission to Hear All Zoning Matters.

All zoning public hearings and other zoning matters are to be attended and heard by the Planning Commission which was re-organized by Ordinance No. 1340-1999, adopted June 8, 1999. The commission shall consist of at least sixteen (16) members representing the following: (a) at least one (1) representative from each Council Ward; (b) four (4) at-large members representing divergent professions and segments of the City; and, (c) five (5) ex-officio members, one member representing each of the following entities – Jones County Economic Development, Laurel Downtown Association, Laurel City School District, Jones County Board of Supervisors, and Laurel Historic Preservation Commission.

These members shall be selected primarily on their ability and willingness to strive for the overall betterment of Laurel. Each member will be nominated by the Mayor and confirmed by the City Council to serve in an advisory capacity without pay. Whenever any of the voting members shall have missed more than three (3) unexcused meetings within a calendar year being either the commission meeting or the zoning public hearings, said member shall be automatically terminated from the commission.

The terms “Commission” and “Board” are used interchangeably throughout this ordinance to refer to the Planning Commission

803.02. Meetings.

Meetings of the Board shall be held on a monthly basis between the hours of 8:00 a.m. and 5:00 p.m., with the exception of public hearing which shall be coordinated and scheduled between the chairperson and Building Inspector and/or the Inspection Department’s designee. Work sessions of the Board shall also be conducted during the regular office hours. The chairperson, or in his/her absence, the acting chairperson, may administer oaths and compel the attendance of witnesses. All meetings shall be open to the public.

803.03. Record.

The Board shall keep Minutes of all meetings, containing the substance of testimony and detailed findings and showing the vote of each member upon each question or, if absent or failing to vote, indicating such fact, all of which shall be immediately filed in the office of the Board and shall be public record. The concurring vote of a majority of the Planning Commission shall be necessary to reverse any order, requirements, decision or determination of the Building Inspector and/or the Inspection Department’s designee or to decide in favor of the applicant on any matter upon which the Commission is required to pass under this Ordinance or to allow any variance to the strict interpretation of this Ordinance. Any approval or rejected request given by the Planning Commission must be brought before the City Council for final approval at the next scheduled Council meeting. No order or finding of the Commission shall become effective until the eighth day following the posting of a copy of such ruling or finding, duly attested by the Building Inspector and/or the Inspection Department’s designee, upon a public bulletin board in the City Hall and transmittal of duplicate copies to the City Clerk.

803.04. Appeal.

Any person or entity aggrieved by any decision of the Planning Commission or the Inspection Department shall have the right to appeal to the City Council within thirty (30) days from the date of the decision but not thereafter. The appeal shall in due course be heard de novo by the City Council which shall render such decision it deems appropriate. The appeal shall be in writing and may include any matters or arguments in support of the appeal. The appeal shall be filed with the Secretary of the Planning Commission if the appeal is from a decision of the Planning Commission or shall be filed with the Administrative Assistant of the Inspection Department if the appeal is from a decision of the Inspection Department. The Planning Commission or the Inspection Department may but is not required to respond to the appeal providing such information it deems appropriate. A hearing on the appeal shall be scheduled by

the Planning Commission or the Inspection Department and heard by the City Council as soon as practical but not later than thirty (30) days from the date the appeal is filed. At the hearing all interested parties may present such evidence, both oral and documentary, that it deems appropriate or the parties may rely on the matters contained in the appeal and response documents. The decision of the City Council shall be rendered at the hearing or as soon thereafter as practical but not later than five (5) days thereafter and shall be the final decision of the City Council.

803.05. Jurisdiction.

The Board shall have the following duties and responsibilities:

- 803.05.01 To conduct the public hearings on and to make written recommendations to the City Council on any proposed amendments to this Zoning Ordinance. This does not preclude the City Council having the right to conduct a public hearing for amending said Ordinance.
- 803.05.02 To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by an administrative official in the enforcement of this Ordinance.
- 803.05.03 To conduct the public hearings on and to make decisions on any requested variance from the terms of this Ordinance as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of this Ordinance would result in unnecessary hardship and so that the spirit of the Ordinance shall be observed and substantial justice done.
- 803.05.04 To conduct the public hearings on and to make recommendations to the City Council on applications for Conditional Use Permits. Such recommendations shall include requisite findings as required by this Ordinance.
- 803.05.05 To conduct a public hearing and to make rulings for the advice of the Building Inspector and/or the Inspection Department's designee in cases where uses are found to exist which are not specifically mentioned in this Ordinance, and to specify the zones in which such new uses may properly fall, until such time as such uses shall be specifically treated by amendment to this Ordinance. It is the intention of the Council in adopting this Ordinance that all uses of land, performance standards and requirements as to the placement and sizes of buildings specifically treated in this Ordinance are so designated to conform with a Comprehensive Plan within the meaning of the Mississippi Code as amended, and any changes in the application of this Ordinance which would have the effect of changing any zoning classification of any parcel of property, other than through application of specific provisions of this Ordinance, are deemed to be a legislative determination and to fall within the province of the Council.

803.05.06* Such other duties and responsibilities as are specifically enumerated in other Articles of this Ordinance.

803.05.07 There are no listed exceptions which the Board or the City Council are empowered to make.

803.06.04 That the difficulty complained of was not the result of a willful act of the petitioner or other person maintaining an interest in the property, or their immediate predecessors in interest.

803.06.05 That the difficulty complained of is unique to the property in question and is not common to all property similarly situated.

803.06.06 That balancing the interest of the City in preserving the Comprehensive Plan or the interest of nearby properties against the interest of the petitioner in using his property as proposed to be used, the granting of the variance is required by considerations of justice and equity.

803.07.01 System to Examine Conditional Use Applications

- A. In addition to zoning procedures and requirements relating generally to issuance of building permits and certificates of occupancy/zoning compliance, a Conditional Use system is hereby established. It is intended that this system shall assure special examination, review, and findings by the Commission and appropriate agents, agencies or bodies in connection with proposed actions particularly specified in this Ordinance.
- B. Conditional Use procedures and standards as set forth herein are intended to apply in relation to use, occupancy, location, construction, design, character, scale, manner of operation, or necessity for making complex or unusual determinations, and to assure consideration of the particular circumstances of each case and the establishment of such conditions and safeguards as are reasonably necessary for protection of the public interest generally, of adjacent properties, of the neighborhood, and of the jurisdiction as a whole.
- C. For the purposes of this Ordinance, the term "requirements" refers to the restrictions which apply to all uses in a district, whether permitted as of right or only through a Conditional Use. They apply automatically to all uses in a zone. "Standards" are the guidelines for use by administrators in making decisions such as for rezoning or variances. They involve the application of stated criteria to given situations. "Conditions" are additional restrictions beyond the stated standards, applied to a particular use, which might govern, for example, hours of operation or the location of exits and entrances or the type of screening. A violation of the conditions is a violation of the Ordinance. The above distinctions help to define the way discretion is to be exercised in making the provisions of this Ordinance flexible to meet the needs of different situations in particular locations.
- D. The Commission will consider the specific recommendations of the Superintendent of Inspection considering conditions for said Conditional Use
- E. A public hearing (after required notice under this Ordinance) shall be held. At said hearing, any party may appear in person or by agent or attorney. The Commission must make their decision within a reasonable time thereafter, not to exceed 30 days.
- F. After receiving recommendations from the Superintendent of Inspection and before granting any special permit the Commission must make written findings that it

is empowered under specified sections of this Ordinance to grant the Conditional Use and that the granting of the Conditional Use will not adversely affect the public interest.

- G. In the event that opposing interests cannot be resolved, the Commission shall find that balancing the interest of the City in preserving the Comprehensive Plan or the interests of nearby properties against the interest of the petitioner in using his property as proposed to be used, the granting of the Conditional Use Permit is required by considerations of justice and equity.
- H. After completing their reviews, the Commission will forward the application and their recommendations to the City Council
- I. If the Conditional Use application is denied, the applicant shall receive written notice of the specific grounds for the denial.

803.07.02 Purposes of Conditional Use

- A. The development and implementation of this Zoning Ordinance is based upon the division of the community into districts within which the use of land and buildings and the bulk and location and structures in relation to the land are substantially uniform. It is recognized, however, that there are certain uses which because of their unique characteristics or nature require special and intensive review to determine whether they should be permitted in a specific location/district.
- B. These Conditional Uses also require review based upon standards and the application of special conditions and safeguards if permission is granted in such locations. Conditional Use procedures and standards as provided herein are intended to assure that such review is made and that appropriate conditions and safeguards are attached. Conditional Use procedures and standards shall be applied. Conditional Uses may be granted only in cases specified in this Ordinance.
- C. Conditions may be required for specified uses which must satisfy standards in addition to those generally applicable in a zoning district to eliminate or minimize the potentially harmful characteristics or impact of such Conditional Uses on the character of the zoning district in which they will be located.
- D. No conditions shall be imposed on the Conditional Use that will result in these standards making it unreasonably difficult to develop said Conditional Use.

Source: Ordinance No. 1591-2012, 8-7-2012

803.07.03 Findings Required

The Commission shall make all of the following findings before recommending that a Conditional Use be allowed:

- A. The Conditional Use is in conformity with the City's Comprehensive Plan and in conformity with the purpose, intent and applicable standards of this Ordinance
- B. The proposed Conditional Use is allowed by this Ordinance in the zoning district in which the property in question is located.
- C. The proposed Conditional Use complies with all applicable regulations in the zoning district in which the property in question is located
- D. The proposed use complies with all special regulations established by this Ordinance for such Conditional Use.
- E. The establishment and maintenance of the Conditional Use is not detrimental to the public health, safety, or general welfare and that the Conditional Use with specific limitations and design features as may have been required will further the aims of the Comprehensive Plan and will not be unduly detrimental to nearby properties.
- F. The Conditional Use as located, designed, maintained, and operated will be compatible with the existing or intended character of that zoning district.
- G. The Conditional Use does not depreciate property values.
- H. The Conditional Use is not hazardous, detrimental or disturbing to present surrounding land uses due to noise, glare, smoke, dust, odor, fumes, water pollution, erosion, vibration, general unsightliness, electrical interference, or other nuisance.

901.02. Schedule Established and Collection.

The City Council may establish a schedule of fees, charges, and expenses and a collection procedure for Certificates of Zoning Compliance, and other matters pertaining to this Ordinance. The Schedule of Fees, Charges and Expenses shall be posted in the office of the Superintendent of Inspection, who shall be responsible for their collection. The schedule may be altered or amended only by the Mayor or City Council. Until all applicable fees, charges, and expenses have been paid in full, no action will be taken on any application or appeal. Review of the fees required shall apply to Site Plan Review in addition to rezoning applications.

ARTICLE X. ANNEXATION

SECTION 1001. CLASSIFICATION OF NEWLY ANNEXED PROPERTY.

All annexation of land to the City shall be in an R-1 residential zone unless otherwise classified by the Council, for a period of time not to exceed one (1) year from the effective date of the Ordinance annexing said property.

Within this one (1) year period of time, the Mayor shall instruct the Planning Commission to study and make recommendations concerning the use of land within said annexed area to promote the general welfare and upon receipt of such recommendations the City Council shall establish the district classification of said property; provided, however, that this shall not be construed as preventing said City Council from establishing the district classification at the time of said annexation.

ARTICLE XI. PENALTIES

SECTION 1101. VIOLATIONS AND PENALTIES.

In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted or maintained or any building, structure, or land, is used in violation of this Ordinance, the City, in addition to other remedies, may institute any appropriate action or proceedings, to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance or use, to restrain, correct, or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any illegal act, conduct, business, or use in or about such premises.

Any person, firm, or corporation who shall knowingly and willfully violate the terms, conditions, or provisions of this Zoning Ordinance shall be guilty of a misdemeanor and upon conviction therefor shall be sentenced to pay a fine of not to exceed One Hundred Dollars (\$100.00); and in case of continuing violations without reasonable effort on the part of the defendant to correct the same, each day the violation continues thereafter shall be a separate offense.

ARTICLE XIII. PASSAGE OF ORDINANCE

For the immediate and temporary preservation of the public peace, health, safety and welfare of the people, as an emergency measure, this Ordinance shall become effective from and after passage:

- (1) To change and substitute “Mayor and City Council”, for “Mayor and Commissioners” which, under the recent change of City government, creates confusion;
- (2) The internal structure and outline of the previous Zoning Ordinance was confusing and misleading;
- (3) To publish the Official Zoning Map which is an integral part of the Ordinance but which has not been previously published; and the immediate adoption of this Ordinance will promote the public health and welfare for the public good of all the people of the City.

ORDINANCE NO. 1011-1984

An Ordinance Requiring the Filing of Plats and Data of Subdivisions in Laurel, Jones County, Mississippi; and Its Extraterritorial Jurisdiction; Specifying Requirements as to Procedures, Design Standards, Required Improvements, Plats and Data Necessary for Approval of Such Subdivisions in Laurel, Jones County, Mississippi; Providing for Variances; Requiring Enforcement by the City of Laurel; and Prescribing Penalties for the Violation of Its Provisions. Be It Ordained by the Mayor and City Commissioners of the City of Laurel, Mississippi.

ARTICLE I. TITLE AND PURPOSE Section 100.

Necessity for Land Subdivision Regulations.

Editor's Note --- Ordinance No. 1011-1984, adopted May 15, 1984, enacted a new subdivision ordinance for the City as set forth herein at App. II. Said Ordinance has been set out basically as enacted, with only minor stylistic changes made by the editor; however, no substantive changes have been made. Editorial emendations made in the interest of clarity are included in brackets. Obviously misspelled words have been corrected without comment. Amendatory Ordinances will be included at their proper places and will be identified by a history note following the amendment section. Absence of such history note indicates that the section is derived unamended from Ordinance No. 1101-1984.

State Law Reference --- Subdivision regulation, Miss. Code 1972, §17-1-23 et seq.

100.1. In order to promote the health, safety, convenience, and general welfare of the inhabitants of Laurel, Mississippi, and to assist in bringing about the coordinated, efficient, and economical development of the City, there exists a need for the following regulations and minimum standards to be followed in the development or redevelopment of land subdivisions in Laurel, Mississippi.

Section 101. Authority for Regulations.

101.1. The provisions of this Ordinance are adopted pursuant to the authority set forth in Chapter 197 of the General Laws of the State of Mississippi, 1956, being Section 2890.5 of the Mississippi Code, 1942, as amended. Reference is also made to Sections 3374-123 and 3374-123.5 of the Mississippi Code of 1972 as amended.

Section 102. Title.

102.1. These regulations shall be known as the “*Official Subdivision Regulations of Laurel, Mississippi*” and may be so cited.

Section 103. Purpose.

103.1. The subdivision of land is the first step in the process of urban development. The arrangement of land parcels in the community for residential, commercial, and industrial uses and for streets, alleys, schools, parks and other public purposes, will determine to a large degree, the conditions of health, safety, economy and amenity that prevail in the urban area. The quality of these conditions is of public interest. These regulations and standards for the subdivision and improvement of land for urban use are adopted and promulgated to make provisions for adequate light, air, open spaces, drainage, transportation, public utilities and other needs; to ensure the development and maintenance of a healthy, attractive and efficient community that provides for the conservation and protection of its human and natural resources. These regulations are designed, intended, and should be administered in a manner to:

- (a) Implement the Comprehensive Plan:
- (b) Encourage neighborhood conservation and help prevent the occurrence of slums and blight.
- (c) Provide that the cost of improvements which primarily benefit the tract of land being developed be borne by the owners or developers of the tract, and that the cost of improvements which primarily benefit the whole community be borne by the whole community.
- (d) Reconcile any difference of interest.

- (e) Establish adequate and accurate records of land subdivision.

Section 104. Jurisdiction.

104.1. These regulations and development standards shall apply to the following forms of land subdivision within all jurisdictional and extraterritorial jurisdictional areas of the City of Laurel, Mississippi:

- (a) The division of land into two (2) or more tracts, lots, sites, or parcels intended for commercial or industrial use.
- (b) The division of land into two (2) or more tracts, lots, sites, or parcels, any part of which when subdivided will contain less than ten (10) acres and which are intended or suitable for urban residential development.
- (c) The division of any land previously subdivided on a plat of record.
- (d) The dedication or vacation of any street, alley or easement through any tract of land regardless of the area involved.

Section 105. Administration.

105.1. The Laurel Planning Commission, after approval by the Mayor and Council, may employ any staff, person, persons or consultants to assist in the administration and coordination of these regulations. Final approval of plats and other data shall be the responsibility of the Mayor and Council as prescribed by law. The Superintendent of Inspection is hereby authorized and directed to enforce all provisions of these Subdivision Regulations.

Section 106. Definitions.

For the purpose of these regulations, certain terms used herein are defined as follows:

- (1) **Alley.** The word “*alley*” shall mean a minor way used primarily for vehicular service to the rear or side of properties otherwise abutting on a street.
- (2) **Block.** A parcel of land, intended to be used for urban purposes, which is entirely surrounded by public streets, highways, railroad rights-of-way, public walks, parks or green strips, rural land or drainage channels or a combination thereof.

- (3) **Building line.** The phrase “*building line*” shall be a line beyond which buildings must be set back from the street or road right-of-way line on which the property fronts.
- (4) **City.** The word “*City*” shall be the City of Laurel, Mississippi, together with all its governing and operating bodies.
- (5) **Commission.** The word “*commission*” or “*planning commission*” or “*zoning commission*” shall be the Official City Planning and Zoning Commission of the City, as appointed by the City Council.
- (6) **Comprehensive Plan.** The Comprehensive Development Plan for the City which has been officially adopted and approved to provide long-range development policies for the area subject to urbanization in the foreseeable future and which includes, among other things, the plans for land use, land subdivision, traffic circulation and community facilities.
- (7) **Conditional.** The word “*conditional*” wherever used in this Ordinance will mean ---- made or granted on the provisions as set forth in this Ordinance.
- (8) **Council.** The word “*Council*” shall be the duly elected governing body of the City (City Council).
- (9) **County.** The word “*County*” shall be Jones County, together with all its governing and operating bodies.
- (10) **Easement.** A grant by the property owner to the public, a corporation, or persons, of the use of a strip of land for specific purposes.
- (11) **Engineer.** The word “*engineer*” shall be the engineer of the City, or his duly authorized representative.

- (12) ***Extraterritorial jurisdiction/planning jurisdiction.*** That designated area of Jones County which has been formally and legally agreed upon and adopted by Jones County and Laurel, Mississippi in accordance with Section 2890.5 of Mississippi Laws as revised and amended, thereby giving Laurel special jurisdictional powers over the area for the purpose of regulating the subdivision and development of land.
- (13) ***Lot.*** A subdivision of a block or other parcel of land intended as a unit for the transfer of ownership or for development.
- (14) ***Lot, corner.*** A lot located at the intersection of and abutting on two (2) or more streets.
- (15) ***Lot, frontage.*** That dimension of a lot or portion of a lot abutting on a street or officially approved place excluding the side dimension of a corner lot.
- (16) ***Lot of record.*** A lot which is part of a subdivision, a map of which has been recorded in the Office of the County Clerk in the County wherein the proposed subdivision is located.
- (17) ***Lot, through.*** An interior lot which has frontages on two (2) or more streets.
- (18) ***Lot width.*** The horizontal distance between side lot lines measured at right angles to the depth.
- (19) ***Lot width, front building line.*** The horizontal distance between side lot lines measured at the front building line and tangent to the street right-of-way line.
- (20) ***Master plan.*** The phrase “*master plan*” shall be the Comprehensive Plan or general plan of the City and adjoining areas as adopted by the City Council and the City Planning Commission, including all its revisions. This plan indicates the general location recommended for various land uses, transportation routes, public and private buildings, streets, parks, and other public and private developments and improvements.
- (21) ***Plat, final.*** The phrase “*final plat*” shall be any plat of any lot, tract, or parcel of land requested to be of record in the Office of the Chancery Clerk.
- (22) ***Plat, preliminary.*** The phrase “*preliminary plat*” shall be any plat of any lot, tract or parcel of land that is not to be of record but is only a proposed division of land for review and study by the City.

- (23) **Re-subdivision.** The word “*re-subdivision*” shall be the resubdivision of any part or all of any block or blocks of a previously platted subdivision, addition, lot or tract.
- (24) **Shall.** The word “*shall*” wherever used in this Ordinance will be interpreted in its mandatory sense.
- (25) **Street.** The term “*street*” means a way for vehicular traffic, whether designated a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place or however otherwise designated.
- (26) **Street, collector.** The phrase “*collector street*” shall be a street which is continuous through several residential districts and is intended as a connecting street between residential districts and arteries, highway, or business districts.
- (27) **Street, cul-de-sac.** The word “*cul-de-sac street*” shall mean a short minor street having but one (1) vehicular access to another street and terminated by a vehicular turn-around.
- (28) **Street, dead-end.** The phrase “*dead-end street*” shall mean a street, other than a cul-de-sac, with only one (1) outlet.
- (29) **Street, frontage or service.** A minor street auxiliary to and located on a side of a major street for service to abutting properties and adjacent areas and for control of access.
- (30) **Street, local.** The phrase “*local street*” shall be a street which is intended primarily to serve traffic within a neighborhood or limited residential district, and which is used primarily for access to abutting properties.
- (31) **Street, major.** The phrase “*major street*” shall be principal traffic thoroughfares more or less continuous across the City which are intended to connect remote parts of the City, or areas adjacent thereto, and act as principal connecting streets with State and Federal highways.
- (32) **Street, marginal access.** Minor streets which are parallel to and adjacent to major streets or highways, and which provide access to abutting properties and protection from through traffic.
- (33) **Street, minor.** Any street not classified as a major street on the major thoroughfare plan.

- (34) **Street width.** The word “*street width*” shall be the shortest distance between the lines which delineate the rights-of-way of a street.
- (35) **Subdivider.** Any person, firm, partnership, corporation or other entity, acting as a unit, subdividing or proposing to subdivide land as herein defined.
- (36) **Subdivision.** The word “*subdivision*” or “*addition*” shall be any division of any lot, tract or parcel of land into two (2) or more lots or sites for the purpose, whether immediate or future, of sale or of building development. It also includes resubdivision or replotting of land, lots or tracts. Divisions of land in parcels of ten (10) acres or more shall not be included. Said tracts to be appropriately and legally recorded.
- (37) **Guarded or Gated Residential Streets.** Residential streets approved by the City Council for limited closing under Chapter 23, Section 23-48, *et seq.*, **Laurel Code**.

Any office referred to in this Ordinance by title, i.e., Mayor, City Secretary, City Attorney, City Clerk, City Engineer, Director of Public Works, and Superintendent of Inspection shall be the person so retained in the position by the City, or his duly authorized representative.

ARTICLE II. PRELIMINARY SUBMISSION. Section 200.

Preliminary Layout.

200.1. Preapplication procedure and advice to developer (preapplication conference).

The owner or developer and/or his representative who proposes to plat and/or develop a subdivision and/or a tract of land inside the corporate limits and/or jurisdiction of this municipality will be required to attend, prior to the filing of an application to subdivide and/or develop lands, an informal conference at which the municipality will be represented by the Superintendent of Inspection. The representative of the municipality shall advise the owner, developer and/or representative of either, of the procedures, rules, regulations, and standards to be followed in the subdivision and development of lands within the corporate limits of this municipality together with such features of the work as may be involved with, influenced by, or related to the Comprehensive Plan adopted by the municipality.

The preliminary layout presented for discussion should include:

- (a) All land which the application owns related to the subdivision.
- (b) A sketch plan at a scale of approximately one (1) inch equals one hundred (100) feet showing the proposed layout of streets, lots and other features proposed for the area to be subdivided.
- (c) General subdivision information necessary to explain and/or supplement the sketch plan.
- (d) The location, name and approximate dimensions of existing streets, easements, property lines, buildings, parks and public properties.
- (e) The location of existing sewers, water mains, culverts and storm drains, if any, including pipe sizes, and direction of flow.

200.2. Submission of Preliminary Plat.

An application, in writing, for the conditional approval of the preliminary plat, together with six (6) prints, shall be filed with the City Planning Commission at least two (2) weeks before the meeting of the Commission, if the plat is to be acted upon at such meeting.

The plat shall be drawn to a scale of one hundred (100) feet to the inch, or larger, and shall show:

- (1) The proposed name of the subdivision.
- (2) North point, scale, and date.
- (3) The names and addresses of the subdivider and of the engineer or surveyor.
- (4) The tract designation and other descriptions according to the real estate records of the City or Chancery Clerk; also, designation of the proposed uses of land within the subdivision.
- (5) The boundary lines (accurate in scale) of the tract to be subdivided.
- (6) Finished contours with intervals of five (5) feet or less, referred to City datum.

- (7) The names of adjacent subdivisions or the names of record owners of adjoining parcels of unsubdivided land.
- (8) The location, widths, and names of all existing or platted streets or other public ways within or adjacent to the tract, existing permanent buildings, railroad rights-of-way, and other important features, such as section lines, political subdivision or corporation lines, and school district boundaries.
- (9) Existing sewers, water mains, culverts, or other underground structures within the tract and immediately adjacent thereto with pipe sizes, grades, and locations indicated.
- (10) All parcels of land intended to be dedicated for public use or reserved in the Deeds for the use of all property owners in the proposed subdivision, together with the purpose, conditions or limitations of such reservation, if any.
- (11) The layout, names, and widths of proposed streets, alleys, and easements.
- (12) A proposed water distribution system, sanitary sewers and storm sewers showing pipe sizes, grades of sewers, the location of valves, fire hydrants and fittings.
- (13) The layout, numbers, and approximate dimensions of proposed lots.

200.3. Approval of Plats.

Upon finding that the preliminary plat satisfies the requirements of this Ordinance, the Planning Commission shall state in writing to the subdivider its approval and state the conditions of such approval within thirty-one (31) days after the submission of the preliminary plat and other material submitted in conformity to these regulations or, in the event of disapproval, the Planning Commission shall state its disapproval and reasons therefor. The action of the City Planning Commission shall be noted on, three (3) copies of the preliminary plat, referenced and attached to any conditions determined, one of which shall be designated as the Commission copy and retained in the files of the City Planning Commission, the other as the "owner's copy," which shall be furnished to the owner or his authorized representative, and the third, as the official copy and forwarded to the City Council for consideration and filing.

The plat shall be conditionally approved or disapproved within sixty (60) days after submission thereof to the City Council; otherwise, such plat shall be deemed to have been approved and a certificate to that effect shall be issued by the City Council on demand; provided, however, that the applicant for the approval may waive this requirement and consent to the extension of such period. The grounds of disapproval of any plat shall be stated upon the records of the Council. Any plat submitted for approval shall contain the name and address of a person to whom notice of hearing may be sent; and no plat shall be acted upon by the Council without affording a

hearing therefor. Any subdivision of land containing two (2) or more lots, no matter how described, must be submitted to the Planning Commission for approval.

200.4. Conditional Approval Time in Force.

A conditional approval shall remain in force for a period of two (2) years after Council approval, after which time the street and lot layout of the subdivision shall be subject to review by the Commission and the Council. In the event the Council desires said review, it shall request in writing that the Planning Commission institute proceedings. All review proceedings shall follow the procedure and have the same effect as the initial conditional approval proceedings.

200.5. Effect of Approval of the Preliminary Plat.

Approval of the preliminary plat as set forth herein shall constitute authority to proceed with construction of the subdivision and preparation of the final plat subject to approval of detailed plans and specifications for improvements as set forth herein. The subdivision shall be constructed and the final plat prepared in conformity with the approved preliminary plat. Material deviation from such approved preliminary plat shall require resubmission for approval.

Approval of a preliminary plat shall not constitute authority to sell lots, record the plat, advertise the future or conditional sale of lots based on the preliminary plat, or authority to construct permanent buildings in reliance upon the preliminary plat layout.

200.6. Fees.

Before delivering the preliminary plat to the Office of Inspection for approval, the subdivider shall pay to the City Clerk the appropriate fees necessary to process the plat. A list of fees is found under Article VI, Fees and Charges.

The processing fee shall not be refundable. The engineering review fee shall be refundable if the plat is withdrawn before any actual checking is done on a preliminary plat. If any preliminary plat or final plat, or any improvement plans or specifications are found to be in error and must be returned for revision, an additional engineering check fee shall be paid for each resubmission for approval. The City Clerk shall receipt stamp proof of the payment of fees upon the face of each copy of the preliminary plat. Such fees shall not be considered payment for supervision of construction.

200.7. Approval of Improvement Plans.

After approval by the Council of the preliminary plat, the subdivider may proceed to prepare and submit plans, profiles and specifications for improvements to the Mississippi State Board of Health for water, Mississippi Air and Water Pollution Control Agency for sewer, City Engineer and Council for approval. Such plans, profiles and specifications shall conform to standard practice of the City of Laurel and shall be in essential conformity with the approved preliminary plat. The City Engineer shall give his approval in writing and no field changes shall be made

without the written permission of the City Engineer and Council.

ARTICLE III. FINAL SUBMISSION.

Section 300. Final Plat.

300.1. Application Procedures.

Within two (2) years of the approval by the Council of preliminary plat, the subdivider shall file an abstract of title which shows good and merchantable title in the subdivider, and a final plat of the area covered by said preliminary plat, or part thereof, in the Office of Inspection. Six (6) copies, one (1) in ink on linen tracing cloth, of the final plat of all or a portion of the approved preliminary plat shall be filed with the City Planning Commission at least two (2) weeks prior to the meeting at which approval is requested. The Council must approve all final plats, which action is final, regardless of the action taken by the City Planning Commission. The final plat shall be drawn to scale of one hundred (100) feet to the inch, or larger, and shall show or be accompanied by the following:

- (1) The boundary lines with accurate distances and bearings, the exact location and width of all existing or recorded streets intersecting the boundary of the tract.
- (2) True bearings and distances to the nearest established street lines or official monuments, which shall be accurately described on the plat, municipal, township, County, or section lines accurately tied to the lines of the subdivision by distance and bearings.
- (3) An accurate location of the subdivision in reference to the real estate records of the County.
- (4) The exact layout including:
 - a. Street and alley names.
 - b. The length of all arcs, radii, internal angles, points of curvature length and bearing of the tangents.
 - c. All easements for rights-of-way provided for public services or utilities and any limitations of the easements.
 - d. All lot numbers and lines with accurate dimensions in feet and hundredths and with bearings and angles to street and alley lines.
- (5) The accurate location, material, and approximate size of all monuments.
- (6) The accurate outline description of all property which is offered for dedication for public use with the purpose indicated thereon, and of all property that may be reserved by deed covenant for the common use of

the property owners in the subdivision.

- (7) Setback building lines.
- (8) Private restrictions.
- (9) Proposed name of the subdivision.
- (10) Name and address of the subdivider.
- (11) North point, scale and date.

Construction Plans.

(12) A plan and profile of finished center line grades of each street with center line elevations shown. Scales shall be one inch (1") equals fifty feet (50') horizontally and one inch (1") equals five feet (5') vertically.

(13) The cross section of proposed streets showing the width of roadways and location and width of sidewalk.

(14) A plan and profile of proposed sanitary and storm sewers, with grades and pipe sizes indicated, and a plan of the proposed water distribution system showing pipe sizes and location of valves, fire hydrants, and fittings.

(15) Certificate of approval to be signed by the City's Engineer on plans and specifications for water, sewer, paving and drainage, and the Mississippi State Board of Health for water, and the Mississippi, Air and Water Pollution Control Agency for sewer.

(16) The following certificates and approvals shall appear on the original tracing of the final plat as applicable.

a. *Engineer's or Surveyors Certificate:*

It is hereby certified that this plat is true and was prepared from an actual survey of the property made under my supervision.

By _____ Mississippi Certificate No. _____

b. *Owner's Certificate.*

We, _____, the undersigned owners of the property shown hereon, hereby adopt this plat as our plan of subdivision (and dedicate the streets, rights-of-way and easements as shown to public use forever). We hereby certify that we are the owners of the said property in fee simple, duly authorized to act, and that said property is now encumbered by any mortgage or taxes which have become due and payable.

Protective covenants, if any, shall be referenced on the final plan even though same may be recorded otherwise by, _____ separate instrument.

- (18) Dedication of all streets, alleys, parks, and playground to public use forever, signed and acknowledged before a Notary Public by the owner and lienholder of the land, and a complete and accurate description of the land subdivided and the streets dedicated.

Certificates of approval must also be signed by the City Planning Commission. Three (3) sets of plans and specifications for water, sewer, paving and drainage, prepared by a registered Civil Engineer, shall be approved and retained by the Council prior to any construction on the subdivision.

300.2. Action by the Planning Commission.

The Planning Commission shall consider the final plat at the regular meeting during the month following the month of filing and shall either approve or disapprove the plat. If the Planning Commission finds that the final plat has been prepared in compliance with these regulations and in substantial compliance with the preliminary plat, such plat shall be approved. In the event of disapproval, specific points of variance with the aforesaid requirements shall be placed upon the minutes of the Planning Commission and a copy shall be transmitted to the subdivider.

The Planning Commission may approve final plats at a special meeting called in accordance with the rules and regulations of the Planning Commission.

Upon approval or disapproval, the Planning Commission shall within ten (10) days transmit to the Council the signed final plat and other required plans.

300.3. Council Action.

The Council shall consider the final plat along with the report of the Planning Commission not later than the second regular meeting following the date of filing with the City Clerk. If the Council finds that the plat has been prepared in compliance with the preliminary plat, such final plat shall be approved. In the event of disapproval, the record shall show the specific points on which the final plat varies from these regulations or the preliminary plat. The Council may give notice of and hold any public hearings.

300.4. Owner's Obligation to Pay Cost of Development.

It is hereby declared to be the general policy of the City Council of the City of Laurel to require the proprietor or proprietors or their successors in interest, of any subdivision in or addition to the City of Laurel, to pay all costs of public improvements made within such subdivision or addition to said City and to pay all costs of the development thereof and expenses incidental thereto, including, but not limited to, the following, to wit:

- (1) Cost of survey and plat prepared by licensed surveyor.
- (2) Cost of establishing grades prescribed by the City, for streets, alleys and sidewalks.
- (3) Cost of construction of sanitary sewer facilities for the subdivision or addition.
- (4) Cost of construction of water facilities in the subdivision or addition.
- (5) Cost of construction of curb and gutter and street paving and storm drainage system for the subdivision or addition.
- (6) Cost of preparation of all maps and plans and specifications for all above named improvements, the same to be prepared by and constructed under the inspection of a competent registered professional engineer.
- (7) Abstract of title or title insurance.

The proprietor or proprietors may privately contract for and cause the work of the development to be done, but in any event the work shall be done in accordance with the plans and specifications prepared or approved by the City.

300.5. Bonding Incomplete Improvements.

In lieu of final completion of the improvements required herein before approval of the final plat, the subdivider shall post a bond in a form approved by the City Attorney of Laurel. Such bond shall ensure to the City that improvements will be completed by the subdivider within two (2) years after approved by the Board and shall be not less than the estimated cost of completing the improvements as specified by these regulations, other Ordinances, resolutions or regulations of the City, and by the plans and specifications as approved for the preliminary plat. The dollar amount of such bond shall be fixed in writing by the Council and filed with the City Clerk.

If the improvements are not completed within the specified time, the Council may use the bond or any necessary portion thereof to complete said improvements. Failure of the Council to take action on the bond immediately shall not bar it from taking appropriate action within a reasonable time.

300.6. Filing of Record.

After the final plat has been approved and all signatures required herein have been affixed, the subdivider will deliver the plat and all necessary papers, as required by Statute, to the City Clerk who shall cause the same to be recorded with the Chancery Clerk as specified by Statute. All filing fees shall be paid by the subdivider.

No changes, erasures, modifications or revisions shall be made on any subdivision plat after approval has been given by the Commission. In the event that any subdivision plat, when recorded, contains any such changes, the plat shall be considered null and void, and the Commission shall institute proceedings to have said plat stricken from the records of the Chancery Clerk.

ARTICLE IV. REQUIRED IMPROVEMENTS.

Section 400. Improvements in Subdivisions.

400.1. In consideration of the acceptance by the City and assumption of the responsibility for maintaining the dedicated streets constructed therein, the owner or owners of the subdivision shall cause to be constructed, at no expense to the City, the following improvements according to the specifications set forth hereinafter. It is further understood by the developer and the City that the City's Engineer shall have authority to approve any and all site improvement plans and specifications and is hereby authorized to make any inspections he deems necessary during construction of any portion of the development with full authority to approve or disapprove all materials and construction methods.

400.2. The improvements specified therein shall be designed by and constructed under the inspection of a registered professional engineer.

400.3. In order to obtain approval for the construction of improvements in a subdivision, the developer shall submit together with the preliminary plat(s) three (3) sets of construction plans showing the types of improvements contemplated. Such plans and specifications for the proposed water and sewer system shall be accompanied by written certification from the Mississippi State Board of Health and the Mississippi Air and Water Pollution Control Commission that the proposed systems and treatment facilities are in conformance with all applicable laws and regulations. The engineer shall, wherever possible, keep water and sewer lines on opposite sides of the street and outside of pavement surface.

The plan and profile sheets (streets and sanitary sewers) shall be drawn to a horizontal scale designated by the City Engineer and to U.S. Government data (mean sea level).

400.4. All services for utilities shall be made available for each lot in such a manner as will eliminate disturbing the street pavement and drainage structures when connections are made.

400.5. Final plans. Upon completion of construction of any such utilities or improvements, one (1) set of reproducible tracings of complete final plans, dated, signed and certified by the engineer in charge, shall be filed with the City Engineer of the City of Laurel, showing all features as actually installed, including materials, size, location, depth or elevation, lot numbers, ends of lines, connections, wyes, valves, storm sewer drains, inlets and all other pertinent information. There shall be no connections made to such utilities serving the subdivision until the foregoing is in compliance.

Section 401. Streets.

401.1. The arrangement, character, extent, width, grade and location of all proposed streets shall conform to the general plan of the community and their relationship shall be considered to that of the existing and planned streets, to topographical conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.

401.2. Where such is not shown in the general plan for the community, the arrangement of streets in a subdivision shall either:

- (a) Provide for the continuation or appropriate projection of existing principal streets in surrounding areas; or
- (b) Conform to a plan for the neighborhood approved or adopted by the City Planning Commission to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impracticable.

401.3. Local streets shall be so laid out that their use by through traffic shall be discouraged.

401.4. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the City Planning Commission may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park purposes in appropriate districts.

401.5. Street jogs with centerline offsets of less than one hundred and fifty feet (150') shall be avoided.

401.6. Angle of intersection streets shall be laid out so as to intersect as nearly as possible at right angles except where topography and other conditions justify variations. The minimum angle of intersection of streets shall be seventy-five degrees (75°).

401.7. Half streets shall be prohibited, except where necessary to the reasonable development of the subdivision in conformance with the other requirements of these regulations and where the City Planning Commission finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half street has already been provided adjacent to an area to be subdivided, the other remaining half of the street shall be platted within such subdivision.

401.8. Dead-end streets which are designed to be permanent shall meet the regulations of the 2018 International Fire Code, or the most recent edition of said code herein adopted, as pertains to dead end streets and dead-end fire apparatus access roads including but not limited to the requirements for length, width and turnarounds.

401.9. Street grades shall be established regarding topography, proposed land use, and the community drainage plan and facilities in the area surrounding the land to be subdivided, provided that the minimum street grade shall be five-tenths of one percent (0.5%) with crown section and two-tenths of one percent (0.2%) with curb and gutter.

401.10. Vertical Sight Distances. Change of grade shall conform to current standards of the City of Laurel for the type of street in question, provided that in no case shall there be constructed a sight distance to an object four inches (4") high of not less than two hundred thirty feet (230') for arterials and collectors, and one hundred seventy-five feet (75') for local and other classifications, measured from any point four feet (4') above the pavement.

401.11. Horizontal Sight Distances. A tangent at least one hundred feet (100') long shall be introduced between reverse horizontal curves on collector and major streets. When connecting street lines deflect from each other at any one point by with a radius adequate to ensure a sight distance of not less than one hundred feet (100') for collector streets and of such greater radii as the Planning Commission shall determine for major streets and in other special cases.

401.12. Pedestrian Ways. Pedestrian ways may be required by the Planning Commission so as to allow cross access for pedestrians in very long blocks. In general, blocks of eight hundred feet (800') or more in length should have a pedestrian way near the center of the block.

401.13. Street right-of-way widths shall be as shown in the major thoroughfare plan for the community and where not shown therein shall be not less than as follows:

<i>Street Type</i>	<i>Right-of-Way Width</i>	<i>Minimum Pavement Widths Back-to-Back</i>	<i>Minimum Crown Section Pavement Shoulder</i>
Major street 40'		80'	44'
Collector street 36'		60'	40'
Local street (residential) 24' 32'		50'	28'
Marginal access streets 20' 28'		40'	
Pedestrian ways		10'	5' sidewalk (paved)

401.14. Guarded or Gated Streets may be considered by the Planning Commission and the City Council upon application by the owner/developer provided that he meets all of the terms and conditions set forth in Chapter 3, Article 2, Division 3, Section 23-48, *et seq.*, of the **Laurel Code**.

Section 402. Alleys.

402.1. Alleys shall be provided in commercial and industrial districts, except that the City Planning Commission may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading, and parking consistent with the [and] adequate for the uses proposed.

402.2. The minimum width of an alley shall be twenty feet (20') in industrial and commercial areas and fifteen feet (15') in residential areas.

402.3. Alley intersections and sudden changes in alignment shall be avoided, but where necessary, corners shall be cut-off sufficiently to permit safe vehicular movement.

402.4. Dead-end alleys shall be avoided where possible, but if unavoidable, shall be provided with adequate turn-around facilities, as determined by the City Planning Commission.

Section 403. Easements.

403.1. Easements across lots or centered on rear or side lot lines shall be provided for utilities

when necessary and shall be at least ten feet (10') wide, five feet (5') on each side of the respective lot lines. No planting or construction shall be performed within the easement limits.

403.2. Where a subdivision is bounded by a water course, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such water course, and such further width or construction, or both, as will be adequate for the purpose.

Section 404. Blocks.

404.1. The lengths, widths and shapes of blocks shall be determined regarding:

- (a) Provision of adequate building sites suitable to the special needs of the type of use proposed.
- (b) Zoning requirements as to lot sizes and dimensions.
- (c) Needs for convenient access, circulation, control and safety of traffic.
- (d) Limitations of topography.

404.2. The length of blocks shall not exceed twelve hundred feet (1,200').

Section 405. Lots.

405.1. The lot size, width, depth, shape and orientation, and the minimum building setback lines shall be appropriate for the location of the subdivision and for the type of development and use proposed.

405.2. Lot dimensions shall be as follows:

- (a) Single-family residential lots shall be not less than fifty (50) feet wide at the building line with a minimum lot depth of one hundred (100) feet nor having less than seven thousand five hundred (7,500) square feet in area.
- (b) Other residential lots shall meet the requirements of the Zoning Ordinance.
- (c) Commercial and industrial lots shall also meet the requirements of the Zoning Ordinance.
- (d) Depth and width of properties reserved or laid out for church, club or other semi-public use or for business or industrial purpose shall be adequate to provide for the off-street service and parking facilities required by the type of use and development proposed, and as provided in the Zoning Ordinance.

- (e) Each and every lot intended for sale shall abut a dedicated public street or road.

Section 406. Floodplain Areas.

406.1. Land subject to flooding with a frequency of a one-hundred-year or less flood shall not be subdivided unless precautionary measures are taken to eliminate or minimize flood hazards. All building grades shall be raised to an elevation equal to or above the maximum flood elevation of a one-hundred-year flood calculated for the area in which the proposed subdivision is situated. This is provided, however, that no fill shall be made, or any subdivision constructed, which will increase flood hazards to other lands, or in any manner impede or restrict the flow of water in a flood situation. All areas which will remain subject to flooding after the subdivision is constructed shall be delineated on the final plat.

406.2. All utilities and facilities, such as water, sewer, gas and electrical systems, shall be located, elevated, and constructed to eliminate or minimize flood damage; and adequate drainage shall be provided so as to reduce exposure to flood hazards.

ARTICLE V. DESIGN STANDARDS.

Section 500. Roadway Pavement.

500.1. All roadways shall be paved. Pavement widths shall be according to the type of street and the required minimum surfaces as stated in this regulation.

All roadway design and construction shall be in accordance with “Mississippi Specifications for State Aid Road and Bridge Construction” (latest edition).

500.2. The rights-of-way shall be graded for their full width to provide suitable finish grades for pavements, sidewalks, and planting strips with adequate surface drainage and convenient access to the lots.

500.3. Minimum acceptable pavements shall be:

- (a) For arterials and collectors, six-inch (6") asphaltic concrete base and one and one-half inch (1^{1/2}") surface course with six-inch (6") concrete curb and eighteen-inch (18") gutter (twenty-five-inch (25") overall), or a roll curb and gutter of twenty-four inches (24") in width.
- (b) For marginal access and local streets cross section: Twenty-eight foot (28') minimum crown width, 2:1 maximum side slopes, two-foot (2') minimum depth side ditches. Surfacing: One and one-half inch (1^{1/2}") asphalt

surface mix, twenty-four-foot (24') minimum width, with a four-inch (4") parabolic crown.

- (c) Base: Three-inch (3") asphalt base, with one and one-half (1½) plant mix or ten-inch (10") clay gravel with two-inch (2") plant mix. Base shall be compacted to one hundred (100) proctor density and shall conform to the "Mississippi Specification for State Aid Road and Bridge Construction" (latest edition).

Section 501. Sidewalk.

Concrete sidewalks having a width of not less than four feet (4') eight inches (8") and thickness of not less than four inches (4") shall be constructed on both sides of all arterials and collector streets within the subdivision. Said sidewalks shall be a maximum of one foot (1') from the property line within the street right-of-way and shall extend along the street frontage.

Section 502. Monuments and Markers.

502.1. Permanent Survey Reference Monuments.

Steel pipe, three-quarters (¾) inch in diameter and twenty-four inches (24") long, shall be placed on all boundary corners, block corners, curve points, and angle points.

502.2. Lot Markers.

Lot markers shall be one-half inch (½") reinforcing bar, eighteen inches (18") long, or approved equal, and shall be placed at all lot corners flush with the ground or countersunk, if necessary, in order to avoid being disturbed.

Section 503. Storm Drainage.

503.1. All building sites and lands immediately adjacent thereto, streets and other surfaces shall be graded and shaped in a manner that will cause storm water and snow melt to drain away from buildings and away from the subdivision in a natural water course or in a man-made channel acceptable to all parties involved.

503.2. The developer must provide for the discharge from the area of all storm water entering the subdivision from lands upstream in the storm water basin as well as for all rain water falling on the lands being subdivided, and will be required to obtain the written consent of all affected abutters of downstream water courses in those instances where downstream storm discharge is through widened, improved and/or relocated channels.

503.3. Drainage structures and channels shall be sized using the rational formula and calculated by a licensed engineer of the State of Mississippi. However, the minimum allowable design shall be a ten-year storm frequency or other design as approved by the city engineer. A

minimum value of 0.75 as the runoff coefficient shall be used.

503.4. Materials and construction shall conform to Mississippi State Highway Department Standard Specifications. All storm sewers shall be a minimum of fifteen inches (15") in diameter and be reinforced concrete culvert pipe.

503.5. All culverts shall be terminated with a precast flared section or poured in place, four-sack concrete, shaped to protect the end of the pipe, as directed by the City Engineer.

503.6. Storm sewer piping shall be designed for a minimum velocity of three feet (3') per second (f.p.s.) and a maximum of ten (10) f.p.s. Earth channel velocities shall not exceed five (5) f.p.s. unless lined or other protection adequate to prevent erosion.

503.7. Final plan shall show drainage areas and capacities of entrance to all structures.

Section 504. Sanitary Sewers.

Sanitary sewer facilities shall be provided to adequately service the subdivision and conform with the City Sewer Plan.

504.1. The design criteria and parameters and standards of construction for sewer systems shall be those outlined in the latest published edition of the American Society of Civil Engineers' Manual No. 37, "Design and Construction of Storm and Sanitary Sewers" (Water Pollution Control Federation Manual No. 9).

504.2. The diameters of the sewer mains and service laterals shall not be less than those shown in the following table "Installation Minimums for Sewer Mains."

<i>Industrial Component</i>	<i>Commercial Areas</i>	<i>Residential Areas</i>	<i>Areas</i>
Collection laterals--			
Mains	8"	8"	8"
Service laterals	6"	6"	4"
Manhole diameter	4'	4'	4'

504.3. All collection laterals, mains and system appurtenances shall be installed with a depth of cover in excess of three feet (3') in the utility strip or at other locations not under a paved surface as convenient for connection to and/or maintenance of the mains. Portions of sewers may be located under pavement if street configurations dictate, and may be located in easements outside street rights-of-way if the topography of the area so requires. Where depth of cover on a sewer is less than two and one-half feet (2^{1/2}'), the sewer shall be constructed of ductile iron pipe.

504.4. Service laterals shall be installed at the one-third point on the low side of the lot

wherever practical. Service and collection laterals must be constructed prior to the construction of the base course for the street in which the lateral is installed, and plugged and extend sewer stub marker tape from pipe to ground.

504.5. Sewer systems shall be designed to the gradient and at the capability necessary to serve properties upstream of the property being developed.

However, a developer will not be required to install a sewer main in a residential subdivision that exceeds ten inches (10") in diameter unless the parties being benefited thereby agree to pay the additional cost of a larger main.

504.6. Sanitary sewers shall be constructed in accordance with City of Laurel Sewage Collection Specifications.

504.7. All sewers shall be constructed to a grade that will provide a minimum velocity of two feet (2') per second when flowing full (base velocity on Mannings or Kutters formula with N = 0.013).

504.8. Manholes shall be installed at all changes in size, grade or alignment and shall have a spacing not to exceed four hundred feet (400').

504.9. Materials.

504.9.1. Sanitary Sewer Pipe. All pipe shall be plastic or vitrified clay meeting the following specifications:

- (a) Plastic sewer pipe and fittings shall comply with ASTM designation D3034, "Standard Specifications for type PSM Poly (Vinyl Chloride) (PVC) Sewer Pipe and Fittings," SDR 35. All pipe shall be SDR 35.
- (b) Vitrified clay sewer pipe. Standard strength vitrified clay sewer pipe and wyes, if their use is elected by the owner, shall conform and be tested and inspected in accordance with ASTM specifications, designation C-12. Extra straight sewer pipe shall conform to ASTM specifications, designation C-700. Wyes and strength bends used in service connections shall be of such degree that the connection runs perpendicularly to the main.
- (c) Vitrified clay pipe joints. All joints for vitrified clay pipe shall be performed ring gasket or ring type joints complying with ASTM, designations C425 or C-594 or the latest revision thereof. Gaskets shall be equal to "polytite" as manufactured by Oconee Clay Products Company, or "poly-urethane" as manufactured by W. S. Dickey Company.

504.9.2. Manholes. All manholes shall be precast concrete with twenty-four inch (24") cast iron manhole opening and cast iron steps, except where tying in to existing lines or other approved locations a brick manhole may be allowed. Manholes shall be waterproofed for water tightness.

504.10. Leakage tests. Tests for water tightness shall be made with a minimum positive head of two feet (2') by the contractor in the presence of the engineer, and the sewer shall not leak under exterior ground water pressure in excess of a rate of two hundred (200) gallons per inch of pipe diameter per mile of pipeline per twenty-four (24) hours. The tests and the measurement of infiltration shall be conducted in a manner approved by the engineer. Leaks causing any sewer to fail this test shall be repaired until the infiltration comes within the allowable limits. Any visible drip or leak shall be repaired regardless of the above leakage allowance. Where the pipe is above the water table, an exfiltration test may be required at the engineer's discretion.

Section 505. Water Lines.

505.1. Water systems shall have a sufficient number of outlets and shall be of sufficient size to furnish adequate domestic water supply, to furnish fire protection to all lots, and to conform with the City of Laurel Water Plan.

505.2. Design criteria and parameters not included herein shall be those outlined in the latest published edition of the "Recommended Standards for Water Works," as distributed by the American Water Works Association, and/or the criteria and parameters distributed by other nationally recognized associations or institutes.

505.3. Water mains for residential areas shall be designed to supply water to each customer at a rate in excess of fifteen (15) gallons per minute (gpm) at a residual pressure of twenty (20) psi, plus the fire flow established herein.

505.4. Water mains in a fire protection grid shall be capable of delivering peak usage plus seven hundred fifty (750) gpm to each fire hydrant in a residential area and two thousand (2,000) gpm in commercial or industrial areas with a residual pressure of twenty (20) psi.

505.5. Where possible, water mains shall be located in the street right-of-way a minimum distance of two feet (2') behind the existing or proposed curb line, or as approved by the City Planning Commission or the City's engineer.

505.6. All water lines shall be cement-lined Class 150 cast iron or ductile iron based on ASA specification A-21.51, Polyvinyl Chloride (PVC) meeting A.W.W.A. C-900 standards and shall be Underwriter Laboratory (U.L.) approved, or approved equal. All pipe shall be laid in strict accordance with the manufacturer's recommended procedures.

505.7. All water lines shall be constructed with a minimum cover depth of thirty-six inches (36").

505.8. All water mains shall be laid a minimum of ten feet (10') from sewer lines, or if they cross, within eighteen inches (18") of a sewer main. Special care shall be used for location of joints and special precautions approved by the engineer. In separations of less than eighteen

inches (18"), the sewer shall be ductile iron and pressure-tested for leaks before being backfilled.

505.9. Installation of pipe, fittings, joints, trench, backfilling, thrust blocking, etc.; all procedures shall be in accordance with manufacturer's recommendations. Class D bedding as described in ASTM D-2321-74.

505.10. All fire hydrants shall be "collision type" with one (1) steamer, and two (2) two and one-half inch (2^{1/2}") openings shall be installed at each block corner, or a maximum of eight hundred feet (800') on centers where blocks are longer than eight hundred feet (800'). A six-inch (6") gate valve and box shall be installed between the water main and each fire hydrant.

505.11. All fire hydrants shall have a valve opening with a flow equal to six-inch (6") valve opening and shall be placed on mains of not less than six inches (6") in diameter.

505.12. Gate valves shall be iron-bodied, bronze-mounted, non-rising stem, double-disc valves, designed for working pressures of not less than one hundred seventy-five (175) pounds and conforming to the standard specifications of the A.W.W.A. with "O" ring seals, and conform to Mueller No. 2280-20 or approved equal.

505.13. Service connections shall be made for each lot as indicated to behind the curb or to the property line as appropriate to minimize interference with other utilities. A bronze coupling shall be placed on the main with three-fourth inch (3/4") type K copper tubing, or high molecular weight, plastic tubing conforming to the latest ASTM standard from the main to behind the curb and terminated with a bronze curb stop of Mueller, Mark II or approved equal. The plastic tubing shall have a one hundred sixty (160) psi working pressure and bear the NSF seal. Curb stop location shall be appropriately marked with marker tape.

505.14. Testing and Chlorination. Hydrostatic test(s) shall be performed on the new water system with a pressure of one hundred fifty (150) pounds per square inch for twenty-four (24) hours. All leaks in the system shall be repaired to withstand the test to the satisfaction of the Superintendent of the Water Department of the City of Laurel. Before any part or all of the work is placed in service, the system shall be thoroughly flushed and sterilized with chlorine. Resterilize the complete parts as may be necessary until two (2) consecutive chlorine-free samples are found by the Mississippi State Board of Health to be free from the Coli-Aerogenes group of bacteria. Samples for the tests shall be taken from remote parts of the system.

ARTICLE VI. FEES AND CHARGES.

Section 600. Validity.

The following schedule of fees and charges shall be paid to the City when any plat is tendered to the City Planning Commission or any other board or agency, and each of the fees and charges provided herein shall be paid in advance, and no action of the City Planning Commission or any

other board or agency shall be valid until the fee or fees shall have been paid to the officer designated therein.

Section 601. Fees.

The City Clerk, his/her deputy or assistants shall calculate the fees and charges in accordance with the following schedule:

601.1. Processing fee, Thirty Dollars (\$30.00) per plat.

601.2. For approval of multiple-dwelling areas, business or industrial areas, site plans not subdivided into lots, preliminary plats shall carry a fee of Thirty Dollars (\$30.00).

601.3. Engineering review fee, Twenty-five Dollars (\$25.00) plus Two Dollars (\$2.00) per lot, but not less than Fifty Dollars (\$50.00).

601.4. If any grading plan, final plat, or any improvement plans or specifications are found to be in error and must be returned for revision, an additional submittal fee of Thirty Dollars (\$30.00) per plat shall be paid for each resubmission for approval.

601.5. These fees shall be charged on all plats, regardless of the action taken by the City Planning Commission, whether the plat is approved or denied.

ARTICLE VII. VARIANCES.

Section 700. Hardship.

Whenever the tract to be subdivided is of such unusual size or shape, or is surrounded by such development or unusual conditions that the strict application of the requirements contained in these regulations would result in real difficulties and substantial hardships or injustices, the Planning Commission may vary or modify such requirements so that the subdivider is allowed to develop his property in a reasonable manner, but so, at the same time, the public welfare and interests of the City are protected and the general intent and spirit of this Ordinance and the general plan of the community is preserved.

Section 701. Conditions.

In granting variances and modifications, the City Planning Commission may require such conditions as it may, in its judgment, secure substantially the objectives of the standards or requirement so varied or modified.

ARTICLE VIII. PENALTIES.

Violation of any provision or provisions of this Subdivision Ordinance by any subdivider shall

constitute a misdemeanor and upon conviction of such violation there shall be imposed a fine not exceeding One Hundred Dollars (\$100.00), and each day that such violation continues shall be a separate offense. In case a corporation is the violator of any provision of this Ordinance, each officer, agent and/or employee in any way responsible for such violation thereof shall be individually and separately liable for the penalties herein prescribed.

ARTICLE IX. VALIDITY.

If for any reason any section, paragraph, subdivision, clause, phrase, or provision of this Ordinance shall be held invalid, it shall not affect the remaining provisions of this [Ordinance], or any Ordinance of the City to which these rules and regulations relate.

ARTICLE X. REPEALER.

All Ordinances and parts of Ordinances in conflict with the provisions of this Ordinance are hereby repealed.

These Subdivision Regulations shall take effect one (1) month after passage.

The above and foregoing Ordinance, having first been reduced to writing, was introduced at a regular public meeting of the City Commission of the City of Laurel and was read and considered section-by-section and then as a whole.

Whereupon a roll call vote was taken on the question of the enactment of the Ordinance as a whole and each section thereof.

Those voting for the adoption of the Ordinance as a whole and each section thereof: Mayor Bucklew, Commissioner Roberts and Blackledge. Those voting against the adoption of the Ordinance in whole or in part: None.

SO ORDAINED, this the 15th day of May, A. D., 1984.

Zoning, Planning and Subdivision Regulation

Sec.	
17-1-1.	Definitions.
17-1-3.	General powers.
17-1-5.	Manner of exercise of power conferred.
17-1-7.	Zones.
17-1-9.	Purposes in view.
17-1-11.	Official plan--local planning commission.
17-1-13.	Utilization of services of planning commissions, engineering departments or advisory committee.
17-1-15.	Procedure for establishing, amending, etc., of regulations, zone boundaries, etc.--notice and hearing.
17-1-17.	Changes.
17-1-19.	Remedies of local governing authorities.
17-1-21.	When local regulations to govern.
17-1-27.	Penalties for violations.

17-1-1. Definitions.

The following words, whenever used in this chapter, shall, unless a different meaning clearly appears from the context, have the following meanings:

- (a) “*Municipality*,” any incorporated City or town within the State.
- (b) “*Governing authority*” or “*governing authorities*,” in the case of the County, and, in the case of municipalities, the Council, Board, Commissioners, or other legislative body charged by law with governing the municipality.
- (c) “*Comprehensive Plan*”, a statement of public policy for the physical development of the entire municipality or County adopted by resolution of the governing body, consisting of the following elements at a minimum:
 - (i) Goals and objectives for the long-range twenty (20) to twenty-five (25) years development of the County or municipality. Required goals and objectives shall address, at a minimum, residential, commercial and industrial development; parks, open space and recreation; street or road improvements; public schools and community facilities.
 - (ii) A land use plan which designates in map or policy form the proposed general distribution and extent of the uses of land for residences, commerce, industry, recreation and open space, public/quasi-public facilities and lands. Background information shall be provided concerning the specific meaning of land use categories depicted in the plan in terms of the following; residential densities; intensity of commercial uses; industrial and public/quasi-public uses; and any other information needed to adequately define the meaning of such land use codes. Projections of population and economic growth for the area encompassed by the plan may be the basis for quantitative recommendations for each land use category.

- (iii) A transportation plan depicting in map form the proposed functional classifications for all existing and proposed streets, roads and highways for the area encompassed by the land use plan and for the same time period as that covered by the land use plan. Functional classifications shall consist of arterial, collector and local streets, road and highways, and these classifications shall be defined on the plan as to minimum right-of-way and surface width requirements; these requirements shall be based upon traffic projections. All other forms of transportation pertinent to the local jurisdiction shall be addressed as appropriate. The transportation plan shall be a basis for a capital improvements program.
- (iv) A community facilities plan as a basis for a capital improvements program including, but not limited to, the following: housing, schools; parks and recreation; public buildings and facilities; utilities and drainage.

17-1-3. General powers.

For the purpose of promoting health, safety, morals, or the general welfare of the community, the governing authority of any municipality, and, with respect to the unincorporated part of any County, the governing authority of any County, in its discretion, are empowered to regulate the height, number of stories and size of building and other structures, the percentage of lot that may be occupied, the size of the yards, courts and other open spaces, the density of population, and the location and use of buildings, structures and land for trade, industry, residence or other purposes, but no permits shall be required with reference to land used for agricultural purposes or for the erection, maintenance, repair or extension of farm buildings or farm structures outside the corporate limits of municipalities. The governing authority of each County and municipality may create playgrounds and public parks, and for these purposes, each of such governing authorities shall possess the power, where requisite, of eminent domain and the right, to apply public money thereto, and may issue bonds therefor as otherwise permitted by law.

17-1-7. Zones.

For the purposes set forth in section 17-1-3, the governing authority of each municipality and County may divide the municipality or County into zones of such number, shape and area as may be deemed best suited to carry out the purposes of §§ 17-1-1 to 17-1-27, inclusive. Within the zones created, the governing authority of each municipality and County may, subject to the restrictions with respect to agricultural lands and farm buildings or structures as set out in §17-1-3, regulate and restrict the erection, construction, reconstruction, alteration, repair or use of buildings, structures or land. All regulations shall be uniform for each class or kind of buildings throughout each zone, but regulations in one zone may differ from those in other zones.

17-1-17. Changes.

Zoning Regulations, restrictions and boundaries may, from time-to-time, be amended, supplemented, changed, modified or repealed upon at least fifteen (15) days' notice of a hearing on such amendment, supplement, change, modification or repeal, said notice to be given in an official paper or a paper of general circulation in such municipality or County specifying a time and place for said hearing. The governing authorities or any municipal agency or Commission, which by Ordinance has been theretofore so empowered, may provide in such notice that the same shall be held before the City Engineer or before an Advisory Committee of citizens as hereinafter provided and if the hearing is held before the said Engineer or Advisory Committee it shall not be necessary for the governing body to hold such hearing but may act upon the recommendation of the City Engineer or Advisory Committee. Provided, however, that any party aggrieved with the recommendation of the City Engineer or Advisory Committee shall be entitled to a public hearing before the governing body of the City, with due notice thereof after publication for the time and as provided in this section. The governing authorities of a municipality which had a population in excess of one hundred forty thousand (140,000) according to the 1960 Census may enact an Ordinance restricting such hearing to the record as made before the City Engineer or Advisory Committee of citizens as hereinabove provided.

In case of a protest against such change signed by the owners of twenty percent (20%) or more, either of the area of the lots included in such proposed change, or of those immediately adjacent to the rear thereof, extending one hundred sixty (160) feet therefrom, or of those directly opposite thereto, extending one hundred sixty (160) feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of two-thirds (2/3) of all the members of the legislative body of such municipality or County.

APPENDIX B
DEFINITIONS AND WORDS

All words used in these definitions are subject to the rules for words and phrases in section 202 of Article II [of Appendix I].

ACCESSORY BUILDING OR USE: A subordinate building on the same lot, or a portion of the main building, the use of which is clearly incidental to that of the main building; or a use customarily incidental to the main use of the property. Accessory structures should constitute a minimal initial investment and may not be used for human habitation.

Source: Ordinance No. 1654-2017, 3-21-2017

ADVERTISING SIGN OR STRUCTURE: Any sign, device, or structure of any character whatsoever, including statuary, placed for outdoor advertising purposes on the premises. The area of an advertising structure or sign shall be determined by the area of the larger cross-section of such structure or sign.

AGRICULTURE: The raising or growing of crops only; except that the City Council may, by special order, permit the raising of fowl or livestock, but not swine, in any rural or outlying fringe area within the City of Laurel, providing such use does not constitute a nuisance or health hazard.

ALLEY: A minor right-of-way in public use which gives a secondary means of access to the back or side of properties otherwise abutting a street, and which may be used for public utility purposes.

APARTMENT: A room or a suite of rooms within an apartment house arranged, intended, or designed for a place of residence of a single-family or group of individuals living together as a single housekeeping unit.

APARTMENT HOTEL: An apartment house which furnishes services for the use of its tenants which are ordinarily furnished by hotels, but the privileges of which are not primarily available to the public.

APARTMENT HOUSE OR MULTIPLE-FAMILY DWELLING: Any single detached dwelling unit designed for and occupied by three (3) or more families living independently of each other as separate housekeeping units, including apartment houses, apartment hotels and flats, but not including auto or trailer courts or camps, hotels, motels, or resort-type hotels.

AUTOMOBILE-JUNK AREA OR GRAVEYARD: An area other than a street or alley used for the dismantling or wrecking of used automobiles or the storage, sale or dumping of dismantled or wrecked automobiles or their parts.

AUTO WRECKING: The collecting, burning out, dismantling or wrecking of used motor vehicles, wheeled or track laying equipment, or trailers, or the storage, sale or dumping of dismantled, partially dismantled, obsolete or wrecked motor vehicles, wheeled or track laying equipment, or trailers or their parts. The dismantling and rebuilding other than custom repair, of more than one (1) motor vehicle, piece of wheeled or track laying equipment, or trailer at a time even though not for profit or a principal use of a parcel of land shall be defined as auto wrecking. The storage of a partially dismantled motor vehicle, piece of wheeled or track laying equipment or trailer shall be considered auto wrecking.

BANNER: Any non-permanent advertising device, usually made of cloth or vinyl, which is suspended from a building or is suspended between two poles. Banners are not considered permanent signs and may not be used in lieu of permanent signs. The use of banners is regulated under Section 602: General Sign Regulations, Subsection 602.01.04.

Source: Ordinance No. 1454-2004, § I, 12-21-04

BASEMENT (CELLAR): A story wholly or partially underground. For purposes of height measurement, a basement shall be counted as a story when more than one-half (½) of its height is above the average grade level, or when it is used for commercial purposes.

BILLBOARD: Any structure or portion thereof, situated on private premises, on which lettered, figured or pictorial matter is displayed for advertising purposes, except the name and occupation of the user of the premises, the nature of the business conducted on the premises or the products primarily sold or manufactured on the premises and having an area of one hundred (100) square feet or more. Any signboard carrying a message excepted in this definition which also carries extraneous advertising of one hundred (100) square feet or more shall be considered a billboard. This definition shall not include any board, sign or surface used to display any official notices issued by a Court or public duty, or bulletin boards used to display announcement of meetings to be held on the premises on which such bulletin boards are located, nor shall it include a real estate sign advertising for sale or rent the property upon which it stands when such sign does not exceed one hundred (100) square feet.

BLOCK: A piece or parcel of land entirely surrounded by public highways, streets, streams, railroad rights-of-way, parks, or a combination thereof. There may be more than one (1) numbered block as shown on a plat, falling within a single block as herein defined. In cases where the platting is incomplete or disconnected, the City Engineer shall determine the outline of the block.

BOARD: The Zoning Board of the Planning Commission.

Source: Ordinance No. 1197-1992, Art. V, 11-17-92

BOARDING HOUSE OR LODGING HOUSE: A building other than a hotel, occupied as a single housekeeping unit, where lodging or meals are provided for five (5) or more persons for compensation, pursuant to previous arrangements, but not for the public or transients.

BUFFER AREA: An area so planned and/or zoned which acts as a buffer or separation

area between two (2) or more uses or structures not compatible due to design, function, use or operation.

BUILDABLE AREA: That portion of a lot remaining after required yards have been provided.

BUILDING: Any structure having a roof or partial roof supported by columns, posts or walls for the enclosure of persons, animals, equipment or chattels of any kind. A residential building within the meaning of this Ordinance shall include a building enclosed by a continuous wall, regardless of the existence of platted lot lines through the area occupied by such building. A commercial or industrial structure may within the meaning of this Ordinance, consist of separate buildings where party walls or ownership lines exist in such a manner as to indicate the intent that they be separate buildings. A tent shall be defined as a building for the purposes of this Ordinance.

BUILDING ACCESSORY: Any structure erected or constructed including buildings as herein defined, the use of which requires location on the ground or attachment to something located on the ground and which is incidental and customarily appurtenant to a principal use permitted on the zoning lot, but not including fences and walls of less than six (6) feet in height, or bank protection structures regardless of height provided they do not project more than one (1) foot above the surface of the ground on the high side.

BUILDING HEIGHT: The distance measured from the mean elevation of the grade at the front face of the building to the highest point on the roof or parapet of said building.

BUILDING INSPECTOR: The officer or other designated authority charged with the administration and enforcement of this code, and/or a designee of the Inspection Department. The official is also charged with the responsibility of enforcing the City Building codes and issuance of building permits and the administration and enforcement of the City Zoning Ordinance.

Source: Ordinance No. 1474-2006, 9-5-06

BUILDING PRINCIPAL: A building in which is conducted the primary use of the site on which it is situated. In any residential district any dwelling shall be deemed to be the principal building of the site on which it is located.

CAR WASH: Establishment with facilities for the washing of cars, trucks, and other vehicles, either self-serve or by attendant, including 24-hour coin operated car washes. Minor work such as oil changes may be permitted but major automotive repair is not allowed. A car wash may, however, be operated in conjunction with detail shop, service station or automotive repair shop.

CEMETERY: A tract of land, private or public, licensed with the State of Mississippi, divided into plots for sale for interment of the human dead.

CENTRAL BUSINESS DISTRICT: The area shown and delineated on the Official Zoning Map and generally known as downtown Laurel.

CERTIFICATE OF OCCUPANCY: A permit issued by the Superintendent of Inspection indicating that the use of the building or land in question is in conformity with this Ordinance or that there has been a legal variance therefrom, as provided by this Ordinance.

CHILD CARE CENTER: Child Care Center means a place which provides shelter and personal care for six (6) or more children for four (4) or more hours of any part of the twenty-four (24) hour day, whether such place be organized or operated for profit or not. The term "*Child Care Center*" indicates day care nurseries, day care centers and any other facility that falls within the scope of the definition set forth herein, regardless of auspices. Exempted from this definition is any facility operating as a kindergarten, nursery school or Head Start in conjunction with an elementary and/or secondary school system, whether it be public, private or parochial, whose primary purpose is a structured school readiness program. Space requirements shall be as stipulated by the Mississippi State Board of Health and the Southern Standard Building Code.

CLINICAL, MEDICAL: A building or portion of a building containing the offices and associated facilities of one (1) or more practitioners providing medical, dental, psychiatric, osteopathic, chiropractic, physical therapy or similar services for out-patients only, with or without shared or common spaces and equipment. A common area pharmacy or drug dispensary available to persons other than patients being treated therein or making charges separate from bills for professional services of said practitioners shall not be considered as a medical clinic use.

CLUB: Club shall include clubhouse and shall mean a voluntary association of persons organized for cultural, recreational, fraternal, civil, charitable or similar purpose, but shall not include an organization or premises the chief activity of which is a service or activity customarily carried on as a business even though it may be chartered and named for purposes herein defining a club.

COMMISSION: The Planning Commission of the City of Laurel, Mississippi.

CONCEALING FENCE: A fence, wall or other material approved by the Planning Commission which visually prevents (sight obscuring), on a perpetually maintained basis, an area so enclosed from being viewed from without by a maximum of twenty percent (20%) visibility. Any fence, wall or other material, except live shrubbery, shall be painted or colored a uniformly solid color, pastel in nature, or otherwise aesthetically pleasing, which contains no advertising sign or symbol. Any live shrubbery used shall be a hardy species to the area and permanently maintained in a manner which will not create a nuisance. Any lack of maintenance of such concealing fence shall be deemed a violation of this Ordinance and shall be prosecuted as prescribed herein.

Source: Ordinance No. 1312-1998, §I (B), 2-3-98

CONFORMING USE: Any lawful use of a building or lot which complies with the

provisions of this Ordinance.

COUNCIL: The City Council of the City of Laurel, Mississippi.

COUNTRY CLUB: For the purposes of this Ordinance, country clubs shall include: golf courses, par-3 golf course, swimming pools, tennis clubs, and neighborhood clubhouses any and each of which shall be located on a site of not less than one (1) acre and open only to membership subscribing for the use of all facilities for a term of not less than one (1) year and members' non-paying guests. Sleeping facilities other than quarters for one (1) caretaker or manager and his family shall be prohibited. Clubs operated as restaurants, cocktail lounges, card rooms, beer taverns, bowling alleys, pool and billiard parlors and similar activities normally carried on as a business shall be excluded from the definition of a *Country Club*. Nothing herein shall be construed to limit the method of operation of such facilities enumerated in this definition when owned or operated by a governmental agency.

COVERAGE: The percentage of the lot area covered by the building area.

DETACHED SHED, PORTABLE: A prefabricated shed open on at least one side and usually constructed of metal which is purchased for installation on a residentially, commercially or industrially zoned property. Such sheds are commonly used for storage of vehicles but may also be used for other applications such as a patio cover. Placement of such sheds must comply with regulations for front, rear and side yard as contained in the zone in which the structure is to be placed and must be utilized in a manner in compliance with the permitted uses of said zone. In no instance shall such shed be placed in the front yard and/or beyond the front building line of the main structure; this prohibition applies whether the actual placement of the shed is to the front of said main structure or whether it is to the side of said main structure. Such sheds may be placed in front of a porch for used as a covered walkway ONLY if said porch is in the rear yard. Use as a covered walkway is strictly prohibited in the front and side yards. [See definitions "YARD, FRONT", "YARD, REAR" and "YARD, SIDE" for further clarification.] Any variation from the above regulations may be granted only by a variance from the City of Laurel.

Source: Ordinance No. 1544-2009, 9-22-09

DENSITY: The intensity of land use and also the maximum intensity of land use physically possible on a minimum lot observing all yard, height, and lot coverage provisions of the Zoning Ordinance.

DEVELOPMENT: For purposes of Site Plan Review, development is defined as any new development requiring a permit from the City or any addition to an existing development in excess of twenty-five percent (25%) of the existing structure(s) or parking lot(s).

Source: Ordinance No. 1207-1993, § II, 4-14-93

DRIVE-IN: May be used as a noun or adjective and shall refer to a business which is designed to serve patrons while they are reposed in vehicles or by means of service windows with the intent that products be consumed in automobiles. This shall not be construed to include

places for making deposits from automobiles such as drive-in bank windows, post office drop boxes or laundry or cleaning drop boxes.

DWELLINGS: A building or portion thereof, designed or used exclusively for residential occupancy, including single-family dwellings, two-family dwellings, multi-family dwellings and group dwellings; provided however that the following are not dwellings:

- (a) Hotels, motels, tourist courts and cabins;
- (b) In a building that contains one (1) or more dwelling units or lodging rooms in addition to one (1) or more non-residential uses, the portion of such building that is devoted to such non-residential uses, except when accessory to the residential uses;
- (c) Used for the institutional care of people such as hospitals, rest homes, orphanages, and homes for the aged.

DWELLING, ATTACHED (ROW): A multi-family dwelling in which each dwelling unit has a separate outdoor entrance and is either

- (a) joined to one (1) other dwelling unit at one (1) side by one (1) party wall, or
- (b) joined to two (2) other dwelling units by one (1) party wall on each side.

DWELLING, DETACHED: A dwelling that is completely surrounded by open space on the same lot.

DWELLING MOBILE: A vehicle used or so constructed as to permit its being used as a conveyance upon a public street or highway and duly licensable as such, and shall include self-propelled vehicles so designed, constructed, reconstructed, or added to by any means, in such a manner as will permit the occupancy thereof as a dwelling or sleeping place of one (1) or more persons and supported by wheels, jacks, or similar supports. Transportable dwellings not meeting building code requirements for dwellings shall be treated as mobile dwellings. This definition shall include the terms "automobile trailer," "house-trailer", and "mobile home."

DWELLING, MULTI-FAMILY: A building or portion thereof containing three (3) or more dwelling units.

DWELLING, SINGLE-FAMILY: A building containing one (1) dwelling unit only.

DWELLING, TOWNHOUSE: A structure which is one of a series of dwelling units designed for single-family occupancy, which dwelling units are structurally connected or immediately adjacent to each other without side yards between individual dwelling units. Also known as "row houses."

DWELLING, TWO-FAMILY: A building containing two (2) dwelling units only.

DWELLING UNIT: One (1) or more rooms that are (a) located in a dwelling and that are

(b) arranged, designed, or used as living quarters for one (1) family only. Each dwelling unit contains one (1) and only one (1), complete set of kitchen facilities, permanently installed. Solely for the purpose of determining compliance with lot area per dwelling unit requirements, each lodging room in a group dwelling shall be considered as one-half (½) a dwelling unit. No lodging room in a group dwelling shall be included as part of a dwelling unit.

DWELLING, ZERO LOT LINE: A detached single-family dwelling unit which is constructed against the lot line on one (1) side of a lot, provided however, that there shall be no windows, doors, or other openings of any kind on this side. This type of dwelling is also sometimes referred to as a court-garden house or patio house.

EASEMENT: A grant by the property owner to the public, a corporation, or persons, of the use of a strip of land for specific purposes.

ENGINEER - CITY ENGINEER: A person registered as a professional engineer in the State of Mississippi and who is authorized to approve construction design of public works such as streets, roads, bridges, utilities, drainage, etc.

FAMILY: One (1) or more persons related by blood, marriage or adoption living together in one (1) dwelling unit and maintaining a common household, including domestic servants, gratuitous guests, boarders, roomers or lodgers, but not to exceed ten (10) persons when all are not related by blood, marriage, or adoption.

FENCES: See Also *Concealing Fence*. Source: Ordinance No. 1312-1998, §1(B), 2-3-98

FLAMMABLE LIQUIDS: Any liquid which gives off flammable vapors as determined by the flash point from an open-cup tester as used for test of burning oils, at or below a temperature of 80 degrees Fahrenheit, is flammable.

FLOOD PLAIN: The relatively flat area or low lands adjoining the channel of a river, stream or watercourse or ocean, lake, or other body of standing water, which has been or may be covered by flood water.

FLOODWAY: The width on either side of a stream, river or drainage course designated by the City Council of the City of Laurel as necessary to provide sufficient channel and capacity to drain storm waters flowing into it in a manner which will prevent extensive flooding or inundation of property located adjacent to the area so designated.

FLOOR AREA: The floor area of a building as used in calculating the gross floor area ratio or as otherwise used in this Ordinance, shall include all areas having headroom of seven (7) feet or more, including basement areas where they are used as a dwelling unit for sleeping accommodations, or other family eating or living purposes, but not including basement floor areas used for utility and storage purposes. Floor area for business and industrial buildings shall include all useable floor space above grade and that portion of basements used for the conduct of business or industry, but not including utility areas of said basements. Measurements shall be made at the outside of outside walls. An area may be surfaced with natural earth and still be

considered a floor.

FRONTAGE: All the property abutting on one (1) side of a street between two (2) intersecting streets, measured along the street line.

GARAGE APARTMENT: A dwelling unit erected above a private garage.

GARAGE, MECHANICAL: A facility used for the repair of automobiles, trucks, and similar vehicular powered, hydraulic, or control systems.

GARAGE, PRIVATE: An attached or detached accessory building for the storage of private passenger vehicles or recreational equipment with a capacity of not more than three (3) single stalls per dwelling unit and where no repair facilities are maintained.

GARAGE, PUBLIC: Any building other than a private garage available to the public for the care, servicing, repair or equipping of automobiles or where such vehicles are parked or stored for remuneration, hire, or sale.

GARAGE, STORAGE: A building or portion thereof, other than a private garage, used exclusively for parking or storage of self-propelled vehicles, but with no other services provided except facilities for washing.

GASOLINE, SERVICE OR FILLING STATION: Any area of land, including structures thereon, that is used for the retail sale of gasoline or oil fuels, and installation of other minor automobile accessories, and which may or may not include facilities for lubricating, washing, or cleaning.

GUARDED or GATED RESIDENTIAL STREETS: Residential streets approved by the City Council for limited closing under Chapter 23, Section 23-48, *et seq.*, **Laurel Code**. *Source: Ordinance No. 1370-2000, § 202; App. B, 6-20-00*

GOLF COURSE: Golf course as used herein shall mean standard sized layouts of at least nine (9) holes and shall not include miniature golf course, par-3 golf courses, pitch and putt courses or driving ranges.

GOVERNING AUTHORITY: The City Council of Laurel, Mississippi.

GRADE: The mean elevation of the ground, measured along the wall of a building, or a lot line, or the top of a street curb or official grade of a street curb not yet constructed, or an official grade of an alley surface, as appropriate to the context in which the term is used.

GROSS FLOOR AREA RATIO (G.F.A.R.): The floor area of a building divided by the area of the zoning lot as defined herein. (For example, a building one-story high covering an entire lot would have a G.F.A.R. of 1.0, whereas a building two-stories high covering an entire lot would have a G.F.A.R. of 2.0, while a building one-story high covering half (½) a lot would have a G.F.A.R. of 0.5). Both principal and accessory buildings shall be considered in

calculating gross floor area.

GROUND AREA: Ground area shall be the total geometric area of a lot as defined within its boundaries.

GROUND COVERAGE: The area of a zoning lot occupied by all buildings expressed as a percentage of the gross area of the zoning lot.

GROUP HOME/DWELLING: Any group living arrangements for five (5) or more persons, unrelated to each other by blood or marriage is considered a group home or group dwelling. *Source: Ordinance No. 1211-1993, § 1, 6-22-93*

GROUP HOUSING PROJECT: A group of one (1) family, two (2) family, or multiple dwellings, arranged on land not subdivided into customary streets and lots.

HOBBY: An accessory use carried on by the occupant of the premises in a shop, studio, or other work room, purely for personal enjoyment, amusement, or recreation; provided that the articles produced or constructed in said shop, studio, or work room are not sold either on or off the premises, and provided such use will not be obnoxious or offensive by reason of vibration, noise, odor, dust, smoke, or fumes.

HOME OCCUPATION: Any occupation conducted anywhere on the lot or improvements hereon on which a dwelling is located incidental to the main use of the premises as a dwelling place, and is conducted by members of a family residing in the dwelling and in connection with which there is kept no stock in trade nor commodity to be sold upon the premises. No mechanical equipment shall be used which will be obnoxious or offensive by reason of vibration, noise, odor, dust, smoke, or fumes. The operation of beauty, culture schools, beauty parlors, day nurseries, or barber shops and the repair of motor vehicles and/or implements powered by gasoline motors shall not be considered home occupations.

Further guidelines controlling Home Occupations are as follows:

- (a) There shall be no external evidence of the occupation with the exception of one (1) unlighted name plate of not more than one (1) square foot in area attached flat against the building. Advertising displays and advertising devices displayed through a window of the building shall not be permitted.
- (b) The activity shall employ only two (2) members of the immediate family of the resident of the dwelling.
- (c) Said home occupation shall not involve continual visits by the general public except that music lessons may be given to one (1) pupil at a time; dance and art lessons may be given to four (4) pupils at a time; a dressmaker may have two (2) customers at a time; and a professional person may have one (1) client or patient at a time; and a photographer may have one (1) customer at a time.

HOSPITAL: An institution where sick or injured persons are given medical care and in the course of same are housed overnight, fed and provided nursing and related services.

HOSPITAL, SMALL ANIMAL: An institution where sick or injured small animals of less than one hundred fifty (150) pounds are given medical care, and in the course of same are housed overnight, fed, and provided related services. Hospital, Small Animal shall be considered a commercial use.

HOTEL OR MOTEL: A building containing sleeping rooms occupied, intended or designed to be occupied, as the more or less temporary abiding place of persons who are lodged with or without meals for compensation.

INDUSTRIAL, HEAVY: Those industrial uses which have extensive space requirements and/or generate substantial amounts of noise, vibrations, odors, or possess other characteristics that are detrimental, hazardous, or otherwise offensive and incompatible with other land uses.

INDUSTRY, LIGHT: Those industrial uses which do not generate odors, smoke, fumes, or excessive noises.

JUNK OR SALVAGE YARD: A place where waste, discarded or salvaged metals, building materials, paper, textiles, used plumbing fixtures, and other used materials are bought, sold, exchanged, stored, baled or cleaned; and places or yards for the storage of salvaged metal, materials and equipment; but not including pawn shops and establishments for the sale, purchase or storage of used cars or trucks in operable condition, boats or trailers in operable condition, salvaged machinery in operable condition, and used furniture and household equipment in useable condition and not including the processing of used, discarded or salvaged materials as part of manufacturing operations.

KENNEL: Any building, lot, or premises on, or in which, four (4) or more dogs, cats, or similar pets (at least eight (8) weeks of age) are kept. Any building, lot, or premises where dogs, cats, or similar pets are housed or accepted for boarding, for which remuneration is received.

KINDERGARTEN: A school other than a public school for children of pre-public school age in which constructive endeavors, object lessons and helpful games are prominent features of the curriculum.

LEGAL NON-CONFORMING USE, BUILDING OR YARD: A use, building or yard existing legally at the time of the passage of this Ordinance which does not by reason of design, use, or dimensions conform to the regulations of the district in which it is situated. A use, building or yard established after the passage of this Ordinance which does not conform to regulations of the district in which it is situated shall be considered an illegal non-conforming use.

LOT: A zoning lot unless the context shall clearly indicate a lot of record, in which case

a "lot" is a lot of record. (See definition of "Zoning Lot").

LOT OF RECORD: Land designated as a separate and distinct parcel in a subdivision, the plat of which has been recorded in the Office of the Chancery Clerk of Jones County, Mississippi or a parcel of land, the deed to which was recorded in the Office of said Clerk prior to September 25, 1970.

LOT, CORNER: A zoning lot situated at the intersection of two (2) streets, or bounded on two (2) or more adjacent sides by street right-of-way lines or in the case of curbed right-of-way lines, the extension of tangents at the side lot lines does not exceed one hundred thirty-five (135) degrees.

LOT DEPTH: The average horizontal distance between the front lot line and the rear lot line.

LOT, INTERIOR: A zoning lot other than a corner lot.

LOT LINE: A boundary of a zoning lot. Lot line is synonymous with property line.

LOT LINE, FRONT: In the case of an interior lot, the line separating said lot from the street. In the case of a corner or through lot, the line separating said lot from the street which the house will face, to be determined from the request for a building permit. Front lot line is synonymous with street right-of-way line.

LOT WIDTH: The distance between side lot lines measured at the rear of the required front yard on a line parallel with a line tangent to the street right-of-way line.

LOT, THROUGH: A zoning lot having a frontage on two (2) parallel, approximately parallel, diverging, or converging streets, but not including a corner lot as defined herein.

LOT, REVERSE CORNER: A corner zoning lot, the side street line substantially a continuation of the front lot line of the zoning lot to its rear.

LOT, ZONING: See "Zoning Lot".

MANUFACTURING ESTABLISHMENT: A facility at which goods are made through use of raw materials, machinery, and labor and often employing assembly line techniques.

MINIMUM LOT AREA: The minimum ground space required for a dwelling unit by this Ordinance.

MINOR REPAIR, AUTOMOBILE: The replacement of minor assemblies or parts and tune-up of automobiles, or trucks of less than fifteen thousand (15,000) pounds gross license weight, but not including body and fender work, painting, engine overhaul or similar type of work.

MOBILE HOME: A transportable, single-family dwelling unit suitable for year-round

occupancy and containing the same water supply, waste disposal, and electrical conveniences as immobile housing. This definition also includes manufactured homes. *Source: Ordinance No. 1304-1997, §1, 10-7-97*

MOBILE HOME PARK: A tract of land that is used, designed maintained, or held out for rent to accommodate one (1) or more mobile homes. Mobile homes located in a mobile home park are used only to provide living and sleeping accommodations. A mobile home park does not include an automobile or mobile home sales lot on which unoccupied mobile homes are parked for inspection or sale. The term mobile home shall include mobile dwelling.

MOBILE HOME SUBDIVISION: A mobile home subdivision is a tract of land in which spaces or lots for mobile homes are for sale and in which the purchaser receives fee simple title to the space or lot.

MODULAR HOMES: A modular home is a factory fabricated dwelling over thirty-two (32) feet in length and at least twenty-four (24) feet wide designed and constructed without carriage or hitch collar as stationary house construction for placement upon a permanent foundation, to be permanently connected to utilities, and to be used for year-round occupancy. It may consist of two (2) or more components that can be separated when transported but designed to be joined into one (1) integral unit. A modular home must meet the minimum construction standards for house construction as specified in the Standard Building Code, the Federal Housing Administration Minimum Property Standards, the minimum construction standards as may from time-to-time be fixed by the law of the State of Mississippi, and must have a roof with at least a 3/12 pitch. Modular homes shall be allowed only in the "R-3", "R-4", and "C-1" Districts.

MOTEL: A group of attached or detached living units with individual toilet facilities operated for transient guests' and so constructed that guests' automobiles may be parked at or near the living unit.

MODIFYING ZONE: A zone which is dependent upon a primary zone and which is designed to add to the primary zone a specific restriction or liberalization to meet specific locational needs which if accomplished by an additional series of primary zones would make the Ordinance unnecessarily lengthy and complicated.

NON-CONFORMING BUILDING: A building or structure or portion thereof, lawfully existing at the time this Ordinance or an amendment thereto becomes effective, which does not meet the bulk, height, yard, parking, loading or other requirements of this Ordinance or any amendment thereto.

NON-CONFORMING USE: A use which lawfully occupies a building or land at the time of this Ordinance or an amendment thereto becomes effective but does not meet the requirements of this Ordinance or any amendment thereto.

OPEN SPACE, COMMON: A parcel or parcels of land not occupied by dwellings or other buildings, which is permanently maintained in a suitable state for the shared use and enjoyment by the owners and/or occupants of individual dwelling units within a particular development.

OVERLAY DISTRICT: A set of supplementary or replacement regulations that is described in the Code text, mapped, and is imposed in addition to those of the underlying district. Developments within the overlay zone must conform to the requirements of both zones or the more restrictive of the two. *Source: Ordinance No. 1292-1997, App. B, 3-18-97*

OUTDOOR ADVERTISING SIGNS AND BILLBOARDS: A sign including the supporting sign structure which directs the attention of the general public to a business, service or activity not usually conducted or a product not usually offered or sold upon the premises where such a sign is located, and such sign or billboard shall be considered a commercial use.

OUTDOOR STORAGE: A depository or place for storing goods related to the establishment on the same premises and not located within a building.

PAR-3 GOLF COURSE: A golf course other than a miniature golf course and other than a golf course defined herein, and having greens similar to a golf course and fairways of not less than fifty (50) yards in length. A par-3 golf course may not be lighted unless so specified as permitted in the text of this Ordinance.

PARKING SPACE: A space located on private or public property sufficient in size to park, in accordance with Article VI of Appendix I, one (1) automobile.

PARKING AREA, PUBLIC: An open area other than a street or alley used for the temporary parking of more than four (4) self-propelled vehicles and available for public use whether free, for compensation, or as an accommodation for clients or customers.

PARKING AREA, SEMI-PUBLIC: An open area other than a street or alley for temporary parking of more than four (4) self-propelled vehicles as an accessory use to semi-public institutions, schools, churches, hospitals and non-commercial clubs.

PERSONAL SERVICE ESTABLISHMENTS: A business which provides personal services directly to customers at the site of the business, or which receives goods from or returns goods to customers which have been treated or processed at that location or another location. This includes, but is not limited to, travel agencies, dry-cleaners, laundries, tailors, hair stylists, cosmeticians, toning or tanning salons, banks, postal stations, package delivery drop-off and pick-up stations, photocopy centers, shoe repair shops, appliance repair shops, interior design studios, dance and martial arts studios, and domestic pet services. This shall not include adult entertainment establishments, such as adult arcades, adult bookstores, adult motels, adult theatres, massage parlors, etc. Also, this shall not include automobile service stations.

PLANNED UNIT DEVELOPMENT (PUD): A land tract in which a multiplicity of land uses may be permitted including single-family residential, multi-family residential, public use and compatible commercial use, and in which land not used by residential or commercial structures and yards but required by basic zoning of the site shall be reserved collectively in

contiguous units accessible to all the building sites in the development as open space for the purpose of providing recreational facilities and pedestrian circulation.

PLANNING COMMISSION: The “Planning Commission” for the City of Laurel, Mississippi, who directly hears public hearings on zoning matters and makes recommendations to the governing authority for their final consideration.

Source: Ordinance No. 1474-2006, 9-5-06

PREMISES: Land together with structure or structures occupying it.

PRIMARY ZONE: A zoning classification which can stand alone as a classification of a parcel of property.

PRINCIPAL PERMITTED USE: That use of a zoning lot which is among the uses allowed as a matter of right under the zoning classification.

RESIDENTIAL FENCES: See Section 604.01. *Source: Ordinance No. 1312-1998, 1(B), 2-3-98*

RIGHT-OF-WAY: The land occupied, including necessary parkway or open space dedicated or designated for the use of a public street or alley.

ROOF AND CANOPY: A canopy is a roof-like structure that is attached to and supported entirely by or from a wall of the main building. A roof for the purposes of this Ordinance is a canopy or covering which is supported by a floor or ceiling structure of the main building.

ROOMING HOUSE: A dwelling containing one (1) or more lodging rooms that accommodate one (1) or more persons who are not members of the keeper's family; provided however, that the letting of rooms for hire, to the extent permitted by this Ordinance as a home occupation, shall not in itself cause a dwelling to be a rooming house. In a rooming house, lodging or meals are provided for compensation on a weekly or monthly basis. Rooming house includes boarding house.

SCREENING: This term refers to landscaping and/or architectural barriers which block vision.

SERVICE STATION: Any building, structure, or land used primarily for the dispensing, sale or offering for sale at retail of any automotive fuels, oils, accessories or other sundry items normally sold at service stations for the traveling public but not including major repair work such as motor overhaul, body and fender repairs, or spray painting.

SIGN: See Sign Definitions, page 489

SITE PLAN REVIEW COMMITTEE: That Committee, as defined in Section 503.02, which shall have the duty to review certain site plans, all as herein provided for in this Ordinance. *Source: Ordinance No. 1197-1992, Art. V, 11-17-92*

SPECIAL EVENT: An occurrence that is limited to a specified time period including but not limited to concerts, grand openings, sales, revivals and other similar events.

Source: Ordinance No. 1454-2004, § 1, 12-21-04

SPECIAL EXCEPTION: A use which is not permitted in the zoning district where the property is located under the provisions of this Ordinance but which in the specific case, would, in the judgment of the City Council, promote the public health, and safety, of the general welfare of the community and the granting of which would not adversely affect adjacent properties. A permit granted as a Special Exception will not change the general zoning of the property or allow any change in integrity and appearance of the existing structure that would be contrary to the desired character of the district, and will be given on a yearly basis only during the occupancy or ownership of the person to whom it was granted, and upon their vacating the property or structure, the property and structure shall revert to the original use.

STABLE, PRIVATE: An accessory building for the keeping of horses, or mules owned by the occupants of premises and not kept for remuneration, hire or sale.

STABLE, PUBLIC: A stable other than a private or riding stable.

STABLE, RIDING: A structure in which horses or mules used for pleasure riding or driving are housed, boarded or kept for hire; including a riding track.

STORY: That portion of a building included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it, then the space between the floor and the ceiling next above it.

STREET OR ROAD: The entire width between property line of a way or place dedicated or acquired for the purpose of public use for vehicular traffic or access other than an alley,

STREET RIGHT-OF-WAY LINE: The legal property line boundary between the street right-of-way, and the abutting property.

STRUCTURE: Anything constructed or erected with a fixed location on the ground or attached or resting on something having a fixed location on the ground. Moreover, the following shall always be considered structures: buildings, walls, fences, signs and billboards.

STRUCTURAL ALTERATIONS: Any change in the structural members of a building, such as walls, columns, beams or girders. Vehicles duly licensed for operation upon public streets or highways shall not be considered structures.

SUBDIVISION: An area of land divided into lots for development by means of an appropriately recorded legal document.

TOWNHOUSE SUBDIVISIONS: The term "townhouse subdivision" shall apply to those developments in which it is proposed to partition land into individual lots and construct

townhouses which may be individually owned and where the minimum lot sizes shall be as required under "R-3" Residential District of this Ordinance.

TRACT DEVELOPMENT: A tract of land at least five (5) acres in size, designed for residential purposes where dwellings may be grouped or clustered to maximize advantageous development of the site and where, through the proper use of common maintained open space, character and density requirements of the residential district in which it is located are satisfied.

UNOBSTRUCTED OPEN SPACE: An area of land upon which no structure may be erected.

USE: The purpose or purposes for which land or a building is designed, arranged, or intended, or to which said land or building is occupied, maintained or leased.

USE, ACCESSORY: A use customarily incident to a principal permitted use of building and location on the same zoning lot with such principal use or building.

USE, CONDITIONAL: A use which is not allowed in the zone as a matter of right, but which is permitted upon findings of the Board that under the particular circumstances present, such use is in harmony with the principal permitted uses of the zone. Allowable conditional uses are specifically listed under the district regulations. Uses not so listed shall not be allowed as conditional uses.

USE, SPECIFICALLY EXCLUDED: A use of land or a structure which is excluded from a zone by the operation of other regulations of the zone, but which is specifically enumerated as excluded for purposes of clarity of intent and ease of reference.

VARIANCE: A modification of the literal provisions of this Ordinance which the Board is permitted to grant when strict enforcement of said provisions would cause undue hardship (such hardship cannot be self-created or of an economic nature) owing to circumstances unique to the individual property on which the variance is sought.

WALL: See also *Concealing Fence*. Source: Ordinance No. 1312-1998, §1(B), 2-3-98

YARD, FRONT: An open space extending the full width of the zoning lot, between the main building and the front lot line, unoccupied and unobstructed by building or structures in excess of four (4) feet in height except as provided herein, the depth of which shall be measured as the least distance between the front lot line and the front of such main building.

Source: Ordinance No. 1312-1998, §1(B), 2-3-98

YARD, REAR: An open space extending the full width of the zoning lot, between the main building and the rear lot line, unoccupied and unobstructed by buildings or structures in excess of eight (8) feet in height except as provided herein, the depth of which shall be measured as the least distance between the rear lot line and rear of such main building.

Source: Ordinance No. 1312-1998, §I (B), 2-3-98

YARD, SIDE: An open space extending from the front yard to the rear yard, between the main building and the side lot line, unoccupied and unobstructed by buildings or structures in excess of eight (8) feet in height, except as provided herein, (see *Accessory Building*) the depth of which shall be measured as the least distance between the side lot line and the side of such main building.

Source: Ordinance No. 1312-1998, §I, (B), 2-3-98

ZERO LOT LINE SUBDIVISION: A residential complex consisting of no less than zero lot line lots.

ZONING LOT: A single tract of land, located within a single block, which at the time of filing for a Building Permit or a Certificate of Occupancy, is designated by the owner or developer as a tract to be used, developed, or built upon as a unit, under single or unified ownership or control, and assigned to the particular use, building or structure, for which the Building Permit or Certificate of Occupancy are issued, and including such area of land as may be required by the provisions of this Ordinance for such use, building or structure.

SIGN DEFINITIONS

For the purpose of this Ordinance, the following words and phrases shall have the meanings respectively ascribed to them by Section 602, **General Sign Regulations** [of Appendix I]:

CHARACTER: Any letter of the alphabet or any numeral.

EFFECTIVE AREA: for detached signs, means the area enclosed by the minimum imaginary rectangle of vertical and horizontal lines which fully contains all extremities of the sign, exclusive of its supports. This rectangle is to be calculated from an orthographic projection of the sign viewed horizontally.

A viewpoint for this projection is to be taken which gives the largest rectangle of that kind, as the viewpoint is rotated horizontally around the sign. If elements of the sign are movable or flexible, as a flag or string of lights, the measurement shall be taken when the elements are fully extended and parallel to the plane of view.

EFFECTIVE AREA: for attached signs, shall mean the sum of the areas of the minimum imaginary rectangles enclosing each word attached to any particular facade.

A horizontal “orthographic projection” is simply a non-perspective view of an object - a perpendicular projection seen from the ground, like the architect’s evaluation of a building. The “effective area” definition suggests a two-step process for calculating sign area. First, one must choose the point of view from which the sign looks widest. For flat signs, this viewpoint is directly opposite the face. If the sign were a cube in shape, this viewpoint would be opposite a corner. Now the picture of the sign seen from this viewpoint is enclosed within the smallest rectangle which fully contains the sign. The area of that rectangle is the “effective area” of the sign.

FACADE: Any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space. Where separate faces are oriented in the same direction, or in the directions within forty-five degrees (45°) of one another, they are to be considered as part of a single facade.

HEIGHT: As applied to a sign, shall be measured as the vertical distance between the highest part of the sign or its supporting structure, whichever is higher, and a level plane going through the nearest point of the improved public right-of-way, other than an alley.

INTERSECTION: The junctions of the center lines of any two (2) public rights-of-way, other than alleyways.

LUMINANCE: The brightness of a sign or a portion thereof expressed in terms of footlamberts. For the purposes of this definition, luminance shall be determined by the use of an exposure meter calibrated to standards established by the National Bureau of Standards and equipped with a footlambert scale.

OCCUPANCY: The purpose for which a building is used or intended to be used. The term shall also include the building or room housing such use. Change of occupancy is not intended to include change of tenants or proprietors.

PREMISE: Any lot or unplatted tract, or any combination of contiguous lots or unplatted tracts held under single ownership.

SETBACK: The required distance between any point on private land and the nearest point at the edge of the nearest public right-of-way, other than an alley. Where a public way crosses a railroad right-of-way, the setback distance is to be measured from the public right-of-way line extended across the railroad right-of-way.

SIGN: Any device, light, figure, picture, letter, word, message, symbol, plaque, or poster visible from outside the premise on which it is located and designed to inform or attract the attention of persons not on that premise, excluding searchlights, flags, streamers, pennants, balloons, and other similar devices. *Source: Ordinance No. 1239-1994, § 1, 6-7-94*

SIGN, ATTACHED/WALL SIGN: Any sign attached to, applied on, or supported by any part of a building (such as a wall, roof, window, canopy, awning, arcade, or marquee) which

encloses or covers usable space.

SIGN, BANNER: Any sign non-permanent advertising device, usually made of cloth or vinyl, which is suspended from a building or is suspended between two poles. Banners are not considered permanent signs and may not be used in lieu of permanent signs. The use of banners is regulated under Section 602: General Sign Regulations, Subsection 602.01.04.

SIGN, DETACHED/GROUND MOUNTED SIGN: Any sign connected to the ground which is not an attached sign, inclusive of signs on movable objects.

SIGN, DIRECTIONAL: A non-premise sign whose content is limited exclusively to the identification of specific premise or occupancy located elsewhere, and which tells the location of or route to that premise or occupancy.

SIGN, ILLUMINATED: Any sign which is directly lighted by any electrical light source, internal or external. This definition shall not include signs which are illuminated by street lights or other light sources owned by any public agency or light sources which are specifically operated for the purpose of lighting the area in which the sign is located rather than the sign itself.

SIGN, NON-PREMISE: Any sign which is not a premise sign.

SIGN, POLITICAL: Any type of non-premise sign which refers only to the issues or candidates involved in a political election.

SIGN, PREMISE: Any sign the content of which relates to the premises on which it is located, referring exclusively to the name, location, products, persons, accommodations, services or activities of or on those premises, or the sale, lease, or construction of those premises.

SIGN, REAL ESTATE: A sign offering property for sale or rent by either an owner or realtor.

SIGN, SHINGLE: A non-internal electric, non-self-illuminating sign of not more than two (2) square feet of surface area which is commonly used for identification by members of a recognized profession.

SIGN, SPECIAL PURPOSE: A sign temporarily supplementing the permanent signs on a premise.

SIGN SUPPORT: Any pole, post, strut, cable, or other structural fixture or framework necessary to hold and secure a sign, providing that said fixture or framework is not imprinted with any picture, symbol or word using characters in excess of one inch (1") in height, nor is internally or decoratively illuminated.

SIGN, TRAILER/PORTABLE: A temporary sign structure for use, with or without,

changeable type lettering, illuminated or non-illuminated, with or without wheels, not permanently attached to the ground.

SIGN, VEHICULAR: Any sign on a vehicle moving along the ground or on any vehicle parked temporarily, incidental to its principal use for transportation. This definition shall not include signs which are being transported to a site of permanent erection.

WORD: For the purpose of this Section, one (1) word shall be deemed to be any of the following:

- (a) Any word in any language found in any standard unabridged dictionary or dictionary of slang.
- (b) Any proper noun or any initial.
- (c) Any separate symbol or abbreviation, such as “&”, and “\$”, “%”, and “Inc.”
- (d) Any telephone number, street number, or commonly used combination of numerals and/or symbols such as "\$55.00" or "50%".
- (e) Any symbol or logo which is a registered trademark, but which itself contains no word or character.
- (f) Otherwise, each separate character is considered to be a word.

FOREWORD

These Personnel Rules and Regulations are designed to provide the City of Laurel with a sound system of Personnel Management. The administration and enforcement of this policy is the responsibility of the Mayor and Department Directors. Circumstances may require the City to change or delete policies or benefits at any time. When such changes are made, employees will be notified as soon as possible.

These policies do not constitute an express or implied employment contract or agreement between the City of Laurel and any employee or group of employees, nor are they intended to create an expectation of continued employment of any person or groups of persons by the City of Laurel.

All employees of the City of Laurel are at-will employees; with exception of those covered under the Civil Service Commission.

GENERAL POWERS AND DUTIES OF CITY COUNCIL

The Council, in addition to such other powers and duties as may be conferred upon it by this chapter or otherwise by general law, may require any municipal officer, in its discretion, to prepare and submit sworn statements regarding his official duties, and otherwise to investigate the conduct of any department, officer or agency of the municipal government. (21-8-13)

The City Council shall have the power and authority to provide for and pay to any member of the police department or fire department of such municipality additional compensation for services and duties performed by any such member over and above the usual and regular number of days and hours per week or month ordinarily worked by such member. Nothing herein contained shall be construed to relieve any such member of the police department or fire department from being subject to call for duty on a twenty-four-hour basis whether or not additional compensation is paid. Provided, however, that no policeman or fireman shall perform any duties or other work during regular working hours for any person or association, group or drive, or during hours for which he is being paid for the performance of official duties as policeman or fireman. (21-9-21)

These Rules and Regulations shall apply to all personnel with the exception of the following:

1. Mayor
2. Members of the City Council
3. Temporary Employees

Persons employed to make or conduct a special investigation, inquiry, examination, or installation, where the Mayor and City Council certifies that such employment is temporary and that the work should not be performed by employees in the Classified Service.

CHAPTER 1

DUTIES OF EMPLOYEES

Sec. 1-1. Each employee shall discharge the duties of his job in this manner:

1. Work shall be characterized by loyalty to the City and by honesty.
2. Work shall be done with highest possible degree of efficiency.
3. Orders of supervisors, the provisions of this policy, and all other policies established by the Mayor and confirmed by the Council shall be strictly followed.
4. With the supervisor's permission, an employee may be excused from duty to attend to personal business. Employees will not be compensated for time away from duty. Employees are expected to be punctual at all times.
5. When necessary to determine his/her fitness for duty, an employee shall submit to examination by the City's physician for the purpose of determining physical fitness for his individual base job.
6. An employee shall not become delinquent in the payment of taxes, assessments, utility bills, or other obligations owed to the City.
7. Any employee whose position might require him to operate a City vehicle must have a valid driver's license.

Sec. 1-2. Outside Employment

City of Laurel employees are permitted to engage in outside employment as long as it does not in any manner compete with their City of Laurel employment and is not a conflict of interest. The City of Laurel's property, resources, supplies, equipment, vehicles, uniforms, etc. may not be used in the course of outside employment with the exception of the Police Department.

CHAPTER 2

RECRUITMENT POLICY EQUAL EMPLOYMENT OPPORTUNITY

Sec. 2-1. EQUAL EMPLOYMENT OPPORTUNITY POLICY. The City of Laurel provides equal employment opportunities to all employees and applicants for employment. There will be no discrimination against any employee because of race, color, religion, sex, national origin, age, disability, or veteran status. This policy applies in every location in which the City has facilities. This policy also applies to all terms and conditions of employment, including, but not limited to, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, and compensation.

The City of Laurel expressly prohibits any form of unlawful employee harassment based on race, color, religion, sex, national origin, age, disability, or veteran status. Improper interference with the ability of the City's employees to perform their expected job duties is not tolerated.

Sec. 2-2. POLICY AGAINST SEXUAL HARASSMENT

With respect to sexual harassment, the City prohibits the following:

- (1) Unwelcome sexual advances; requests for sexual favors; and all other verbal or physical conduct of a sexual or otherwise offensive nature, especially where:
 - (a) Submission to such conduct is made either explicitly or implicitly a term or condition of employment.
 - (b) Submission to or rejection of such conduct is used as the basis for decisions affecting an individual's employment; or
 - (c) Such conduct has the purpose or effect of creating an intimidating, hostile, or offensive working environment.
- (2) Offensive comments, jokes, innuendoes, and other sexually oriented statements.

It is the policy of the City of Laurel to maintain a work environment that is free from the hostile atmosphere created by sexual harassment and intimidation. Such conduct will not be tolerated. If you are subjected to sexually harassing or intimidating conduct by an individual, including supervisory personnel employed by the City, you should immediately report the incident by

submitting a written complaint to the Director of Personnel as provided in the Complaint Procedure outlined below.

Sec. 2-3. COMPLAINT PROCEDURE

Each member of management is responsible for creating an atmosphere free of discrimination and harassment, sexual or otherwise. Further, employees are responsible for respecting the rights of co-workers.

If you experience any job-related harassment based on your sex, race, national origin or disability, or believe that you have been treated in an unlawful, discriminatory manner, promptly report the incident to your supervisor or the Director of Personnel. All complaints must be submitted to your supervisor or the Director of Personnel in writing so that the City may better investigate the complaint. Such complaints will be properly investigated, and, if substantiated, the offending individual will be appropriately disciplined, up to and including termination of employment. To the extent possible, all persons involved in a complaint of sexual harassment will be given the utmost protection of privacy.

The City prohibits any form of retaliation against any employee for filing a bona fide complaint under this policy or for assisting in a complaint investigation. However, if, after investigating any complaint of harassment or unlawful discrimination, the City determines that the complaint is not bona fide or that an employee has provided false information regarding the complaint, disciplinary action may be taken against the individual who filed the complaint or who gave the false information. Disciplinary action may include termination of employment.

Sec. 2-4. MEDICAL EXAMINATIONS

As part of the City of Laurel's employment procedures, an applicant is required to undergo a post-offer, pre-employment medical examination and an alcohol and drug screening that are conducted by a physician designated by the City. Any offer of employment that an applicant receives from the City is contingent upon, among other things, satisfactory completion of this examination and screening and a determination by the City and its examining physicians that the applicant is capable of performing the essential functions of the position that has been offered, with or without a reasonable accommodation.

As a condition of continued employment, employees may also be required to undergo periodic medical examinations, and/or alcohol and drug screenings, at times specified by the City. Further, it should be understood that the City receives a full medical report from its examining physicians regarding the applicant's or employee's state of health. All City required medical examinations and alcohol and drug screenings are paid for in full by the City. If an employee resigns his employment within the first ninety (90) days without just cause, the cost of the medical examination will be deducted from his final wages. Questions about medical examinations or alcohol and drug screenings should be directed to your supervisor or the personnel department.

Post-offer Medical Examinations are exclusive of temporary and part-time employees.

Sec. 2-5. ORIENTATION PROGRAM

When your employment begins, you will participate in an orientation program conducted by the personnel department and various members of your department, including your supervisor. During this program, you will receive important information regarding the performance requirements of your position, basic City policies, plans, your compensation, and benefits programs, plus other information necessary to acquaint you with your job and the City. You will also be asked to complete all necessary paperwork at this time, such as medical benefits plan enrollment forms, beneficiary designation forms, and appropriate federal, state, and local tax forms. At this time, you will be required to present the City with information establishing your identity and your eligibility to work in the United States in accordance with applicable federal law. Please use this orientation program to familiarize yourself with the City and our policies and benefits. We encourage you to ask any questions you may have during this program so that you will understand all the guidelines that affect and govern your employment relationship with us.

Sec. 2-6. PERSONNEL FILES

The City of Laurel maintains personnel files on each employee. You may review your personnel file on an annual basis, or in case of a special need that is in the interest of the employee. If you are interested in reviewing your file, contact the personnel department to schedule an appointment. To ensure that your personnel file is up-to-date at all times, notify your supervisor or promptly report to the personnel department any change in your name, telephone number, home address, marital status, number of dependents, beneficiary designations, scholastic achievements, the individuals to notify in case of an emergency, and military status. The accuracy of these records is particularly important in the case of mailing paychecks, W-2 forms, insurance payments, sick benefits, accidental benefits, etc.

Sec. 2-7. NONDISCRIMINATION AGAINST AND ACCOMMODATION OF INDIVIDUALS WITH DISABILITIES

The Americans with Disabilities Act (“ADA”) covers employers with fifteen (15) or more employees and prohibits discrimination against “qualified individuals with disabilities.” A qualified individual with a disability is an applicant or employee who can perform the essential functions of the job with or without reasonable accommodation.

The City complies with the ADA, ensuring equal opportunity in employment for qualified persons with disabilities. In addition, the City is committed to full compliance with the ADA Amendments Act (ADAAA), which was effective January 1, 2009. The City provides reasonable accommodation for such individuals in accordance with the ADA.

It is the City's policy to, without limitation:

1. Ensure that qualified individuals with known disabilities are treated in a nondiscriminatory manner in the pre-employment process.
2. Ensure that employees who are qualified individuals with known disabilities are treated in a nondiscriminatory manner in all terms, conditions, and privileges of employment.
3. Administer medical examinations to applicants only after conditional offers of employment have been extended.
4. Keep all medical-related information confidential in accordance with the requirements of the ADA and retain such information in separate confidential files.
5. Provide applicants and employees who are qualified individuals with known disabilities with reasonable accommodation, except where such an accommodation would create an undue hardship for the City or threaten the safety and/or health of others at work.
6. Notify individuals with disabilities that the City provides reasonable accommodation to qualified individuals with disabilities, by including this policy in the City's employee handbook and by posting the Equal Employment Opportunity Commission's poster on not discriminating against individuals with disabilities and other protected groups conspicuously throughout the City's facilities.

Sec. 2-7.(2) Procedure for Requesting an Accommodation

Employees may request reasonable accommodation by submitting the request to the City's equal opportunity/affirmative action officer (Personnel Director). On receipt of an accommodation request, the Personnel Director will meet with the requesting individual to discuss and identify the precise limitations resulting from the disability and the potential accommodation that the City might make to help overcome those limitations. If an employee requires accommodation in order to perform a job, he or she must disclose information about the disability and the need for specific accommodations to the City. Even after disclosure, the City is not required to make an accommodation that would prove an "undue hardship" for the City or threaten the safety and/or health of others at work. The Personnel Director, in conjunction with the supervisor, and, if necessary, appropriate management representatives identified as having a need to know, will determine the feasibility of the requested accommodation, considering various factors, including, but not limited to, the nature and cost of the accommodation, the availability of the City's overall financial resources and organization, and the accommodation's impact on the operation of the City, including its impact on the ability of other employees to perform their duties and on the City's ability to conduct business. The Personnel Director will inform the employee of the City's decision on the accommodation request or on how to make the accommodation.

If you have any questions or need further information regarding an accommodation or feel that you have been discriminated against due to disability, please contact the Personnel Director.

Sec. 2-8. Recruitment

Recruitment of employees for positions in the City service shall be the responsibility of the Personnel Director. The Personnel Director will welcome assistance from Department Directors and other employees of the City in obtaining suitable applicants for positions with the City. All applicants, regardless of race, color, creed, religion, sex, age, disability, national origin, veteran,

or political background, shall be given equal consideration for all positions with the City of Laurel.

No applicant shall be hired or employee transferred into a department in which any supervisor or director of that department is related to the applicant or employee within the third degree.

Sec. 2-9. Procedure for Requesting Personnel

Department Directors shall notify the Personnel Director as far in advance as reasonably possible of any requirement for additional or replacement personnel by submitting a request for personnel. The Personnel Director shall review the request and, in consultation with the appropriate Department Director, consider the methods of filling the vacancy. Vacancies within the classified service of the City will be posted on all bulletin boards in all departments of the City as soon as reasonably practical.

Sec. 2-10. Promotions from Within the Department

The factors in determining promotions shall be efficiency of service, promise of continued development, education and background, length of service, and/or competitive examinations. These criteria are observed so that both employees and the public will regard the government service as a career; efficiency and ability will be recognized; and the turnover of personnel will be minimized.

Sec. 2-11. Transfer of other Qualified City Employees

Transfers may be made between positions within the classified service. Should the new position have different minimum qualifications, the employee seeking the transfer shall be required to prove that he possesses such qualifications. A request for transfer must be initiated in writing by the employee so affected on forms furnished by the City and must be approved by the Director of Personnel.

Sec. 2-12. Recruitment of New Employees

If no employees are available for promotion or transfer to the position, or if no employee available for promotion or transfer is satisfactory, the position shall be filled by employing a person not then employed by the City. After the candidate has been selected, the Personnel Director shall require all necessary forms be filled out prior to the candidate's beginning work. The Personnel Department shall then maintain all necessary records and information on each City employee.

Sec. 2-13. The Disqualification of Applicants

The Personnel Director shall reject any application which indicates that the applicant does not possess the minimum qualification required for that particular position. Applicants shall also be rejected if the applicant:

- (1) is physically unfit to perform the duties of the particular position;
- (2) is addicted to drugs or intoxicants;
- (3) has made false statements or committed fraud in his application;
- (4) has failed to properly fill out his application;
- (5) has been a former employee dismissed for cause, except in cases where the Administration finds satisfactory evidence of rehabilitation; or
- (6) is related within the third degree to any person who is elected within municipal government or appointed within the same department.

Sec. 2-14. Filing and Disposal of Applications

The Director of Personnel shall preserve for at least six months all applications of applicants who fail the examination, who are permanently rejected, or who fail to report to work after being appointed. The application and other materials of all other applicants shall remain on file for a period of two years and may at the end of this period be destroyed by the Personnel Director. Applications of those persons who are appointed to a position with the City shall be placed in the employee's file. The Mississippi Employment Service may provide this service for the City.

CHAPTER 3

TYPES OF APPOINTMENTS

Sec. 3-1. Probationary Appointment and Evaluations

An employee who has been hired as a prospective regular full-time employee and who has not completed his six (6) or twelve (12) month probationary period is a probationary employee.

At the end of the fifth month for the six (6) month employee's probationary period or at the end of the ninth month for the twelve (12) month employee's probationary period, the employee's Department Director shall evaluate the employee's work performance to ascertain his ability to continue working on his job. However, the Department Director can evaluate or recommend termination prior to six or twelve months if he or she determines the probationary employee is unable to substantially perform his or her duties or commits any of the infractions set out in Chapter 16 of this handbook. The City's progressive discipline process does not apply to probationary employees. After discussion of performance with the employee by the supervisor, the evaluation shall be given to the Personnel Director as a permanent part of the employee's record. Employment of the probationary employee may be terminated as described above at the recommendation of the Department Director after consultation with the Personnel Director, during the probationary period. The grievance procedure provided in this handbook does not apply to probationary employees.

Sec. 3-1.(2) Evaluations

Evaluations are used as a communication tool for the purpose of monitoring an employee's level

of development and skill level. Evaluations are also used as a way for Supervisors and Department Directors to share their performance expectations, goals and objectives with the employees they supervise.

If the Department Directors are not satisfied with the employee's performance after 2/3 (two thirds) of their probation period has expired, the Directors shall have the ability to extend the probation period for probationary employees, up to 50% (fifty percent) of their original probation, after approval by the Mayor. There will be only one extension of probation granted to an employee.

Sec. 3-2. Regular Full-Time Appointment and Evaluations

An employee who has successfully completed his probation period is considered a regular full-time employee. A regular full-time employee may have his job terminated or may be transferred for incompetency only by the Mayor upon the recommendation of the Personnel Director and Department Director.

All full-time City employees are subject to job performance evaluations as well as an annual evaluation to be completed on or before each employee's annual anniversary date. Department Heads and Supervisors are responsible for ensuring accurate, honest, and timely annual evaluations are administered on those under their supervision. Other special evaluations may be administered at any given time as requested by the employees, supervisor, department head, human resources or Mayor.

Sec. 3-3. Part-Time Appointment

An employee who is serving in a job for which there have been established fewer than 32 hours scheduled working hours per week is a part-time employee.

Sec. 3-4. Interim Appointment

When a vacancy occurs in a position that is critical to the City's business, the Mayor may appoint an employee from another position on an interim basis. Such employee, while in an interim capacity, shall be compensated with the budgeted classification only after thirteen (13) weeks have elapsed. In the event that no current employee meets the minimum qualifications of said position, the Mayor may recruit a person from outside the City organization to hold the position in an interim capacity to be reviewed in six (6) month increments.

Sec. 3-5. Promotional Appointment

A promotion occurs when a person is elevated in position and grade. No promotion shall be considered permanent and approved until a six-month probationary period has elapsed.

Sec. 3-6. Contract Appointment

A person hired for a specific job to be paid by the city warrant and not to exceed a 30-day period has a contract appointment. Extension of time must be approved by the Mayor and Council.

Sec. 3-7. Employee Transfer Appointment

An employee may request a transfer or may be transferred from one department to another or from one position to another in his own department of the same or lower class as the position he holds, provided that a position is available and that he possesses the necessary minimum qualification for such a position. A request for transfer must be made by responding to a job notice posted on bulletin boards.

Sec. 3-8. Appointed Positions

Appointed positions are made by the Mayor and ratified by the City Council. These employees are entitled to the same benefits package as all other City employees. Upon separation, other than volunteer terminations, the employee will be paid for all unused vacation and sick leave time earned in a lump sum.

CHAPTER 4

DEMOTION IN EMPLOYMENT

Sec. 4-1. An employee may be demoted to an open position of lower class for which he is qualified when:

- (1) the higher position is abolished, there is a lack of work or funds, or another employee returns to work from authorized leave;
- (2) the employee does not possess the necessary qualifications to render satisfactory service;
- (3) an employee voluntarily requests such demotion; or
- (4) the demotion is disciplinary.

CHAPTER 5

SUSPENSION, LAYOFF, RESIGNATION, SEPARATION, AND REEMPLOYMENT

Sec. 5-1. Suspension

- (1) In the interest of good discipline, a Department Director, after consultation with the Personnel Director, may suspend a regular full-time employee.
- (2) An employee who is suspended shall be furnished with a written statement of the reasons for the suspension, and a copy shall be made a permanent part of his service record. The

employee may contest the suspension and may elect to use the grievance procedure.

Sec. 5-2. Layoff

- (1) Employees are laid off either because of lack of work or funds or because of a change in organization of the City's job force. Separation, transfer or demotion due to layoff does not reflect discredit upon an employee.
- (2) The procedure for layoff is as follows:
 - (A) When the need for a layoff arises, the Mayor shall inform the Department Director concerned of the number of jobs which shall be vacated in his department.
 - (B) The Department Director in conjunction with the Personnel Director, shall recommend to the Mayor the jobs which he thinks should be vacated and shall recommend the employees to be separated, transferred, or demoted because of the layoff.
 - (C) These factors, as considered and evaluated by the Mayor, shall govern any layoff under this section:
 - (a) If a job of a comparable classification is open, a regular full-time employee shall be transferred or demoted rather than separated.
 - (b) A temporary employee is to be separated before a probationary employee is transferred or demoted.
 - (c) A probationary employee is to be separated before a regular full-time employee is transferred or demoted.
 - (d) Seniority shall be the primary consideration in selecting employees who will be the last to be transferred, demoted, or separated.
 - (e) The regular full-time employee within a classification, and with highest seniority, shall be the last to be transferred, demoted, or separated.
 - (f) Bumping will not be allowed for any reason.
 - (D) After receiving the recommendation from the Department Director (in conjunction with the Personnel Director), the Mayor shall inform the Department Director and the Personnel Director of the jobs which are vacated and the employees who shall be separated, transferred, or demoted.

Sec. 5-3. Voluntary and Automatic Resignation

- (1) An employee should give a minimum of two weeks advance notice of resignation to his Department Director, who shall submit notice to the Personnel Director. Proper notice generally allows the City sufficient time to calculate all accrued overtime (if applicable) as well as other monies to which the resigning employee may be entitled and to include such monies in the employee's final paycheck.
- (2) Unexcused failure to return to work after the time specified for an employee's return from

leave or vacation previously granted shall be considered an automatic resignation, with the resignation effective the day the employee should have returned to work. In the case of emergency situations, including but not limited to situations in which the employee needs additional leave, the employee shall give sufficient notification, depending upon the circumstances, as soon as reasonably possible, along with documentation to verify the circumstance.

Sec. 5-4. Separation

The last day that an employee actually worked shall be the separation date. The Department Director shall notify the Personnel Department of the separation of an employee and the reason for separation. The Personnel Department shall notify all persons who need to know the date of separation to compute the wages and fringe benefits accruing to the employee.

Sec. 5-5. Reemployment and Service Credit of Separated Employees

- (1) The City does not have a policy against rehiring former employees who have resigned with a reasonable amount of notice or were laid off for reasons beyond their control. If it is in the best interest of the City, any separated employee may be re-employed to fill a vacant job.
- (2) A former regular full-time employee who is re-employed following military leave shall retain all service credit and seniority earned prior to and during his military leave.
- (3) Any former employee who is re-employed, other than military leave, shall be re-employed as a probationary employee and shall lose all service credit and seniority earned prior to the separation with the exception of the time earned with the Public Employees' Retirement System, if funds have not been withdrawn.
- (4) An employee who is rehired shall be treated in the same manner as a probationary employee and must follow the same employment procedures.

CHAPTER 6

HOURS OF WORK

Sec. 6-1. The hours of work shall be determined by the Mayor with the assistance of the Department Directors and the Personnel Director. When an employee's normal schedule of work is changed, notice of such change shall be given to the employee prior to the effective date.

CHAPTER 7

EMPLOYEE BENEFITS

Sec. 7-1. Family and Medical Leaves of Absence

Sec. 7-1(a): Employees Who Qualify for a Leave Under the Family and Medical Leave Act of 1993 (“FMLA”)

The City will grant a leave of absence to regular full-time and regular part-time employees (who meet the requirements described below) for the care of a child after birth or adoption or placement with the employee for foster care, the care of a covered family member (spouse, child, or parent) with a serious health condition, or in the event of an employee's own serious health condition. An employee must have completed at least one full year of service with the City and have worked a minimum of 1,250 hours in the twelve-month period preceding the leave to be eligible for such leave.

Sec. 7-1(b): Amount of Leave Available

The City uses the calendar year (i.e. January 1 through December 31) as its FMLA leave year. Therefore, up to twelve (12) weeks of FMLA leave is available to qualifying employees in a calendar year. In addition, employees who meet the requirements for leave based on a military caregiver status may be entitled to up to 26 weeks of leave to care for a covered service member (who is the employee’s spouse, son, daughter, parent or next of kin) with a serious illness or injury.

Sec. 7-1(c): Notice of the Need for Leave

1. If the leave is planned in advance, you must provide us with at least thirty (30) days' notice prior to the anticipated leave date, using the City's official Leave-of-Absence Request Form.
2. If the leave is unexpected, you should notify your supervisor and the Personnel Department by filing the Leave-of-Absence Request Form as far in advance of the anticipated leave date as is practicable. (Normally, this should be within two business days of when you become aware of your need for the leave.)
3. Employees requesting leave to care for a covered family member with a serious health condition may be required to provide medical certification from the family member's physician attesting to the nature of the serious health condition, probable length of time treatment will be required, and the reasons that the employee is required to care for this family member. Employees may also be required to provide additional physician's statements at the City's request. Further, the family member may be required to submit to medical examinations by physicians designated by the City at its discretion and at the City's expense.

Sec. 7-1(d): Effect on and Accrual of Other Benefits During FMLA Leave

You will be required to use all accrued, unused vacation and sick leave days before the FMLA leave period. Once such benefits are exhausted, the balance of the FMLA leave will be without pay.

All City benefits that operate on an accrual basis (e.g., vacation, sick leave days) will cease to accrue during the FMLA leave period. All group health benefits will continue during the leave provided you continue regular employee contributions to these plans. (Other benefits, such as retirement, payroll deducted additional plans, will be governed in accordance with the terms of each benefits plan.)

Sec. 7-1(e): Leave for Employee's Own Serious Health Condition

During your FMLA leave, you may also be required to provide the City with additional physician's statements on request from either the City or the City's insurance carrier attesting to your continued disability and inability to work. You may also be required to submit to medical examinations by physicians designated by the City at its discretion and at the City's expense, at the beginning of, during, or at the end of your FMLA leave period, and to provide the City access to your medical records as required.

Before you will be permitted to return to work from medical leave, you will be required to present the City with a statement from your physician indicating that you are capable of returning to work and performing the essential functions of your position, with or without reasonable accommodation.

Sec. 7-1(f): Forms of FMLA Leave that May Be Taken

Leave taken to care for a child after birth, adoption, or placement in your home for foster care must be taken in consecutive workweeks. Leave taken for the employee's or a covered family member's serious health condition may be taken consecutively, intermittently, or on a reduced work/leave schedule based on certified medical necessity. In such instances, the City will follow applicable federal and state laws in reviewing and approving such leave requests. In addition, eligible employees may be entitled to as much as 26 weeks of leave to care for a covered service member (who is the employee's spouse, son, daughter, parent or next of kin) with a serious illness or injury.

Sec. 7-1(g): Reinstatement Rights

Employees who return to work immediately after the end of an approved FMLA leave will normally be reinstated to the same or an equivalent position, and will receive pay and benefits equivalent to those the employee received prior to the leave, as required by law. If an employee does not return to work on the first workday following the expiration of an FMLA leave, and has not been granted an extension of leave by the Company, the employee will be deemed to have resigned from employment.

Exceptions to this provision may apply if business circumstances have changed (e.g., if the employee's position is no longer available due to a job elimination). Exceptions may also apply for certain highly compensated employees under certain conditions. The City will provide written notice to any highly compensated employee who is not eligible for reinstatement.

Sec. 7-1(h): Return to Duty from Family Leave

1. As a condition to return to duty, the employee will be required to provide certification from the employee's health care provider that the employee is able to resume work.
2. The City will seek fitness-for-duty certifications only with regard to the particular health conditions that caused the employee's need for FMLA leave.
3. The Personnel Director will advise the employee as to when he or she may return to work.
4. The City expects all employees to adhere to all federal law and regulations governing FMLA leave.

Sec. 7-2: Vacation Leave

- (1) For the purpose of accrual, the vacation year shall be January 1 through December 31. Except for those departments that normally work on holidays (police, fire, etc.) authorized holidays observed by the City are not considered working days for vacation purposes. Employees shall earn and may take vacation based on the following schedule of City service:

CONTINUOUS FULL-TIME PERSONNEL

<u>Service Time</u>	<u>Annual Accrual</u>
After one (1) year	80 hours
After ten (10) years	120 hours
After fifteen (15) years	160 hours

FIRE SHIFT PERSONNEL

<u>Service Time</u>	<u>Annual Accrual</u>
After one (1) year	108 hours
After ten (10) years	168 hours
After fifteen (15) years	216 hours

- (2) Vacation with pay is granted in order that all regular full-time employees might have a time of rest and relaxation, and is one way the City shows its appreciation for your length of service. *A regular full-time employee may carry over a maximum of forty-eight (48) hours of vacation leave into the next calendar year. Vacation leave carried over shall not be accumulated.
- (3) Upon completion of an employee's first, tenth, and fifteenth year of service, the employee will be entitled to the number of hours of vacation listed above for that calendar year.

- (4) Since vacations are intended to provide rest and diversion from the regular work routine, employees are required to take their earned vacation. No payments will be made in lieu of taking vacation, except for accrued unused vacation at the time of termination or retirement (up to 200 hours). No days can be swapped or donated to other employees. Notwithstanding the foregoing, all earned vacation credits of employees who die while in the employ of the City shall be paid to the spouse or designated beneficiary of said individual.
- (5) Reemployed employees shall have their vacation computed on the basis of total length of service, less their period of absence, provided the reemployment occurs within six months of the separation.
- (6) Vacation leave must meet departmental approval. Available vacation leave may be taken anytime during the calendar year after one (1) year of service as a full-time employee. You should submit a vacation request to your supervisor prior to the date that you wish for your vacation leave to begin. Leave without prior approval shall be considered leave without permission. All vacation leave must meet departmental approval.

Sec. 7-3. Sick Leave Program

Sec. 7-3(a): Availability of Sick Leave.

Upon completion of their probationary period, employees shall be eligible for sick leave and sick leave credits will be retroactive to date of hire. Such sick leave with pay shall be granted for the following reasons:

- (1) Personal illness or physical incapacity of employee resulting from causes beyond his control;
- (2) Illness of a member of an employee's household that requires the employee's personal care and attention, or a member of the employee's immediate family as identified in this policy;
- (3) Enforced quarantine of the employee in accordance with health regulations imposed by the health authorities of the City, County or State; or
- (4) For the employee to keep a doctor or dentist appointment.

Sec. 7-3(b): Amount of Sick Leave

- (1) Each regular full-time employee shall earn sick leave credits at the rate of eight hours per month. Fire shift personnel shall earn sick leave credits at the rate of 10.8 hours per month. Sick leave need not be used within a specified leave year.
- (2) If an employee does not have sufficient sick leave credits to cover a period of absence, no allowance for sick leave shall be granted in advance or in anticipation of future sick leave credits. In such cases, payroll deduction for the time lost shall be made for the period during which absence occurred; however, earned vacation leave may be used for this purpose if the employee so elects in writing.
- (3) In the case of extended illness where an employee has exhausted his accumulated sick leave, all unused vacation time may be taken.
- (4) Sick leave is non-transferable for any reason from one employee to another employee.
- (5) Absence for a fraction or part of the day that is chargeable to sick leave in accordance with these provisions shall be charged proportionally.

Sec. 7-3(c): Administrative Control of and Procedures for Use of Sick Leave

- (1) The following control and procedures shall govern the administration of available sick leave. An employee requesting sick leave shall comply with the following conditions:
 - (a) Each employee shall insure that his immediate supervisor is notified of his need for sick leave as soon as practicable and in no event later than thirty (30) minutes prior to the working day beginning, other than police and fire employees. Unexcused sick time will result in equivalent loss of pay.
 - (b) The police and fire department employees shall notify their supervisor of their need to use sick leave at least one (1) hour prior to their scheduled duty time.
 - (c) If at work, the employee shall report to his immediate supervisor or designee to advise of sickness and the need to use sick leave prior to leaving the work area.
 - (d) Sick leave with pay in total of three consecutive working days for reasons of personal illness or physical incapacity shall be granted only after presentation of a written statement by a licensed

physician certifying that the employee's condition prevented him from performing the duties of his position. Failure to present said certification within one (1) week following an employee's return to work will result in the employee being charged with leave without pay for that time. Exception for the fire department only; notice must be given after two shifts.

- (e) An employee who is a chronic sick leave user may be required to undergo a physical examination, at the City's expense, provided the City reasonably believes, based on objective criteria, that the employee's ability to perform essential functions of his job is or will be impaired by a medical condition or the employee may or actually does pose a direct threat to others due to a medical condition. Chronic sick leave users are defined as those individuals who use an average of one (1) day or more per month of sick leave over a period of three (3) or more consecutive months.
- (2) Upon the employee's return from sick leave, sick leave forms must be filled out and forwarded to the immediate supervisor who shall forward the duplicate form and doctor's certificates, if applicable, to the Personnel Department for posting to the employee's permanent personnel records. During an employee's absence the immediate supervisor or other designated department official shall be diligent as to the welfare of the employee, periodically inquiring as to his well-being and progress. All leave of absence forms must be dated and signed by the employee and supervisor before being forwarded to the Personnel Department.
- (3) The City's Personnel Officer shall be responsible for the design of sick leave request forms. Sick leave information may be secured from the Personnel Department upon request.
- (4) The annual accrual period for record purposes shall conform to the period of January 1 through December 31 of each year.

Sec. 7-3(d): Sick Leave at Termination of Employment

- 1. An employee who terminates his employment with the City of Laurel through either (a) application for retirement based on years of service or (b) authorized disability retirement shall have a total number of accumulated sick leave days up to sixty (60) days paid to him in a lump sum payment. These sixty (60) days of accumulated sick leave days will not be credited in computing years of service upon retirement; however, for purposes of receipt of credit towards retirement only, employees shall be allowed to have, certified from records of the Public Employee's Retirement System of Mississippi as of the time of his retirement, all unused and unpaid sick leave days over the maximum of sixty (60) days at no cost to the City. The City of Laurel shall have no liability to pay or allow usage of such excess days. It is understood that such provision shall apply prospectively only from March 17, 2015, forward.
- 2. Because sick leave is a gratuity to be paid only during illness or accident while in the active employment of the City, an employee who leaves the service of the City of Laurel for other than authorized retirement purposes based on years of service or physical disability shall not be granted any benefits for the amount of his accumulated sick leave with the exception of those employees whose tenure with the City coincides with the terms of office or normal retirement.
- 3. An employee who is laid off from his position for reasons that are not discreditable to him may, if reappointed within twelve (12) months, have available for his necessary use any unused sick leave he

had available to him as of the time of his layoff. When an employee is transferred to another position, any unused sick leave which may have accumulated to his credit shall continue to be available for his use, as necessary.

Sec. 7-4. Emergency or Administrative Leave Compensation

In the event of a man-made, technological or natural disaster (extreme weather), the City of Laurel will adhere to the following policy:

- (1) Weather-related emergencies
 - (a) The Mayor or appropriate appointing authority monitors inclement weather through the Emergency Management System;
 - (b) The Mayor or appropriate appointing authority may grant Administrative or emergency Leave with pay to City of Laurel employees in advance of potentially threatening weather conditions;
- (2) Emergency or Administrative Leave Policy
 - (a) In the event the Mayor or appropriate appointing authority sends employees home or orders nonessential personnel not to report to work during unusual circumstances such as developing or unfolding man-made disasters, or impending inclement weather, employees will receive compensation for regularly scheduled work.
 - (b) Emergency Leave does not affect an employee's Personal, Sick, or Vacation Leave.
 - (c) Time-off scheduled before a man-made, technological or natural disaster (extreme weather) is not eligible for Emergency Leave Compensation.
 - (d) Essential Personnel who are ordered or expected to report to work will receive compensation in one of two ways to be determined by the Mayor or his designee: either commensurate time off or additional pay.
 - (e) **Overtime will be utilized as needed under the Emergency or Administrative Leave Policy for persons who are ordered or expected to report to work during a man-made, technological or natural disaster (extreme weather).**
 - (f) The form of compensation and the amount of time/pay is to be monitored/tracked by the department head.
 - (g) Compensatory leave time will be taken at the discretion of the supervisor preferably within the same pay period or within a month's time of the incident for which non-essential workers were excused from work.
 - (h) This leave time may be taken prior to termination or retirement

Sec. 7-5. Military Leave

- (1) Employees of the City of Laurel who are members of, or enter, the Uniformed Services of the United States, including the National Guard and the Commissioned Corps of the Public Health Service, the state military forces, or the reserve components of the same, and who participate in active or inactive duty or training, shall be entitled to a leave of absence without loss of service or annual leave during the time which he is engaged in the performance of official training duty under competent orders. Time off is also permitted for the employee to undergo an examination to determine his or her fitness for duty in any

of the federal military forces. While on such leave he shall be paid his regular salary not to exceed fifteen (15) working days in any calendar year.

- (2) To receive payment of salary an employee must, prior to his leave, file with the Personnel Director a copy of his official orders. The employee must provide advance notice of the need for leave whenever possible. The employee should give the Personnel Director as much advance notice as possible to allow the City to make arrangements to cover his position. Upon return, the employee must provide a certificate from his commanding officer of the performance of duty in accordance with the terms of such orders. If military papers are not turned in to the Personnel Director prior to leave and upon return from leave, the employee risks being deemed on leave without authorization and being paid accordingly.
- (3) It shall be the policy of the City to guarantee to its regular full-time employees who, during a national emergency, volunteer or are called for active military service, a position upon their return to civilian life equal to the one they left, provided that the requirements set forth in the Civil Service Rule 14(2) are fulfilled. Nothing in this policy requires the City to reemploy individuals who are not eligible for reemployment under the Uniformed Services Employment and Reemployment Rights Act ("USERRA") or other applicable law.
- (4) Regular full-time employees who volunteer or are called for active military service during a national emergency shall be paid on the date they leave City employ for all accrued vacation to their credit at that date.
- (5) Employees on federal military leave may be entitled to continue health insurance benefits, at the employee's expense, for up to twenty-four months.
- (6) These same policies shall be applicable to permanent employees who at any time are subject to the provisions of the Selective Service Act.
- (7) If you have questions regarding military leaves, or if you are unable to comply with this schedule due to injury or otherwise, please contact the Personnel Director.

Sec. 7-6. Jury Leave

An employee who is required to serve as a juror, to attend court, or to attend a coroner's inquest as a witness, shall be excused from work for the days on which he serves and, in the case of jury service, he shall receive his regular rate of pay for each day of such service. The employee will present proof of reporting for service to the Personnel Director prior to going for service. If an employee is released from jury duty by the court any time prior to 12:00 noon, he shall report to work within one hour after being released by the court if scheduled to work.

Sec. 7-7. Leave of Absence Without Pay

A regular full-time employee, upon written application and recommendation of the Department Director, may be granted a leave of absence in compliance with the Family Medical Leave Act as stated in this handbook, or

for the purpose of furthering the employee's education that will benefit the City of Laurel. Service credit shall not be granted for the unpaid leave of absence. Fringe benefits shall not accrue if such leave extends beyond one month.

Sec. 7-8. Death in Immediate Family

Regular full-time employees shall be granted up to three (3) working days off for a death in the employee's immediate family to grieve and attend the funeral of the deceased. This is in addition to vacation leave the employee may request to utilize. The three (3) days shall be the day before, the day of, and the day after the funeral at the discretion of the department head or immediate supervisor.

Sec. 7-9. Maternity Leave

Women affected by pregnancy, childbirth, or related medical conditions will be treated the same for all employment-related purposes including receipt of benefits under fringe benefit programs.

Sec. 7-10. Retirement

The City of Laurel, through the Public Employees' Retirement System of the State of Mississippi and the Board of Disability and Relief of the Fire and Police Department, offers its employees a retirement plan. Information and forms may be obtained from the Personnel Department.

Sec. 7-11. Group Insurance Program

The City may offer a group health and life insurance program. Information covering the benefits offered by this plan may be obtained in the City's personnel office. The City's Personnel Director will serve as chair of the insurance committee and act as liaison between the City and the insurance company. Coverage is offered to employees working 32 or more hours per week.

Sec. 7-12. Continuing or Converting Your Group Health Insurance Coverage

If you resign or are terminated from the City or if your work hours are reduced, and if this event makes you or your dependents no longer eligible to participate in one of our group health insurance plans, you and your eligible dependents may have the right to continue to participate for up to eighteen (18) months at your (or your dependents') expense. If you are determined to be disabled under the Social Security Act at the time your termination or reduction in hours occurs, you may be entitled to continuation coverage for up to twenty-nine (29) months.

Your eligible dependents may also extend coverage, at their expense, for up to thirty-six (36) months in our group health insurance plans in the event of your death, divorce, legal separation, or enrollment for Medicare benefits, or when a child ceases to be eligible for coverage as a dependent under the terms of the plan. The eighteen-month (18) continuation coverage period provided in the event of your termination or reduction in working hours may be extended to thirty-six (36) months for your spouse and dependent children if, within that eighteen (18) month period, you die or become divorced or legally separated, or if a child ceases to have

dependent status. In addition, if you enroll in Medicare during the eighteen (18) month period, your spouse and dependent children may be entitled to extend their continuation period to thirty-six (36) months, starting on the date that you become eligible for Medicare.

If you or your eligible dependents elect to continue as members of the city's plan, you will be charged the applicable premium charged the City by our carriers plus an additional two percent (2%). Employees with disabilities, however, will be charged an additional one (1) percent of the applicable premium during the nineteenth (19th) through the twenty-ninth (29th) months of continuation coverage, premium is subject to change if the rates being charged the City increase or decrease.

Continuation coverage may end, however, if any of the following events occur: (1) failure to make timely payments of all premiums; (2) assumption of coverage under another group health plan, which does not exclude or limit coverage provided to you on account of a preexisting medical condition; or (3) the City's termination of its group health plans. If you enroll for Medicare, you will no longer be eligible for continued coverage, but, as noted earlier in this section, your spouse and dependent children may be entitled to extend their continuation coverage.

You will be contacted concerning these options at the time your employment terminates or your work hours are reduced. However, in the event that you become divorced or legally separated, or one of your dependents ceases to be eligible for coverage under our group health insurance plans, you and/or your dependents are responsible for contacting the Personnel Department and the plan administrator to discuss continuation/conversion rights. You and your qualified beneficiaries are also responsible for notifying the Personnel Department within sixty (60) days of qualifying for social security disability benefits. For further details regarding continuing or converting your group health insurance benefits, please contact the Personnel Department.

Sec. 7-13. Holidays With Pay

- (1) The following shall constitute the official legal holidays that will be observed by closing of the City Hall and other City offices with the exception of the Fire and Police Departments:
 - A. New Year's Day - January 1st
 - B. Martin Luther King/Robert E. Lee Birthday - 3rd Monday of January
 - C. Good Friday
 - D. National Memorial Day - Last Monday in May
 - E. Independence Day - 4th Day of July
 - F. Labor Day - 1st Monday of September
 - G. Veteran's Day - 11th Day of November
 - H. Thanksgiving Day - the day fixed by a proclamation of the President of the United States
 - I. Day After Thanksgiving
 - J. Christmas Eve
 - K. Christmas Day - 25th Day of December

L. Any day which shall be hereafter appointed by the City Council to be a holiday.

- (2) It shall be the policy of the City to ensure that all regular full time and probationary employees enjoy the same number of holidays in a particular year which will be celebrated by employees working a 40-hour work week Monday through Friday. For this group when a holiday falls on Saturday or Sunday, the following Monday shall be observed as the holiday. When Christmas Day falls on Sunday, City employees shall have Friday off for Christmas Eve and Monday off for Christmas Day.

Sec. 7-14. Holidays on Scheduled and Unscheduled Work Days

- (1) Employees who are required to work by their Department Director on an observed holiday shall be compensated, in addition to actual hours worked, for eight hours at their regular rate of pay (“Holiday Pay”) within the pay period in which the holiday occurs. The employee has the option of taking this Holiday Pay in cash or as an additional vacation day. If Holiday Pay is taken as a vacation day, this additional time must be taken within the standard time for computing vacation days. If Holiday Pay is not taken before the end of the year, then the special vacation day(s) shall be paid to the employee.
- (2) Employees not scheduled to work on an observed holiday shall be compensated for eight hours at their regular rate of pay within the pay period in which the holiday occurs.

Sec. 7-15. Eligibility for Holiday Pay

In order to receive Holiday Pay for an observed holiday, an employee must work a full day before, on, or after the holiday, except when the leave is pre-approved by the appropriate supervisor, or when the employee is on military leave. If the employee is on military leave the day before, on, or after the holiday, the employee will be paid for the holiday. Employees who call in sick during the workday/scheduled shift before, on, or after the holiday will not be paid holiday pay.

CHAPTER 8

EMPLOYEE COMPENSATION

Sec. 8-1. Salary Administration Programs

To attract and retain above-average employees, the City endeavors to pay salaries competitive with those paid by other municipalities. In line with this objective, each position at the City has been studied and assigned a salary grade. Each grade has been assigned a corresponding salary range. Periodically, the City may revise its job descriptions, evaluate individual jobs to ensure that they are rated and paid appropriately, and review job specifications to ensure that they are directly job-related. Your total compensation at the City consists not only of the salary you are paid but also of the various benefits you are offered, such as group health and life insurance and your retirement plan, as described in this handbook. Questions regarding our salary administration program or your individual salary should be directed to your supervisor or the City’s personnel

department.

Sec. 8-1(A). Regular Pay Procedures

All employees of the City will be paid on a bi-weekly basis with the paychecks being presented to employees on the fifth business day after the completion of a fourteen-day work period. If a scheduled payday falls on a City-observed holiday, the checks will be presented on the last business day before the holiday. All required deductions, such as federal taxes, state taxes, retirement, and authorized voluntary deductions, will be withheld automatically from the paycheck. Please review your paycheck. If you need clarification on a paycheck, make a request for review to your immediate supervisor immediately. Your supervisor will take the appropriate steps to inform you regarding your pay and initiate any required corrective measures with Human Resources. The City of Laurel will abide by the federal, state, or local wage and hour laws and any other federal, state, or local law affecting an employee's compensation. Any eligible employee who is called out (outside of normal working hours) shall receive a minimum of two hours overtime pay after 40 physical hours are worked with exception to Fire and Police Departments. (Emergency call outs will be considered individually for overtime purposes.)

Sec. 8-1(B). Overtime Pay

The following stipulations shall cover the granting of overtime pay:

- (1) No payment of any sort shall be made for overtime work that has not been assigned by the employee's immediate supervisor, subsequently certified in writing as necessary by the Mayor and/or Department Director.
- (2) Overtime pay shall be paid for overtime work done under the following circumstances, and at the rates indicated:
 - (A) Any eligible employee who performs work that is part of his base job, in excess of the normal 40 hour work week which is applicable to his individual base job, shall receive overtime pay at a rate equal to one and one-half times his regular individual base rate of pay. No overtime will be paid for time worked after holiday, vacation, illness, or compensatory time off until more than 40 hours are physically worked in any work week.
 - (B) The employee's Department Director shall keep a record of overtime and must approve overtime worked as provided above in paragraph 8-1(B)(1).
- (3) If any of this policy on overtime conflicts with Federal court decisions or any Federal labor laws on the subject, then those decisions or laws shall supersede these rules.

Sec. 8-1(C). Special Provision Regarding Training Pay for Firefighters

Pursuant to the Order adopted by the City Council on May 21, 2019, employees who are working in the City's Fire Department shall be compensated in amount equal to 12 hours for each day of training that those

employees undergo at the Mississippi State Fire Academy. A copy of the May 21, 2019 Order shall remain on file in the Personnel Department.

Sec. 8-1(D). Rest and Meal Breaks

While Mississippi does not require employers to give meal breaks, rest breaks or both to its employees, the City of Laurel chooses to provide one meal break and one rest break during each consecutive four (4) hour period of an eight (8) hour work day. Each department head has the responsibility for determining when and for what duration meals and rest breaks may be taken, so as not to disrupt the operation of the department. Lunch breaks should be thirty (30) minutes or sixty (60) minutes depending on the department. Rest breaks should be no more than ten (10) minutes. Ten (10) minute rest breaks are to be taken on premises and not off city property, with the permission of the employee's supervisor and cannot be added to a thirty (30) minute or sixty (60) minute lunch break.

Sec. 8-1(E). Expense Reimbursement

An employee will be reimbursed for pre-approved expenses incurred in completing his/her work-related assignment in accord with the policies established by the City. Each employee is responsible for providing verified receipts for any expense for which reimbursement is requested.

CHAPTER 9

EMPLOYEE APPEARANCE

Sec. 9-1(A). Uniforms

The City will participate in uniform cost for all employees except administrative and clerical. Uniforms for City employees are for the purpose of identification in the performance of their jobs. Uniforms are to be issued as soon as possible after an employee successfully completes his/her probationary period. The complete uniform provided to the employee must be worn on the job. Complete uniforms must be turned in at the time of the employee's termination to his supervisor prior to the employee receiving his final pay check, or the employee will be charged for each uniform or missing part thereof.

Sec. 9-1(B). Personal Appearance and Demeanor

Discretion in style of dress and behavior is essential to the efficient operation of the City. Employees are, therefore, required to dress in appropriate business attire and to behave in a professional, businesslike manner. Please use good judgment in your choice of work clothes and remember to conduct yourself at all times in a way that best represents you and the City.

Sec. 9-1(C). Work Area

Employees are also required to keep their work environment clean and orderly. Before departing at the end of

their workday, employees should lock all files and cabinets and clear all work materials from his desk, especially materials of a sensitive or confidential nature. Employees failing to adhere to proper City standards with respect to appearance and demeanor are subject to disciplinary action, up to and including termination.

CHAPTER 10

TELEPHONE USE, POSTAGE METER, FAX MACHINE

Sec. 10-1. Any change in the telephone service of the City involving additions, alterations or adjustments must be approved by the Mayor.

- (A) The City's Postage Meter and Fax Machine is prohibited for personal use.
- (B) Telephone usage for personal calls is restricted to local calls only.
- (C) When answering the telephone for the City, identify the "City of Laurel," the "department reached", and state "how may I help you". Always be courteous. If you have to place a person on hold, ask "will you hold for just a moment please" then go back to the phone right away. If information will have to be searched for, ask them if you can call them back in a few minutes to keep them from holding too long.
- (D) All changes or additions of telephone numbers within the City Departments must be given to the IT Department to maintain an updated listing of City numbers and departments.
- (E) The IT Department will be in charge of overseeing any changes that are made to the phone systems. This includes installation or removal of phones or lines to the current system.

Sec. 10-2. City Vehicle Use

Listed are the employees who are allowed to drive City vehicles on a twenty-four (24) hour basis:

Mayor, Chief Administrative Officer, Police Department and Fire Chief. Exceptions will be determined by the administration, with City Council's ratification.

When an employee is called out in an emergency, he will be paid the approved mileage rate to and from his residence. No vehicles are to be taken outside the City limits at any time, except for approved City business.

Sec. 10-3. City-owned Equipment

City employees have the responsibility to use assigned City-owned equipment in a safe and careful manner. Damage and/or loss of such equipment is not only costly to the City but also may impact job performance and efficiency when out-of-service.

In cases where City-owned equipment is lost, damaged, or destroyed as a result of willful acts or through negligence, the employee(s) at fault shall be required to pay the cost for repair or replacement. Such payment will be made directly to the City of Laurel through the City Clerk's office. Financial arrangements must be made by the employee.

Non-payment in a timely manner will be cause for termination of the employee(s) responsible for payment. Should an employee's employment with the City terminate prior to the employee completing the incurred obligation, further legal actions may be taken against the employee or his estate by the City.

Payment of debt does not release an employee of other penalties as defined in the Personnel Rules and Regulations.

CHAPTER 11

SOCIAL MEDIA POLICY

Sec. 11-1. This Social Media Use Policy (the "Policy") is intended to provide employees with guidelines for appropriate online activity. Although this Policy cannot address every instance of inappropriate social media use, it is intended to offer guidelines to employees, thereby helping employees avoid potentially costly missteps online. The nature of the Internet is such that what you "say" online will be captured forever and can be transmitted endlessly without your consent or knowledge. Employees should remember that any information that is shared online instantly becomes permanent and public.

Employees should be aware that, while certain types of speech may be subject to legal protection, the City may have the right to discipline an employee whose comments may disrupt the efficiency of the public services rendered by the City. Given the position in society public employees occupy, they may express individual or personal views that contravene governmental policies or impair the proper performance of governmental functions. Thus, a balance must be stricken when it comes to employee free speech issues by weighing the interests of the employee, as a citizen, in commenting upon matters of public concern, and the interests of the City, as an employer, in promoting the efficiency of public services it performs through its employees.

Sec. 11-2. Guidelines

Ultimately, you are solely responsible for what you post online. Before creating online content, consider some of the risks and rewards that are involved. Keep in mind that any of your conduct that adversely affects your job performance, the performance of fellow associates, or otherwise adversely affects legitimate business interests of the City may result in disciplinary action, up to and including termination.

Sec. 11-3. Scope

This Policy applies to all employees' use of the Internet, including participation in and use of social media, regardless of whether such use occurs in the workplace and regardless of whether such use involves the City's electronic equipment or other property. Refrain from using social media while on work time or on equipment provided by the City, unless it is work-related as authorized by your supervisor or consistent with the City's other written policies. Do not use your work email address to register on social networks, blogs or other online tools utilized for personal use.

Sec. 11-4. “Social Media” Defined

The rapid speed at which technology continuously evolves makes it difficult, if not impossible, to identify all types of social media. By way of example, social media includes: (1) social-networking sites (i.e. Facebook, LinkedIn); (2) blogs and micro-blogs (i.e. Twitter, Blogger); (3) content-sharing sites (i.e. Scribd, Slide Share); and (4) image sharing sites (i.e. Flickr, YouTube). This list is for illustrative purposes only, however, all online activity is governed by this Policy.

Sec. 11-5. Application of Other Policies

All of the City’s employment policies apply to conduct that occurs online in the same way that they apply to conduct that occurs in the workplace. For example, employees’ online conduct must comply with the City’s Equal Employment Opportunity and Sexual Harassment policies and with the provisions in this handbook related to confidentiality and avoidance of conflicts of interest.

Sec. 11-6. Association With the Organization

Employees who identify themselves online as being associated with the City must comply with the rules set forth in this section.

Federal law requires that, when endorsing or promoting his or her employer, an employee must disclose his or her affiliation with (i.e., employment by) the City. Although the City appreciates the loyalty and enthusiasm of its employees, employees must disclose their employment if they endorse the City online. If you, the employee, should choose to disclose your affiliation or relationship with the City, for example in your online profile, you must use an appropriate disclaimer to make clear that you are speaking only on behalf of yourself and not on behalf of or as an agent of the City. An example of an appropriate disclaimer follows:

The opinions and viewpoints expressed are those of the author and do not necessarily represent the position or opinion of the City.

To ensure continuity of the City’s message, employees may not represent themselves to be speaking on behalf of the City unless expressly authorized to do so.

Sec. 11-7. Prohibited Conduct

Employees are prohibited from engaging in any of the following in their online activities and posts:

- Disparaging the City’s services, clients, executive leadership, employees, or strategy in a way so as to impede the employee’s performance of his job duties or otherwise interfere with the public services rendered by the City;
- Promoting or endorsing violence;
- Promoting illegal activity, including the use of illegal drugs;

- Directing any negative comment towards or about any individual or group based on race, religion, gender, disability, sexual orientation, national origin, citizenship, or other characteristics protected by law;
- Disclosing any confidential or proprietary information belonging to the City or obtained by the employee as a result of his/her employment with the City; and
- Posting, uploading, or sharing any recording or images (including audio, pictures, and videos), taken in the workplace or at any City-sponsored event without express advance authorization.

Sec. 11-8. Duty to Report

Employees have an ongoing duty to report any violations of this Policy by any other employees. The City considers the duty to report to be a critical component of its efforts to ensure the safety of its employees and to preserve the City’s reputation and goodwill in the community. Therefore, any employee who fails to report any conduct that reasonably appears to be in violation of this Policy may be subject to discipline for such failure.

Sec. 11-9. Media Contacts

Employees should not speak to the media on the City’s behalf. All media inquiries should be directed to the Mayor’s Office.

Sec. 11-10. Questions About This Policy

Social media changes rapidly and there will likely be events or issues that are not addressed in this Policy. If, at any time, you are uncertain about the application of this Policy or if a question relating to the appropriate use of social media arises that is not fully addressed by this Policy, you should seek the guidance of the appropriate person *before* posting or otherwise engaging online. When in doubt, employees should always ask for guidance first because, once the information is online, it can never be deleted.

CHAPTER 12

GIFTS

Sec. 12-1. Any public employee who receives any gifts from a private citizen or business firm is subject to criticism. This is particularly true if the citizen or business firm is one with which the employee must deal in his official capacity as an employee of the City of Laurel. In order to eliminate criticism and misunderstanding, the following rules shall constitute the official policy of the City with regard to the acceptance of gifts by City employees:

- (1) No gifts shall be received if a favor or consideration is either expressed or implied by the giver.
- (2) No money shall be accepted under any circumstances.
- (3) City employees may accept, on rare occasions, any gift which they could consume (eat or drink)

- in one day, or which has a retail value of fifteen dollars or less.
- (4) City employees may accept any inexpensive item which is mass produced and would normally be given to the general public, such as imprinted pencils, pens, calendars, or other novelty items.

Sec. 12-2. Failure to comply with this policy shall constitute a major violation of the City's rules, and those found to have not complied with this policy shall be subject to discipline, up to and including termination.

Sec. 12-3. Any vendor of the City determined by the Mayor to have given employees gifts or special considerations in the attempt to win preferential treatment in the awarding of city contracts or other business shall be barred from doing business with the City of Laurel for a period of not less than one (1) year and not more than five (5) years from the date of the Mayor's determination.

CHAPTER 13

SAFETY

Sec. 13-1. The Administration is concerned for the safety and well-being of all employees. Accidents are costly in terms of human pain and suffering. They also are costly in terms of time lost by the injured employee, the cost of repairing or replacing damaged equipment, the cost of medical treatment, and the cost of paying personnel who must investigate accidents and keep records.

Sec. 13-2. The Individual employee should be concerned for his own safety, for that of fellow employees and the public. No one can take care of you if you will not take care of yourself.

Sec. 13-3. Employees shall report hazardous conditions in the work place to their supervisor. Supervisors must take steps to correct safety problems and submit a written report outlining the steps taken to correct the problem to their Department Director and a copy must be forwarded to the Safety Officer.

Sec. 13-4. All employees will be required to read, comprehend and follow the guidelines set forth in the Injury and Illness Prevention manual.

Sec. 13-5. When engaged in hazardous work, every employee is required to follow appropriate safety practices. Employees are required to wear the protective gear that has been issued to them, even though it may make the employee uncomfortable or clumsy. The foreman is required to ensure that his personnel have and use the appropriate safety equipment. If the protective gear issued to an employee inhibits the employee's ability to safely perform his job duties and responsibilities, the employee should contact his Department Director.

Sec. 13-6. Safety awareness includes taking care of all tools, equipment, and vehicles. Vehicle operators must have a valid driver's license in their possession. Driver's licenses may be checked at random by the Administration. Operators and passengers of safety belt equipped City-owned vehicles are required to use such equipment, unless such operators or passengers belong to a class of persons exempted for medical, physical or occupational reasons. Vehicles must be kept clean at all times. Vehicle operators, before beginning daily

duties, must check to see that the vehicle has been properly serviced and that equipment such as foot and emergency brakes, horn, windshield wipers, lights and turn signals are operating properly and in good working order.

Sec. 13-7. Employees found responsible for abuse or neglect of tools, equipment, vehicles or other type of City property and in violation of safety practices will be disciplined in accordance with Sec. 16-2(E).

Sec. 13-8. What to Do If You Have an Accident on the Job

- (1) Report immediately to your supervisor who will see that you get first aid or other medical attention. Any injury, no matter how small it may seem, must be reported to the supervisor immediately. The proper injury forms must be turned in to the Safety Officer within 48 hours of the accident even if a physician was not seen.
- (2) Be sure that an Accident Report is completed and that you sign it. The Accident Report will prove that your injury happened on the job, and will be paid per policy rules and regulations. At the doctor's office or the hospital, report and identify the City of Laurel's Workers Compensation as the liable party for payment and advise the doctor's office or hospital that they can contact the Personnel Department to verify your employment.
- (3) You will be referred to a City-designated physician. If you think your best interest has been prejudiced by the findings of the City-designated physician, you have the privilege of a medical examination by a physician of your own choosing at the City's expense; however, notification must be given to the Safety Officer in advance of this medical examination. An employee who consults a second physician without prior approval will be personally responsible for any medical expenses thus incurred.
- (4) A disabled employee is expected to return to work immediately upon obtaining a medical release. Foremen are encouraged to find light duties for an injured employee who is able to work but is not yet physically able to perform his normal duties.
- (5) An employee who fails to return to work by the date specified on the physician's statement or who fails to present a required doctor's certificate of continued disability, will be deemed to have voluntarily resigned from employment with the City and the City will be released from any other obligation.
- (6) Disability cases will be reviewed every thirty (30) days by the Safety Officer, the affected Department Director and a designee of the Mayor.

CHAPTER 14

MUNICIPAL WORKERS' COMPENSATION POLICY

Sec. 14-1. Policy Coverage: This policy is to cover any municipal employee who is injured while performing municipal duties.

Sec. 14-2. General Provisions: The City will perform the guidelines set forth in the Mississippi Workers' Compensation Law, and judicial interpretations.

Sec. 14-3. Policy regarding Drug/Alcohol Testing Related to Workman's Compensation Claims: In the event that an employee sustains an injury at work or asserts a work-related injury, the City shall have the right to administer drug and alcohol testing or require that the employee submit himself to drug and alcohol testing. If the employee has a positive test indicating the presence, at the time of injury, of a drug illegally used or the use of a valid prescription medication(s) taken contrary to the prescriber's instructions and/or contrary to label warnings, or eight one-hundredths percent (.08%) or more by weight volume of alcohol in the person's blood, it shall be presumed that the proximate cause of the injury was the use of a drug illegally, or the use of a valid prescription medication(s) taken contrary to the prescriber's instructions and/or contrary to label warnings, or intoxication due to the use of alcohol by the employee. If the employee refuses to submit himself to drug and alcohol testing immediately after the alleged work related injury, then it shall be presumed that the employee was using a drug illegally, or was using a valid prescription medication(s) contrary to label warnings, or was intoxicated due to the use of alcohol at the time of the accident and that the proximate cause of the injury was the use of a drug illegally, or the use of a valid prescription medication(s) taken contrary to the prescriber's instructions and/or contrary to label warnings, or intoxication due to the use of alcohol by the employee. The burden of proof will be placed upon the employee to prove that the use of drugs illegally or the use of a valid prescription medication(s) taken contrary to the prescriber's instructions and/or contrary to label warnings or intoxication due to the use of alcohol was not a contributing cause of the accident in order to defeat the defense of the employer provided under Section 71-3-7.

Based on the City's Drug-Free Workplace policy, disciplinary action would be taken upon an employee having a positive drug and/or alcohol test conducted pursuant to this policy and would also include the employee's having a positive drug and/or alcohol test conducted pursuant to this policy and would also include consideration of the following circumstances regarding the employee:

- (1) If the employee is authorized to carry a firearm in the course and scope of his/her employment;
- (2) If the employee is involved in the interdiction of illegal drugs and paraphernalia;
- (3) If the employee is a firefighter;
- (4) If the employee is covered by the DOT drug and alcohol regulations applicable to gas and hazardous chemical pipelines;
- (5) If the employee is covered by the DOT drug and alcohol regulations applicable to drivers of vehicles with gross weights of 26,001 pounds or more;
- (6) If there was reasonable suspicion of drug and/or alcohol.

Sec. 14-4. Administration of Benefits: The Safety Coordinator shall enforce this drug policy and administer benefits related to Workers' Compensation claims.

Sec. 14-5. Interpretation of Policy: Any disputes, or questions involving the interpretation of this Policy that cannot be resolved by the Administration shall be decided by the City Council.

CHAPTER 15

GRIEVANCE PROCEDURE

Sec. 15-1. In order to maintain harmony and to assure employees fair treatment under the personnel rules and regulations adopted by the City Council, the following grievance procedure is approved, except where Civil Service Rules are in conflict.

Sec. 15-2. Employees' grievances concerning wages, hours of work and other working conditions as specified in the personnel rules and regulations may be heard and resolved in the following manner:

(1) The aggrieved employee shall discuss his grievance with his Supervisor. The Supervisor shall attempt to resolve the matter. If the aggrieved employee is not satisfied with the Supervisor's answer or the Supervisor does not answer the employee, the employee shall arrange a private meeting with his department head to try to resolve the problem. If the problem is not resolved (no agreement reached or an unsatisfactory answer is provided), the aggrieved employee shall file his grievance with the Personnel Director in writing, on forms furnished by the Personnel Department.

(2) The written grievance shall be presented to and discussed with the Personnel Director. The Personnel Director shall investigate the grievance and attempt to resolve the matter expeditiously and must advise of any delay. The Personnel Director shall give the employee an answer in writing and retain a file copy. If the aggrieved employee is not satisfied with the Personnel Director's answer or the Personnel Director does not answer the employee, the employee may file a copy of the grievance with the Mayor.

(3) A grievance committee shall be composed of the Mayor or his/her designee, the Council Personnel Committee Chairperson, a Department Director and one additional person from the Administration. The aggrieved employee shall be notified of when and where to meet by the committee chairman (Mayor); all meetings will be informal in nature. The aggrieved employee shall be paid for the time lost attending the meeting with the Mayor, if it is held during working hours. The grievance committee chairman shall as expeditiously as possible, give the employee an answer in writing and shall file a copy with the Personnel Director.

Sec. 15-3. Failure to follow grievance procedure, may be cause to set aside the particular grievance. All grievance complaints must be filed within 10 working days following grievance.

Sec. 15-4. Discrimination or retaliation against employees who file a grievance shall not be tolerated and shall be a violation of the personnel rules of the City. The person or persons responsible for such discrimination or retaliation shall be subject to disciplinary action, up to and including termination.

Sec. 15-5. Supervisory personnel shall apply previously documented decisions in favor of employees to all similar situations to eliminate the filing of grievances.

Sec. 15-6. All correspondence required by the above procedure shall be placed in the aggrieved employee's personnel file.

CHAPTER 16

RULES OF CONDUCT

Sec. 16-1. DISCIPLINE, CORRECTIVE ACTION AND SEPARATION OF EMPLOYMENT

This policy provides that no employee of any department under the City of Laurel, Mississippi who is subject to the rules and regulations prescribed by the City Council and Mayor may be dismissed or have adverse action affecting their compensation or employment status except for inefficiency or other good cause, and after written notice and opportunity to be heard within the department as provided in the City's rules and regulations. This provision does not apply to persons separated from employment due to: a curtailment of funds, a reduction in staff, a dismissal during initial probationary period, status as an executive officer or any department who serves at the will and pleasure of the Mayor.

Adverse action against an employee or separation of employment may occur because the conduct of the employee is an offense as provided in the schedule of offenses listed below or because there is a legal non-conduct basis which meets the requirement of good cause.

Disciplinary action shall be applied in steps of increasing severity whenever practical in order to stimulate a change in the behavior that activated the disciplinary process. The appointing authority or designated representative shall exercise corrective action when an employee violates established rules of conduct or performs below minimal standards as prescribed herein. This policy is to:

- A. Establish and adhere to fair and objective procedures for correcting or treating unacceptable conduct and performance in accordance with the guidelines herein;
- B. Distinguish between less serious and more serious actions of misconduct and provide disciplinary actions accordingly; and
- C. Prescribe disciplinary action for employee conduct occurring when employees are at work or when otherwise representing the City in an official or work-related capacity, unless otherwise provided for in this chapter.

SCHEDULE OF OFFENSES AND AUTHORIZED DISCIPLINARY ACTION.

The appointing authority or designated representative shall administer discipline in an equitable and consistent manner. The schedule of offenses and disciplinary actions shall be adhered to in administering discipline to all employees subject to these policies, rules and regulations. The appointing authority may add to this schedule of offenses and disciplinary action to reflect the particular mission and work environment of the department. For employees covered by Civil Service, said schedule of offenses and disciplinary action are in addition to and subject to Civil Services Rules and Regulations.

A. Group One Offenses

Generally, these offenses are less severe and may be disciplined by written reprimand after a verbal warning. The accumulation of three (3) Group One written reprimands within a four (4) month period may result in suspension without pay for not less than two (2) work days, no more than one (1) workweek. Four (4) Group One written reprimands within a six (6) month period may result in suspension, demotion, or dismissal.

Group One includes, but is not limited to, the following offenses:

1. Unexcused tardiness;
2. Abuse of City time such as unauthorized time away from work area or failure to notify supervisor promptly upon completion of assigned work;
3. Use of obscene or abusive language;
4. Conviction of a moving traffic violation while operating a City vehicle;
5. Lack of due diligence in daily work assignments;
6. Failure to wear prescribed safety equipment.

B. Group Two Offenses

Acts and behaviors in this group are generally more severe than Group One offenses. Group Two offenses may be disciplined by written reprimand and/or suspension without pay for not less than three (3) days nor more than one (1) workweek. Two (2) Group Two reprimands within a one (1) year period may result in demotion or dismissal. Accumulation of one (1) written reprimand for Group Two offense and three (3) written reprimands for Group One offenses within a one (1) year period may result in demotion or dismissal.

Group Two includes, but is not limited to, the following offenses:

1. Insubordination, including, but not limited to, resisting supervisory directives through actions and/or verbal exchange, and/or failure or refusal to follow supervisor's instruction, perform assigned work, or otherwise comply with applicable established policy;
2. Violation of safety rules in the absence of a threat to human life or safety;
3. Unauthorized absence or leave without justifiable and reasonable excuse for such absence;
4. Failure to report to work without giving proper notice to supervisor;
5. Leaving the work site without permission during work hours in the absence of threat of life;
6. Unauthorized use or misuse of City property or records;
7. Engaging in gambling, lottery or other games of chance on City property or on City time.

C. Group Three Offenses

Acts and behavior in this group are of the most serious nature. Commission of one (1) Group Three offense may be disciplined by a written reprimand and/or may result in suspension without pay for not less than (1) nor more than six (6) workweeks (in increments of workweeks), demotion, or dismissal.

Group Three includes, but is not limited to, the following offenses:

1. Unauthorized absence or leave in excess of three (3) consecutive working days without proper notification and satisfactory explanation to the supervisor or the appointing authority in a timely manner;
2. Use of alcohol or the unlawful manufacture, distribution, dispensing, possession or use of controlled substances while on the job or on the employer's premises, or conviction of a crime involving the same;
3. Reporting to work under the influence of, or when ability is impaired by, alcohol or the unlawful use of controlled substances;
4. Falsification of records, such as, but not limited to, vouchers, reports, time records, leave records, employment applications, or other official City documents;
5. Willful or negligent defacement of or damage or injury to the records or property of the City, another employee or business invitee of the City;
6. Acts of physical violence or fighting;
7. Violation of safety rules when there exists no threat to human life or safety;
8. Unauthorized possession or use of firearms, dangerous weapons or explosives;
9. Threatening or coercing employees, supervisors, or business invitees of the City, including stalking;
10. Criminal conviction for a felony or misdemeanor while employed;
11. A plea or verdict of guilty, or a conviction following a plea of nolo contendere, to a charge of a felony or a misdemeanor is deemed to be a conviction within the meaning of this offense;
12. An act or acts of conduct occurring on or off the job which are of such nature that to continue the employee in the assigned position could constitute negligence in regard to the City's duties to the public or to other employees;
13. Engaging in prohibited political activity;
14. Leaving the work site without permission where there exists no threat to life or human safety;
15. Theft on the job;
16. A breach of agency security or confidentiality;
17. Willful violation of City policies, rules and regulations;
18. Finding of harassment and/or sexual harassment of any other person while engaged in work-related activity (See Sec. 2-1);
19. Failure of Drug Testing (See 9-1 C);
20. Operation of a City-owned vehicle without a valid Mississippi driver's license or a valid driver's licenses from another state.

FORMS OF DISCIPLINE

The appointing authority or designated representative shall take action to formally discipline an employee who has committed an offense. Written notice of intent to take any action adversely affecting compensation or employment status and the reasons for such action shall be given to the employee prior to the effective date of the intended action. Where circumstances warrant, an employee may be disciplined without prior notice. In such a situation, written notice shall follow within 48 hours of said action.

The appointing authority or a designated representative may attempt to correct unacceptable behavior with a verbal warning and/or counseling and/or other appropriate informal means, whenever practical, prior to taking formal action against an employee.

Documentation of Corrective and Disciplinary Actions.

- A. When the appointing authority or designated representative has taken corrective action preliminary to a formal disciplinary action, a written account of such action may be placed in the employee's personnel file. Formal disciplinary actions include written reprimand, suspension, demotion and dismissal.
- B. When an employee has been reprimanded, a copy of the reprimand shall be placed in his or her personnel file. All reprimands must be in writing.
- C. Documentation of corrective actions, disciplinary measures, and written reprimands may be kept indefinitely in the employee's personnel file for the purpose of showing a pattern of employee conduct.
- D. Before any reprimand or other adverse comment is placed in an employee's personnel file, the employee shall be given:
 - 1. An opportunity to review copy of the material to be placed in his or her file; and
 - 2. Written notice that the material will be placed in his or her personnel file.

The appointing authority shall keep a copy of the notice, which shall contain either the employee's acknowledgement that he or she has reviewed the material and the notice, or a statement signed by the person who delivered the material and the notice that the employee refused to sign such an acknowledgement.

Suspension

The appointing authority may suspend an employee without pay or other compensation as punishment for disciplinary cause. Such suspension shall not be less than two (2) work days and, generally, no more than six (6) workweeks (in increments of workweeks) during any twelve (12) month period. The twelve (12) month period shall begin with the first day of the suspension.

In extraordinary circumstances, the appointing authority may immediately suspend an employee with pay. Such employee must be given an opportunity for a hearing with the appointing authority or designated representative within twenty (20) working days of the suspension, at which time the appointing authority may make a final decision. Further, where the employee has been charged with a felony, the appointing authority may suspend an employee without pay pending a post suspension hearing to be held within twenty (20) working days from the first day of suspension. Said suspension may exceed the general limitation of six (6) workweeks if the circumstances warrant. The appointing authority may reassign an employee arrested for a felony to a different position without decreasing compensation, while awaiting the Grand Jury decision on the case. Continued suspension or reassignment does not reflect any assumption of guilt or innocence of the employee, but merely protects the interests of Public Safety.

Demotion

A Civil Service status employee may be demoted from a position in one class to a position in a lower class having a lower salary range and having less discretion or responsibility only for cause. The salary will be certified in accordance with policies and rules regarding demotion.

Dismissal

A City employee may be dismissed or his/her employment terminated voluntarily or involuntarily. Voluntary severance of employment occurs when a City employee submits his/her resignation of employment. An involuntary severance of employment can occur based upon a Reduction in Force (RIF), disciplinary action, failure of the employee to continue to meet the eligibility criteria for the position held or an inability to perform the essential functions of the job.

The appointing authority may dismiss a permanent status employee only for good cause. A probationary employee may be dismissed any time during the probationary period.

DUE PROCESS

- A. Prior to any suspension without pay, demotion, or dismissal of a permanent City employee, the employee shall be given written notice of the reason(s) for such action and shall be given an opportunity for a conference with the appointing authority or designated representative and to respond in writing.
- B. The written notice presented to an employee before a conference shall list all of the reason(s) for the appointing authority's consideration of the adverse action. The reason(s) listed in these notices shall be specific by setting forth the particular group offense(s) violated and the charge(s) or ground(s) upon which the disciplinary action is predicated. The reason(s) listed in these notices shall be the only reason(s) to be addressed throughout the process.
- C. In extraordinary circumstances an employee may be suspended immediately with pay. Such employee must be given an opportunity for a hearing with the appointing authority or designated representative within twenty (20) working days of the suspension, at which time, the appointing authority may make a final decision. Further, whether the employee has been charged with a felony, the appointing authority may suspend an employee without pay pending a post suspension hearing to be held within twenty (20) working days from the first day of suspension. Extraordinary circumstances means a situation in which, based on the judgment of the appointing authority, retention of an employee would result in damage to City property, would be detrimental to the interest of the City or would result in injury to the employee, to a fellow employee, or to the general public.
- D. If the employee waives a hearing, the appointing authority or designated representative may make a final decision after the waiver. The waiver of the hearing shall be determined by an employee's written statement of waiver or by the employee's failure to respond in writing or appear at the conference with the appointing authority or designated representative by a pre-established date and time.

Sec. 16-2. Smoking

To maintain a safe and comfortable working environment and to ensure compliance with applicable laws, smoking in City owned and operated offices, facilities and vehicles is strictly prohibited. Employees smoking in any nonsmoking area may be subject to disciplinary action, up to and including termination. Please contact the Safety Officer if you have any questions about the City's smoking policy. Complaints about violations of this policy may be filed under the City's complaint resolution procedure, which is described elsewhere in this handbook.

Sec. 16-3. Drug-free Workplace

It is the policy of the City to create a drug and alcohol-free workplace in keeping with the spirit and intent of the Drug-and-Alcohol-Free Workplace Ordinance established by the Laurel City Council July 7, 1992. The use of controlled substances is inconsistent with the behavior expected of employees, subjects all employees and visitors to our facilities to unacceptable safety risks, and undermines the City's ability to operate effectively and efficiently. In this connection, the unlawful manufacture, distribution, dispensation, possession, sale, or use of a controlled substance in the workplace or while engaged in City business off the City's premises is strictly prohibited. Such conduct is also prohibited during non-working time to the extent that in the opinion of the City, it impairs an employee's ability to perform on the job or threatens the reputation or integrity of the City. Applicants for employment must submit to an initial pre-employment drug screen. If an employee resigns his employment within the first 90 days, without just cause, the cost of the drug screen will be deducted from his final wages. Periodically, employees will be required to submit to random drug screens as required in the City's established drug policy. At its discretion, reasonable suspicion tests will be required of any employee who is suspected to be under the influence of alcohol or drugs.

CHAPTER 17

MISCELLANEOUS RULES

Sec. 17-1. Any emergency, temporary, probationary, or seasonal employee shall immediately be separated from employment with the City as a result of their committing an infraction under these rules, without protection of the grievance procedure provided in this handbook.
